ANNOUNCEMENT NO 16 – 2009

26 November 2009

Sale of one dry bulk vessel

TORM has entered into an agreement to sell the Panamax dry bulk vessel TORM Rotna (built in 2001). The vessel has been sold for a total consideration of USD 29 million with a profit of USD 9 million.

The vessel is expected to be delivered in the first quarter of 2010. The profit will be realised in the financial statements at the time of delivery. The sale of the vessel does not change the forecast for 2009 as previously announced by TORM.

Following the sale of the vessel, TORM's owned fleet consists of 64 product tankers and three dry bulk vessels. In addition, TORM has 11 product tankers and four dry bulk vessels on order.

Safe Harbor Forward Looking Statements Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or performance, and underlying assumptions and other statements, which are other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, Management's examination of historical operating trends, data contained in

our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot assure you that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward looking statements include the strength of world economies and currencies, changes in charter hire rates and vessel values, changes in demand for “tonne miles” of oil carried by oil tankers, the effect of changes in OPEC’s petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM’s operating expenses, including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists. Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

Forward looking statements are based on management’s current evaluation, and TORM is only under obligation to update and change the listed expectations to the extent required by law.
