Eaton Vance Corp.

Report for the Three Months Ended January 31, 2011

Boston, MA, February 23, 2011 Eaton Vance Corp. (NYSE: EV) earned \$0.30 per diluted share in the first quarter of fiscal 2011 compared to earnings per diluted share of \$0.37 in the first quarter of fiscal 2010 and \$0.41 in the fourth quarter of fiscal 2010. Earnings per diluted share were reduced \$0.15, \$0.02 and \$0.06 in the first quarter of fiscal 2011, the first quarter of fiscal 2010 and the fourth quarter of fiscal 2010, respectively, by adjustments in connection with increases in the estimated redemption value of non-controlling interests redeemable at other than fair value, as described in more detail below.

Net inflows of \$1.8 billion into long-term funds and separate accounts in the first quarter of fiscal 2011 compare to net inflows of \$3.0 billion in the first quarter of fiscal 2010 and \$3.2 billion in the fourth quarter of fiscal 2010. Net inflows in the first quarter of fiscal 2011 and the fourth quarter of fiscal 2010 reflect a \$0.2 billion and \$1.5 billion reduction in Parametric Portfolio Associates' retail managed account (RMA) overlay assets, respectively, as a result of the integration of Bank of America's RMA program into the Merrill Lynch RMA program following Bank of America's 2009 acquisition of Merrill Lynch. Net inflows in the first quarter of fiscal 2011 also reflect a \$0.8 billion decrease in fund leverage. The Company's annualized internal growth rate (four times quarterly long-term net inflows divided by beginning of period long-term assets managed) was 4 percent in the first quarter of fiscal 2011.

Assets under management on January 31, 2011 were \$191.7 billion, a new all-time high. This represents an increase of 19 percent from the \$161.6 billion of managed assets as of January 31, 2010 and an increase of 4 percent from the \$185.2 billion of managed assets as of October 31, 2010.

In the first fiscal quarter, Eaton Vance achieved record revenues and approached previous peak adjusted operating income levels, said Thomas E. Faust Jr., Chairman and Chief Executive Officer. Favorable market trends and continued organic growth bode well for continuing improvement in financial performance.

Comparison to First Quarter of Fiscal 2010

Long-term fund net inflows of \$1.4 billion in the first quarter of fiscal 2011 compare to \$1.5 billion of long-term fund net inflows in the first quarter of fiscal 2010, reflecting \$9.6 billion of fund sales and other inflows, \$7.4 billion of fund redemptions and other outflows, and a decrease in fund leverage of \$0.8 billion. Institutional separate account net inflows in the first quarter of fiscal 2011 were \$0.5 billion, consisting of gross inflows of \$2.2 billion offset by \$1.7 billion of outflows. In the first quarter of fiscal 2010, inflows of \$1.6 billion into institutional separate accounts were offset by outflows of \$1.2 billion. High-net-worth separate account net inflows in the first quarter of fiscal 2011 were \$0.2 billion, consisting of gross inflows of \$0.8 billion offset by \$0.6 billion of outflows. In the first quarter of fiscal 2010, inflows of \$1.1 billion into high-net-worth separate accounts were offset by outflows of \$0.5 billion. Retail managed account net outflows were \$0.1 billion in the first quarter of fiscal 2011 compared to \$0.6 billion of net inflows in the first quarter of fiscal 2010, reflecting the loss of \$0.2 billion of overlay assets in connection with the Bank of America Merrill Lynch RMA program integration as described above. Retail managed account gross inflows of \$1.6 billion in

the first quarter of fiscal 2011 compare to \$1.7 billion of inflows in the first quarter of fiscal 2010, while outflows of \$1.7 billion in the first quarter of fiscal 2011 increased from outflows of \$1.2 billion in the first quarter of fiscal 2010. Tables 1-4 on pages 8 and 9 summarize the Company's assets under management and asset flows by investment mandate.

Revenue in the first quarter of fiscal 2011 increased \$40.3 million, or 15 percent, to \$312.3 million from revenue of \$272.0 million in the first quarter of fiscal 2010. Investment advisory and administration fees increased 15 percent to \$242.7 million, reflecting a 17 percent increase in average assets under management. Distribution and underwriter fees increased 9 percent due to an increase in average fund assets that pay these fees. Service fee revenue increased 10 percent due to an increase in average fund assets subject to service fees. Other revenue, which increased by \$2.3 million, include \$2.3 million of net gains on investments of consolidated funds in the first quarter of fiscal 2011 compared to \$1.4 million of net gains on investments of consolidated funds in the first quarter of fiscal 2010.

Operating expenses increased \$24.6 million, or 13 percent, to \$209.3 million in the first quarter of fiscal 2011 compared to operating expenses of \$184.7 million in the first quarter of fiscal 2010. Compensation expense increased 12 percent due to increases in employee headcount and base salaries, adjusted operating income-based bonus accruals, sales-based incentives, stock-based compensation, employee benefits and payroll taxes. Distribution expense increased 12 percent from the prior fiscal year's first quarter due primarily to increases in intermediary marketing support payments and other asset- and sales-based distribution expenses, Class C distribution fees and marketing expenses. Service fee expense increased 11 percent, in line with the increase in assets subject to service fees. Amortization of deferred sales commissions increased 30 percent, reflecting an increase in Class C amortization as a result of strong sales of Class C fund shares, offset by a decrease in Class B amortization consistent with the declining trend in Class B fund share sales and assets. Fund expenses increased 6 percent in the first quarter of fiscal 2011 compared to the first quarter of fiscal 2010, primarily reflecting an increase in fund expenses contractually borne by the Company offset by a decrease in fund subsidies. Other expenses increased 18 percent, reflecting increases in consulting, travel, information technology and facilities.

Operating income in the first quarter of fiscal 2011 was \$103.0 million, an increase of 18 percent over operating income of \$87.3 million in the first quarter of fiscal 2010.

In evaluating operating performance, the Company considers operating income and net income, which are calculated on a basis consistent with accounting principles generally accepted in the United States of America (GAAP), as well as adjusted operating income, a non-GAAP performance measure. Adjusted operating income is defined as operating income excluding the results of consolidated funds and adding back closed-end fund structuring fees, stock-based compensation, write-offs of intangible assets and other items that we consider non-operating in nature. The Company believes that adjusted operating income is a key indicator of the Company's ongoing profitability and therefore uses this measure as the basis for calculating performance-based management incentives. Adjusted operating income is not, and should not be construed to be, a substitute for operating income computed in accordance with GAAP. However, in assessing the performance of the business, management and the Board of Directors look at adjusted operating income as a measure of underlying performance, since operating results of consolidated funds and amounts resulting from one-time events do not necessarily represent normal results of operations. In addition, when assessing performance, management and the Board look at performance both with and without stock-based compensation, a non-cash operating expense.

Adjusted operating income of \$114.8 million in the first quarter of fiscal 2011 was 16 percent higher than the \$99.1 million of adjusted operating income in the first quarter of fiscal 2010. The period's adjusted operating income was within one percent of the Company's all-time high quarterly adjusted operating income of \$115.7 million, realized in the fourth quarter of fiscal 2007. The Company's adjusted operating margin improved to 36.8 percent in the first quarter of fiscal 2011 from 36.4 percent in the first quarter of fiscal 2010.

The following table provides a reconciliation of operating income to adjusted operating income for the periods presented:

Interest income increased 9 percent in the first quarter of fiscal 2011 compared to the first quarter of fiscal 2010 due to an increase in average cash balances. In the first quarter of fiscal 2011, the Company recognized \$2.9 million of net investment losses compared to \$2.5 million of net investment gains in the first quarter of fiscal 2010. The Company's effective tax rate, calculated as a percentage of income before income taxes and equity in net income (loss) of affiliates, was 37.3 percent and 38.4 percent in the first quarter of fiscal 2011 and fiscal 2010, respectively.

Net income attributable to non-controlling and other beneficial interests increased \$16.4 million in the first quarter of fiscal 2011 over the first quarter of fiscal 2010 due primarily to an increase in the estimated redemption value of non-controlling interests in our subsidiary Parametric Portfolio Associates held by its senior management and other current and former employees. A new accounting standard adopted in fiscal 2010 requires that the net change in the redemption value of non-controlling interests redeemable at other than fair value be recognized as a component of net income. The increase in estimated redemption value of non-controlling interests in Parametric Portfolio Associates recognized in the first quarter of fiscal 2011 is attributable to its profit growth for the twelve months ended December 31, 2010 compared to the prior year.

Net income attributable to Eaton Vance Corp. shareholders in the first quarter of fiscal 2011 was \$37.5 million, compared to net income attributable to Eaton Vance Corp. shareholders of \$46.2 million in the first quarter of fiscal 2010.

Retail managed account net outflows were \$0.1 billion in the first quarter of fiscal 2011 and \$1.1 billion in the fourth quarter of fiscal 2010, and reflect the loss of \$0.2 billion and \$1.5 billion, respectively, of overlay assets in connection with the Bank of America Merrill Lynch RMA program integration as described above. Retail managed account gross inflows of \$1.6 billion in the first quarter of fiscal 2011 were in line with \$1.6 billion of inflows in the fourth quarter of fiscal 2010, while retail managed account outflows of \$1.7 billion in the first quarter of fiscal 2011 decreased from outflows of \$2.7 billion in the fourth quarter of fiscal 2010.
