FTI Consulting, Inc. ## Edgar Filing: FTI CONSULTING INC - Form 8-K

Separately, FTI approved the establishment of a share repurchase program under which FTI may purchase, from time to time, up to \$50 million in value of its common shares over the next 12 months. A copy of the asset purchase agreement is attached hereto as Exhibit 2.1 and the full text of FTI's press release issued on October 22, 2003 relating to the acquisition and the establishment of the share repurchase program is attached hereto as Exhibit 99.1 to this Current Report on Form 8-K and incorporated herein by reference in its entirety.

### ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On October 22, 2003, FTI issued a press release that announces financial information for the third quarter ended September 30, 2003. A copy of the press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference in its entirety.

The press release filed herewith as Exhibit 99.1 presents earnings before interest, taxes, depreciation and amortization -- EBITDA -- a non-GAAP financial measure. A non-GAAP financial measure is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts (or is subject to adjustments that have the effect of excluding amounts) that are included in the most directly comparable GAAP line items presented in the issuer's financial statements. In this regard, GAAP refers to U.S. generally accepted accounting principles. Pursuant to the requirements of SEC Regulation G, FTI has included a reconciliation in the earnings release portion of the press release filed herewith as Exhibit 99.1 of the non-GAAP financial measure to what, in the view of management, is the most directly comparable U.S. GAAP financial measure.

The aforementioned presentation of EBITDA should be considered in addition to, but not as a substitute for, the GAAP measures contained in the Condensed Consolidated Statement of Income of FTI included in the press release. Management of FTI believes that these measures and the information they provide are useful to investors because they permit investors to view FTI's performance on the same basis used by management and are often used by research analysts in
