Independent Auditors Report

The Plan Administrator
Linens n Things, Inc. 401(k) Plan:

We have audited the accompanying statements of net assets available for plan benefits of the Linens n Things, Inc. 401(k) Plan as of December 31, 2001 and 2000, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Linens n Things, Inc. 401(k) Plan as of December 31, 2001 and 2000, and the changes in net assets available for plan benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2001 and nonexempt transactions for the year then ended are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan s management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic 2001 financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic 2001 financial statements taken as a whole.

LINENS N THINGS, INC. 401(k) PLAN

Notes to Financial Statements

(f) Participants Accounts

Each participant's account is credited with the participant's contribution, employer matching contribution and allocations of investment income or loss. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(g) Vesting

Participants are immediately vested in their contributions plus actual earnings or losses thereon. Vesting in the employer's matching contribution portion of their accounts plus actual earnings or losses thereon is based on years of credited service, as defined. A participant is 50% vested after three years and 100% vested after five years of credited service.

(h) Payment of Benefits

Upon reaching normal retirement (age 65 or age 55 with 10 years of credited service, as defined) or upon permanent disability, all vested amounts credited to a participant's account become distributable. Distributions will be made as soon as administratively feasible, following a participant's request, and will be made in a lump-sum cash payment.

Upon a participant's death, the participant's beneficiary is entitled to 100% of the participant's vested account balance.

Upon termination of service, other than for normal retirement or death, the Administrator will direct the Trustee or the new Trustee to pay to the participant his or her benefit in an immediate lump sum or a deferred lump sum, if certain criteria are met.

(i) Forfeitures

Upon a participant's termination date, and prior to the time the participant becomes vested in his or her account, the non-vested portion, if any, shall be forfeited. These accounts will be used to restore amounts previously forfeited by participants but required to be reinstated upon resumption of

employment, to pay administrative expenses, or to reduce employer contributions. Forfeitures were netted against the employer contributions for the years ended December 31, 2001 and 2000. Forfeitures were \$111,645 and \$126,223 for the years ended December 31, 2001 and 2000, respectively.

-9-

LINENS N THINGS, INC. 401(k) PLAN

Notes to Financial Statements

(j) Loans to Plan Participants

Under the terms of the Plan, participants may obtain loans from the Plan, utilizing funds accumulated in their accounts. The minimum amount which may be borrowed is \$1,000. Participants can borrow up to a maximum of 50% of their vested account balance but not more than \$50,000, less their highest outstanding loan balance during the previous 12 months. The Plan charges a fixed rate, which is 1% above the prime rate (5.75% and 10.5% at December 31, 2001 and 2000, respectively) adjusted quarterly.

The loans are repaid to the Plan through after-tax payroll deductions. The loan repayments and interest earned are allocated to each of the investment funds based upon the participant's contribution election percentages. The term of the loan is arrived at by mutual agreement between the Plan Committee and the participant, but may not exceed five years unless the loan is to be used in conjunction with the purchase of the principal residence of the participant, in which case the loan may not exceed 25 years.

(k) Administrative Expenses

Most administrative expenses are paid by the Plan Sponsor.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis and present the net assets available for plan benefits of the Plan and the changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

(c) Risks and Uncertainties

The assets for the Plan are primarily financial instruments which are monetary in nature. As a result, interest rates and changes in the equity markets have a more significant impact on the Plan's performance than do the effects of general levels of inflation. Interest rates and equity prices do not necessarily move in the same direction or in the same magnitude as the prices of goods and services as measured by the consumer price index. Investments in funds are subject to risk conditions of the individual fund objectives, stock and bond market fluctuations, interest rate changes, economic conditions and world affairs.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across participant-directed fund elections. Additionally, the investments within each participant-directed

fund election are further diversified into varied financial instruments, with the exception of the Linens n Things Company Stock Fund which principally invests in a single security.

-10-

LINENS N THINGS, INC. 401(k) PLAN

Notes to Financial Statements

(d) Investments

Purchases and sales of investments are recorded on a trade-date basis. Investment income is recorded as earned on an accrual basis. Dividend income is recorded on the ex-dividend date. Each investment fund, aside from unallocated cash, which is held in an interest-bearing money market account, is stated at the fair value on the last business day of the plan year as reported by the Trustee or the new Trustee, which is based on the market value of the underlying securities based on quotations from national securities exchange.

The carrying values for contribution receivables approximate their fair values due to their short-term nature. Participant loans are stated at amortized cost. The Plan Administrator does not believe it is practicable to estimate fair value of participant loans as they are not material to the plan. The participant loans have fixed rates of interest established by the plan administrator at the time of the loan's origination and approximated prevailing market rates.

(e) Benefits

Benefits are recorded when paid.

(3) Investments

At December 31, 2001 and 2000, the Plan's assets, were allocated among various investment funds administered by independent investment managers.

The following investments represent 5% or more of the net assets available for benefits at December 31, 2001 and 2000:

Net (depreciation) appreciation in fair value of investments	<u>\$(1,223,482)</u>	<u>\$2,072,801</u>

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Company were to terminate the Plan, all participants in the Plan would become fully vested.

(5) Federal Income Taxes

The Plan obtained its latest determination letter on April 20, 1999, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has not been amended since receiving the determination letter. The Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(6) Related Party Transactions (Parties in Interest)

The record keeping and custodial functions for the underlying investments held by the Plan were performed by Prudential Investments and effective April 1, 2001 were performed by Fidelity Trust Company.

Certain investments of the Plan are shares of mutual funds advised by Fidelity Investments an affiliate of Fidelity Trust Company. Another investment in the Plan is an investment fund comprised primarily of shares of common stock issued by Linens n Things. Linens n Things is the Plan Sponsor.

Certain fees paid to related parties for services to the Plan were paid by the Plan Sponsor. Alternately, mutual fund and pooled investment fund operation expenses come out of a fund's assets and are reflected in the fund's share/unit price.

(7) Subsequent Event

Effective March 2002, the Plan Committee reduced the match from 100% up to 6% of participants pay to 50% up to 4% of participants pay.
