NOTES TO THE INTERIM FINANCIAL STATEMENTS

FOR THE QUARTER ENDED MARCH 31, 2006

(In thousands of Brazilian reais - R\$, unless otherwise stated)

1. OPERATIONS

Ultrapar Participações S.A. (the "Company") invests in commercial and industrial activities, including subscription or purchase of shares of other companies with similar activities.

Through its subsidiaries, the Company is engaged in the distribution of liquefied petroleum gas - LPG (Ultragaz), production and sale of chemicals (Oxiten) and logistic services for chemicals and fuels (Ultracargo).

2. PRESENTATION OF INTERIM FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING PRACTICES

The accounting practices adopted to record transactions and prepare the interim financial statements - ITR are those established by Brazilian accounting practices and the Brazilian Securities Commission (CVM).

a) Results of operations

Determined on the accrual basis of accounting. Revenues from sales and respective costs are recognized when the products are delivered to the customers or services are performed, and the transfer of risks, rights and obligations associated with the ownership of products takes place.

b) Current and long-term assets

Temporary cash and long-term investments are stated at cost, plus accrued income (on a "pro rata temporis" basis), which approximate to the market value. Temporary cash investments include the results from hedge transactions, as described in Notes 4 and 19, that management intends to hold to maturity.

The allowance for doubtful accounts is based on estimated losses and is considered by management to be sufficient to cover potential losses on accounts receivable.

Inventories are stated at the lower of average cost of acquisition or production, market or net realizable value.

Other assets are stated at the lower of cost or probable realizable values, including, when applicable, accrued income and monetary variations or net of allowances for potential losses.

Ultrapar Participações S.A. and Subsidiaries

Stated at cost of acquisition, process or construction, and include revaluation write-ups, recorded in prior years, based on appraisal reports issued by independent appraisers, in accordance with item 68, letter b), of CVM Resolution No. 183/95.

Depreciation is calculated on a straight-line basis at the annual rates described in Note 11, based on the economic useful lives of the assets.

- Deferred charges

Deferred charges comprise costs incurred in the installation of equipment at customers' facilities, projects to modernize systems, and goodwill on acquisition of subsidiaries, as mentioned in Note 12.

d) Current and long-term liabilities

Stated at known or estimated amounts including, when applicable, accrued charges, and monetary and exchange variations incurred during the period.

e) Income and social contribution taxes

b) Notes in the foreign market

In June 1997, the subsidiary Companhia Ultragaz S.A. issued US\$60 million in notes, maturing in 2005. In June 2005, maturity was extended to June 2020, with put/call options in June 2008.

In January 2004, the subsidiary LPG International Inc. issued US\$60 million in notes to acquire the notes of Companhia Ultragaz S.A. In June 2005, the subsidiary LPG International Inc., which held all notes issued by Companhia Ultragaz S.A., sold them to the subsidiary Oxiteno Overseas Corporation, which financed their acquisition through a syndicated loan in the amount of US\$60 million maturing in June 2008, with annual interest rate of 5.05%. The loan was guaranteed by the Company and Oxiteno S.A. - Indústria e Comércio, which, among others, assumed the commitment of maintaining the financial index determined by the ratio between net debt and consolidated EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) lesser than or equal to 3.5, and the ratio between consolidated EBITDA and consolidated net financial expenses greater than or equal to 1.5. The subsidiary LPG International Inc. used the proceeds from the sale of notes of Companhia Ultragaz S.A. to redeem notes issued by it.

In December 2005, the subsidiary LPG International Inc. issued notes in the amount of US\$250 million, maturing in December 2015, with annual interest rate of 7.25% paid semiannually, with the first payment scheduled for June 2006. The issue price was 98.75% of the notes' face value, which represented a total yield for investors of 7.429% per year upon issuance. The notes were guaranteed by the Company and by Oxiteno S.A. - Indústria e Comércio.

As a result of the issuance of notes and the syndicated loan, the Company and its subsidiaries mentioned above are subject to covenants that limit, among other things, their ability to incur indebtedness and establish liens on assets, engage in mergers and acquisitions, conduct transactions with securities issued by it, and conduct transactions with affiliated companies. The restrictions imposed on the Company and its subsidiaries have not limited their ability to conduct their business to date and not restricted the performance of its strategy.

c) Debentures

On February 2, 2005, the Extraordinary Stockholders' Meeting approved the issuance by the Company and the public distribution in a single series of 30,000 nonconvertible debentures with nominal unit value of R\$10,000.00 (ten thousand Brazilian reais), totaling R\$300,000.

On March 30, 2005, the Company's Board of Directors, as delegated by the Extraordinary Stockholders' Meeting, approved the interest rate determined through a bookbuilding process on the same date.

On April 6, 2005, the Brazilian Securities Commission (CVM) registered the operation, and funds of R\$304,854, net of commission, were received on April 8, 2005.

Ultrapar Participações S.A. and Subsidiaries

Characteristics of the debentures are:

Nominal unit value:	R\$10,000.00
Final maturity:	March 1, 2008
Nominal value payment:	Lump sum at final maturity
Yield:	102.5% of CDI
Yield payment:	Semiannually, beginning March 1, 2005
Repricing:	None

The debentures are subject to commitments that restrict, among other things, certain operations of merger or spin-off, as well as the disposal of operating assets that would result in a reduction of more than 25% of consolidated net sales, and also included the obligation to maintain a consolidated net debt to EBITDA ratio less than or equal to 3.5. Thus far, none of these commitments have restricted the ability of the Company and its subsidiaries to conduct business.

d) Collateral

A portion of the financing is collateralized by liens on property, plant and equipment, shares, promissory notes and guarantees provided by the Company and its subsidiaries, as shown below:

	<u>3/31/2006</u>	<u>12/31/2005</u>
Amount of financing secured by:		
Property, plant and equipment	52,001	53,734
Shares of affiliated companies and minority stockholders' guarantees	<u>8,912</u>	<u>11,244</u>
	<u>60,913</u>	<u>64,978</u>

Other loans are collateralized by guarantees issued by the Company and by the future flow of exports. The Company is responsible for sureties and guarantees offered on behalf of its subsidiaries, amounting to R\$954,399 (R\$1,017,858 in 2005).

Certain subsidiaries have issued guarantees to financial institutions related to amounts owed to those institutions by some of their customers (vendor financing). In the event any subsidiary is required to make a payment under the guarantees, the subsidiary may recover such amounts paid directly from its customers through commercial collection. Maximum future payments related to these guarantees amount to R\$22,555 (R\$33,208 in 2005), with terms of up to 210 days. As of March 31, 2006, the Company and its subsidiaries have not incurred any loss nor recorded any liability related to these guarantees.

Certain subsidiaries have conducted operations denominated "supplier finance" with its suppliers. In the operation, the banks advance to suppliers the proceeds from sales made to the subsidiaries, through acceptance by the subsidiaries with the banks. Those operations have an average term of nine days and are recorded as bank loans, since the suppliers received the funds from the banks, using the subsidiaries' credit. The amount as of March 31, 2006 totalized R\$322. Financial income related to this operation for the quarter amounted to R\$6 and is recorded in financial income.

In some cases, taxes on the revaluation reserve of certain subsidiaries are recognized only upon the realization of this reserve, since the revaluations occurred prior to the publication of CVM Resolution No. 183/95. Taxes on these reserves are R\$7,167 (R\$7,288 in 2005).

e) Retention of profits reserve

This reserve is supported by the investment program, in conformity with article 196 of Brazilian corporate law, and includes both a portion of net income and the realization of the revaluation reserve.

f) Realizable profits reserve

This reserve is established in conformity with article 197 of Brazilian corporate law, based on the equity in subsidiaries and affiliated companies. Realization of the reserve usually occurs upon receipt of dividends, disposal and write-off of investments.

17. SEGMENT INFORMATION

The Company has three reportable segments: gas, chemicals and logistics. The gas segment distributes LPG to retail, commercial and industrial consumers mainly in the South, Southeast and Northeast Regions of Brazil. The chemicals segment primarily produces ethylene oxide, ethylene glycols, ethanolamines and etherglycols. Operations in the logistics segment include storage and transportation, mainly in the Southeast and Northeast Regions of Brazil. Reportable segments are strategic business units that offer different products and services. Intersegment sales are transacted at prices approximating those that the selling entity is able to obtain with third parties.

The principal financial information about each of the Company's reportable segments is as follows:

19. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of March 31, 2006, the subsidiaries Oxiteno S.A. - Indústria e Comércio and Oxiteno Nordeste S.A. - Indústria e Comércio maintained R\$866 (R\$848 in 2005) and the subsidiaries of Ultragaz Participações Ltda. maintained R\$24,828 (R\$25,191 in 2005) as an allowance for doubtful accounts.
- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Temporary cash investments of the Company and its subsidiaries are comprised substantially of transactions linked to the interbank deposit rate (CDI), as described in Note 4.

A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Borrowings are originate from the BNDES, and foreign currency financing, as mentioned in Note 13.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Ultrapar Participações S.A. and Subsidiaries

- Exchange rate - The Company's subsidiaries use hedge (mainly US\$ to CDI) instruments available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes equivalent to the assets and liabilities in foreign currency to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian reais at March 31, 2006 and December 31, 2005:

	<u>3/31/2006</u>	<u>12/31/2005</u>

The market value of investment in affiliated company is based on the share price trading on the São Paulo Stock Exchange - BOVESPA.

20. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

a) Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in a collective labor agreement, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of March 31, 2006.

The subsidiaries Companhia Ultragaz S.A. and SPGás Distribuidora de Gás Ltda. are parties to an administrative proceeding at the SDE (Economic Law Department), linked to CADE (Administrative Council for Economic Defense), under the allegation of anticompetitive practice in the municipalities of a region of the State of Minas Gerais in 2001. In September 2005, the SDE issued a technical notice recommending to CADE a ruling against the companies involved in this proceeding. In their defense, the subsidiaries' arguments, among others, are that: (i) under the terms of the notice issued by the Company's chief executive officer on July 4, 2000, the subsidiaries' employees were forbidden to discuss with third parties matters related to prices; and (ii) no consistent evidence was attached to the proceeding's records, and the SDE acknowledges its failure in the attempt to prove the practice. In view of the arguments presented, the fact that the technical notice has no binding effect on CADE's decision, and their legal counsel's opinion, the subsidiaries did not record a provision for this issue. Should CADE's decision be unfavorable, the subsidiaries can still discuss the issue at the judicial level.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, State of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for property damage and pain and suffering for all the victims injured

and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultramar's on-site LPG storage facilities did not contribute to the explosion. Of the 54 lawsuits judged thus far, a

Ultrapar Participações S.A. and Subsidiaries

favorable judgment was obtained for 53, with 1 unfavorable decision, which is still subject to appeal, and whose amount, should the decision be upheld, is R\$17. The subsidiary has insurance for this contingency, and the uninsured contingent amount is R\$39,633. The Company has not recorded any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. The unpaid amounts were recorded in the financial statements of the Company and its subsidiaries, totaling R\$21,370 (R\$36,966 in 2005). Recently the Federal Supreme Court (STF) has decided the matter favorable to the taxpayer. Although it is a precedent, the effect of this decision does not automatically apply to all companies, since they must await judgment of their own lawsuits. On 3/29/2006 a final and unappealable decision was rendered on the lawsuit of the subsidiary Companhia Ultragaz S.A. Based on this decision the subsidiary reversed the existing provision in the amount of R\$15,886, net of attorney's fees, as financial income in the statement of income for the quarter. In addition to the accrued amount, the Company has other subsidiaries that have been unsuccessful in obtaining an injunction and, accordingly, have been paying the taxes. Thus, should there be final favorable outcomes for the subsidiaries in all lawsuits, the Company estimates that the total effect on income before income and social contribution taxes should reach R\$42,027, net of attorney's fees.

The subsidiary Oxiteno S.A. - Indústria e Comércio and its subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio accrued R\$14,824 (R\$14,532 in 2005) for ICMS tax assessments being judged at lower-level and appeal-level administrative courts. The subsidiaries are currently awaiting a decision on the appeals.

The subsidiary Utingás Armazenadora S.A. has been challenging in court ISS (Service Tax) tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower-court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The unprovisioned updated amount of the contingency as of March 31, 2006 is R\$31,292 (R\$29,995 in 2005).

On October 7, 2005, the subsidiaries of Ultragaz Participações Ltda. filed for and obtained an injunction to support the offset of PIS and COFINS credits against other federal taxes administered by the Federal Revenue Service (SRF), notably income and social contribution taxes. According to the injunction obtained, the subsidiaries have been making escrow deposits for these debits and recognizing the corresponding liability for this purpose.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks on these proceedings as possible and/or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

b) Contracts

The subsidiary Terminal Químico de Aratu S.A. - Tequimar has contracts with CODEBA - Companhia Docas do Estado da Bahia and Complexo Industrial Portuário Governador Eraldo Gueiros in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment.

As of March 31, 2006, such rates were R\$3.67 and R\$3.44 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since inception of the contracts.

The subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A., effective through 2012, which establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the period ended March 31, 2006 and 2005, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased.

	Minimum purchase commitment	Actual demand (real)1 st quarter	
		2006	2005
In tons	137,900	44,995	49,863

c) Insurance coverage for subsidiaries

The Company has appropriate insurance policies to cover various risks, including loss and damage from fire, lightning, explosion of any nature, windstorm, plane crash and electrical damage, among others, protecting the units and other branches of all subsidiaries, with coverage amounting to US\$240 million.

Ultrapar Participações S.A. and Subsidiaries

For the units of Oxiteno S.A. - Indústria e Comércio, Oxiteno Nordeste S.A. - Indústria e Comércio and Canamex Químicos S.A. de C.V., there is also loss of income insurance against losses from potential accidents related to their assets, with coverage amounting to US\$128 million.

A civil liability insurance program covers all Group companies, with coverage of US\$150 million, for losses and damage from accidents caused to third parties, related to the commercial/industrial operations and/or distribution and sale of products and services.

Group life insurance, personal accident insurance, health insurance, and domestic and international transportation insurance are also contracted.

21. STOCK COMPENSATION PLAN (CONSOLIDATED)

The Extraordinary Stockholders' Meeting held on November 26, 2003 approved a compensation plan for management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed; and (ii) the transfer of the beneficial ownership of the shares after ten years from the initial grant, provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. The total amount granted to executives until March 31, 2006, including taxes, was R\$8,940 (R\$8,940 in 2005). This amount is being amortized over a period of ten years and the amortization related to the quarter ended March 31, 2006, in the amount of R\$223 (R\$191 in 2005), was recorded as an operating expense.

22. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11% of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they may opt to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name in Ultraprev; or (ii) a fixed-monthly amount that will deplete the fund accumulated in the participant's name in a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt of the retirement benefit. In 2006, the Company and its subsidiaries contributed R\$800 (R\$1,192 in 2005) to Ultraprev, which was charged to income for the period. The total number of participating employees as of March 31, 2006 was 5,906, with no participants retired to date. Additionally, Ultraprev has 1 active participant and 31 former employees receiving defined benefits according to the policies of a previous plan.

(2) Performance Analysis:

Net Sales and Services - Ultrapar's net consolidated sales and services in 1Q06 amounted to R\$ 1,097.7 million, down 3% compared to the same quarter in 2005 and down 2% in relation to 4Q05.

Ultragaz: In 1Q06, Brazil's LPG market expanded by 1.3% compared to the same period in 2005. In this same period, Ultragaz's sales volume totaled 355.2 thousand tons, flat compared to 1Q05. The level sales performance in relation to the market already reflects a number of initiatives taken as part of Ultragaz's distribution structure review. Compared to 4Q05, sales volume at Ultragaz saw a retraction of 6%, as a result of seasonal effects between the two periods. Both the bottled and bulk segments remained flat in relation to 1Q05. In the large bulk segment, the reverse seen in falling sales volume reflects the revision of the use of LPG vis à vis the natural gas, driven by the uncertainties regarding natural gas supply from Bolivia. Net sales at Ultragaz amounted to R\$ 694.2 million in 1Q06, up 3% compared to 1Q05, as a result of the market repositioning brought about by the company's distribution structure review. Compared to 4Q05, net sales decreased by 4%.

Oxitenó: Total sales volume at Oxitenó amounted to 128.8 thousand tons in 1Q06, up 7% in relation to 1Q05. In this same period, sales in the domestic market increased by 2.5 thousand tons, or 3%, compared to 1Q05, basically due to increased sales in the paints, varnishes, cosmetics and detergents segments. Export markets saw an increase of 6.4 thousand tons, or 18%, compared to 1Q05, as a consequence of (i) higher sales to China and (ii) a 27% increase in the volume sold by Canamex. Compared to 4Q05, Oxitenó's sales volume increased by 7%, as a result of increased exports. In 4Q05, Oxitenó's exports were impacted by a stoppage to replace the catalysts in the Camaçari plant. Oxitenó's net sales in 1Q06 amounted to R\$ 357.4 million, down 15% compared to 1Q05, basically due to: (i) the 18% stronger Brazilian real, partially offset by an increase of 7% in sales volume and (ii) the drop in the international glycol price in 2005. Compared to 4Q05, despite a stronger Brazilian real, Oxitenó's net sales were up 1%, due to a 7% increase in sales volume.

Ultracargo: The average storage levels of Ultracargo, measured in cubic meters, increased by 3% in 1Q06, compared to 1Q05, due to the start-up of operations at the Santos Intermodal Terminal - TIS, in mid-2005. Compared to 4Q05, average storage levels saw a retraction of 3%, as a consequence of the temporary non-availability of various tanks at Suape, due to expansion works. Ultracargo reported net services of R\$ 58.1 million in 1Q06, up 7% compared to 1Q05, due basically to (i) the additional revenue from TIS and (ii) contractual tariffs readjustments. Compared to 4Q05, net services saw a reduction of 3%, basically due to lower operational volume.

Cost of Sales: Ultrapar's cost of sales in 1Q06 amounted to R\$ 898.7 million, up 2% compared to 1Q05, but down 5% in relation to 4Q05.

Ultragaz: The cost of sales in the quarter increased by 2% compared to 1Q05, basically due to an increase in freight costs, as a result of fuel price increases during last year, and the rise in personnel costs, as a result of collective wage increase agreement in 2005. Compared to 4Q05, the cost of sales was down 8%, or R\$ 48.3 million, due to: (i) a reduction of 6% in sales volume and (ii) the initiatives taken as part of the company's distribution structure review, including the effect of non-recurring costs reported in 4Q05.

Oxitenó: Oxitenó's cost of sales in 1Q06 amounted to R\$ 279.2 million, up 3% compared to 1Q05, due to (i) an increase in sales volume and the rise in the dollar cost of ethylene, partially offset by the appreciation in the Brazilian real, and (ii) an increase in fixed costs, as a result of a reduction in the finished products goods inventory. Compared to 4Q05, the cost of sales increased by 2% as a result of a 7% increase in sales volume and the effect of the 2% appreciation in the Brazilian real.

Ultracargo: The cost of services provided by Ultracargo in 1Q06 was up by 4%, compared to the same quarter in 2005, principally as a result of (i) the start-up of operations at the Santos Intermodal Terminal, (ii) the increase in fuel costs, and (iii) increased salaries as a result of the annual collective wage agreement. When compared to 4Q05, Ultracargo's cost of services was down by 8%, basically due to lower operational volume.

Edgar Filing: ULTRAPAR HOLDINGS INC - Form 6-K

Gross Profit: In 1Q06 Ultrapar reported a gross profit of R\$199.0 million, a decrease of 23% in relation to 1Q05. Compared to 4Q05, the gross profit increased by 10%.

Selling, General and Administrative Expenses: In 1Q06, Ultrapar's selling, general and administrative expenses amounted to R\$ 140.4 million, up 2% compared to 1Q05, and down 1% compared to 4Q05.

Ultrapar Participações S.A. and Subsidiaries

Ultragaz: Selling, general and administrative expenses at Ultragaz amounted to R\$ 74.1 million, up 2% compared to 1Q05, principally due to an increase in personnel expenses, in accordance with the annual collective wage agreement. Compared to 4Q05, selling, general and administrative expenses were down by 2%, the result of a 12% drop in selling expenses - in 4Q05 there were non-recurring expenses related to the company's distribution structure review.

Oxitenó: Oxitenó's selling, general and administrative expenses amounted to R\$ 49.1 million in 1Q06, 6% lower than in 1Q05, due to a reduction in the provision for employee profit sharing, partially offset by an increase in freight expenses, in line with the rise in volume sold. Compared to 4Q05, there was a reduction of R\$ 0.4 million, or 1%.

Ultracargo: Selling, general and administrative expenses at Ultracargo amounted to R\$ 18.4 million in 1Q06, a 36% increase compared to the same period in 2005, basically due to expansion in the size of the operational workforce, as a result of new operations, and the increase in staff salaries as a result of the annual collective wage agreement. Compared to 4Q05, there was an increase of R\$ 0.3 million, or 2%.

Income from Operations before Financial Items: Ultrapar reported an income from operations before financial items of R\$ 59.2 million, 52% lower than the operating income reported in 1Q05. Compared to 4Q05, Ultrapar's income from operations before financial items increased by 57%.

Financial Income (Expenses), Net: Ultrapar reported financial income, net, of R\$ 12.4 million in 1Q06 compared to net financial expenses of R\$ 8.8 million in 1Q05. This improvement in the financial result is explained by (i) the non-recurring positive effect of R\$ 15.9 million, the result of winning a court case in regard PIS and COFINS taxes, explained in further detail below and (ii) an increase in the company's net cash position, which amounted to R\$ 127.4 million at the end of 1Q06, compared to a net debt of R\$ 17.6 million at the end of 1Q05. Through its subsidiaries, Ultrapar had filed lawsuits questioning the levy of PIS and COFINS taxes on sources of income other than revenues. In March 2006 the Federal Supreme Court decided one of the lawsuits favorable to Ultrapar. The amount of R\$ 15.9 million booked in the financial income refers only to the amount disputed by Ultragaz. Ultrapar has other subsidiaries which are also disputing this issue, but which have yet to have their cases ruled on. Should these subsidiaries also obtain a favorable final court decision, Ultrapar estimates that the total effect on financial income will be an additional R\$ 42 million, net of legal fees.

Nonoperating Income (Expenses), Net: In 1Q06 Ultrapar reported nonoperating expenses, net, of R\$ 2.1 million, an increase of 17% compared to 1Q05, when Ultrapar reported a non-operating expenses, net, of R\$ 1.8 million. In both periods, the non-operating expenses were largely due to the scrapping of storage cylinders at Ultragaz. Compared to 4Q05, when Ultrapar reported nonoperating income, net, of R\$ 1.5 million, the company saw a decrease of 240%, due to the sale of assets (vehicles and land) in 4Q05.

Income and Social Contribution: Ultrapar's 1Q06 income and social contribution taxes expenses amounted to R\$ 23.0 million, a decrease of 27% in relation to 1Q05, when Ultrapar's income and social contribution taxes expenses were R\$ 31.4 million, as a result of the decrease in income from operations. Compared to 4Q05, when the company reported R\$ 7.4 million, Ultrapar's income and social contribution taxes expenses were 211% higher, due to the increase in income from operations.

Benefit of Tax Holidays: Ultrapar is entitled to federal tax benefits for its activities in the Northeast Region of Brazil, due to the federal program for development of the region. Tax benefits cover Oxitenó's plant in Camaçari, Bahiana Distribuidora de Gás and Tequimar. Ultrapar's operations generated R\$ 11.4 million in benefits of tax holidays in 1Q06, compared to R\$ 20.9 million generated in 1Q05. The drop in benefits of tax holidays reflects the company's lower income from operations and the increase in the proportion of income from operations generated by Ultragaz, which enjoys lower benefit of tax holidays.

Net Income: Ultrapar's consolidated net income in 1Q06 amounted to R\$ 56.8 million, down 44% compared to 1Q05, but up 36% compared to 4Q05.

EBITDA: Ultrapar's consolidated operating cash generation (EBITDA) amounted to R\$ 106.6 million in 1Q06, 37% lower than in 1Q05, but 23% higher than in 4Q05.

Ultragaz: EBITDA at Ultragaz amounted to R\$ 55.3 million in 1Q06, 22% and 61% higher than the respective figures reported in 1Q05 and 4Q05, as a result of market repositioning and operational efficiencies driven by the company's distribution structure review.

Ultrapar Participações S.A. and Subsidiaries

Oxiteno: Oxiteno ended 1Q06 with EBITDA of R\$ 40.5 million, a 64% reduction compared to 1Q05, basically as a result of the appreciation in the Brazilian real on the company's sales, the high oil price level and the drop in international petrochemical commodity prices in 2005. Compared to 4Q05, this reduction amounted to 4%, basically due to the appreciation in the Brazilian real.

Ultracargo: EBITDA at Ultracargo amounted to R\$ 9.3 million, down 7%, or R\$ 0.7 million, compared to 1Q05, basically due to the new operations in the ramp up phase. However, compared to 4Q05, EBITDA saw an improvement of 16%.
