Press Release, 4th Quarter Earnings 2001

FROM: Simon R.C. Wadsworth, CFO  
SUBJECT: Fourth Quarter and 2001 Earnings Meet Expectations  
DATE: February 14, 2002

- o Fourth quarter FFO of \$0.70 per share; in line with forecast
- o Leasing activity slows during fourth quarter; improvement in 2002 expected
- o Balance sheet strengthening; positioning for growth through acquisitions

Memphis, TN. Mid-America Apartment Communities, Inc. (NYSE: MAA) announced today Funds From Operations ("FFO") for the fourth quarter ended December 31, 2001 were \$14.4 million, \$0.70 per share. For the full year 2001 FFO was reported to be \$57.2 million, \$2.80 per share. These results are in line with earnings estimates.

Net income before extraordinary items for the fourth quarter was 14 cents per common share, an increase from 12 cents per common share for the comparable prior year period. For the full year 2001 net income before extraordinary items was 78 cents per common share versus 79 cents per common share for all of 2000. After extraordinary items, the Company reported net income of 12 cents per common share for the quarter and 72 cents per common share for the full year 2001.

## Edgar Filing: MID AMERICA APARTMENT COMMUNITIES INC - Form 8-K/A

Eric Bolton, President and CEO said, "We anticipated a reduced level of leasing traffic and a resulting decline in occupancy during the fourth quarter. This traditionally slow leasing quarter was further pressured by a down economy, a resilient home buying environment and an over-supply of new construction in a few markets. Leasing concessions and vacancy loss caused revenue for our same store group of properties to fall by 0.7% during the fourth quarter, compared to the same period of the prior year. Our efforts to lower resident move-outs during this slower leasing period continued to show positive results. Unit turnover declined 0.4% during the fourth quarter."

"Our property management team continues to do an excellent job in limiting the growth of operating expenses. As a result of new internet-based operating programs and support systems, as well as a continuation of our utility cost management and billing initiatives, total operating expenses on a same store basis were flat (0% increase) as compared to the same period of the prior year. Our properties are in excellent physical condition and continue to capture numerous civic and industry awards. Recurring capital spending on our properties totaled \$11.6 million or \$375 per unit in 2001, down from \$12.7 million or \$410 per unit in 2000."

Simon Wadsworth, Executive Vice-President and CFO, stated, "In addition, with over \$200 million of our debt refinanced or renegotiated in 2001, we only have \$50 million of financing scheduled for 2002. At year end 2001 our average debt cost was 6.3%, down from 7.2% a year ago. Our Board voted to hold our dividend payout at its present level given the anticipated softness in property revenues headed into 2002."

Bolton added, "Our team of experienced multifamily real estate operators and high-quality properties continue to perform in a strong, steady and reasonably predictable fashion in this weak economy. Our development pipeline is fully funded and construction will be completed this quarter. Our capital has been prudently deployed; we have avoided the mistakes made in chasing hi-tech start up ventures and the accompanying large capital write-offs which accompanied many of these. Our balance sheet is strengthening and our dividend is secure."

MAA is a self-administered, self-managed apartment-only real estate investment trust which owns or has ownership interest in 33,459 apartment units including 77 units in the development pipeline throughout the southeast and southcentral U.S. For further details, please refer to our website at [www.maac.net](http://www.maac.net) or contact Simon R. C. Wadsworth at (901) 682-6668, ext. 105. 6584 Poplar Ave., Suite 300, Memphis, TN 38138.

Certain matters in this press release may constitute forward-looking statements within the meaning of Section 27-A of the Securities Act of 1933 and Section 21E of the Securities and Exchange Act of 1934. Such statements include, but are not limited to, statements made about anticipated growth rate of revenues, expenses, and net operating income at Mid-America's properties, anticipated lease-up (and rental concessions) at development properties, costs remaining to complete development properties, planned acquisitions, planned dispositions, developments, and property financing. Actual results and the timing of certain events could differ materially from those projected in or contemplated by the forward-looking statements due to a number of factors, including a downturn in general economic conditions or the capital markets, competitive factors including overbuilding or other supply/demand imbalances in some or all of our markets, construction delays that could cause new and add-on apartment units to reach the market later than anticipated, changes in interest rates and other items that are difficult to control such as insurance rates, increases in real estate taxes in numerous markets, as well as the other general risks inherent in the apartment and real estate businesses. Reference is hereby made to the filings of Mid-America Apartment Communities, Inc., with the Securities and Exchange Commission, including quarterly reports on Form 10-Q, reports on Form 8-K, and its annual report on Form 10-K, particularly including the risk factors

### Item 9 Regulation FD Disclosure

#### Earnings Guidance

In connection with its fourth quarter 2001 earnings, the Company's management observed the following:

- |X| It expects that during the second quarter of 2002, the stronger spring leasing season will generate improved leasing traffic and occupancy levels.
- |X| Absent any further deterioration in the economy, the Company expects to see a steady improvement in occupancy over the course of 2002.
- |X| Management forecasts recurring capital spending during 2002 to remain at the lower level seen in 2001.
- |X| The Company's balance sheet continues to strengthen, steadily gaining additional capacity as we complete funding and lease-up of our construction pipeline.
- |X| Management is comfortable with maintaining the Company's current dividend payout level for 2002, especially given the Company's growing balance sheet capacity.
- |X| The Company's Funds From Operations ("FFO") forecast for 2002 calls for \$2.80 per share, with a range of \$2.77 to \$2.82. The key variables are an anticipated strengthening in the economy and markets over the second half

## Edgar Filing: MID AMERICA APARTMENT COMMUNITIES INC - Form 8-K/A

of the year, movements in interest rates and the level of anticipated increases in both property insurance and real estate tax expenses. On a quarterly basis, the Company's overall FFO 2002 forecast is \$0.67 per share for first quarter 2002, \$0.70 for 2nd quarter 2002, \$0.71 for 3rd quarter 2002 and \$0.72 for 4th quarter 2002. This assumes growths of 1.6% in same store revenues, 3.5% in operating expenses and 0.5% in same store NOI. The 2002 forecast includes no property acquisitions, although management believes that there is an increasing possibility that there will be some.

|X| While the current operating environment and market conditions are expected to dampen earnings over the first part of this year, it believes that opportunities will be increasing to create more value for the Company's shareholders through attractive acquisitions and redevelopment of undervalued properties.
