4. SUMMARY OF MATERIAL CHANGE

Methanex Corporation announced on May 5, 2008 that it has signed an agreement with ENAP (the Chilean state-owned oil and gas company) to accelerate natural gas exploration and development in the Dorado Riquelme exploration block in southern Chile.

5. FULL DESCRIPTION OF MATERIAL CHANGE

5.1 FULL DESCRIPTION OF MATERIAL CHANGE

Methanex Corporation announced today that it has signed an agreement with ENAP (the Chilean state-owned oil and gas company) to accelerate natural gas exploration and development in the Dorado Riquelme exploration block in southern Chile and supply new Chilean-sourced natural gas to Methanex's production facilities in Chile. Under the arrangement, Methanex expects to contribute approximately \$100 million in capital over the next three years and will have 50 percent participation in the block. It is expected that deliveries of gas from the block will commence later this year and that the block has the potential to become a significant new supply source for Methanex's facilities in Chile. The arrangement is subject to approval by the Government of Chile.

Methanex believes that this arrangement, along with the agreement with GeoPark announced in November 2007, and the new oil and gas activity associated with the bidding round recently conducted by the Government of Chile, that it can expect to receive increasing quantities of Chilean gas in the next few years.

---

The Dorado Riquelme area also has existing pipeline and other infrastructure in place to make it possible for natural gas to be flowing to Methanex's Chilean plants later this year.
