PART III - NARRATIVE

State below in reasonable detail the reasons why Form 10-K, 11-K, 20-F, 10-Q, N-SAR or the transition report portion thereof could not be filed within the prescribed time period.

Merit Securities Corporation ("Company") is unable to file timely its quarterly report on Form 10-Q for the period ended June 30, 2002 in a timely manner without unreasonable effort or expense. The Company is currently in the process of evaluating additional information along with its independent auditors, Deloitte & Touche, LLP. The Company has determined that certain collateral for collateralized bond investments previously considered as available-for-sale debt securities, and therefore carried at estimated market value, do not meet the requirements for classification as debt securities. Rather, such investments should have been considered loans and not debt securities, and carried at historical cost. The Company anticipates that the impact of the reclassification will be to increase collateral for collateralized bonds with an increase in shareholders' equity by a like amount as a result of the reduction of accumulated other comprehensive loss from the reversal of the market value adjustment on these investments. Net income reported by the Company for any period is not expected to be impacted by the reclassification.
