Proxy Statement

The Company's principal executive offices are located at Two North Ninth Street, Allentown, Pennsylvania 18101, telephone number 610-774-5151. This Proxy Statement and the accompanying Proxy, solicited on behalf of the Board of Directors, were first released to Shareowners on or about March 21, 2002.

OUTSTANDING STOCK AND VOTING RIGHTS

The Board of Directors has established Thursday, February 28, 2002, as the record date for Shareowners entitled to vote at the Annual Meeting (the Record Date). The transfer books of the Company will not be closed. The Articles of PPL divide the Company's voting stock into two classes: Common and Preferred. There were no shares of Preferred Stock outstanding on the Record Date. A total of 146,729,190 shares of Common Stock was outstanding on the Record Date. Each outstanding share of Common Stock entitles the holder to one vote upon any business properly presented to the Annual Meeting.

As of February 15, 2002, there are no entities known by the Company to own more than five percent of any class of stock entitled to vote at the Annual Meeting.

Execution of the Proxy will not affect a Shareowner's right to attend the Annual Meeting and vote in person. Any Shareowner giving a Proxy has the right to revoke it at any time before it is voted by giving notice in writing to the Secretary. Shares represented by Proxy will be voted in accordance with the instructions given. In the absence of instructions to the contrary, the Proxy solicited hereby will be voted FOR the election of directors, and FOR the ratification of the appointment of independent accountants. Abstentions and broker non-votes are not counted as either yes or no votes.

Full and fractional shares held by the Company for each participant in the Dividend Reinvestment Plan will be voted by PPL Services Corporation, as the registered owner of such shares, in the same manner as shares held of record by that participant are voted. If a participant owns no shares of record, full and fractional shares credited to that participant's account will be voted in accordance with the participant's instructions on the Proxy. Shares held in the Dividend Reinvestment Plan will not be voted if Proxies are not returned.

To preserve voter confidentiality, the Company voluntarily limits access to Shareowner voting records to certain designated employees of PPL Services Corporation. These employees sign a confidentiality agreement which prohibits them from disclosing the manner in which a Shareowner has voted to any employee of PPL affiliates or to any other person (except to the Judges of Election or the person in whose name the shares are registered), unless otherwise required by law.

Regarding Proposal 1 (the Election of Directors), the nominees receiving the highest number of votes, up to the number of directors to be elected, will be elected. Authority to vote for any individual nominee can be withheld by writing the number beside that person's name in the list of nominees in the box provided to the right of such list on the accompanying Proxy or by following the instructions if voting over the Internet or by telephone. In order to be approved, Proposal 2 (the Ratification of the Appointment of Independent Accountants) must receive a majority of the votes cast, in person or by proxy, by the Shareowners voting as a single class.

PROPOSAL 1: ELECTION OF DIRECTORS

PPL has a classified Board of Directors, currently consisting of ten directors divided into three classes. These classes consist of three directors whose terms will expire at the 2002 Annual Meeting, four directors whose terms will expire at the 2003 Annual Meeting, and three directors whose terms will expire at the 2004 Annual Meeting.

The nominees this year are Frederick M. Bernthal and John R. Biggar. The nominees are currently serving as directors. Dr. Bernthal was elected by the Shareowners at the 1999 Annual Meeting and Mr. Biggar was elected by the Board of Directors effective October 1, 2001. If elected by the Shareowners, Dr. Bernthal and Mr. Biggar would serve until the 2005 Annual Meeting and until their successors are elected and qualified. Following the election of these two nominees and the retirement of two directors as discussed below, there will be eight members of the Board of Directors, consisting of three classes: three directors whose terms would expire at the

2003 Annual Meeting, three directors whose terms would expire at the 2004 Annual Meeting, and two directors whose terms would expire at the 2005 Annual Meeting.

The Board of Directors has no reason to believe that any of the nominees will become unavailable for election, but, if any nominee should become unavailable prior to the meeting, the accompanying Proxy will be voted for the election of such other person as the Board of Directors may recommend in place of that nominee.

**The Board of Directors
recommends that Shareowners vote FOR Proposal 1**

GENERAL INFORMATION REGARDING DIRECTORS AND EXECUTIVE OFFICERS

Director Attendance at Board Meetings

The Board of Directors held ten meetings during 2001. Each director attended at least 75% of the meetings held by the Board and its Committees during the year. The average attendance of directors at Board and Committee meetings held during 2001 was 96%.

Compensation of Directors

Directors who are Company employees receive no separate compensation for service on the Board of Directors or Committees of the Board of Directors. Non-employee directors receive a retainer of \$67,000 per year, of which a minimum of \$43,000 (Mandatory Deferral) is allocated to a deferred stock account under the Directors Deferred Compensation Plan (DDCP). Each director also receives a fee of \$1,500 for attending Board of Directors meetings, Committee meetings and other meetings at the Company s request, and a fee of \$200 for participating in meetings held by telephone conference call.

Non-employee directors may elect pursuant to the DDCP to defer all or any part of the fees and any retainer that is not part of the Mandatory Deferral. Under this Plan, these directors can defer compensation other than the Mandatory Deferral into a deferred cash account or stock account. Payment of these amounts and accrued interest or dividends is deferred until after the directors retirement from the Board of Directors, at which time they can receive these funds in one or more annual installments for a period of up to ten years.

Under the terms of the DDCP, any increase in the annual retainer is automatically allocated to each director s deferred stock account. As with the DDCP benefits, this additional deferred stock together with accrued dividends is available to the directors after retirement from the Board, at which time they can receive this stock in one or more annual installments for a period of up to ten years.

Certain Transactions Involving Directors or Executive Officers

The SEC requires disclosure of certain business transactions or relationships between the Company or its subsidiaries, and other organizations with which any of the Company s directors or executive officers are affiliated as an owner, partner, director, or executive officer.

From time to time, when it has been appropriate and reasonable, the Company and its subsidiaries have engaged in transactions with, or have used products or services of, organizations with which the Company s directors or executive officers are affiliated. It is expected that the Company will continue to do so.

During 2001, PPL Electric Utilities Corporation (PPL Electric), a subsidiary of the Company, paid Highway Equipment & Supply Co. (HESCO) \$90,136 for certain equipment and materials. Mr. William J. Flood is Secretary-Treasurer and a principal owner of HESCO and serves as a director of the Company.

Executive Committee. During the periods between Board meetings, the Executive Committee exercises all of the powers of the Board of Directors, except that the Executive Committee may not elect directors, change the membership of or fill vacancies in the Executive Committee, fix the compensation of the directors, change the Bylaws, or take any action restricted by the Pennsylvania Business Corporation Law or the Bylaws (including actions committed to another Board committee). The Executive Committee of the Company met five times in 2001. The members of the Executive Committee are Mr. Hecht (chair), Dr. Heydt and Messrs. Deaver, Flood and Gates.

Compensation and Corporate Governance Committee. The principal functions of the Compensation and Corporate Governance Committee are to review and evaluate at least annually the performance of the chief

executive officer and other senior officers of the Company and its subsidiaries, and to set their remuneration, including incentive awards; to review the fees paid to outside directors for their services on the Board of Directors and its Committees; and to review management's succession planning. Another principal Committee function is to develop and review criteria for the qualifications of Board members, to establish and administer programs for evaluating the performance of Board members and to identify and recommend to the Board of Directors candidates for election to the Board. This committee met four times in 2001. The members of the Compensation and Corporate Governance Committee are Mr. Deaver (chair), Messrs. Conway and Gates and Dr. Heydt.

Nominees for directors may be proposed by Shareowners in accordance with the procedures set forth in the Bylaws. Recommendations for the 2003 Annual Meeting must be received by seventy-five days prior to the 2003 Annual Meeting. Shareowners interested in recommending nominees for directors should submit their recommendations in writing to the Chair of the Compensation and Corporate Governance Committee, c/o Secretary, Two North Ninth Street, Allentown, Pennsylvania 18101.

Finance Committee. The principal functions of the Finance Committee are to approve specific Company financings and corporate financial policies; to review the Company's annual capital and operating budgets, financing plans and overall financial strategy; and to review the activities of the unregulated subsidiaries of the Company. The Finance Committee met seven times in 2001. The members of the Finance Committee are Mr. Gates (chair), Messrs. Deaver and Smith and Ms. Stalneckner.

Nuclear Oversight Committee. The principal functions of the Nuclear Oversight Committee are to assist the Board of Directors in the fulfillment of its responsibilities for oversight of the Company's nuclear function, to advise Company management on nuclear matters, and to provide advice and recommendations to the Board of Directors concerning the future direction of the Company and management performance related to the nuclear function. The Nuclear Oversight Committee met three times in 2001. The members of the Nuclear Oversight Committee are Dr. Bernthal (chair), and Messrs. Flood and Gates.

Audit Committee. The primary function of the Audit Committee is to assist the Company's Board of Directors in the oversight of management's responsibilities related to the Company's internal control process and financial reporting. The internal control process is designed to provide reasonable assurance regarding the achievement of the Company's objectives in the areas of efficiency and effectiveness of operations, reliability of financial reporting, and compliance with laws, regulations and standards of integrity. The Audit Committee has a Charter, included as Schedule A to this Proxy Statement, that specifies its responsibilities. The Audit Committee reassesses the overall adequacy of the Charter on an annual basis. This committee met four times in 2001. The members of the Audit Committee meet the independence and other requirements of the New York Stock Exchange. The members of the Audit Committee are Dr. Heydt (chair), Dr. Bernthal, and Messrs. Flood and Smith.

REPORT OF THE AUDIT COMMITTEE

Company management is responsible for the preparation, integrity and objectivity of the financial statements and establishing effective internal controls. PricewaterhouseCoopers LLP, the Company's independent auditor, is responsible for performing and reporting upon their independent audit of the financial statements in accordance with generally accepted auditing standards. The Audit Committee's responsibility is to monitor and oversee this process. The Audit Committee has reviewed and discussed the audited financial statements with management and the independent auditor.

The Audit Committee has also discussed with the independent auditor the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as amended, including the appropriateness and application of accounting principles.

The Audit Committee has received the written disclosures and the letter from its independent auditor required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed with PricewaterhouseCoopers LLP its independence. The Audit Committee also considered whether the provision of non-audit services by PricewaterhouseCoopers LLP is compatible with maintaining the independence of such independent auditor. The independent auditor is ultimately accountable to the Audit Committee and the Board of Directors, which have the authority to select, evaluate and, where appropriate, replace the independent auditor, subject to ratification by the shareowners.

The Audit Committee meets periodically with the internal auditor and the independent auditor, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommends to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001.

The Audit Committee has a Committee Charter that specifies its responsibilities. The Committee Charter, which has been approved by the Board of Directors, is attached to this Proxy Statement as Schedule A. The Audit Committee's on-going procedures and practices are in alignment with the requirements of the Securities and Exchange Commission and the New York Stock Exchange applicable to corporate audit committees.

Benefits under the Retirement Plan are calculated by determining the greater of two formulas. One formula uses average compensation for the highest 60 consecutive months in the final 120 months of employment, and the other formula uses a fixed percentage of actual compensation for each year of service, added up over all years of service. Benefits under the SERP are based on length of service and the average compensation for the highest 60 consecutive months in the final 120 months of employment. For purposes of calculating benefits under the Retirement Plan, the compensation used is base salary less amounts deferred under the PPL Officers Deferred Compensation Plan. Base salary, including any amounts deferred, is listed in the Summary Compensation Table which follows. (Of the officers listed in that Table, Mr. Hecht deferred \$52,000 of compensation for each of 1999, 2000 and 2001; Mr. Long deferred \$31,200 for 1999 and 2000 and \$24,000 for 2001; Mr. Grey deferred \$20,020 for 2001 and Mr. Champagne deferred \$25,500 in 1999, \$78,000 in 2000 and \$220,699 in 2001.) For purposes of calculating benefits under the SERP, the compensation used is base salary, cash bonus, and, in some cases, the value of any restricted stock grant for the year in which earned, as listed in the Table, as well as dividends paid on restricted stock.

Benefits payable under the Retirement Plan are subject to limits set forth in the Internal Revenue Code and are not subject to any deduction for Social Security benefits or other offset. They are computed on the basis of the life annuity form of pension at the normal retirement age of 65. Benefits payable under the SERP are computed on the same basis; are offset by Retirement Plan benefits and the maximum Social Security benefit payable at 65; and are reduced for retirement prior to age 60.

As of January 1, 2002, the years of credited service under the Retirement Plan for Messrs. Hecht, Biggar, De Simone, Long, Grey and Champagne were 31.8, 32.25, 3.2, 34.4, 6.7 and 13.6, respectively. The years of credited service under the SERP for each of these officers are three years less than under the Retirement Plan (except in the case of Mr. De Simone who is entitled to 10 years of additional credited service, and Mr. Grey who is entitled to 15.4 years of additional credited service).

For officers hired on or after January 1, 1998, benefits under the SERP are based on a new formula, as follows: (i) restricted stock grants are not included in compensation for purposes of calculating benefits under the SERP; (ii) the percentage of pay provided as a retirement benefit is changed from 2.7% for the first 20 years of service plus 1.0% for the next 10 years, to 2.0% for the first 20 years and 1.5% for the next 10 years; and (iii) credit for years of service will commence as of the employee's date of hire instead of at age 30.

The following table shows the estimated annual retirement benefits for executive officers payable under the new SERP formula:

**Estimated Annual Retirement Benefits

² Values indicated are an estimate based on a modified Binomial option pricing model. Although executives risk forfeiting these options under certain circumstances, these risks are not factored into the calculated values. The actual value realized will be determined by the excess of the stock price over the exercise price on the date the option is exercised. There is no certainty that the actual value realized will be at or near the value estimated by the modified Binomial option pricing model.

Assumptions used for the modified Binomial model are as follows:

Risk-free interest rate	5.74%
Volatility	30.04%
Dividend yield	4.78%
Time of exercise	10 years

CHANGE IN CONTROL ARRANGEMENTS

The Company has entered into agreements with each of the Named Executive Officers, which agreements provide benefits to the officers upon certain terminations of employment following a change in control of the Company (as such term is defined in the agreements). The benefits provided under these agreements replace any other severance benefits provided to these officers by the

Company, or any prior severance agreement.

Each of the agreements continues in effect until December 31, 2002, and the agreements generally are automatically extended for additional one-year periods. Upon the occurrence of a change in control, the agreements will expire no earlier than thirty-six months after the month in which the change in control occurs. Each agreement provides that the officer will be entitled to the severance benefits described below if the Company terminates the officer's employment following a change in control for any reason other than death, disability, retirement or cause, or if the officer terminates employment for good reason (as such terms are defined in the agreements).

The benefits consist of a lump sum payment equal to three times the sum of (a) the officer's base salary in effect immediately prior to date of termination, or if higher, immediately prior to the first occurrence of an event or circumstance constituting good reason, and (b) the highest annual bonus in respect of the last three fiscal years ending immediately prior to the fiscal year in which the change in control occurs, or if higher, the fiscal year immediately prior to the fiscal year in which first occurs an event or circumstance constituting good reason. In addition, under the terms of each agreement, the Company would provide the officer and dependents with continuation of welfare benefits (reduced to the extent the officer receives comparable benefits), and would pay the officer unpaid incentive compensation that has been allocated or awarded, a lump sum payment having an actuarial present value equal to the additional pension benefits the officer would have received had the officer continued to be employed by the Company for an additional thirty-six months, outplacement services for up to three years and a gross-up payment for any excise tax imposed under the Internal Revenue Code. In addition, under the agreements, the Company would provide post-retirement health care and life insurance benefits to officers who would have become eligible for such benefits within the thirty-six month period following the change in control.

In addition, in the event of a change in control, the restriction period applicable to any outstanding restricted stock awards under the Incentive Compensation Plan lapses.

STOCK COMPENSATION AGREEMENTS

PPL has executed agreements with Messrs. Champagne and De Simone granting each of them 30,000 shares of restricted PPL common stock. The restriction period will lapse on October 4, 2007 for Mr. De Simone and on May 23, 2018 for Mr. Champagne. In the event of death or disability, the restriction period on a prorated portion of these shares will lapse immediately. In the event of a change in control of PPL, the restriction period on all of these shares will lapse immediately if there is an involuntary termination of employment that is not for cause. In the event Mr. Champagne is terminated for cause, or he terminates his employment with all PPL affiliated companies prior to May 23, 2018, all shares of this restricted stock will be forfeited. In the event Mr. De Simone is terminated for cause, or he terminates his employment with all PPL affiliated companies prior to October 4, 2007, all shares of this restricted stock will be forfeited. Mr. De Simone also has a provision in his agreement which provides a benefit to supplement the benefit payable to him under the SERP. This provision refers to the SERP to determine a theoretical SERP benefit after 30 years of service, and then subtracts the actual SERP benefit payable at retirement to yield a benefit amount under this agreement. The benefit is payable at the same time and in the same form as the SERP benefit, but is forfeited if the restricted stock is forfeited.

REPORT OF THE COMPENSATION AND CORPORATE GOVERNANCE COMMITTEE REGARDING EXECUTIVE COMPENSATION

GENERALLY

The Compensation and Corporate Governance Committee of the Board of Directors of PPL Corporation (the Company) establishes compensation and benefit practices for the executive officers of the Company. This Committee is comprised entirely of independent outside directors. For 2001, the Committee reviewed and evaluated the performance and leadership of the Chief Executive Officer and the other executive officers who are listed in the Summary Compensation Table on page 10 (executive officers).

¹ During 2001, Mr. De Simone served as the President of PPL EnergyPlus, LLC through September 30, 2001, before becoming Executive Vice President-Supply of PPL Corporation. Mr. Champagne served as the President of PPL Global, LLC through September 30, 2001, and as the President of PPL EnergyPlus, LLC thereafter.

COMPENSATION PHILOSOPHY

During 2001, the Company had in place two major components of executive compensation for the executive officers' base salary and incentive compensation. Base salaries reflect the value of the various Company executive positions relative to similar positions both within the Company and in other companies and individual executive performance. The incentive compensation component is designed with the objective of placing a large portion of executive compensation at risk. The incentive component, which is comprised of cash, restricted stock and stock options, is designed to incent and reward executive officers for annual corporate financial and operational performance, the achievement of certain corporate initiatives, and long-term enhancement of shareowner value. The following is a description of the 2001 executive officer base salaries established, and incentive compensation awarded, by the Committee pursuant to the Company's Short-Term Incentive Plan and Incentive Compensation Plan.

BASE SALARIES

In general, the Committee's objective is to provide salary levels that are sufficiently competitive with comparable companies to enable the Company to attract and retain high-quality executive talent. To meet this objective, the Committee regularly reviews salary information for similar companies provided by independent, nationally recognized compensation consultants. In addition, the Committee annually reviews the performance of each executive to determine the appropriate level of base salary for that executive officer.

The Committee reviewed salary ranges for the executive officers by comparing these salary levels with levels at companies of comparable size to the Company in the energy industry and in general industry. Base salary market comparisons were made against the 50th percentile salaries of the comparison companies.

After reviewing salary data for executive positions at comparable companies, the Committee reviewed the actual salaries and performance of each of the executive officers. The Committee solicited input and recommendations from the Chief Executive Officer regarding the performance and individual salaries of the other executive officers. In the case of the Chief Executive Officer, the Committee considered the directors' individual appraisals of his performance in determining his salary. Using this information, the Committee made appropriate salary adjustments for the Chief Executive Officer and the executive officers, effective as of January 1, 2001.

INCENTIVE AWARDS

Cash Incentive Awards

Cash incentive awards are made to executive officers for the achievement of specific, independent goals established for each calendar year. For 2001, the following award targets as a percentage of base salary were established for each executive officer: Chief Executive Officer 75%; Executive Vice Presidents 65%; and Senior Vice President and Presidents of principal operating subsidiaries 50%.

Annual awards are determined by applying these target percentages to the percentage of goal attainment. The performance goals for the year are established by the Committee, and the Committee reviews actual results at year-end to determine the appropriate goal attainment percentage to apply to the salary targets.

The goal categories for 2001 included specific financial and operational measures for the Company and its subsidiaries designed to enhance the Company's position for success in the competitive market. The weightings for each of these general categories are allocated 60% to the Company's earnings per share and enhanced shareowner value, and 40% to the financial and operational performance of the Company's principal operating subsidiaries. In the case of Messrs. De Simone and Champagne, more weight was given to the performance of the particular operating subsidiary for which they were the President during a portion of 2001.

When the level of goal attainment was measured at the end of the year and the category weightings were multiplied by the annual award target for each position, each executive officer's cash award was determined for 2001 performance. In the case of Messrs. De Simone and Champagne, their weightings were adjusted on a pro-rata basis to reflect the respective positions they held during the year.

Restricted Stock Incentive Awards

Restricted Company stock also is made available to the executive officers based on the achievement of strategic objectives designed to enable the Company to continue to provide value to its shareowners. Goals were related to increasing shareowner value through implementation of certain long-term corporate initiatives, including implementation of actions to realize the market potential of the unregulated businesses and the creation of a world class workforce to enhance the Company's competitive position in the global marketplace. Annual awards are based on the achievement of these goals. The following award targets as a percentage of base salary were established for each executive officer: Chief Executive Officer 50%; Executive Vice Presidents 40%; and Senior Vice President and Presidents of principal operating subsidiaries 35%.

Awards are made in the form of restricted stock equivalent to the dollar value of the percentage applied to base pay in effect at the end of the year. Because of the three-year restriction period, this type of stock award encourages executive officers to continue their service at the Company. This program also encourages increased stock ownership on the part of the executives and aligns the interests of management and shareowners.

Stock Option Incentive Awards

The Committee may grant the executive officers options to purchase shares of the Company's common stock in the future. Because the exercise price for these options is based on the market price of the stock at the time of the grant, the ultimate value received by the option holders is directly tied to increases in the stock price. Therefore, stock options serve to closely link the interests of management and shareowners and motivate executives to make decisions that will serve to increase the long-term shareowner value. Additionally, the option grants include vesting and termination provisions that are designed to encourage the option holders to remain employees of the Company. As with the cash and restricted stock awards discussed above, the stock option grants varied by accountability level based on award targets. Based on its review of market compensation data, the Committee in 2001 increased the level of option grants to the executive officers to further align the interests of the executive officers and shareowners.

Based on its review of the incentive goals achieved for 2001, the Committee in January 2002 made the following incentive cash and restricted stock awards:

William F. Hecht Chairman, President and Chief Executive Officer	35.2%	\$ 250,560	65%	9,220

Robert J. Grey Senior Vice President, General Counsel and Secretary	35.2%	\$ 53,980	65%	2,090

¹ Mr. Long retired on September 30, 2001 and was not eligible for awards.

²

Edgar Filing: PPL CORP - Form DEF 14A

Mr. De Simone's award was based partially on separate goals related to his position as President of PPL EnergyPlus, LLC for a portion of the year.

³ Mr. Champagne's award was based partially on separate goals related to his positions as President of PPL Global, LLC and PPL EnergyPlus, LLC, respectively, for a portion of the year.

Finally, the Committee made the following non-qualified stock option awards in January 2001 under the Incentive Compensation Plan: Mr. Hecht 209,440 options; Mr. Biggar 47,720 options; Mr. De Simone 38,440 options; Mr. Long 109,230 options; Mr. Grey 40,690 options; and Mr. Champagne 42,420 options.

COMPENSATION OF THE CHIEF EXECUTIVE OFFICER

In establishing Mr. Hecht's 2001 salary, the Committee reviewed the salaries of the chief executive officers of the comparison companies referenced above. As a result of this review and directors' appraisals of Mr. Hecht's performance, the Committee set his salary at \$950,000, effective January 1, 2001.

Based on the Company's performance on the specific corporate financial and operational goals discussed above, Mr. Hecht received a cash award equal to approximately 26.49% of his salary. Based on the Company's performance on the strategic goals discussed above, Mr. Hecht received a restricted stock award equal to approximately 33.3% of his salary. In addition, Mr. Hecht was granted stock options in 2001, as described above.

TAX DEDUCTIBILITY OF EXECUTIVE COMPENSATION

Section 162(m) of the Internal Revenue Code of 1986, as amended, generally provides that publicly held corporations may not deduct in any taxation year certain compensation in excess of \$1,000,000 paid to the chief executive officer and the next four most highly compensated executive officers. Performance-based compensation in excess of \$1,000,000 is deductible if certain criteria are met, including shareowner approval of applicable plans. In this regard, the Company's Incentive Compensation Plan enables the Company to make stock option awards under that Plan that are deductible under Section 162(m); similarly, the Company's Short-Term Incentive Plan enables the Company to make cash awards to officers that are deductible under Section 162(m). The Committee will continue to seek ways to limit the impact of Section 162(m). However, the Committee believes that the tax deduction limitation should not compromise the Company's ability to establish and implement incentive programs that support the compensation objectives discussed above. Accordingly, achieving these objectives and maintaining required flexibility in this regard may result in compensation that is not deductible for federal income tax purposes.

PROPOSAL 2: RATIFICATION OF THE APPOINTMENT OF INDEPENDENT ACCOUNTANTS

Upon the recommendation of the Audit Committee, which is composed of directors who are not employees of the Company or its affiliates, the Board of Directors of the Company appointed PricewaterhouseCoopers LLP to serve as independent accountants for the year ending December 31, 2002, for PPL and its subsidiaries.

FEES TO INDEPENDENT AUDITORS

Audit Fees

The aggregate fees paid to PricewaterhouseCoopers LLP for professional services rendered for the audit of the Company's annual financial statements for the fiscal year ended December 31, 2001 and for the reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q for the fiscal year were \$1,525,000.

Financial Information Systems Design and Implementation Fees

The aggregate fees paid to PricewaterhouseCoopers LLP for professional services rendered for information technology services relating to financial information systems design and implementation for the fiscal year ended December 31, 2001 were \$1,653,000.

All Other Fees

The aggregate fees paid to PricewaterhouseCoopers LLP for services rendered to the Company other than the Audit Fees and the Financial Information Systems Design and Implementation Fees for the fiscal year ended December 31, 2001 were \$3,029,000.

* * * * *

Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual Meeting. They will have an opportunity to make a statement if they want to do so, and they will also be available to respond to appropriate questions.

The Audit Committee will rely on the accuracy of the information provided by the independent auditor as to the services provided and fees paid and will rely on the representations of management in connection with the Audit Committee's consideration of the auditor's independence.
4. Oversee the annual and quarterly financial reporting process through discussions with management and the independent and internal auditors regarding the quality and acceptability of the application of accounting principles, unusual transactions, and the impact of proposed accounting rules, including a discussion of the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees.
