ING Group Interim Accounts 1Q2009

8

Table of Contents

Notes to the condensed consolidated interim accounts*

1. BASIS OF PRESENTATION

These condensed consolidated interim accounts have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting . The accounting principles used to prepare these condensed consolidated interim accounts comply with International Financial Reporting Standards as adopted by the European Union and are consistent with those set out in the notes to the 2008 Consolidated Annual Accounts of ING Group, except for the amendments referred to below.

The following standards and interpretations became effective in 2009:

Amendment to IFRS 2 Share-based Payments Vesting Conditions and Cancellations

IFRS 8 Operating Segments

IAS 1 Presentation of Financial Statements

IAS 23 Borrowing Costs

Amendments to IAS 32 Financial Instruments: Presentation and IAS 1 Presentation of Financial Statements
Puttable Financial Instruments and Obligations Arising on Liquidation

Amendments to IFRS 1 First-time Adoption of IFRS and IAS 27 Consolidated and Separate Financial Statements
Determining the cost of an Investment in the Separate Financial Statements

IFRIC 13 Customer Loyalty Programmes

IFRIC 15 Agreements for the Construction of Real Estate

IFRIC 16 Hedges of a Net Investment in a Foreign Operation

2008 Annual Improvements to IFRS

Amendment to IFRS 7 Improving Disclosures about Financial Instruments

Amendment to IFRIC 9 and IAS 39 Embedded Derivatives

The Group has adopted IFRS 8 Operating Segments with effect from 1 January 2009. IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. In contrast, the predecessor Standard (IAS 14 Segment Reporting) required an entity to identify two sets of segments (business and geographical), using a risks and rewards approach, with the entity's system of internal financial reporting to key management personnel serving only as the starting point for the identification of such segments. The identification of the Group's reportable segments has not changed as a result of the adoption of IFRS 8.

None of the other recently issued standards and interpretations has had a material effect on equity or result for the period.

The following new and revised standards and interpretations were issued by the IASB, which become effective for ING Group as of 2010:

Amendment to IFRS 1 First-time adoption of IFRS

IFRS 3 Business Combinations (revised) and IAS 27 Consolidated and Separate Financial Statements (amended)

Amendment to IAS 39 Financial Instruments: Recognition and Measurement Eligible Hedged Items

IFRIC 17 Distributions of Non-cash Assets to Owners

IFRIC 18 Transfers of Assets from Customers

Improvements to IFRSs¹

ING Group does not expect the adoption of these new or revised standards and interpretations to have a significant effect on the consolidated financial statements.

International Financial Reporting Standards as adopted by the EU provide several options in accounting principles. ING Group's accounting principles under International Financial Reporting Standards as adopted by the EU and its decision on the options available are set out in the section Principles of valuation and determination of results in the 2008 Annual Accounts.

* Unaudited

¹ Not yet endorsed by the EU and therefore not yet part of IFRS EU.

ING Group Interim Accounts 1Q2009

9

Table of Contents

Notes to the condensed consolidated interim accounts*

These condensed consolidated interim accounts should be read in conjunction with ING Group's 2008 Annual Accounts.

Certain amounts recorded in the condensed consolidated interim accounts reflect estimates and assumptions made by management. Actual results may differ from the estimates made. Interim results are not necessarily indicative of full-year results.

In 2009, the methodology for determining the liability for insurance contracts in Japan was revised. The liability for certain guarantees is now based on the fair value. The impact of this change in accounting policy was not material to shareholders' equity and Net result of ING Group.

2. INVESTMENTS

amounts in millions of euros	31 March 2009	31 December 2008
Available-for-sale		
equity securities	7,464	8,822
debt securities	191,907	234,030
	199,371	242,852
Held-to-maturity		
debt securities	14,854	15,440
	14,854	15,440
	214,225	258,292

Following the amendments to IAS 39 and IFRS 7, **Reclassification of Financial Assets** ING Group reclassified certain financial assets from Investments to Loans and advances to customers and Amounts due from banks. On 12 January 2009 ING Group identified assets, eligible under the amendments, for which, it now has an intent to hold for the foreseeable future. At the reclassification date the fair value of the reclassified assets amounted to EUR 22.8 billion. As a result of the reclassification, the presentation is better aligned with the nature of the portfolios. As of the reclassification date, the (weighted average) effective interest rates on reclassified assets were in the range from 2.1 % to 11.7 % and expected recoverable cash flows were EUR 24 billion. Unrealised fair value losses recognised in shareholders' equity amounted to EUR 1.2 billion. This amount will be released from equity and amortised to the profit and loss account over the remaining life of the assets on an effective interest rate basis. From 1 January 2009 until the reclassification date no unrealised fair value losses were recognised in shareholders' equity, no impairment was recognised.

As at 31 March 2009 the carrying value in the balance sheet and the fair value of the reclassified financial assets amounted to EUR 21.9 billion and EUR 20.9 billion respectively.

If the reclassification had not been made, profit before tax would have been unchanged and shareholders' equity would have been EUR 0.7 billion after tax lower due to unrealised fair value losses.

After the reclassification, the reclassified financial assets contributed EUR 139 million to result before tax for the period ended 31 March 2009, which fully consisted of Interest income. No provision for credit losses was recognised. In the year ended 31 December 2008 no impairment on reclassified financial assets available for sale was recognised. Unrealised fair value losses of EUR 0.3 billion were recognised directly in shareholders' equity.

See note 10 for the derecognition of certain available-for-sale debt securities as a result of the transaction with the Dutch Government.

Table of Contents

Notes to the condensed consolidated interim accounts*

7. SEGMENT REPORTING

ING Group's operating segments relate to the internal segmentation by business lines. These include the business lines: Retail Banking, ING Direct, Wholesale Banking, Insurance Europe, Insurance Americas, Insurance Asia/Pacific and Other mainly includes items not directly attributable to the business lines.

Each business line is headed by a member of the Executive Board. The Executive Board sets the performance targets and approves and monitors the budgets prepared by the business lines. Business lines formulate strategic, commercial and financial policy in conformity with the strategy and performance targets set by the Executive Board.

The accounting policies of the business segments are the same as those described under Accounting policies for the consolidated balance sheet and profit and loss account. Transfer prices for inter-segment transactions are set at arm's length. Corporate expenses are allocated to business lines based on time spent by head office personnel, the relative number of staff, or on the basis of income and/or assets of the segment. With regard to investments in equity securities, a fixed return of 3% is allocated to the insurance business lines. The differences between the actual dividend income, capital gains and impairments and the allocated return are included in Other.

ING applies a system of capital charging that makes the results of the banking business units globally comparable, irrespective of the book equity they have and the currency they operate in. ING's policy for the banking business units is that equity may only be invested locally at the local risk free rate. Banking business units are charged by the Corporate Line for the income that they make on the invested equity and are given a benefit based on the risk free euro rate on the economic capital they employ. Consequently, the results of the businesses as disclosed are the local results after Group overhead charges while the investment returns on equity are based on the risk free euro rate on economic capital.

ING Group evaluates the results of its operating segments using a financial performance measure called underlying result before taxation. Underlying result before taxation is defined as result before taxation excluding the impact of divestments and special items.

Impairments on investments are presented within Investment income, which is part of Total income. In the first quarter of 2009, total impairments of EUR 585 million (first quarter of 2008: EUR 121 million) are included in the following segments: nil (first quarter of 2008: EUR 7 million) in Retail Banking, EUR 129 million (first quarter of 2008: EUR 4 million) in ING Direct, EUR 59 million (first quarter of 2008: EUR 22 million) in Wholesale Banking, EUR 9 million (first quarter of 2008: nil) in Insurance Europe, EUR 172 million (first quarter of 2008: EUR 50 million) in Insurance Americas, EUR 29 million (first quarter of 2008: EUR 2 million) in Insurance Asia/Pacific and EUR 187 million (first quarter of 2008: EUR 36 million) in Other.

Divestments reflects the net impact of divestments including the sale of ING's 70% stake in Canada. Special items includes EUR 447 million in restructuring costs and the one-time EUR 46 million transaction result on the Illiquid Asset Back-up Facility (before tax).

8. ACQUISITIONS AND DISPOSALS

In October 2008 ING announced that it had reached agreement to sell its entire Taiwanese life insurance business, ING Life Taiwan, to Fubon Financial Holding Co. Ltd. for approximately EUR 447 million. As at 31 December 2008 ING Life Taiwan qualified as a disposal group held for sale. The sale was completed on 13 February 2009.

Consequently ING Life Taiwan is deconsolidated in the first quarter of 2009. ING was paid in a fixed number of shares with the difference between the fair value of those shares at the closing date and the sale price being paid in subordinated debt securities of the acquirer. The shares have a lock-up period of one year. ING Life Taiwan is included in the segment Insurance Asia/Pacific. This transaction resulted in a loss of EUR 292 million. The loss was recognised in 2008 in the profit and loss account.

In November 2008 the Government of Argentina passed legislation to nationalise the private pension system (AFJPs). Under the law, all client balances held by the private pension system would be transferred to the Argentina Government and AFJP s pension business would be terminated. The law became effective in December 2008 when the Argentine Social Security Administration (ANSES) took ownership over the affiliate accounts in 2009. The nationalisation impacted the pension assets only, thus leaving ING responsible for the ongoing operating costs and liabilities including severance obligations. This resulted in a loss of EUR 188 million that was recognised in 2008. In February 2009, ING announced that it had agreed to sell its 70% stake in ING Canada for net proceeds of approximately EUR 1,316 million (CAD 2,099 million). The transaction was closed on 19 February 2009. This transaction resulted in a decrease in Total assets of approximately EUR 5,471 million and a decrease of Total liabilities of approximately EUR 3,983 million.

9. ISSUANCES, REPURCHASES AND REPAYMENT OF DEBT AND EQUITY SECURITIES IN ISSUE

Delta hedge portfolio for employee options

ING Groep N.V. has bought 7,260,000 (depository receipts for) ordinary shares for its delta hedge portfolio, which is used to hedge employee options. The shares were bought on the open market between 19 March and 23 March 2009 at an average price of EUR 4.24 per share.

Issue of debt securities in issue

In January 2009, ING Bank issued 3 year USD 6 billion government guaranteed senior unsecured bonds. In February 2009, ING Bank issued a 5 year EUR 4 billion fixed rate government guaranteed senior unsecured bond and in March 2009 ING Bank issued a 5 year USD 2 billion fixed rate government guaranteed senior unsecured bond. All were issued under the Credit Guarantee Scheme of the State of the Netherlands and are part of ING's regular medium-term funding operations.

10. IMPORTANT EVENTS AND TRANSACTIONS

ING Group and the Dutch government (State) reached an agreement on an Illiquid Assets Back-Up Facility (Facility) on 26 January 2009; the transaction closed on 31 March 2009. The Facility covers the Alt-A portfolios of both ING Direct US and ING Insurance Americas, with a par value of EUR 30 billion. Under the Facility, ING has transferred 80% of the economic ownership of its Alt-A portfolio to the Dutch State. As a result, an undivided 80% interest in the risk and rewards on the portfolio was transferred to the Dutch State. ING retained the legal ownership of its Alt-A portfolio. The transaction price was 90% of the par value with respect to the 80% proportion of the portfolio of which the Dutch State has become the economic owner. The transaction price remains payable by the State to ING and will be redeemed over the remaining life. Furthermore, under the Facility other fees will have to be paid by both ING and the State. As a result of the transaction ING derecognised 80% of the Alt-A portfolio from the balance sheet and recognised a receivable on the Dutch State.

The overall sales proceeds amounts to EUR 22.4 billion. The amortised cost (after prior impairments) at the date of the transaction was also approximately EUR 22.4 billion. The result, before tax, on the transaction (the difference between the sales proceeds and amortised cost) is therefore approximately nil. The fair value under IFRS at the date of the transaction was EUR 15.2 billion. The difference between the sales proceeds and the fair value under IFRS is an integral part of the transaction and therefore accounted for as part of the result on the transaction. The transaction resulted in a reduction of the negative revaluation -and therefore increase equity- by approximately EUR 5 billion (after tax).

The valuation method of the 20% Alt-A securities in the IFRS balance sheet is not impacted by this transaction. The methodology used to determine the fair value for these assets in the balance sheet under IFRS is disclosed in the 2008 Consolidated annual accounts of ING Group.

11. FAIR VALUE OF FINANCIAL ASSETS

The methods used to determine fair value of financial assets is disclosed in the 2008 Annual Accounts and has not changed significantly. The breakdown of assets by Reference to published price quotations in active markets, assets valued using Valuation techniques supported by market inputs and Assets valued using Valuation techniques not supported by market inputs was impacted in 1Q 2009 by the following:

The derecognition of Alt-A securities as disclosed in Note 10 resulted in a reduction in Valuation techniques not supported by market inputs of EUR 15.2 billion.

The reclassification from Available-for-sale to Loans as disclosed in Note 2 resulted in a reduction in Valuation techniques supported by market inputs of EUR 22.8 billion.

Certain Asset Backed Securities for an amount of approximately EUR 8 billion were reclassified from Reference to published price quotations in active markets to Valuation techniques not supported by market inputs because the relevant markets have become inactive in 1Q 2009.

Review report

To the Shareholders, the Supervisory Board and the Executive Board of ING Groep N.V.

REVIEW REPORT

Introduction

We have reviewed the accompanying condensed consolidated interim financial information for the three months period ended 31 March 2009, of ING Groep N.V., Amsterdam, which comprises the condensed consolidated balance sheet as at 31 March 2009, the related condensed consolidated profit and loss account, the condensed consolidated statement of comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the three months period then ended and explanatory notes.

Management is responsible for the preparation and presentation of this condensed consolidated interim information in accordance with IAS 34, *Interim Financial Reporting* as adopted by the European Union. Our responsibility is to express a conclusion on this interim information based on our review.

Scope of Review

We conducted our review in accordance with Dutch law including Standard 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Dutch auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information as at 31 March 2009 is not prepared, in all material respects, in accordance with IAS 34, *Interim Financial Reporting*, as adopted by the European Union.
