MERCURY AIR GROUP, INC.

5456 MCCONNELL AVENUE

LOS ANGELES, CALIFORNIA 90066

(310) 827-2737

[June __, 2005]

Dear Stockholder:

You are cordially invited to attend a Special Meeting of Stockholders of Mercury Air Group, Inc. on [July __, 2005], at 9:00 a.m., at the Company's corporate office at 5456 McConnell Avenue, Los Angeles, California. We look forward to greeting those stockholders who are able to attend.

At this important meeting, you will be asked to vote on a proposed Transaction that, if approved, is expected to result in termination of the registration of Mercury Air Group's common stock under the federal securities laws and thereby eliminate the significant expense required to comply with the reporting and related requirements under those laws. The proposed Transaction will reduce the number of common stockholders of record to fewer than 300, permitting Mercury Air Group to file for termination of registration of its common stock under the federal securities laws. The reduction in the number of common stockholders will be accomplished by amending our Certificate of Incorporation to provide for a 1-for-501 reverse stock split, followed immediately by a 501-for-1 forward stock split of our common stock. The proposed amended and restated certificate of incorporation is attached as Appendix A to this proxy statement.

If approved at the Special Meeting, the Transaction will affect Mercury Air Group's common stockholders as follows:

COMMON STOCKHOLDER BEFORE
THE TRANSACTION

NET EFFECT AFTER THE
TRANSACTION

common stockholder holding 501 or more shares:

None.

common stockholder holding fewer than 501 shares:

The common stockholder will receive from Mercury \$4.00 in cash per share, without interest.

Because Mercury Air Group has a large number of common stockholders who own fewer than 501 shares, we expect that the number of common stockholders of record will be reduced from approximately 331 to approximately 33, while the number of outstanding shares will decrease by only approximately 6.3%, a reduction of approximately 192,613 common shares from the 3,056,355 common shares outstanding as of March 1, 2005. No reduction in the number of shares held by preferred stockholders will occur as a result of this Transaction.

After careful consideration, the Board of Directors has concluded that the costs associated with being a Securities and Exchange Commission (SEC) reporting company, especially in light of the additional costs associated with compliance with Section 404 of the Sarbanes-Oxley Act of 2002, are not justified by the benefits in view of our common stock's limited trading activity. Mercury Air Group estimates that it will save up to \$3,000,000 which would have been expended through June 30, 2007 and approximately \$500,000 annually thereafter in Section 404

compliance costs. We believe that these cost-savings will be in the best interest of Mercury Air Group and its stockholders who remain after the Transaction. Although our common stock will no longer be listed on the American Stock Exchange if the Transaction is completed, we believe that our shares would be quoted on the pink sheets and our remaining stockholders would be able to trade their shares in the over-the-counter markets. In addition, the Transaction would allow our common stockholders who hold fewer than 501 shares immediately before the Transaction the opportunity to receive cash for their shares at a premium to the closing price of our common stock on the last trading day before the public announcement of the approval of the Transaction by the Special Committee and the Board of Directors, without having to pay brokerage commissions and other transaction costs.

A special committee comprised of independent directors has reviewed the proposed Transaction and considered its fairness to preferred stockholders and to common stockholders who hold fewer than 501 shares of common stock as well as those common

Table of Contents

stockholders holding 501 or more shares of common stock, and received a fairness opinion from its financial advisor with regard to the per share cash amount to be paid to the unaffiliated common stockholders holding fewer than 501 shares of common stock.

ACCORDINGLY, AFTER CONSIDERING THE RECOMMENDATION OF THE SPECIAL COMMITTEE AND CONDUCTING ITS OWN DELIBERATIONS OF THE ISSUES IT DEEMED PERTINENT, INCLUDING ALTERNATIVES TO THE TRANSACTION, THE COSTS AND BENEFITS OF REMAINING AN SEC REPORTING COMPANY AND THE FAIRNESS OF THE TRANSACTION TO STOCKHOLDERS, YOUR BOARD OF DIRECTORS BELIEVES THIS TRANSACTION IS IN THE BEST INTERESTS OF MERCURY AIR GROUP AND ITS STOCKHOLDERS AND UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR THE PROPOSAL. The enclosed proxy statement includes a discussion of the alternatives and factors considered by the board in connection with the board's approval of the Transaction. See Special Factors Background of the Transaction and Special Factors Recommendation of the Board of Directors; Fairness of the Proposed Transaction.

Consummation of the Transaction is subject to certain conditions, including the affirmative vote of at least a majority of the shares of Mercury Air Group's common and preferred stock entitled to vote at the Special Meeting, voting as a single class. It is anticipated that the Transaction will become effective at 11:59 p.m. on [July __, 2005], or as soon as reasonably practicable thereafter. Details of the proposed Transaction are set forth in the accompanying proxy statement, which we urge you to read carefully in its entirety.

At the Special Meeting, you will also be asked to grant Mercury's board of directors discretionary authority to adjourn the Special Meeting, if necessary.

The executive officers and director of Mercury have indicated that they intend to vote FOR the approval of the Transaction and FOR the proposal to grant discretionary authority to adjourn the Special Meeting. If Mercury's executive officers and directors exercise presently exercisable options they hold prior to the record date for the Special Meeting, they would own approximately 42.8% of the then outstanding shares of common and preferred stock, voting as a single class entitled to vote at the Special Meeting.

IT IS VERY IMPORTANT THAT YOUR SHARES ARE REPRESENTED AND VOTED AT THE MEETING, WHETHER OR NOT YOU PLAN TO ATTEND. ACCORDINGLY, PLEASE SIGN, DATE AND RETURN YOUR PROXY IN THE ENCLOSED ENVELOPE AT YOUR EARLIEST CONVENIENCE.

Your interest and participation in the affairs of the Company are greatly appreciated. Thank you for your continued support.

Sincerely,

Joseph A. Czyzyk
Chairman of the Board,
Chief Executive Officer and President

NOTICE OF SPECIAL MEETING OF STOCKHOLDERS
TO BE HELD [JULY 31, 2005]

[June __, 2005]

To the Stockholders of Mercury Air Group, Inc.:

NOTICE IS HEREBY GIVEN that a Special Meeting of Stockholders (the Special Meeting) of Mercury Air Group, Inc., a Delaware corporation (the Company or Mercury), will be held at the Company s corporate office at 5456 McConnell Avenue, Los Angeles, California, on the [__ day of July, 2005], at 9:00 a.m., for the following purposes:

1. To consider and vote upon a proposal to amend the Company s Certificate of Incorporation to effect a 1-for-501 reverse stock split followed immediately by a 501-for-1 forward stock split of the Company s common stock (the Transaction). As a result of the Transaction, (a) each stockholder owning fewer than 501 shares of common stock immediately before the Transaction will receive from the Company \$4.00 in cash, without interest, for each of such stockholder s shares of the Company s common stock; and (b) each share of common stock held by a stockholder owning 501 or more shares will continue to represent one share of the Company after completion of the Transaction. The proposed Amended and Restated Certificate of Incorporation is attached as Appendix A to this proxy statement.
2. To grant the Company s Board of Directors discretionary authority to adjourn the Special Meeting if necessary to satisfy the conditions to completing the Transaction, including for the purpose of soliciting proxies to vote in favor of the Transaction.

Owners of record of the Company s common and preferred stock at the close of business on [June __, 2005], the record date, will be entitled to vote at the meeting. If your shares are held in the name of a broker, trust or other nominee (often referred to as held in street name), you must instruct them on how to vote your shares. Whether or not you plan to attend the meeting, please date, sign and mail the enclosed proxy in the envelope provided. Thank you for your cooperation.

The Board of Directors has carefully considered the terms of the Transaction and believes that they are fair to, and in the best interests of, Mercury and its stockholders. The Board of Directors unanimously recommends that you vote FOR the Transaction and FOR granting the Board of Directors discretionary authority to adjourn the Special Meeting.

By Order of the Board of Directors

Joseph A. Czyzyk
Chairman of the Board, Chief Executive
Officer and President

[June __, 2005]

PROXY STATEMENT FOR
2005 SPECIAL MEETING OF STOCKHOLDERS

INTRODUCTION

This Proxy Statement is furnished to the stockholders of Mercury Air Group, Inc., a Delaware corporation (the Company or Mercury), in connection with the solicitation by the board of directors of the Company of proxies to be used at the Special Meeting of Stockholders (the Special Meeting) to be held at the Company's corporate offices at 5456 McConnell Avenue, Los Angeles, CA 90066, on [July __, 2005], at 9:00 a.m., local time, and at any adjournment thereof, and is being mailed to the stockholders on or about the date set forth above.

All shares represented by properly executed proxies received by the board of directors pursuant to this solicitation will be voted in accordance with the stockholder's directions specified on the proxy or, in the absence of specific instructions to the contrary, will be voted in accordance with the board of directors' unanimous recommendations, which are:

- FOR the proposal to amend the Company's Certificate of Incorporation to effect a 1-for-501 reverse stock split followed immediately by a 501-for-1 forward stock split of the Company's common stock (the Transaction). As a result of the Transaction, (a) each stockholder owning fewer than 501 shares of common stock, \$0.01 par value (common stock) immediately before the Transaction will receive from the Company \$4.00 in cash, without interest, for each of such stockholder's shares of the Company's common stock; and (b) each share of common stock held by a stockholder owning 501 or more shares will continue to represent one share of the Company after completion of the Transaction.
- FOR granting the Company's Board of Directors discretionary authority to adjourn the Special Meeting if necessary to satisfy the conditions to completing the Transaction, including for the purpose of soliciting proxies in favor of the Transaction.

If the Transaction is approved, as permitted by Delaware law, common stockholders whose shares are converted into less than one whole share in the reverse split (meaning they held fewer than 501 shares at the effective time of the reverse split) will receive a cash payment from Mercury for their fractional shares interests equal to \$4.00 cash, without interest, for each share of common stock they held immediately prior to the reverse split.

Stockholders who own 501 or more shares of common stock at the effective time of the Transaction will not be entitled to receive any cash for their fractional share interests resulting from the reverse stock split. The forward split that will immediately follow the reverse split will reconvert their whole share and fractional share interests back into the same number of shares of common stock they held immediately prior to the effective time of the Transaction. As a result, the total number of shares held by such a stockholder will not change after completion of the Transaction.

After the Transaction, Mercury anticipates that it will have approximately 33 common stockholders of record. In the event that there are fewer than 300 common stockholders of record following the Transaction, Mercury intends to file a Form 15 with the Securities and Exchange Commission to terminate registration of its common stock under the federal securities laws. As a result, Mercury would no longer be subject to the annual and periodic reporting requirements under the federal securities laws that are

Table of Contents

applicable to Securities and Exchange Commission (SEC) reporting companies although Mercury currently intends to continue to provide reports as to its financial condition and results of operation which Mercury expects may be accessed at www.pinksheets.com. In addition, Mercury common stock would cease to be listed on the American Stock Exchange, any trading in Mercury s common stock after the Transaction and deregistration of the common stock will only occur in the over-the-counter market or in privately negotiated sales, and Mercury s common stock will likely only be quoted in the pink sheets.

This Transaction cannot occur unless the holders of more than a majority of the issued and outstanding shares of Mercury s common stock and Series A 8% Cumulative Convertible Preferred Stock, \$0.01 par value (preferred stock), voting as a single class, approve the Transaction and the proposed Amended and Restated Certificate of Incorporation, which is attached as Appendix A to this proxy statement.

The executive officers and directors of Mercury have indicated that they intend to vote FOR the approval of the Transaction. If Mercury s executive officers and directors exercise presently exercisable options they hold prior to the record date for the Special Meeting, they would own approximately 42.8% of the then outstanding shares of common and preferred stock, voting as a single class, entitled to vote at the Special Meeting.

A proxy may be revoked, without affecting any vote previously taken, by written notice mailed to the Company (attention Wayne Lovett) or delivered in person at the meeting, by filing a duly executed, later dated proxy, or by attending the meeting and voting in person.

Only stockholders of record at the close of business on [June ___, 2005], are entitled to notice of and to vote at the Special Meeting and any adjournment thereof. Each share so held entitles the holder thereof to one vote upon each matter to be voted on. As of the record date, the Company had outstanding 3,056,355 shares of common stock and 462,627 shares of preferred stock. The presence of holders of a majority of the issued and outstanding shares of common and preferred stock, represented as a single class, entitled to vote at the Special Meeting, either in person or represented by a properly executed proxy, is necessary to constitute a quorum for the transaction of business at the Special Meeting.

This document provides you with detailed information about the proposed Transaction. Please see Where You Can Find More Information for additional information about Mercury on file with the Securities and Exchange Commission.

This Proxy Statement and the accompanying proxy were first mailed to stockholders on or about [June ___, 2005].

SUMMARY TERM SHEET

THIS SUMMARY TERM SHEET, TOGETHER WITH THE QUESTIONS AND ANSWERS SECTION THAT FOLLOWS, PROVIDES AN OVERVIEW OF ALL MATERIAL MATTERS THAT ARE PRESENTED IN THE PROXY STATEMENT, INCLUDING THE MATERIAL TERMS OF THE PROPOSED TRANSACTION. FOR A MORE COMPLETE DESCRIPTION WE URGE YOU TO CAREFULLY READ THIS PROXY STATEMENT AND ALL OF ITS APPENDICES BEFORE YOU VOTE. FOR YOUR CONVENIENCE, WE HAVE CROSS-REFERENCED TO THE LOCATION IN THIS PROXY STATEMENT WHERE YOU CAN FIND A MORE COMPLETE DISCUSSION OF EACH ITEM BELOW.

AS USED IN THIS PROXY STATEMENT, MERCURY, THE COMPANY, WE, OUR, OURS AND US TO MERCURY AIR GROUP, INC., A DELAWARE CORPORATION, AND THE TRANSACTION REFERS TO THE 1-FOR-501 REVERSE STOCK SPLIT AND THE 501-FOR-1 FORWARD STOCK SPLIT, TOGETHER WITH THE RELATED CASH PAYMENTS TO COMMON STOCKHOLDERS HOLDING FEWER THAN 501 SHARES AT THE EFFECTIVE TIME OF THE TRANSACTION.

THE TRANSACTION

If the Transaction is approved and completed:

- Mercury's stockholders holding fewer than 501 shares of Mercury's common stock before the Transaction will receive a cash payment from Mercury of \$4.00 per share, without interest, for each share of common stock held immediately prior to the Transaction;
- Mercury's stockholders holding 501 or more shares of Mercury's common stock at the effective time of the Transaction will continue to hold the same number of shares of Mercury's common stock after completion of the Transaction and will not receive any cash payment;
- Mercury's preferred stockholders will continue to hold the same number of shares of Mercury's preferred stock after completion of the Transaction and will not receive any cash payment;
- the officers and directors of Mercury at the effective time will continue to serve as the officers and directors of Mercury immediately after the Transaction;
- Mercury believes it will have fewer than 300 holders of record of common stock and intends to file a Form 15 to terminate registration of its common stock with the SEC, which will terminate its obligation to continue filing periodic reports and proxy statements pursuant to the Securities Exchange Act of 1934 (the Exchange Act), although Mercury currently intends to continue to provide reports as to its financial condition and results of operation which Mercury expects may be accessed at www.pinksheets.com;
- after a 90 day period following the filing of a Form 15 with the SEC to terminate the registration of its common stock under the federal securities laws (the 90 day waiting period), Mercury's executive officers, directors and 10% stockholders will no longer be required to file reports relating to their transactions in Mercury's common stock with the SEC, and trading in Mercury's securities by such executive officers, directors and 10% stockholders will no longer become subject to the reporting and recovery of profits provision of the Exchange Act;
-

Edgar Filing: MERCURY AIR GROUP INC - Form PRER14A

after the 90 day waiting period, persons acquiring 5% of Mercury's common stock will no longer be required to report their beneficial ownership under the Exchange Act;

- after the 90 day waiting period, tender offers for the beneficial ownership of more than 5% of Mercury's common stock will no longer be regulated;
- after the 90 day waiting period, tender offer transactions by issuers and affiliates will no longer be regulated;
- Mercury will not be required to comply with Section 404 of the Sarbanes-Oxley Act of 2002 (Sarbanes-Oxley Act), the cost of which is estimated to be up to \$3,000,000 through June 30, 2007 and approximately \$500,000 per year thereafter;

Table of Contents

- Mercury's common stock will no longer be listed on the American Stock Exchange, any trading in its common stock will only occur in the over-the-counter markets and in privately negotiated sales, and its common stock will likely only be quoted in the pink sheets ;
- outstanding options held by Mercury's employees, officers, and directors to acquire Mercury's common stock will remain outstanding following the Transaction;
- the number of Mercury's common stockholders of record will be reduced from approximately 331 to approximately 33, and the number of outstanding shares of Mercury's common stock will be reduced by approximately 6.3%, from 3,056,355 shares, to approximately 2,863,742 shares;
- assuming exercise of all options exercisable within sixty days of the date of this proxy statement, the percentage ownership of Mercury's common and preferred stock beneficially owned by the directors and officers of Mercury as a group will increase from 42.8% to 45.1% based on shares outstanding as of March 1, 2005. Because Mercury's common and preferred stockholders vote as a single class on all matters presented to the stockholders (including the Transaction), the Transaction will not affect control of Mercury;
- aggregate stockholders' equity of Mercury as of March 31, 2005, will be reduced from \$13,869,000 on a historical basis to approximately \$12,786,000 on a pro forma basis;
- the book value per share of common stock as of March 31, 2005, will be reduced from \$4.54 per share on a historical basis to approximately \$4.46 per share on a pro forma basis;
- Mercury will pay cash of approximately \$1,092,000 in the aggregate, net of tax benefits, to repurchase fractional shares and pay the costs of the Transaction; and
- Mercury expects its business and operations to continue as they are currently being conducted and, except as disclosed in this proxy statement, the Transaction is not anticipated to have any effect upon the conduct of such business.

For a more detailed discussion on the Transaction, see Special Factors beginning on page 11. For a description of the provisions regarding the treatment of shares held in street name, see Special Factors - Certain Effects of the Transaction beginning on page 37.

ADJOURNMENT OF THE SPECIAL MEETING

Mercury's board of directors is seeking discretionary authority to adjourn the Special Meeting if necessary to satisfy the conditions to completion of the Transaction, including for the purpose of soliciting proxies to vote in favor of the Transaction. For more information, see Adjournment of Meeting beginning on page 44.

VOTE REQUIRED

The required vote for each of the proposals presented at the Special Meeting are as follows:

- The Transaction requires the affirmative vote of holders of a majority of the outstanding shares of Mercury's common and preferred stock, counted as a single class.
- Approval of granting the board of directors discretionary authority to adjourn the Special Meeting requires the affirmative vote of a majority of Mercury's common and preferred stock, voting as a single class on the

proposal.

As of March 1, 2005, Mercury's current directors and executive officers owned 1,329,280 common shares, and 25,820 preferred shares, or approximately 38.5% of Mercury's 3,056,355 outstanding shares of common stock and 462,627 outstanding shares of preferred stock, voting as a single class, that would be entitled to vote at the Special Meeting. If Mercury's directors and executive officers exercised presently exercisable options they hold prior to the record date for the Special Meeting, they would own approximately 1,595,408 common shares and 25,820 preferred shares or approximately 42.8% of the then outstanding shares of common and preferred stock, voting as a single class, entitled to vote at the Special Meeting. See Security Ownership of Certain

Table of Contents

Beneficial Owners on page 60, and Special Factors Interests of Mercury's Directors and Executive Officers in the Transaction on page 32.

The officers and directors of Mercury have indicated that they intend to vote FOR the approval of the Transaction. Other than such expressed intent of the officers and directors to vote their shares for the Transaction, Mercury has not obtained any assurances or agreements from any of its stockholders as to how they will vote on the Transaction.

THE VOTING MATERIALS

We sent you the enclosed materials because Mercury's Board of Directors is soliciting your vote for use at our Special Meeting of Stockholders, which will take place on [July ___, 2005]. As a stockholder, you are invited to attend the Special Meeting and are entitled to and requested to vote on the proposals described in this proxy statement.

This proxy statement provides information that you need to know in order to cast an informed vote at the meeting. You do not need to attend the Special Meeting, however, to vote your shares. Instead, you may simply complete, sign and return the enclosed proxy card.

We began sending this proxy statement, notice of Special Meeting, and enclosed proxy card on or about [June ___, 2005] to all stockholders entitled to notice of and to vote at the Special Meeting. The record date for stockholders entitled to vote is [June ___, 2005]. On that date, there were [_, ___, ___] shares of our common stock and ___ shares of our preferred stock outstanding. Stockholders are entitled to one vote for each share of common stock and one vote for each share of preferred stock held as of the record date.

TIME AND PLACE OF THE SPECIAL MEETING

The Special Meeting will be held at the principal office of Mercury, located at 5456 McConnell Avenue, Los Angeles, California 90066 at 9:00 a.m., Pacific Time on [July ___, 2005].

SOLICITATION OF PROXIES

This proxy is solicited by the Board of Directors of Mercury.

SHARES THAT CAN BE VOTED

You may vote all shares of Mercury's common and preferred stock that you own as of the close of business on the record date, which was [June ___, 2005]. These shares include shares held:

- directly in your name as the stockholder of record, and
- for you as the beneficial owner either through a broker, bank or other nominee.

OWNERSHIP OF SHARES

Many of our stockholders hold their shares through a broker, bank or other nominee rather than directly in their own name. Mercury intends to treat stockholders holding common stock in street name through a nominee (such as a bank or broker) in the same manner as stockholders whose shares are registered in their names (shareholder of record).

Nominees may have different procedures, however, and stockholders holding common stock in street name should contact their nominees. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholder of Record

If your shares are registered directly in your name with our transfer agent, American Stock Transfer & Trust Company (the Transfer Agent), you are considered, with respect to those shares, the stockholder of record, and these proxy materials are being sent to you by Mercury. As the stockholder of record, you have the right to vote by proxy or to vote in person at the Special Meeting. Mercury has enclosed a proxy card for you to use.

Table of Contents

Beneficial Owner

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name with respect to those shares, and the proxy materials are being forwarded to you by your broker or other nominee. Your broker or other nominee is considered, with respect to those shares, the stockholder of record. As the beneficial owner, you have the right to direct your broker or other nominee how to vote and are also invited to attend the Special Meeting. As a beneficial owner, however, you are not the stockholder of record, and you may not vote these shares in person at the Special Meeting unless you obtain a signed proxy appointment form from the stockholder of record giving you the right to vote the shares. Your broker or nominee has enclosed or provided a voting instruction card for you to use in directing the broker or nominee how to vote your shares.

ATTENDANCE AT THE SPECIAL MEETING AND ELIGIBILITY TO VOTE

All holders of our common and preferred stock may attend the Special Meeting in person. Only holders of record of our common and preferred stock as of [June __, 2005] may cast their votes in person at the Special Meeting.

VOTING OF SHARES WITHOUT ATTENDING THE SPECIAL MEETING

Whether you hold your shares directly as stockholder of record or beneficially in street name, you may direct your vote without attending the Special Meeting. You may vote by signing your proxy card or, for shares held in street name, by signing the voting instruction card included by your broker or nominee, and mailing it in the enclosed, pre-addressed envelope. If you provide specific voting instructions, your shares will be voted as you instruct. If you hold your shares of record and sign your proxy card, but do not provide instructions, your shares will be voted as described below in **How are my votes counted?**

COUNTING OF VOTES

You may vote **FOR**, **AGAINST** or **ABSTAIN** on the Transaction and **FOR**, **AGAINST** or **ABSTAIN** on the proposal granting the Company's Board of Directors discretionary authority to adjourn the Special Meeting if necessary to satisfy the condition to completing the Transaction, including for the purpose of soliciting proxies to vote in favor of the Transaction (the **Adjournment Proposal**). If you **ABSTAIN** on the Transaction it has the same effect as a vote **AGAINST** the Transaction. If you vote **ABSTAIN** on the **Adjournment Proposal**, it has no effect on such proposal. If you sign and date your proxy form with no further instructions, your shares will be voted **FOR** the approval of the Transaction and **FOR** the approval of the **Adjournment Proposal**.

NO APPRAISAL OR DISSENTERS' RIGHTS; ESCHEAT LAWS

Stockholders do not have appraisal or dissenters' rights under Delaware state law or Mercury's Certificate of Incorporation or Bylaws in connection with the Transaction.

The unclaimed property and escheat laws of each state provide that under circumstances defined in that state's statutes, holders of unclaimed or abandoned property must surrender that property to the state. Persons whose shares are eliminated and whose addresses are unknown to Mercury, or who do not return their common stock certificate(s) and request payment therefore, generally will have a period of years (depending on applicable state law) from the

effective date of the Transaction in which to claim the cash payment payable to them. Following the expiration of that period, the escheat laws of states of residence of stockholders, as shown by the records of Mercury, generally provide for such state to obtain either (i) custodial possession of property that has been unclaimed until the owner reclaims it or (ii) escheat of such property to the state. If Mercury does not have an address for the holder of record of the shares, then unclaimed cash-out payments, without interest, would be turned over to Mercury's state of incorporation, the state of Delaware, in accordance with its escheat laws.

PURPOSE OF AND REASONS FOR THE TRANSACTION

If approved, the Transaction will enable Mercury to terminate its registration as an SEC reporting company and thus terminate its obligation to comply with Section 404 of the Sarbanes-Oxley Act. The Transaction will also terminate Mercury's obligation to file annual and periodic reports and make other filings with the SEC, although Mercury intends to continue to provide reports as to its financial condition and results of operation which Mercury expects may be accessed at www.pinksheets.com. The reasons for the proposed Transaction and subsequent termination of SEC registration include:

Table of Contents

- eliminating the costs of compliance with Section 404 of the Sarbanes-Oxley Act and related regulations estimated to be up to \$3,000,000 through June 30, 2007 and approximately \$500,000 per year thereafter;
- affording stockholders holding fewer than 501 shares immediately before the Transaction the opportunity to receive cash for their shares at a price that represents a premium of approximately 19% over the closing price of \$3.36 on March 21, 2005, which was the last trading day before the public announcement of the approval of the proposed Transaction by the Special Committee of the Board of Directors (Special Committee) and by the Board, without having to pay brokerage commissions and other transaction costs; and
- reducing the substantial time that management and other employees will have to spend to implement the Section 404 internal controls certificate provisions of the Sarbanes-Oxley Act, thus enabling them to devote more of their time and energy to Mercury s strategy and operations.

Joseph A. Czyzyk, President, Chief Executive Officer, Chairman and a principal stockholder of Mercury, Frederick H. Kopko, Jr., a director and a principal stockholder of Mercury and CK Partners, a partnership comprised of Messrs. Czyzyk and Kopko, may be deemed to be engaged in the proposed Transaction as a result of their affiliation with Mercury, and thus are filing persons with Mercury as set forth on the Schedule 13E-3 filed with the Securities and Exchange Commission in connection with the proposed Transaction. For purposes of this proxy statement, Joseph A. Czyzyk, Frederick H. Kopko, Jr. and CK Partners are sometimes referred to as the Transaction Affiliates . Mr. Kopko also serves as outside legal counsel on various corporate legal matters. Mr. Czyzyk and Mr. Kopko fully concur with the purpose, reasons, benefits and disadvantages of the Transaction described herein.

Please read Special Factors Purpose of and Reasons for the Transaction beginning on page 20.

BENEFITS OF THE TRANSACTION

Benefits of the Transaction to Mercury are expected to include the following:

- Mercury will benefit from eliminating the costs of compliance with Section 404 of the Sarbanes-Oxley Act and related regulations estimated to be up to \$3,000,000 through June 30, 2007 and approximately \$500,000 per year thereafter;
- Mercury will benefit from reducing the substantial time that management and other employees will have to spend to implement the Section 404 internal controls certificate provisions of the Sarbanes-Oxley Act, thus enabling them to devote more of their time and energy to Mercury s strategy and operations; and
- Mercury will benefit because it will no longer be obligated to continue filing periodic reports and proxy statements pursuant to the Exchange Act, although Mercury currently intends to continue to provide reports as to its financial condition and results of operation which Mercury expects may be accessed at www.pinksheets.com.

Benefits of the Transaction to affiliates of Mercury are expected to include the following:

- assuming the exercise of all options that are exercisable within sixty days of the date of this proxy statement, Mercury s officers and directors, including the Transaction Affiliates, will increase their percentage ownership in Mercury from 42.8% to 45.1%;
- assuming the exercise of all options that are exercisable within sixty days of the date of this proxy statement, the Transaction Affiliates will increase their percentage ownership in Mercury from 37.7% to 39.8%;

Edgar Filing: MERCURY AIR GROUP INC - Form PRER14A

- affiliated stockholders may benefit from the reduction in total shares outstanding or from the cost savings by Mercury not being public, either or both of which may result in higher earnings per share, which in turn may result in a higher price for their shares than they would have received if Mercury remained public;
- Mercury's officers and employees will benefit from eliminating the time and effort associated with implementation of the Section 404 internal controls certification provisions of the Sarbanes-Oxley Act;
- Mercury's officers and directors will benefit because, after the 90 day waiting period, tender offer transactions by issuers and affiliates will no longer be regulated; and

Table of Contents

- remaining affiliated stockholders may benefit from future operating results of Mercury.

See Special Factors Purpose of and Reasons For the Transaction Benefits of the Transaction beginning on page 20 and Special Factors Interests of Mercury's Directors and Executive Officers in the Transaction beginning on page 32.

Benefits of the Transaction to unaffiliated stockholders of Mercury are expected to include the following:

- Unaffiliated stockholders holding fewer than 501 shares immediately before the Transaction will have the opportunity to receive cash for their shares at a price that represents a premium of approximately 19% over the closing price of \$3.36 on March 21, 2005, which was the last trading day before the public announcement of the approval of the proposed Transaction by the Special Committee and the Board, without having to pay brokerage commissions and other transaction costs;
- Unaffiliated stockholders receiving \$4.00 for their shares are receiving an amount that is within the range of implied equity values in the per share analysis presented by Imperial Capital, LLC (Imperial Capital), financial advisor to the Special Committee and the Board. (See Special Factors Opinion of Imperial Capital, LLC beginning on page 46.)
- remaining unaffiliated stockholders may benefit from the reduction in total shares outstanding or from the cost savings by Mercury not being public, either or both of which may result in higher earnings per share, which in turn may result in a higher price for their shares than they would have received if Mercury remained public;
- and remaining unaffiliated stockholders may benefit from future operating results of Mercury.

See Special Factors Purpose of and Reasons for the Transaction Benefits of the Transaction beginning on page 20.

DISADVANTAGES OF THE TRANSACTION

Disadvantages of the Transaction to Mercury are expected to include the following:

- Mercury's working capital and assets will be decreased and/or indebtedness increased to fund the purchase of fractional shares, and to pay the other costs of the Transaction; and
- the limited ability that Mercury has to raise capital in the public securities markets or to use its stock as an acquisition currency will be effectively eliminated.

See Special Factors Disadvantages of the Transaction beginning on page 23.

Disadvantage of the Transaction to affiliates of Mercury are expected to include the following:

- Mercury's officers and directors, including the Transaction Affiliates, are likely to experience reduced liquidity for their shares of common stock, even if the common stock trades on the pink sheets, and this reduced liquidity may adversely affect the market price of the common stock.

See Special Factors Disadvantages of the Transaction beginning on page 23.

Disadvantages of the Transaction to unaffiliated stockholders of Mercury are expected to include the following:

- the cash price offered to stockholders under the proposed Transaction could be less than the market price at the time the Board decides to implement the Transaction and is less than the \$4.54 book value of the Common Stock as of March 31, 2005;

- remaining stockholders are likely to experience reduced liquidity for their shares of common stock, even if the common stock trades on the pink sheets , and this reduced liquidity may adversely affect the market price of the common stock;
- less public information about Mercury will be required or available after the Transaction and officers will no longer be required to certify the accuracy of Mercury s financial statements, although Mercury currently intends to provide reports as to its

Table of Contents

financial condition and results of operations, which Mercury's expects may be accessed at www.pinksheets.com (see Special Factors Purpose of and Reasons For the Transaction beginning on page 20);

- after the 90 day waiting period, persons acquiring 5% of Mercury's common stock will no longer be required to report their beneficial ownership under the Exchange Act;
- after the 90 day waiting period, tender offers for the beneficial ownership of more than 5% of Mercury's common stock will no longer be regulated;
- after the 90 day waiting period, tender offer transactions by issuers and affiliates will no longer be regulated;
- stockholders who are cashed out will be unable to participate in any future operating results of Mercury unless they buy stock after the Transaction; and
- stockholders who are cashed out for \$4.00 per share in the Transaction may receive less for their shares than they would if the common stock continued trading on the American Stock Exchange.

See Special Factors Disadvantages the Transaction beginning on page 23.

DETERMINATION OF THE FAIRNESS OF THE TRANSACTION BY THE SPECIAL COMMITTEE, THE BOARD, AND THE TRANSACTION AFFILIATES

At a meeting held on March 21, 2005, the Special Committee, consisting of two independent directors, Messrs. Michael Janowiak and Angelo Pusateri, unanimously determined that the Transaction and the \$4.00 cash consideration per pre-split share to be paid to stockholders who hold less than 501 shares of common stock before the Transaction (cash consideration) are advisable, fair to and in the best interests of Mercury and its stockholders, including all unaffiliated stockholders of Mercury (both those receiving the cash consideration and those remaining as stockholders following the Transaction), and the Special Committee recommended that the Board approve the Transaction. See Special Factors Recommendation of the Special Committee.

At a meeting held on March 21, 2005, the Board of Directors unanimously determined that the Transaction and the cash consideration to be paid to stockholders who hold less than 501 shares of common stock before the Transaction are advisable, fair to and in the best interests of Mercury and its stockholders, including all unaffiliated stockholders of Mercury (both those receiving the cash consideration and those remaining as stockholders following the Transaction). On March 21, 2005, the Transaction Affiliates also unanimously determined that the Transaction and the cash consideration to be paid to stockholders who hold less than 501 shares of common stock before the Transaction are advisable, fair to and in the best interests of Mercury and its stockholders, including all unaffiliated stockholders of Mercury (both those receiving the cash consideration and those remaining as stockholders following the Transaction). The Board of Directors, with Messrs. Kopko and Czyzyk abstaining, therefore unanimously approved the Transaction and recommends that you vote FOR approval of this matter at the Special Meeting.

The Special Committee, the Board of Directors and the Transaction Affiliates, all considered a number of factors that they believe supports their determination that the Transaction is substantively and procedurally fair to Mercury's unaffiliated stockholders, including each of the following factors:

- current and historical market prices;
- net book value and net tangible book value;

- going concern value;
- earnings of Mercury;
- prices at which Mercury has repurchased shares;
- the opinion and presentation of the Special Committee's financial advisor;
- limited liquidity of Mercury's common stock;

7

Table of Contents

- future cost savings;
- interests of unaffiliated stockholders who will remain; and
- certain negative considerations.

For a complete discussion of the factors that were considered by the Special Committee, the Board of Directors and the Transaction Affiliates to determine fairness, see Special Factors Recommendation of the Special Committee beginning on page 25, Special Factors Recommendation of the Board; Fairness of the Transaction beginning on page 28, and Determination of the Fairness of the Transaction by the Transaction Affiliates beginning on page 32.

RECENT MARKET PRICE OF MERCURY'S COMMON STOCK AND MARKET PRICE FOLLOWING ANNOUNCEMENT OF THE PROPOSED TRANSACTION

The closing price of Mercury's common stock on March 8, 2005 the day before the public announcement that the Special Committee was considering the Transaction, was \$4.49 per share. The closing price of Mercury's common stock on March 21, 2005, the last trading day before the public announcement of the approval of the proposed Transaction by the Special Committee and the Board, was \$3.36 per share.

FAIRNESS OPINION OF IMPERIAL CAPITAL, LLC

Imperial Capital, financial advisor to the Special Committee, has delivered to the Special Committee and to the Board its written opinion to the effect that, as of the date of such opinion and based upon and subject to the matters stated in the opinion, the cash consideration to be paid to those stockholders of Mercury receiving such consideration, other than Mercury's current directors and executive officers, including the Transaction Affiliates and their respective affiliates (collectively, affiliates of Mercury), as to whom Imperial Capital expressed no view, is fair, from a financial point of view, to such stockholders. The full text of the written opinion of Imperial Capital, which sets forth the assumptions made, matters considered and limitations on the review undertaken, is attached as Appendix B to this proxy statement. You should read the opinion carefully and in its entirety, along with the discussion under Special Factors Opinion of Imperial Capital, LLC beginning on page 33.

The opinion of Imperial Capital is directed to the Special Committee of Mercury's Board of directors and to Mercury's Board of Directors and addresses only the fairness from a financial point of view of the cash consideration to be paid in the proposed Transaction to stockholders other than affiliates of Mercury, and does not constitute a recommendation to any stockholder as to how such stockholder should vote at the Special Meeting.

EFFECTS OF THE TRANSACTION

As a result of the Transaction, Mercury anticipates that:

- Mercury's stockholders holding fewer than 501 shares of Mercury's common stock at the effective time of the Transaction will receive a cash payment from Mercury of \$4.00 per share, without interest, for each share of common stock held immediately prior to the Transaction;
- Mercury's stockholders holding 501 or more shares of Mercury's common stock at the effective time of the Transaction will continue to hold the same number of shares of Mercury's common stock after completion of the Transaction and will not receive any cash payment;

- Mercury's preferred stockholders will continue to hold the same number of shares of Mercury's preferred stock after completion of the Transaction and will not receive any cash payment;
- the officers and directors of Mercury at the effective time will continue to serve as the officers and directors of Mercury immediately after the Transaction;
- Mercury believes it will have fewer than 300 holders of record of common stock and therefore be eligible to terminate registration of its common stock with the SEC, which will terminate its obligation to continue filing periodic reports and proxy

Table of Contents

statements pursuant to the Exchange Act, although Mercury currently intends to continue to provide reports as to its financial condition and results of operation which Mercury expects may be accessed at www.pinksheets.com;

- after the 90 day waiting period, Mercury's executive officers, directors and 10% stockholders will no longer be required to file reports relating to their transactions in Mercury's common stock with the SEC, and trading in Mercury's securities by such executive officers, directors and 10% stockholders will no longer be subject to the reporting and recovery of profits provision of the Exchange Act;
- after the 90 day waiting period, persons acquiring 5% of Mercury's common stock will no longer be required to report their beneficial ownership under the Exchange Act;
- after the 90 day waiting period, tender offers for the beneficial ownership of more than 5% of Mercury's common stock will no longer be regulated;
- after the 90 day waiting period, tender offer transactions by issuers and affiliates will no longer be regulated;
- Mercury will not be required to comply with Section 404 of the Sarbanes-Oxley Act, the cost of which is estimated to be up to \$3,000,000 through June 30, 2007 and approximately \$500,000 per year thereafter;
- Mercury's common stock will no longer be listed on the American Stock Exchange, any trading in its common stock will only occur in the over-the-counter markets or in privately negotiated sales, and its common stock will likely only be quoted in the pink sheets ;
- outstanding options held by Mercury's employees, officers and directors to acquire Mercury's common stock will remain outstanding following the Transaction;
- the number of Mercury's stockholders of record will be reduced from approximately 331 to approximately 33, and the number of outstanding shares of Mercury's common stock will be reduced by approximately 6.3%, from 3,056,355 shares, to approximately 2,863,742 shares;
- assuming exercise of all options exercisable within sixty days of the date of this proxy statement, the percentage ownership of Mercury's common and preferred stock beneficially owned by the directors and officers of Mercury as a group will increase from 42.8% to 45.1% based on shares outstanding as of March 1, 2005. Because Mercury's common and preferred stockholders vote as a single class on all matters presented to the stockholders (including the Transaction), the Transaction will not affect control of Mercury;
- aggregate stockholders' equity of Mercury as of March 31, 2005, will be reduced from \$13,869,000 on a historical basis to approximately \$12,786,000 on a pro forma basis;
- the book value per share of common stock as of March 31, 2005, will be reduced from \$4.54 per share on a historical basis to approximately \$4.46 per share on a pro forma basis;
- Mercury will pay cash of approximately \$1,092,000 in the aggregate, net of tax benefits, to repurchase fractional shares and pay the costs of the Transaction; and
- Mercury expects its business and operations to continue as they are currently being conducted and, except as disclosed in this Proxy Statement, the Transaction is not anticipated to have any effect upon the conduct of such business.

See Special Factors Certain Effects of the Transaction beginning on page 37.

ALTERNATIVES CONSIDERED

Prior to deciding to pursue the Transaction, Mercury considered and rejected a number of alternatives, including a cash tender offer at a similar price per share, cash-out merger, purchase of shares in the open market, reverse stock split without a forward stock split, and a sale of certain divisions of Mercury. The Transaction Affiliates also considered briefly a cash tender offer, but rejected this alternative.

Table of Contents

See Special Factors Alternatives Considered beginning on page 24.

CONDITIONS TO COMPLETION OF THE TRANSACTION

The completion of the Transaction depends upon the approval of the proposed amendment to Mercury's Certificate of Incorporation that will implement the Transaction by the holders of at least a majority of Mercury's outstanding shares of common and preferred stock, voting as a single class. A copy of the Amended and Restated Certificate of Incorporation effecting both the reverse split and the forward split following immediately thereafter is attached as Appendix A to this proxy statement.

RESERVATION OF RIGHTS

Mercury's Board of Directors reserves the right to abandon the Transaction without further action by its stockholders at any time before the filing of the Amended and Restated Certificate of Incorporation with the Delaware Secretary of State, even if the Transaction has been authorized by Mercury's stockholders at the Special Meeting, and by voting in favor of the Transaction you are also expressly authorizing Mercury's Board of Directors to determine not to proceed with the Transaction if it so decides. See Special Factors Reservation of Rights beginning on page 44.

SOURCE OF FUNDS; FINANCING OF THE TRANSACTION

Mercury estimates that the total funds required to pay the consideration to stockholders entitled to receive cash for their shares and to pay the costs of the Transaction will be approximately \$1,092,000, net of taxes. The consideration to stockholders and the costs of the Transaction will be paid from working capital of Mercury and amounts available under Mercury's loan agreement with the Bank of America, N.A. (Bank of America). See Special Factors Source of Funds; and Financing of the Transaction on page 41.

CONFLICTS OF INTEREST OF DIRECTORS AND EXECUTIVE OFFICERS, INCLUDING THE TRANSACTION AFFILIATES

Mercury's directors and executive officers, including the Transaction Affiliates, may have interests in the Transaction that are different from your interests as a stockholder, and have relationships that may present conflicts of interest, including the following:

- each member of Mercury's Board of Directors, except Michael Janowiak, and each of Mercury's executive officers, except Kent Rosenthal, hold 501 or more shares of Mercury common stock and will retain their shares after the Transaction;
- each member of Mercury's Board of Directors and each of Mercury's executive officers, except Kent Rosenthal, holds options to purchase more than 501 shares of Mercury common stock, which will remain outstanding after the Transaction; and
- as a result of the Transaction, the stockholders who own of record at the effective time of the Transaction 501 or more shares, including Mercury's Board members and the majority of Mercury's executive officers, including the Transaction Affiliates, will increase their percentage ownership in Mercury as a result of the Transaction. For example, assuming the Transaction is approved, the beneficial ownership percentage of the

current directors and executive officers of Mercury as a group in Mercury's common and preferred stock will increase from approximately 42.8% to 45.1% as a result of the reduction of the number of shares of common stock outstanding by approximately 192,613 shares.

See Special Factors Interests of Mercury's Directors and Executive Officers in the Transaction on page 32.

EXCHANGE OF CERTIFICATES

Promptly after the Transaction, Mercury will send a letter of transmittal and instructions to effect the surrender of certificates for Mercury's common stock to all stockholders who, based on information available to Mercury, appear to be holders of fewer than 501 shares of Mercury's common stock in any one account. Upon surrender of a certificate for cancellation to Mercury together with such letter of transmittal, duly completed and executed, the holder of the certificate will receive a cash payment of \$4.00 per share, without interest, from Mercury. See The Proposed Amendment Exchange of Certificates beginning on page 52.

Table of Contents

EFFECTUATION OF THE TRANSACTION

Assuming the Transaction is approved by the stockholders at the Special Meeting held on [July ____, 2005], then, as soon as practicable thereafter, Mercury intends to file the proposed Amended and Restated Certificate of Incorporation effectuating the reverse and forward stock splits.

DATE OF COMPLETION OF THE TRANSACTION

Mercury expects the Transaction to be completed at 11:59 p.m. on [July ____, 2005], or as soon as reasonably practicable thereafter.

U.S. FEDERAL INCOME TAX CONSEQUENCES

Generally, for stockholders who hold fewer than 501 shares of common stock before the Transaction, the receipt of cash for fractional shares will be treated for tax purposes in the same manner as if the shares were sold in the market for cash. Stockholders who will remain stockholders of Mercury following the Transaction should not be subject to taxation as a result of the Transaction. Tax matters are very complicated, and the tax consequences to you of the Transaction will depend on your own situation. Please read **Special Factors U.S. Federal Income Tax Consequences** beginning on page 41.

QUESTIONS AND ANSWERS ABOUT RESTRUCTURING YOUR SHARE OWNERSHIP

Q: IF I OWN FEWER THAN 501 COMMON SHARES, IS THERE ANY WAY I CAN CONTINUE TO BE A STOCKHOLDER OF MERCURY AFTER THE TRANSACTION?

A: If you own fewer than 501 common shares before the reverse stock split, the only way you can continue to be a stockholder of Mercury after the Transaction is to purchase, prior to the effective date, sufficient additional shares to cause you to own a minimum of 501 shares on the effective date. Mercury cannot assure you, however, that any shares will be available for purchase.

Q: IS THERE ANYTHING I CAN DO IF I OWN 501 OR MORE COMMON SHARES, BUT WOULD LIKE TO TAKE ADVANTAGE OF THE OPPORTUNITY TO RECEIVE CASH FOR MY SHARES AS A RESULT OF THE TRANSACTION?

A: If you own 501 or more common shares before the Transaction, you can only receive cash for all of your shares if, prior to the effective date, you reduce your stock ownership to fewer than 501 shares by selling or otherwise transferring your shares. Mercury cannot assure you, however, that any purchaser for your shares will be available. Alternatively, before the effective date, you could divide the shares you own among different record holders so that fewer than 501 shares are held in each account. For example, you could divide your shares between your own name and a brokerage account so that fewer than 501 shares are held in each account.

Q: WHAT HAPPENS IF I OWN A TOTAL OF 501 OR MORE COMMON SHARES BENEFICIALLY, BUT I HOLD FEWER THAN 501 COMMON SHARES OF RECORD IN MY NAME AND FEWER THAN 501 COMMON SHARES WITH MY BROKER IN STREET NAME ?

A: An example of this would be if you have 251 common shares registered in your own name with Mercury's Transfer Agent, and you have 250 common shares held through your broker in street name. Accordingly, you are the beneficial owner of 501 shares, but you do not own 501 shares of record or beneficially in street name. If this is the case, as a result of the Transaction, you would receive cash for the 251 shares you hold of record and the 250 shares held in street name.

Q: IF I OWN AT LEAST 501 COMMON SHARES, BUT THE SHARES ARE SPLIT AMONG RECORD OWNERS AS DESCRIBED ABOVE SO THAT NO RECORD OWNER HOLDS AT LEAST 501 COMMON SHARES, BUT I WISH TO CONTINUE TO OWN COMMON STOCK OF MERCURY AFTER THE TRANSACTION, WHAT CAN I DO?

A: Before the effective date, you could put all of the shares you own beneficially in one record name, either in your name or in street name, so that the total shares you own that are held of record in the same name is at least 501 shares, and then you would continue to be a stockholder after the effective date.

Q: SHOULD I SEND IN MY STOCK CERTIFICATES NOW?

A: No. After the Transaction has been completed, Mercury will send instructions on how to receive any cash payments you may be entitled to receive.

Table of Contents**SPECIAL FACTORS****CORPORATE DEVELOPMENTS IN LAST FOUR YEARS***Sale of FBOs*

Mercury sold all of its Fixed-Based Operations (FBO s), excluding the Long Beach FBO, to Allied Capital Corporation (Allied Capital) on April 12, 2004. Mercury received cash consideration of \$76,349,000, subject to adjustment, for the FBOs. The following gives a background description of that transaction (the Allied Transaction).

For the period ended June 30, 2002, Mercury was in violation of certain financial covenants of its then existing senior secured credit facility held by Fleet National Bank (Senior Secured Credit Facility or Facility) and a promissory note with J.H. Whitney Mezzanine Fund, L.P., one of its creditors (the Whitney Note). These violations were as follows:

- a. The Company s capital expenditures for the twelve month period ended June 30, 2002 were \$4,500,000 exceeding the maximum allowable capital expenditures of \$4,000,000 by \$500,000; and
- b. After the restatement of the Company s quarterly financial results for the second and third quarters of fiscal 2002 to: 1) correct its accounting to properly record leasehold amortization expenses for its cargo operations; 2) to write off costs associated with unsuccessful financing transactions; 3) to correct its accounting for certain FBO operating expenses; and 4) to recognize additional compensation expenses resulting from changes in stock option terms, Mercury reported quarterly net losses of \$31,000 and \$380,000 for the second and third quarters of fiscal 2002, respectively, in violation of the quarterly minimum net earnings covenant of \$1 for those quarters.

During discussions with the senior secured lender, it advised Mercury that it was its preference not to amend the loan agreement or waive the default conditions, but rather have Mercury enter into a new credit facility with another senior lender that would allow Mercury to repay in full the outstanding obligations on the Senior Secured Credit Facility. During the third and fourth quarters of fiscal 2002 and the first and second quarters of fiscal 2003 Mercury held discussions with several financial institutions with the intent to prepay both the Senior Secured Credit Facility and the Whitney Note. As a result of those discussions, Mercury was able to secure a new senior secured lender. Foothill Capital Corporation (Foothill), now known as Wells Fargo Foothill, to provide a senior credit facility that would provide up to \$42,500,000 in financing with \$12,500,000 being in the form of a term loan with up to \$30,000,000 in the form of a revolving credit line based on eligible customer accounts receivable. Mercury, however, was not able to secure an acceptable subordinated loan facility to replace the Whitney Note. Mercury then initiated talks with Whitney regarding amending the terms of the existing note. Table of Contents

These discussions culminated on December 30, 2002, when Mercury entered into a new senior credit facility (the New Facility) with Foothill as agent for the lenders (the Lenders) parties thereto, for the purpose of refinancing the existing Senior Secured Credit Facility as well as for general working capital, and amended the existing Whitney Note. At closing, the Company received \$16,923,000 from the New Facility and disbursed the funds as follows:

1. Repayment of existing Senior Debt, including accrued interest:	\$ 13,533,000
2. Agent fee to the Company s Financial Advisor:	1,000,000
3. Closing fee to Lender:	870,000
4. Accrued interest to JH Whitney on Senior Subordinated Note:	840,000
5. Note amendment fee to JH Whitney:	270,000
6. Closing fees:	410,000

Total disbursement at closing \$ 16,923,000

In addition, the Lenders issued letters of credit in the amount of \$16,364,000 at closing that were secured by the New Facility.

The Whitney Note was secured by Mercury's assets, subordinated to a senior creditor position held by Foothill. Warrants to purchase an additional 5% of Mercury's common stock, exercisable for nominal consideration, would have been issued if the principal amount of the Whitney Note was not prepaid by December 31, 2003. Warrants to purchase a second 5% of Mercury's common stock, exercisable for nominal consideration, along with an additional note in the original principal amount of \$5,000,000 would also have been issued if the outstanding principal amount of the Whitney Note was greater than \$12,000,000 after December 31, 2003

Table of Contents

(collectively, the Whitney Note Penalty Provisions). In addition, beginning in January 2004 and continuing through June 2004, the interest rate on the Whitney Note would have increased by 1% per annum each month up to a maximum rate of 18%. Mercury was also required to prepay all outstanding principal on the Whitney Note and any additional note on December 31, 2004 but Mercury's failure to make such prepayment would not have entitled the holder to accelerate the balance on the outstanding Whitney Note or outstanding additional note. The Whitney Note included covenants that, among other matters, limited senior indebtedness, the payment of dividends, the disposition of assets, requirements for a minimum EBITDA (a financial measure of cash flow representing earnings before interest, taxes, depreciation and amortization) and capital expenditure limitations.

As previously required by the Whitney Note, Mercury formed committees consisting of independent directors to seek opportunities for asset and other financing transactions, with a view to reducing Mercury's total debt.

Beginning in December 2002, Mercury was engaged in discussions with financial institutions proposing to purchase and lease back to Mercury certain FBO assets (sale- leaseback). Mercury engaged DAMG Worldwide, L.L.C. (DAMG) on a non-exclusive basis, to manage and participate in a public finance vehicle for the sale-leaseback of ten FBOs. Other participants included Bear Stearns, and Ambac Insurance with Standard and Poors (S&P) providing a bond rating. DAMG investigated the establishment of a special purpose entity which was to receive a bond rating in order to raise funds and effect the sale-leaseback transaction. Mercury abandoned the sale-leaseback process in September 2003 after S&P failed to deliver a timely and satisfactory bond rating of the special purpose entity, Ambac Insurance indicated that they would no longer participate and the engagement with DAMG expired.

Beginning in January 2003, Mercury was responding to numerous solicited and unsolicited verbal purchase offers on the sale of certain FBOs. These responses resulted in three written proposals for the acquisition of selected FBOs. Two offers were contingent on airport lease extensions, which were not obtainable on a timely basis for those specific FBOs and the third offer was subject to financing through a leveraged buyout over a two year period.

During the same time period, Mercury also responded to indications of interest regarding MercFuel, Inc. (MercFuel), Mercury's fueling subsidiary, and Mercury Air Cargo, Inc. (Cargo), Mercury's cargo-handling facility. With regard to MercFuel, a non-binding indication of interest had been received at a price of \$15,000,000, which at less than three times cash flow from operations was deemed by management to be unacceptable. With regard to Cargo, discussions with an interested party failed to result in a formal offer as a result of an indication of a purchase price of less than two times cash flow from operations. Beginning in August 2001, Mercury retained Bank America Securities, LLC to market its government services business (Maytag) and were unable to obtain any acceptable offers that adequately reflected the value of Maytag.

In February 2003, Mercury engaged, on a non-exclusive basis, the investment banking firm of ARG1 to market some of its individual FBOs, and on February 28, 2003, Mercury engaged Imperial Capital to, among other things, assist management in evaluating interest from a list of buyers for certain of Mercury's assets, including Mercury's FBO subsidiary, Mercury Air Centers, Inc. (Air Centers), and advising management in the potential sale of such assets. These buyers consisted of both buyers who were interested in purchasing Mercury's assets in order to make a short-term profit (Financial Buyers) and buyers who were interested in purchasing Mercury's assets in order to expand or complement their existing businesses (Strategic Buyers). The efforts of the two investment banking firms preceded separately in that ARG1 was to arrange for a sale of individual FBO's while Imperial Capital was to arrange for the sale of one or more divisions of the Company. The efforts of the two investment banking firms were coordinated by Joseph Czyzyk, Chief Executive Officer. Following its engagement, ARG1 held discussions with more than 20 qualified domestic and international acquirers about the purchase of one or more of Mercury's FBOs. Their efforts resulted in eight separate purchase offers, four of which were for one particular location and four of which were for multiple locations. Five of the eight offers allowed the potential purchasers unlimited time to perform due diligence, which was unacceptable to Mercury due to the timing requirements of the principal reduction conditions associated

with the Whitney Note. Of the offers originated by ARG1, seven of the offers were determined to be unacceptable because the amounts offered were from 15% to 30% lower than the amounts that Mercury had advised ARG1 to sell the FBO s for, and if accepted, would have provided insufficient proceeds for Mercury to retire the required amount of principal in the Whitney Note. The one financially adequate offer was not consummated or pursued by the potential buyer for reasons that the potential buyer elected not to disclose to Mercury.

Imperial Capital was engaged specifically to identify, solicit and negotiate with interested and qualified parties for the purpose of selling significant assets or entire businesses belonging to Mercury adequate to yield sufficient proceeds so that Mercury would be able to repay the necessary amount of debt it was obligated to pay pursuant to the New Facility and the Whitney Note so that the Whitney Note Penalty Provisions would not apply. Pursuant to these documents, the minimum required amount to be repaid was \$24,250,000 (\$12,500,000 to Foothill and \$12,000,000 to Whitney) by December 31, 2003. In order to yield that amount on an after-tax and expenses basis, Mercury instructed Imperial Capital to seek to sell significant assets or businesses belonging to Mercury for at

Table of Contents

least \$30,000,000. Imperial Capital obtained necessary historical financial and operational history of the different businesses Mercury was engaged in and contacted fourteen potential purchasers (including Allied Capital) to solicit their interest, first by qualifying their financial capabilities and their historical acquisition experience, and second by engaging them in confidentiality agreements followed by provision of selected financial and operational information, resulting in offer to acquire letters. With the assistance of management, Imperial Capital prepared information and financial analyses describing the operations of each of Mercury's business divisions, including Air Centers. Information was distributed by Imperial Capital to the fourteen potential financial and strategic buyers, ten of which were financial and four of which were strategic, each of which had expressed interest in receiving further information and signed confidentiality agreements to receive such information. Following its engagement, Imperial Capital received six offers for the stock and/or substantially all of the assets of Air Centers or certain assets of Air Centers. Four of these bidders, who had held meetings with Mercury's management and conducted due diligence, sought to purchase certain assets of Air Centers. Three of the offers were subject to the bidders obtaining necessary financing. In addition, several other parties were contacted, executed a confidentiality agreement, and received information, but chose not to issue a proposal. Below is a summary, in chronological order, of the definitive bids received:

In June 2003 Mercury's senior management began to deal directly with representatives from Party A. On July 30, 2003, Party A mailed a Letter of Intent to Mercury to purchase Mercury's Charleston, SC FBO and Mercury's Johns Island, SC FBO. On July 30, 2003, Party A mailed a Letter of Intent to Mercury for the purchase of Mercury's FBOs in Reno, NV; Jackson, MS; and Nashville, TN. On August 18, 2003, Party A mailed a revised Letter of Intent for the purchase of the Mercury FBO in Nashville, TN because they had determined that their ability to conclude the sale of that FBO could be hampered by a Hart Scott Rodino (HSR) violation as Party A owned and operated the only other FBO competing with Mercury's FBO at Nashville, TN Airport.

During August and September, 2003 Party A proposed purchasing a total of four of Air Center's FBOs. Party A submitted an offer to acquire these four FBOs, which collectively generated EBITDA of approximately \$3,300,000, for total consideration of \$20,000,000, representing an EBITDA multiple of 6.1x.

On March 28, 2003, Party B submitted an initial proposal to purchase seven of Air Centers' FBOs, with total EBITDA of approximately \$6,600,000, and other Air Centers' assets for total consideration of \$25,800,000. On April 24, 2003, Party B submitted a revised proposal for eight of Air Centers' FBOs, with total LTM EBITDA (latest twelve months EBITDA) of approximately \$7,900,000 as of February 2003, for total consideration of \$37,900,000, representing an EBITDA multiple of approximately 4.7x. On May 5, 2003, Mercury made a counter proposal to Party B which entailed the sale of six of Air Centers' FBOs, with total EBITDA multiple of approximately \$4,400,000, for total consideration of \$30,900,000, representing an EBITDA multiple of approximately 7x.

On May 7, 2003, Party C submitted an initial proposal, which entailed the purchase of ten FBOs, with total EBITDA of approximately \$7,000,000, for total consideration of \$31,000,000, representing an EBITDA multiple of 4.4x. In June 2003, Party C submitted a subsequent offer for nine FBOs, with total EBITDA of \$5,500,000, for total consideration of \$29,100,000, representing an EBITDA multiple of 5.3x.

On May 28, 2003, Party B made a counterproposal which entailed the purchase of six FBOs, with total LTM EBITDA of approximately \$4,400,000 as of March 2003, for total consideration of \$21,500,000, representing an EBITDA multiple of approximately 4.9x.

On June 10, 2003, Party C submitted a revised offer for nine of Air Centers' FBOs, with total EBITDA of \$5,600,000, for \$36,600,000 in cash, representing an EBITDA multiple of 7.6x.

In July 2003, Mercury engaged in discussions with a foreign investor who proposed to acquire all of Mercury's FBOs, proposing a step transaction including cash and notes. Mercury rejected the offer due to the investor's inability

to verify and guarantee the availability of the funds.

In July 2003, Mercury began to engage in discussions with Allied Capital for the acquisition of Mercury's FBOs.

On July 31, 2003, Party C submitted a revised offer for fourteen FBOs at a purchase price of \$58,800,000 million, representing an EBITDA multiple of approximately 5.8x. On August 1, 2003, Party C issued a final proposal for substantially all of Air Centers FBOs for a total purchase price of \$77,800,000 million, representing an EBITDA multiple of 6.3x. Each of Party C's offers was subject to Party C successfully obtaining adequate senior and subordinated debt financing. Further, Party C's never completed any due diligence.

Table of Contents

In August 2003, Mercury's management determined not to pursue Party C's final proposal based on (i) the financing contingency, and concerns by Mercury's management of Party C's ability to obtain the necessary financing, given Party C's high degree of leverage; (ii) lack of certainty of closure on proposed terms; and (iii) Party C's concerns regarding the construction obligations relating to the Los Angeles FBO.

In August 2003, Party D submitted a verbal preliminary indication of interest for all Air Centers' FBOs in the range of \$65,000,000 to \$70,000,000 million in cash, subject to financing.

On August 14, 2003, Allied Capital submitted an initial Letter of Intent (LOI) for the purchase of all of the capital stock of Air Centers (all of Mercury's FBOs) for a purchase price of \$79,000,000 million in cash (subject to adjustment based on Air Centers' net working capital as of the transaction closing date) and the assumption of Mercury's and Air Centers' liabilities for construction or renovations at Air Centers' FBOs under existing agreements. The LOI provided, among other things, for Allied Capital to perform due diligence and the parties to work toward the negotiation, preparation and execution of a definitive agreement subject to certain exceptions. Mercury and Air Centers agreed to work exclusively with Allied Capital for a 45 day No-Shop period.

On September 29, 2003, after performing additional due diligence and several weeks of negotiations, Mercury, Air Centers and Allied Capital entered into an LOI, which replaced the August 14, 2003 LOI. The new LOI provided for the purchase of all of the capital stock of Air Centers for a purchase price of \$88,600,000 million in cash (subject to adjustment based on Air Centers' net working capital as of the transaction closing date). Allied Capital agreed to assume all of Mercury's and Air Centers' liabilities for construction or renovations at Air Centers' FBOs under existing agreements, the amount of which would be deducted from the \$88,600,000 million of cash proceeds on the transaction closing date (effectively a \$70,000,000 purchase price, representing an EBITDA multiple of 5.7x). The LOI also provided for Allied Capital to commence negotiations with J.H. Whitney Mezzanine Fund, L.P. regarding the execution and delivery of a binding agreement for the purchase by Allied Capital of the Whitney Note, and with Mercury regarding execution and delivery of a binding stock purchase agreement, both agreements to be executed simultaneously on or before October 8, 2003, with closing of the stock purchase to occur on or before December 31, 2003. Allied Capital agreed to remove the Whitney Note Penalty Provisions in the event it purchased the Whitney Note. The LOI provided, among other things, for Allied Capital to perform due diligence, and the parties to work together toward the negotiation, preparation and execution of a definitive agreement.

Mercury and Air Centers agreed to work exclusively with Allied Capital for a No-Shop period ending October 8, 2003.

Negotiations between Party A and Mercury were ongoing until Mercury's execution of the September 29, 2003 LOI with Allied Capital. Mercury's senior management determined that a transaction with Party A and Mercury for the four FBOs would have resulted in a significant tax expense to Mercury of approximately \$4,000,000, resulting from the low tax base of these FBOs thereby not providing Mercury with sufficient capital to avoid the Whitney Note Penalty Provisions without additional asset sales. In addition, management was concerned that Party A would not be in a position to purchase all of Air Centers' FBOs due to potential regulatory issues under the HSR Act and certain issues which had not yet been resolved. Party A was given the opportunity to pursue discussions regarding the acquisition of all of the FBO locations but declined. Mercury's management determined to instead pursue the Allied Capital transaction.

In October 2003 and November 2003, Mercury received two additional offers for one or more FBOs. Pursuant to the terms of the LOI and the stock purchase agreement, respectively, Mercury notified Allied Capital of these offers.

On October 9, 2003, Mercury, Air Centers and Allied Capital extended the No-Shop period and the date for purchase of the Whitney Note and execution of a binding stock purchase agreement for the purchase of Air Centers to

October 16, 2003.

On October 14, 2003, Mercury, Air Centers and Allied Capital extended the No-Shop period and the date for purchase of the Whitney Note and execution of a binding stock purchase agreement for the purchase of Air Centers to October 29, 2003.

On October 23, 2003, at a telephonic meeting, the Mercury Board reviewed Allied Capital's offer in detail. Prior to the Board meeting, the Secretary of the Corporation distributed a copy of the most recent draft of the stock purchase agreement with Allied (Allied Stock Purchase Agreement), and Imperial Capital distributed a draft fairness opinion to the members of the Board of Directors of Mercury. Two representatives of Imperial Capital attended the Board meeting, made a presentation to the Board with respect to the Allied Transaction, issued its final opinion indicating that the Allied Transaction is fair to Mercury's stockholders from a financial point of view, in substantially the form of the draft opinion that was previously distributed, and answered questions pertaining to its due diligence, methodology and the contents of the fairness opinion.

Table of Contents

October 28, 2003 Allied Capital purchased the Whitney Note and simultaneously, Mercury, Air Centers and Allied Capital entered into the Allied Stock Purchase Agreement.

On October 27, 2003, the day immediately preceding the public announcement of the Allied Transaction, the closing price of Mercury Common Stock on the American Stock Exchange was \$8.00.

On November 26, 2003, Signature Flight Support Corporation (Signature), previously identified herein as Party A, filed a complaint in the Federal District Court, Central District of California, against Air Centers (the former FBO division of Mercury that was the subject of the Allied Stock Purchase Agreement) and Allied Capital alleging: 1) breach of contract against Air Centers; 2) tortious interference with contract against Allied Capital; 3) tortious interference with prospective economic advantage against Allied Capital; and 4) unfair business practices against Mercury and Allied Capital. Mercury agreed to indemnify Allied Capital and its affiliates (including, without limitation, Air Centers after the closing of the FBO sale), directors, officers, agents, employees and controlling persons from any liability, obligation, losses or expenses to which Allied Capital may become subject as a result of the complaint. On January 26, 2005 the Federal District Court granted Allied Capital's motion for summary judgment dismissing all claims against Allied Capital with prejudice. The Court also granted Mercury Air Centers motion in part dismissing in its entirety Signature's unfair business practices claim and holding that the substantive deal terms of the parties' executed letter of intent were non-binding. The sole remaining claim of Signature is for breach of the stand-down provision within the disputed letter of intent between the parties. The Court limited Signature's damages in that claim to reasonable out of pocket costs and expenses, and set the amount of damages at \$160,000 if Signature proves the existence of a binding contract and material breach thereof. This matter is expected to be appealed. In addition, on September 22, 2004, Signature filed a complaint against Mercury Air Group, Inc. in Los Angeles Superior Court, alleging unfair business practices, tortious interference with contract and prospective economic advantage and fraud. Mercury has filed a counterclaim against Signature and others for fraud, negligent misrepresentation and other claims in the Los Angeles Superior Court action. Signature filed an amended complaint on or about February 1, 2005. Mercury believes these allegations have no merit and will also be vigorously disputed and defended. In the opinion of management, the ultimate resolution of these complaints will not have a material effect on Mercury's consolidated financial statements.

The sale of the FBO assets to Allied Capital closed on April 12, 2005. Imperial Capital received \$300,000 from Mercury in connection with the sale to Allied Capital \$262,500 for services in connection with the purchase of the Whitney Note by Allied Capital and the execution of the Allied Stock Purchase Agreement, and \$37,500 for rendering the fairness opinion.

Special Dividend

On October 6, 2004, Mercury announced that its Board of Directors declared a one-time special dividend totaling \$17,500,000, or approximately \$5.45 to \$5.60 per share that would be payable on a pro rata basis to holders of record of its common stock as of the close of business on October 18, 2004. On October 5, 2004, the day immediately preceding the public announcement of the special dividend, the closing price of the common stock on the American Stock Exchange was \$5.39. The Board of Directors declared the one-time special cash dividend after a lengthy review of strategic goals in light of the sale of the FBO business. The dividend was paid on November 5, 2004. The dividend was paid from cash on hand and a \$10,000,000 cash advance on the loan agreement with Bank of America. Based on 3,056,355 shares of its common stock outstanding as of the close of business on October 18, 2004, the dividend payable per common share was \$5.70. The amount payable per share of common stock was net of the mandatory dividend payments of approximately \$70,000 on Mercury's outstanding preferred stock as of the dividend payment date of November 5, 2004.

BACKGROUND OF THE TRANSACTION BOARD AND SPECIAL COMMITTEE DELIBERATIONS

At a Board meeting on February 2, 2005, the Board of Directors formally asked management to consider the topic of SEC deregistration and delisting from the American Stock Exchange. The Board's interest in deregistration as an SEC reporting company was the result of a February 1, 2005 report requested by Mercury's former Chief Financial Officer and compiled by Mercury's current Chief Financial Officer, Kent Rosenthal, of estimated costs by outside consultant SenPro Consulting/Casey & Co. for implementation of Section 404 internal controls certification provisions of the Sarbanes-Oxley Act. The report stated that projected Sarbanes-Oxley compliance costs would range between \$1.2 million and \$2.5 million of external compliance costs, along with approximately \$0.4 million of internal compliance costs. The report also provided an overview of Sarbanes-Oxley benefits and challenges, summarized six pages of Sarbanes-Oxley compliance procedures which would be required by Mercury and also summarized the results of phase I, which was the observational phase, and upon which the consultant based its Sarbanes-Oxley compliance costs estimates. In selecting SenPro Consulting/Casey & Co., the former CFO of the Company reviewed the costs, availability and background of a number of consultants engaged in Sarbanes-Oxley Compliance analyses. The former CFO had a long standing business relationship with a high

Table of Contents

ranking officer of the Casey Group of Parsippany, NJ. The Casey Group has specialized experience in IT evaluation and enterprise driven work. The Casey Group in turn contacted and hired SenPro Consulting for its specific Sarbanes-Oxley expertise. SenPro consultants came to the Company with experience working with 10 accelerated filer companies and specific experience dealing with the needs of small cap companies. Except as set forth above, no material relationship existed during the past two years or is mutually understood to be contemplated between SenPro Consulting/Casey & Co. and/or its affiliates and the Company and/or its affiliates.

At the February 2, 2005 Board meeting, the Board discussed the high cost of maintaining the status quo and complying with the Section 404 Internal Controls Certification provisions, and the cost-savings benefits of SEC deregistration in light of the Company's lack of liquidity for its common stock. The Board also discussed that the Company's common stock would likely be quoted on the pink sheets. At this meeting, the Board discussed certain matters with Mercury's outside legal counsel, McBreen & Kopko (M&K). M&K is a law firm of which Frederick H. Kopko, Jr. is a partner. The matters discussed with M&K included, potential methods for deregistration as an SEC reporting company, which would require Mercury to reduce the number of stockholders of record of its common stock to less than 300. At this meeting the Board of Directors formed the Special Committee, which consisted of two independent directors to consider delisting and deregistering the Company's common stock. The Board of Directors also discussed at this meeting the advisability of continuing to utilize M&K as its outside legal counsel. The Board of Directors determined that, due to M&K's knowledge of the Company, it would be in the best interests of the Company and its stockholders to continue to use M&K as its outside legal counsel, however, the Board of Directors also determined that it would be in the best interests of the Company and its stockholders to also utilize an independent legal counsel to advise the Special Committee in connection with a possible deregistration and delisting.

Following the Board meeting on February 2, 2005, Bingham McCutchen, LLP (Bingham McCutchen) was engaged as independent legal counsel to the Special Committee and Imperial Capital was engaged as financial adviser to the Special Committee and the Board. Bingham McCutchen was requested to provide a presentation to the Special Committee on the considerations of delisting from the American Stock Exchange and deregistration as an SEC reporting company. Imperial Capital was requested to discuss with the Special Committee the advantages and disadvantages of delisting, deregistering and being quoted on the pink sheets.

The Special Committee discussed the topics of deregistration and delisting at a meeting held on February 16, 2005, with its independent legal counsel, Bingham McCutchen. The Company's third independent director who is not a member of the Special Committee, Gary Feracota, was invited to, and did, participate in the meeting of the Special Committee. At such meeting, the Special Committee confirmed its scope of duties and responsibilities, the independence of its members, its engagement of Bingham McCutchen and its engagement of Imperial Capital. The members of the Special Committee confirmed their selection of Imperial Capital on the basis that Imperial Capital is an independent and experienced provider of valuation and fairness opinions; it does not have an advisory or other potentially conflicting role in the proposed Transaction; and it is thoroughly familiar with Mercury and its operations from having rendered prior fairness opinions in unrelated transactions and could therefore perform the analysis more expeditiously and cost effectively than other financial advisors.

The Special Committee discussed in detail with its counsel its fiduciary obligations. The Special Committee also discussed in detail the information needed to evaluate the proposed Transaction, including the cost of maintaining the status quo, information regarding anticipated cost savings and anticipated expenses, all of which were considered in order to make an informed recommendation to the Board as to whether Mercury should delist its common stock from the American Stock Exchange and deregister its common stock as an SEC reporting company. The Special Committee reviewed material from Bingham McCutchen consisting of an agenda, which detailed what items should be considered at the meeting, and a draft delisting/deregistration process memorandum, which set forth the processes, procedures, and issues to be considered by the Special Committee. The Special Committee also considered a reverse/forward stock split as one of the methods of reducing the holders of record of Mercury's common stock to less

than 300. Mercury's management and the Special Committee's advisers were requested to provide the Special Committee with responses to a variety of questions and to respond to a variety of requests for information. The information requested included examples of press releases and proxy statement information for other companies that had deregistered, a report on any of Mercury's contractual arrangements that might be impacted, alternatives to a reverse/forward stock split as the mechanism for accomplishing deregistration and a liquidity study to be performed by Imperial Capital as to the market impact of deregistration by other companies.

On February 21, 2005, the Special Committee met again to review information with which it had been supplied including proposed transaction details provided by management and responses to previous questions posed to management and Bingham McCutchen. The Special Committee also discussed with Bingham McCutchen various issues being considered as to the advantages and disadvantages for ceasing to have its shares of common stock continue to be listed on the American Stock Exchange and registered with the SEC.

Table of Contents

These included, cost savings that likely would result, both on an initial and continuing basis, the costs of accomplishing delisting and deregistration, the impact on stockholders' liquidity for their shares of common stock, and the consequences to stockholders who would receive cash for their fractional shares. Bingham McCutchen provided a step-by-step memorandum at this meeting, which detailed the steps necessary to effectuate the reverse/forward stock split, and advised the Special Committee on both procedural and substantive considerations for effecting a transaction that would result in SEC deregistration and American Stock Exchange delisting, including the fiduciary duties of directors on the Special Committee. The methods for accomplishing such delisting and deregistration again were discussed, including management's recommendation of a reverse/forward stock split with cash being paid to holders of record of Mercury's common stock who hold less than 501 shares. Other methods considered were a cash tender offer, a cash-out merger, purchase of shares in the open market, a reverse stock split without a forward stock split and the sale of certain divisions. The method of determining the fairness of a cash payment to unaffiliated stockholders for fractional shares was discussed in detail. At the request of the Special Committee, additional information was to be provided for future meetings by Mercury's management, Bingham McCutchen and Imperial Capital. Management was requested to provide a detailed analysis of anticipated cost savings of deregistration, particularly as such cost savings relate to not having to comply with Section 404 of the Sarbanes-Oxley Act, and to provide a description of anticipated corporate governance if deregistration occurred. Bingham McCutchen was requested to provide the Special Committee with a detailed check list of matters that should be considered. Imperial Capital was requested to provide an analysis of companies that had deregistered and the reasons therefore and their trading history pre and post deregistration.

The Special Committee met again on February 25, 2005 with Bingham McCutchen and Imperial Capital. The additional information that had been supplied to the Special Committee by Imperial Capital was reviewed in detail, including preliminary drafts of information about: other companies who had used a reverse stock split for deregistration and their reasons for doing so (the Comparable Stock Split Analysis); a liquidity analysis of companies that had become traded on the pink sheets after having been traded either on a major stock exchange or quoted on NASDAQ (the Pink Sheet Liquidity Analysis); Delaware case law on the selective purchase of fractional shares; a share premium analysis (Share Premium Analysis); and a preliminary draft of a fairness opinion. The Comparable Stock Split Analysis listed 12 companies and itemized their reverse stock split ratios, the purpose of each stock split, whether the stock was later quoted on the pink sheets, and financial information on the companies, including market capitalization at the time of the split. The Pink Sheets Liquidity Analysis presented a price and volume chart of all stocks that were transferred to the pink sheets since July 1, 2004, listing price and volume, along with one week, one month, and one year average price and volume, of each such company, and also summarized the price and volume activity in total and by where each stock traded prior to being listed on the pink sheets. The liquidity analysis was also presented for stocks that were illiquid prior to transfer to the pink sheets. The Pink Sheets Liquidity Analysis concluded that price and volume dropped significantly when companies were transferred to the pink sheets, but that when illiquid securities were considered, the drop in price was less significant and volume actually increased in certain periods. The Share Premium Analysis analyzed the price activity of nine small illiquid companies where the majority shareholder acquired a majority interest of between 5% and 25%, finding a significant one-day, five-day and thirty-day premium for such prices. Also presented at the meeting: a distribution of shares analysis which was prepared internally and set forth the range of shares held by Mercury's stockholders along with an analysis of the cost of Mercury buying out stockholders within specified ranges, and a revised step-by-step memorandum provided by Bingham McCutchen, which set forth additional processes, procedures and issues to be considered at the Special Committee meeting. At the meeting, further information was requested from Mercury's management and refinements were asked to be made in the analyses provided by Imperial Capital. The additional information requested from Mercury's management included the computation of anticipated cost savings based on analyses of consultants, a detailed summary of the proposed Transaction, potential audit firm issues if Mercury deregistered, whether credit agreement or other contractual consents or modifications would be required, whether registration rights exist, whether employment agreements would be impacted, the amount and source of funding required and the projected increase in ownership that would occur to the largest stockholders of Mercury.

On March 1, the Special Committee again met with Bingham McCutchen and Imperial Capital to discuss the additional information and reports it had received, including a revised liquidity analysis of companies that had begun trading on the pink sheets after having been traded either on a major stock exchange or quoted on NASDAQ, which analysis separately breaks out distressed companies and concludes that distressed companies had significantly lowered price and volume, following the transfer to the pink sheets, than did non-distressed companies. Also distributed at the meeting was Imperial Capital's preliminary opinion, subject to various assumptions and limitations as set forth therein. The Special Committee discussed with Imperial Capital the methodology for determining an appropriate range of cash consideration that would be fair, from a financial point of view, to those stockholders receiving the cash consideration, including all unaffiliated stockholders. The Special Committee requested that any preliminary information and reports be revised before the next meeting of the Special Committee. The Special Committee also re-reviewed the step-by-step memorandum that had been provided at the February 25, 2005 Special Committee meeting by Bingham McCutchen to determine what additional information was needed and who was to provide such information. Except for the step-by-step memorandum discussed above, memoranda regarding agendas and processes, legal research and publicly available information on

Table of Contents

other companies, Bingham McCutchen did not provide any opinions or presentation materials at the March 1, 2005 Special Committee meeting or at any other meeting of the Special Committee or the Board of Directors.

Another meeting of the Special Committee was held on March 3, 2005 with Bingham McCutchen and Imperial Capital to review the procedural and substantive issues that the Special Committee had considered to date. M&K, the Company's outside legal counsel, reported to the Special Committee on the extension of the required compliance date for the Section 404 provisions of the Sarbanes-Oxley Act for small issuers, such as Mercury. The Special Committee then discussed the impact of such extension on its deliberations and whether further information would be useful in reaching a decision to recommend to the Board that Mercury delist its common stock from the American Stock Exchange and deregister such common stock from SEC reporting requirements in accordance with the proposed Transaction being considered. The Special Committee discussed in detail the previous draft opinion and other materials from Imperial Capital consisting of a revised comparable stock split analysis of other companies which was similar to the previous Comparable Stock Split Analysis of other companies, but contained additional analysis of the market value of the comparable companies at the time of the reverse stock split, and also provided by Imperial Capital was an analysis of how much it would cost Mercury to undertake the reverse stock split at various prices (Cash Buy-Out Analysis). The Special Committee previously had been furnished with a draft of a preliminary proxy statement that included a discussion of the proposed Transaction. After reviewing the draft of the preliminary proxy statement, the Special Committee determined to further reflect on the issues presented, to further review the material provided, including a further update to the draft of the preliminary proxy statement, and to meet again the following week.

The Special Committee next met on March 8, 2005 with Bingham McCutchen and Imperial Capital. Management and M&K reported to the Special Committee on unusual price and volume activity that was occurring that day in Mercury's common stock and reviewed with the Special Committee a proposed press release to be released later that day. The Special Committee reviewed in detail: the advice that it had received; the information and reports provided from all sources, consisting of cost savings projections from Sen/Pro Consulting/Casey & Co., which was previously provided to the Special Committee, a separate report from Parson Consulting also setting forth cost savings projections which was presented to the Special Committee by Mercury's Chief Financial Officer, a Mercury historical price and volume analysis setting forth the price and volume of Mercury's common stock for the preceding two years; a cash buy-out analysis updated to reflect various premiums based on the March 7, 2005 closing price of Mercury's common stock, and the draft fairness opinion issued by Imperial Capital with respect to the proposed Transaction, which was previously provided to the Special Committee. The report from Parson Consulting estimated that projected Sarbanes-Oxley costs attributable to direct billings from that consultant would be \$700,000. However, this was exclusive of other costs that were included in the SenPro Consulting/Casey & Co. report such as increased audit fees, systems enhancements, and increased personnel costs, which Mercury's Chief Financial Officer stated would make the costs from the two consultants comparable. The report also outlined the five phases of Sarbanes-Oxley compliance and summarized Parson Consulting's credentials. Mercury's Chief Financial Officer noted that Parsons Consulting had contacted Mercury and provided its estimate based on the study prepared by SenPro Consulting/Casey & Co. Parson Consulting has performed over 50 Sarbanes-Oxley estimates. No material relationship existed during the past two years or is mutually understood to be contemplated between Parson Consulting and its affiliates and Mercury and its affiliates.

At the March 8, 2005 Special Committee meeting, Imperial Capital discussed with the Special Committee, based on the documents summarized above, Mercury's historical trading prices and volumes for its common stock and provided a detailed review of its draft fairness opinion. Imperial also reviewed typical premiums paid in going private transactions, how the Special Committee might approach determining the price to be paid to holders of fractional shares and how this information should be compared with Mercury's range of implied equity values set forth in Imperial Capital's draft fairness opinion.

The two members of Mercury's Special Committee next met on March 9, 2005 with Bingham McCutchen to review with the third independent director, who was not a member of the Special Committee, a summary of the discussions that the Special Committee had engaged in to date, the information and reports it had previously received, including a revised cash buy-out analysis based on the closing price on March 8, 2005, the draft fairness opinion from Imperial Capital and the most recent draft of proposed proxy materials. The independent directors again reviewed with counsel their fiduciary duties, the advantages and disadvantages of the proposed Transaction as detailed in the draft proxy statement and the methodology for determining the cash price for fractional shares in the event that the Special Committee recommended the proposed Transaction to the Board of Directors.

At a meeting on March 10, 2005, the Special Committee, along with the third independent director, again reviewed the procedures and process that had been followed by the Special Committee in considering the proposed Transaction and the advice and information that had been furnished to the Special Committee. The Special Committee reviewed in detail with Mercury's chief financial officer the computation of cost savings that are anticipated to result from deregistration based on materials previously received from SenPro Consulting/Casey & Co. and Parson Consulting, a revised cash buy-out analysis based on the closing price on March 20, 2005, a revised comparable stock split analysis which was similar to the previous comparable stock split analysis documents but contained

Table of Contents

additional information on the 20-day average premium on the comparable companies presented, and the latest draft of the fairness opinion, which set forth updates to the calculations in the appendices. A new draft of the preliminary proxy materials was to be furnished to the independent directors not later than March 11, 2005 and would be reviewed by the independent directors before the meeting of the Special Committee on March 14, 2005.

On March 14, 2005, the Special Committee again met with the third independent director, with Bingham McCutchen and with Imperial Capital to discuss the additional information it received since its last meeting. Such additional information included: revised preliminary proxy material prepared by M&K; an updated draft of the fairness opinion which again set forth updates to the calculations in the appendices, a cash buy-out analysis based on the closing price of Mercury's stock on March 14, 2005 (all from Imperial Capital); and a summary of the determination of the existence of a legal source under Delaware law for the proposed purchase of fractional shares. The updated draft of the fairness opinion again was thoroughly discussed with Imperial Capital and certain members of Mercury's senior management. The status of requested changes to the loan agreement with Bank of America also was discussed. The Special Committee members and the third independent director again reviewed with Imperial Capital and counsel whether to recommend the proposed Transaction to the Board and, if so, the methodology for determining the cash consideration to be paid that would be advisable, fair and in the best interests of Mercury and all of its stockholders, including unaffiliated stockholders.

The Special Committee met for a final time on March 21, 2005 to review in detail: the advice that it had received; the information and reports provided from all sources, including a cash buy-out analysis, based on the closing price of Mercury's common stock on March 18, 2005, an expanded cash buy-out analysis, based on the closing price of Mercury's common stock on March 21, 2005 and the most recent draft of the fairness opinion issued by Imperial Capital with respect to the proposed Transaction, which was similar to the previous draft opinions except for updates to the calculations in the appendices. In considering the cash consideration to be paid to stockholders who would receive less than one share in the reverse stock split, the Special Committee reviewed a number of factors as discussed in Special Factors Recommendation of the Special Committee beginning on page 25 below. The Special Committee also considered the advice received from Imperial Capital, including Imperial Capital's fairness opinion. The full text of Imperial Capital's opinion is attached as Appendix B. Mr. Janowiak noted that Mr. Czyzyk had suggested that the Special Committee consider a repurchase price of \$3.65, which then represented a premium of \$.29 to the \$3.36 March 21, 2005 closing price for the Company's common stock. Both committee members considered the range of implied equity values as set forth in Imperial Capital's analysis of value, as well as the closing prices over the last 10, 20 and 30 trading days and one month average closing prices. Mr. Janowiak proposed a \$4.00 repurchase price, representing a premium of \$.64 or 19% over the closing price on March 21, 2005. Mr. Pusateri agreed and subject to Board approval and stockholder approval, the Special Committee unanimously recommended the cash consideration of \$4.00 per share and determined that: (i) both the Transaction and the payment of cash consideration of \$4.00 per share of common stock to stockholders who otherwise would receive less than one share in the reverse stock split are advisable, fair and in the best interests of Mercury and all of its stockholders, including all unaffiliated stockholders, and (ii) the proposed Transaction, including the cash consideration, be recommended to Mercury's Board of Directors for adoption.

At the special Board meeting on March 21, 2005, Mr. Janowiak, chairman of the Special Committee, reported on the Special Committee meeting held earlier that day. The Board discussed extensively the Special Committee's review of the reverse stock split, the estimated cost to accomplish the Transaction, and the cost savings that would be realized by SEC deregistration. The Board and its counsel, M&K, specifically discussed the preliminary proxy materials previously furnished to the Board members and the cash consideration of \$4.00 per pre-split share to be paid to stockholders who would otherwise receive less than one share in the reverse stock split. In considering the price for the cash consideration, the Board reviewed a number of factors as discussed in Special Factors Recommendation of the Board; Fairness of the Transaction beginning on page 39. The Board also considered the Special Committee's recommendation and the opinion of the Special Committee's financial advisor. With Messrs. Czyzyk and Kopko

abstaining, the remainder of the Board unanimously voted to approve the Transaction and directed that the Transaction be submitted to stockholders for a vote at a Special Meeting of Stockholders. The Board recommended that stockholders approve the Transaction.

PURPOSE OF AND REASONS FOR THE TRANSACTION

The purpose of the Transaction is to cash-out the equity interests in Mercury of stockholders who, as of the effective date, hold fewer than 501 shares of common stock in any discrete account at a price determined to be fair by the entire Board in order to enable Mercury to deregister its common stock under the Exchange Act and thus terminate its obligation to comply with Section 404 of the Sarbanes-Oxley Act. The Transaction will also terminate Mercury's obligation to file annual and periodic reports and make other filings with the SEC, although Mercury currently intends to continue to provide reports as to its financial condition and results of operation which Mercury expects may be accessed at www.pinksheets.com.

Table of Contents

Joseph A. Czyzyk, Frederick H. Kopko, Jr. and CK Partners, the Transaction Affiliates, fully support the Transaction for the same reasons as stated above and concur with the reasons for and benefits and disadvantages of the Transaction set forth below. The Transaction Affiliates believe that the Transaction is in the best interests of Mercury. While the ownership interest of the Transaction Affiliates in Mercury will increase as a result of the Transaction, this increase will be small due to the small number of shares being bought out in the Transaction. (See - Benefits of the Transaction to Affiliates of Mercury beginning on page 22). Unaffiliated stockholders who will remain stockholders after the Transaction will also experience an increase in their ownership interest of Mercury as a result of the Transaction. The Transaction Affiliates are not engaging in this Transaction to increase their ownership interest in Mercury, but because they believe that it will benefit and be in the best interest of Mercury, since the substantial costs and burdens associated with compliance with the Sarbanes-Oxley Act of 2002 will be largely eliminated.

The reasons for the Transaction and subsequent deregistration of Mercury as an SEC reporting company include:

- eliminating the costs and investment of management time associated with compliance with Section 404 of the Sarbanes-Oxley Act and related regulations; and
- affording stockholders holding fewer than 501 shares immediately before the Transaction the opportunity to receive cash for their shares, without having to pay brokerage commissions and other transaction costs, at a price that represents a premium of 19% over the closing price of \$3.36 on March 21, 2005, which was the last trading day before the public announcement that the proposed Transaction had been approved by the Special Committee and the Board.

BENEFITS OF THE TRANSACTION*Benefits and Cost Savings of Termination as an SEC Reporting Company*

Mercury anticipates it will save up to \$3,000,000 through June 30, 2007, and approximately \$500,000 per year thereafter, by not having to comply with Section 404 of the Sarbanes-Oxley Act. Mercury will also save approximately \$15,000 per year in American Stock Exchange fees. Mercury also incurs substantial additional costs as a result of its status as a reporting company and being required to file annual reports on Form 10-K, quarterly reports on Form 10-Q, proxy statements and stockholder reports as required by Regulation 14A under the Exchange Act, and current reports on Form 8-K; however, these costs are not enumerated below as Mercury intends to continue to provide reports as to its financial condition and results of operation.

The annual savings that Mercury expects to realize as a result of the Transaction are estimated as follows:

Compliance with Section 404 of the Sarbanes-Oxley Act*	\$ 500,000
American Stock Exchange Fees	\$ 15,000
Total	\$ 515,000

- * Initial compliance with Section 404 of the Sarbanes-Oxley Act is estimated to cost up to \$3,000,000, through June 30, 2007. This figure does not take into account any additional costs that may be necessary to remediate any deficiencies, if any, in Mercury's internal controls. Thereafter, annual costs for compliance with Section 404 are expected to be approximately \$500,000.

Estimates of the annual savings expected to be realized if the Transaction is implemented are based upon a study prepared by SenPro Consulting/Casey & Co., in the case of costs of complying with Section 404 of the Sarbanes-Oxley Act of 2002, and actual costs to Mercury in the case of the American Stock Exchange listing fee.

In addition to the above costs, Mercury believes that there will be a reduction in auditing fees if Mercury ceased to be an SEC reporting company as there will not be any fees for the auditors to attest to internal controls pursuant to Section 404 of the Sarbanes-Oxley Act.

The estimate regarding Section 404 of the Sarbanes-Oxley Act of 2002 is only an estimate, and the actual savings to be realized may be higher or lower than estimated above. In addition, Mercury expects the various costs associated with remaining an SEC reporting company will continue to increase as a result of enactment of the Sarbanes-Oxley Act of 2002 and regulations adopted pursuant to that legislation. Based on Mercury's size and resources, the Board does not believe the costs associated with remaining an SEC reporting company are justified.

Table of Contents

Comparing the Benefits of Termination versus Remaining an SEC Reporting Company

The Board believes that Mercury will not benefit significantly from remaining an SEC reporting company. Even as an SEC reporting company that is listed on the American Stock Exchange, there is a very limited trading market for Mercury's shares, especially for sales of larger blocks of Mercury's shares, and stockholders derive little benefit from Mercury's status as an SEC reporting company that is listed on the American Stock Exchange. During the 30-day period prior to the announcement that the Special Committee and the Board had approved the Transaction, the average daily trading volume on the American Stock Exchange of Mercury's common stock was approximately 9,093 shares. Mercury's small public float and limited trading volume have limited the ability of Mercury's stockholders to sell their shares without also reducing Mercury's trading price.

Further, the Board has no present intention to raise capital through sales of securities in a public offering in the future or to acquire other business entities using Mercury's stock as the consideration for any acquisition, and Mercury is therefore unlikely to have the opportunity to take advantage of its current status as an SEC reporting company for these purposes. If for any reason the Board of Directors decides in the future to access the public capital markets, Mercury could do so by filing a registration statement for such securities.

Benefits of the Transaction to Affiliates of Mercury

Benefits of the Transaction to affiliates of Mercury are expected to include the following:

- assuming the exercise of all options that are exercisable within sixty days of the date of this proxy statement, Mercury's officers and directors, including the Transaction Affiliates, will increase their percentage ownership in Mercury from 42.8% to 45.1%;
 - assuming the exercise of all options that are exercisable within sixty days of March 1, 2005, the Transaction Affiliates will increase their percentage ownership in Mercury from 37.7% to 39.8%;
 - affiliated stockholders may benefit from the reduction in total shares outstanding or from the cost savings by Mercury not being public, either or both of which may result in higher earnings per share, which in turn may result in a higher price for their shares than they would have received if Mercury remained public;
 - Mercury's officers and employees will benefit from eliminating the time and effort associated with implementation of the Section 404 internal controls certification provisions of the Sarbanes-Oxley Act;
 - Mercury's officers and directors will benefit because, after the 90 day waiting period, tender offer transactions by issuers and affiliates will no longer be regulated; and
 - remaining affiliated stockholders may benefit from future operating results of Mercury.
- See Interests of Mercury's Directors and Executive Officers in the Transaction beginning on page 32.

Benefits of the Transaction to Unaffiliated Stockholders

Benefits of the Transaction to unaffiliated stockholders of Mercury are expected to include the following:

- unaffiliated stockholders holding fewer than 501 shares immediately before the Transaction will have the opportunity to receive cash for their shares at a price that represents a premium of approximately 19% over the closing price of \$3.36 on March 21, 2005, which was the last trading day before the public announcement of the approval of the proposed Transaction by the Special Committee and the Board, without having to pay

brokerage commissions and other transaction costs;

- unaffiliated stockholders receiving \$4.00 for their shares are receiving an amount that is within the range of implied equity values in the per share analyses presented by Imperial Capital, financial advisor to the Special Committee and the Board. (See Opinion of Imperial Capital, LLC beginning on page 33);
- unaffiliated stockholders who remain stockholders of Mercury after the Transaction may benefit from the reduction in total shares outstanding or from the cost savings by Mercury not being public, either or both of which may result in higher earnings

Table of Contents

per share, which in turn may result in a higher price for their shares than they would have received if Mercury remained public; and

- remaining unaffiliated stockholders may benefit from future operating results of Mercury.

DISADVANTAGES OF THE TRANSACTION

Disadvantages of the Transaction to Mercury

Disadvantages of the Transaction to Mercury are expected to include the following:

- Mercury's working capital and assets will be decreased and/or indebtedness increased, to fund the purchase of fractional shares, and to pay the other costs of the Transaction; and
- the limited ability that Mercury has to raise capital in the public securities markets or to use its stock as an acquisition currency will be effectively eliminated.

Disadvantages of the Transaction to Affiliates of Mercury

Disadvantage of the Transaction to affiliates of Mercury are expected to include the following:

- Mercury's officers and directors, including the Transaction Affiliates, are likely to experience reduced liquidity for their shares of common stock, even if the common stock trades on the pink sheets, and this reduced liquidity may adversely affect the market price of the common stock.

Disadvantages of the Transaction to Unaffiliated Stockholders of Mercury

Disadvantages of the Transaction to unaffiliated stockholders of Mercury are expected to include the following:

- the cash price offered to stockholders under the proposed Transaction could be less than the market price at the time the Board decides to implement the Transaction and is less than the \$4.54 book value of the common stock as of March 31, 2005;
- remaining stockholders are likely to experience reduced liquidity for their shares of common stock, even if the common stock trades on the pink sheets, and this reduced liquidity may adversely affect the market price of the common stock;
- less public information about Mercury will be required or available after the Transaction and officers will no longer be required to certify the accuracy of Mercury's financial statements although Mercury currently intends to provide reports as to its financial condition and results of operations, which Mercury expects may be accessed at www.pinksheets.com;
- after the 90 day waiting period, persons acquiring 5% of Mercury's common stock will no longer be required to report their beneficial ownership under the Exchange Act;
- after the 90 day waiting period, tender offers for the beneficial ownership of more than 5% of Mercury's common stock will no longer be regulated;
- after the 90 day waiting period, tender offer transactions by issuers and affiliates will no longer be regulated;
- stockholders who are cashed out will be unable to participate in any future operating results of Mercury unless they buy stock after the Transaction; and

- stockholders who are cashed out for \$4.00 per pre-reverse split share in the Transaction may receive less for their shares than they would if the common stock continued trading on the American Stock Exchange.
- See Certain Effects of the Transaction beginning on page 37.

Table of Contents

TIMING OF THE TRANSACTION

In light of the foregoing, the Board believes that it is in the best interests of Mercury and its stockholders, including unaffiliated stockholders, to change the status of Mercury to a non-SEC reporting company at this time because the sooner the proposal can be implemented, the sooner Mercury will cease to incur the expenses and burdens (which are only expected to increase in the near future) and the sooner stockholders who are to receive cash in the Transaction will receive and be able to reinvest or otherwise make use of such cash payments.

ALTERNATIVES CONSIDERED

The Special Committee, the Board and the Transaction Affiliates considered several other alternatives to accomplish the reduction in the number of record stockholders to fewer than 300, but ultimately rejected these alternatives because the Special Committee, the Board and the Transaction Affiliates believed that the proposed Transaction consisting of a reverse stock split followed by a forward stock split structure would be the simplest and least costly method. The other alternatives considered were:

- **CASH TENDER OFFER BY MERCURY AT A SIMILAR PRICE PER SHARE.** The Special Committee, the Board and the Transaction Affiliates did not believe that a tender offer would necessarily result in the purchase of a sufficient number of shares to reduce the number of record holders to fewer than 300 because many stockholders with a small number of shares might not make the effort to tender their shares and the cost of completing the tender offer could be significant in relation to the value of the shares that are sought to be purchased. Alternatively, if most of the holders of Mercury's common stock tendered their shares, Mercury would be required to purchase shares from all tendering stockholders up to the maximum number of shares specified in the cash tender offer, which would result in a substantially greater cash amount necessary to complete the Transaction. Regardless, a tender offer would provide no guarantee that the number of record holders would ultimately be reduced to fewer than 300. In comparison, the Transaction, if successfully completed, is likely to allow Mercury to accomplish its SEC deregistration objectives.
- **CASH-OUT MERGER.** The Special Committee, the Board and the Transaction Affiliates considered and rejected this alternative because the proposed Transaction would be more simple and cost-effective than a cash-out merger.
- **PURCHASE OF SHARES BY MERCURY IN THE OPEN MARKET.** The Special Committee, the Board and the Transaction Affiliates rejected this alternative because they each concluded it was unlikely that Mercury could acquire shares from a sufficient number of record holders to accomplish the Special Committee's and the Board's objectives in large part because Mercury would not be able to dictate that open share purchases only be from record holders selling all of their shares. Even if enough open market purchases resulted in lowering the number of record holders to less than 300, such purchases would likely be more costly than the proposed Transaction.
- **REVERSE STOCK SPLIT WITHOUT A FORWARD STOCK SPLIT.** This alternative would accomplish the objective of reducing the number of record holders below the 300 threshold, assuming approval of the reverse stock split by Mercury's stockholders. In a reverse stock split without a subsequent forward stock split, Mercury would acquire the interests of the cashed-out stockholders and the fractional share interests of those stockholders who are not cashed-out (as compared to the proposed Transaction in which only those stockholders whose shares are converted to less than one whole share after the reverse stock split would have their fractional interests cashed-out; and all fractional interests held by stockholders holding more than one whole share after the reverse stock split would be reconverted to whole shares in the forward stock split).

Thus, the Special Committee, the Board and the Transaction Affiliates rejected this alternative due to the higher cost involved of conducting a reverse stock split without a forward stock split.

- **SALE OF CERTAIN DIVISIONS OF THE COMPANY.** From time to time, the Board has explored the possibility of a sale of certain divisions of Mercury. Although the Company's FBO Business was sold in April 2004, no acceptable firm offers for any other division of the Company were received. See Corporate Developments in Last Four Years beginning on page 11.
- **DIFFERENT REVERSE/FORWARD STOCK SPLIT RATIOS.** The Special Committee, the Board and the Transaction Affiliates also considered reverse stock splits followed by forward stock splits at different ratios than the Transaction, such as reverse stock splits in the amount of 1-for-100, 1-for-200, 1-for-300, 1-for-400, 1-for-500, 1-for-1,000, 1-for-1,500 or 1-for-5,000 followed by, in each case, forward stock splits in the same ratio. Although the lower ratios would be less costly for the Company, and would also reduce the number of record holders below 300, the Special Committee, the Board and the Transaction Affiliates concluded that the additional cost savings would not be worth the risk of Mercury having to re-register

Table of Contents

as a reporting Company, which would be required if a sufficient number of beneficial owners elected to take record ownership of their shares, causing the number of record owners to exceed 500.

In addition to various alternatives considered by Mercury, the Transaction Affiliates also considered a cash tender offer for Mercury's shares. In January 2005, Messrs. Czyzyk and Kopko met with two independent entities for the purpose of obtaining financing for a possible cash tender offer. However, the independent entities would not commit to any financing, and Messrs. Czyzyk and Kopko determined that a cash tender offer would entail significant financial risk. The discussions with these entities did not advance to the points where pricing was considered.

In summary, the Special Committee, the Board and the Transaction Affiliates considered these alternatives in order for Mercury to terminate its registration as an SEC reporting company and its obligation to comply with Section 404 of the Sarbanes-Oxley Act. As discussed above, these alternatives were considered inferior for the reason that either there would be no guarantee that they would accomplish Mercury's objective, such as in the case of a cash tender offer by Mercury at a similar price per share, or in the case of a different reverse/forward stock split ratio, or for the reason that the alternatives would be more costly, such as in the case of a cash-out merger, or in the case of a reverse stock split without a forward stock split. Moreover, in the case of a purchase of shares in the open market, both uncertainty of completion and cost considerations made this alternative inferior to the Transaction. A sale of certain divisions of the Company was also considered inferior because the Board, the Special Committee and the Transaction Affiliates did not believe any sale could be accomplished at an acceptable price and within an acceptable time frame. Consequently, the Special Committee, the Board and the Transaction Affiliates concluded that the Transaction is the most expeditious and economical alternative to accomplish Mercury's objectives.

RECOMMENDATION OF THE SPECIAL COMMITTEE

The composition of the Special Committee consisted of two directors, Messrs. Michael Janowiak and Angelo Pusateri. Each of these directors has been deemed independent by the Board of Directors as independence is defined in NASD Rule 4200(a)(15) and Rule 10A-3(b)(1) of the Exchange Act. The Special Committee retained Imperial Capital as its financial advisor and Bingham McCutchen as independent legal counsel.

In evaluating the proposed Transaction and the cash consideration, the Special Committee relied on its knowledge of the business, financial condition and prospects of Mercury as well as the advice of its financial advisors and legal counsel. In view of the wide variety of factors considered in connection with the evaluation of the Transaction and cash consideration, the Special Committee did not find it practicable to, and did not, quantify or otherwise attempt to assign relative weights to the specific factors it considered in reaching its determinations.

The discussion herein of the information and factors considered by the Special Committee is not intended to be exhaustive, but is believed to include all material factors considered by the Special Committee. In determining that the Special Committee would recommend the Transaction and the cash consideration to the Board of Directors, the Special Committee considered the following substantive factors in the aggregate, which in the view of the Special Committee, supported such determination.

- **CURRENT AND HISTORICAL PRICES OF MERCURY'S COMMON STOCK.** The Special Committee considered both the historical market prices and recent trading activity and current market prices of Mercury common stock.

The Special Committee reviewed the high and low sales prices for the common stock from January 1, 2003 to March 21, 2005 and from March 21, 2004 to March 21, 2005, the latter period of which ranged from \$3.08 to \$8.45 per share. You should read the discussion under "Market for Common Stock and Related Stockholder Matters" on page 46 for more information about Mercury's stock prices. On March 8, 2005, the day before the

public announcement that the Special Committee was considering the Transaction, the closing price of the common stock was \$4.49 per share. The closing price of Mercury common stock on March 21, 2005, the last trading day before the public announcement of the approval of the proposed Transaction by the Special Committee and the Board, was \$3.36 per share.

The Special Committee noted that, as a positive factor, the cash payment of \$4.00 per share payable to stockholders in lieu of fractional shares represents a premium of approximately 19% over the \$3.36 closing sales price of Mercury's common stock on March 21, 2005, which was the last trading day before the public announcement that the Special Committee and the Board had approved the Transaction. In addition to stockholders receiving a premium to the trading price of Mercury's common stock on any shares redeemed as a result of the reverse stock split, such stockholders will achieve liquidity without incurring brokerage commissions and other transaction costs.

Table of Contents

The Special Committee also noted that although the cash consideration represented a 53% discount to the Mercury share price of \$8.45 (the highest sales price since March 21, 2004) and a 34% discount to the last closing price of \$6.05 one year before the last trading day prior to the public announcement of the approval of the proposed Transaction by the Board and the Special Committee, such historical price data did not take account of the special dividend of \$5.70 per share paid as of November 5, 2004 and therefore was of lesser relevance than more recent trading data and in light of the premiums that the cash consideration represents over the average closing sales price of Mercury's common stock for the 10 trading days, 20 trading days, 30 trading days, and one-month trading periods immediately prior to the public announcement of the approval of the proposed Transaction by the Special Committee and the Board and over the closing sales price of Mercury's common stock immediately prior to such public announcement.

- **GOING CONCERN VALUE.** In determining the cash amount to be paid to cashed-out stockholders in the Transaction, the Special Committee considered the analyses as presented in Imperial Capital's report, without giving effect to any anticipated effects of the Transaction. In considering going concern value, the Special Committee considered multiples of EBITDA and revenue of comparable SEC reporting air cargo handling and fuel services companies and discounted cash flow valuations.

Also, the Special Committee did not consider the amount per share that might be realized in a sale of all or substantially all of the stock or assets of Mercury, believing that consideration of such amount was inappropriate in the context of a Transaction that would not result in a change in control of Mercury. In considering the going concern value of Mercury's shares, the Special Committee adopted the analyses of Imperial Capital, which indicated a share price of \$2.95, \$3.73 or \$4.17 per share, as the mean per share implied equity values of Mercury's common stock. See Opinion of Imperial Capital, LLC beginning on page 33. Accordingly, the Special Committee believes that the going concern analysis supports its determination that the Transaction is fair to stockholders.

- **NET BOOK VALUE.** As of December 31, 2004, the net book value per common share was \$5.14, and the tangible net book value per common share (excluding intangibles) was \$3.65. The Special Committee noted that book value per common share is an historical accounting value which may be more or less than the net market value of Mercury's assets after payment of its liabilities, and a liquidation would not necessarily produce a higher value than book value per common share.
- **LIQUIDATION VALUE.** Although no valuation of total assets was undertaken, the Special Committee believes that a liquidation or other Transaction designed to monetize Mercury's assets would likely result in recovery of a price for Mercury's tangible assets that is substantially less than tangible book value. The Special Committee considered that Mercury's non-cash assets consist primarily of accounts receivable and leasehold improvements. The Special Committee believes that the sale of accounts receivable would not sufficiently offset indebtedness and that the sale of leasehold improvements would not be practicable, given the difficulty in transferring the underlying leaseholds, and in any event would not offset the expense of satisfying lease and other contractual obligations in a liquidation. In view of these factors, the Special Committee agreed that it is highly unlikely that liquidation would generate net proceeds with a current value in excess of \$4.00 per share, although the aggregate amount received over a period of time could be greater.
- **EARNINGS.** The Special Committee reviewed historic earnings of Mercury for the previous three years and the relevance of historic earnings to future prospects, and factored this review into the going concern analysis. For the three years ended June 30, 2004, 2003, and June 30, 2002, Mercury reported net income (loss) of \$615,000, \$(2,798,000) and \$4,517,000, respectively. The Special Committee believes the earnings analysis supports its determination that the Transaction is fair to stockholders.

- **PRICES AT WHICH MERCURY HAS REPURCHASED SHARES.** The Special Committee took account of the fact that Mercury had purchased an aggregate of (i) 343,600 shares at \$10.44 per share in the fourth quarter of 2003 in a transaction with Hambro; (ii) 14,500 shares at \$6.17 per share in the second quarter of 2004; (iii) 150,000 shares at \$6.00 per share in the third quarter of 2004 in a transaction with Murdock; (iv) 3,000 other shares at \$6.55 per share in the third quarter of 2004 in other transactions; and (v) 8,750 shares at \$4.90 per share in the fourth quarter of 2004. The Special Committee believes these repurchases support its decision that the Transaction is fair to the stockholders, in that: (i) after adjusting for the \$5.70 per share special dividend, the repurchase from Hambro was at \$4.74 per share, which is close to the price of \$4.00 but also additional consideration was given by Hambro and the Transaction with Hambro occurred almost eighteen months ago; (ii) after adjusting for the \$5.70 per share special dividend, the purchase of 14,500 shares in the second quarter of 2004 was equivalent to a price of \$0.47 per share; (iii) after adjusting for the \$5.70 per share special dividend, the purchase of 150,000 shares in the Transaction with Murdock in the third quarter of 2004 was equivalent to a price of \$0.30 per share; (iv) after adjusting for the

Table of Contents

\$5.70 per share special dividend, the purchase of 150,000 shares in the Transaction with Murdock in the third quarter of 2004 was equivalent to a price of \$0.30 per share; (iv) after adjusting for the \$5.70 per share special dividend, the purchase of 3,000 additional shares in the third quarter of 2004 was equivalent to a price of \$0.85 per share; and (v) the purchase of 8,750 shares in the fourth quarter of 2004, although occurring after the special dividend, was not significantly higher than the price of \$4.00 in the Transaction and represented a purchase by Mercury from a former executive officer upon his termination of employment, and therefore is not strictly comparable to the proposed Transaction.

The Special Committee concluded that these stock purchases by Mercury support the price of \$4.00 per share to be paid in the Transaction. The Special Committee also took account of the fact that the Transaction Affiliates had purchased an aggregate of 418,807 shares at an average price of \$3.15 per share in the fourth quarter of 2004.

- **OPINION OF THE FINANCIAL ADVISOR.** The Special Committee considered the opinion of Imperial Capital rendered to the Special Committee on March 21, 2005, to the effect that, as of the date of such opinion and based upon and subject to certain matters stated therein, the \$4.00 per share in cash to be paid to those stockholders of Mercury receiving such consideration, other than affiliates of Mercury, as to whom Imperial Capital expressed no view, is fair, from a financial point of view, to Mercury's common and preferred stockholders. For more information about the opinion you should read the discussion below under Opinion of Imperial Capital, LLC beginning on page 33 and a copy of the opinion of Imperial Capital attached as Appendix B to this proxy statement.
- **PRESENTATION OF THE SPECIAL COMMITTEE'S FINANCIAL ADVISOR.** The Special Committee also considered the various financial information, valuation analyses and other factors set forth in the written presentations delivered to the Special Committee at the meetings of the Special Committee on February 21, 2005, February 25, 2005, March 1, 2005, March 3, 2005, March 8, 2005, March 9, 2005, March 10, 2005, March 14, 2005 and March 21, 2005.
- **LIMITED LIQUIDITY FOR MERCURY COMMON STOCK.** The Special Committee recognized the lack of an active trading market and the very limited liquidity of Mercury's common stock. The Special Committee considered the effects of this factor on both the stockholders who own less than 501 shares of common stock and who will receive the cash consideration and those stockholders who will remain after the Transaction. With respect to the stockholders who will receive the cash consideration and cease to be stockholders, the Special Committee recognized that this Transaction presents such stockholders with an opportunity to liquidate their holdings at a price which represented a premium to the closing price of Mercury's common stock on March 21, 2005, the last trading day before the public announcement of the approval of the proposed Transaction by the Special Committee and the Board, without incurring brokerage commissions and other transaction costs. With respect to the stockholders who will remain after the Transaction, the Special Committee noted that the effect of this Transaction on their liquidity is mitigated by the limited liquidity they currently experience and that the shares will likely be quoted on the pink sheets.
- **FUTURE COST SAVINGS.** The Special Committee considered that both affiliated and unaffiliated stockholders remaining after the Transaction will benefit from the reduction of direct and indirect costs borne by Mercury to maintain its status as an SEC reporting company. Such a reduction will include, but not be limited to, the elimination of increased costs to comply with the additional requirements of SEC reporting companies imposed by Section 404 of the Sarbanes-Oxley Act. For a full discussion of the cost savings, see Benefits of the Transaction Benefits and Cost Savings of Termination as an SEC Reporting Company on page 21.

- INTERESTS OF THE UNAFFILIATED STOCKHOLDERS WHO WILL REMAIN. The Special Committee considered the fairness of the Transaction to the unaffiliated common and preferred stockholders who will remain stockholders of Mercury after the Transaction. The Special Committee reasoned that such stockholders would benefit from the cost savings associated with the elimination of expenses attributable to remaining an SEC reporting company and the time and attention currently required of management to fulfill such requirements.

- NO FIRM OFFERS. The Special Committee considered that, other than with respect to the sale of Mercury's FBOs to Allied Capital on April 12, 2004, Mercury did not receive any firm offers, during the past two years, from any unaffiliated persons, for (i) the merger or consolidation of Mercury with or into another company, (ii) the sale or other transfer of all or any substantial part of the assets of Mercury; or (iii) a purchase of Mercury's securities that would enable the holder to exercise control of Mercury. The Special Committee recognized that the sale of the FBOs to Allied Capital has no bearing on the present value of Mercury.

Table of Contents

Despite the fact that no unaffiliated stockholder representative was retained to act solely on behalf of the unaffiliated stockholders in the Transaction to negotiate the terms or prepare a report on behalf of the unaffiliated stockholders and the approval of a majority of the unaffiliated holders of Mercury's common stock is not required, the Special Committee believes that the Transaction is procedurally fair because, among other things:

- the Special Committee was established with sole power to make the decision to recommend the Transaction, and the Special Committee's membership consisted entirely of independent directors; and
- the Special Committee retained its own independent legal counsel;
- the Transaction is being effected in accordance with the applicable requirements of Delaware law;
- the Transaction is being submitted to a vote of Mercury's stockholders and is subject to approval of a majority of the outstanding shares of common and preferred stock, voting as a single class;
- stockholders can increase, divide or otherwise adjust their existing holdings, prior to the effective date of the Transaction, so as either to retain some or all other their shares or to be cashed-out with respect to some or all of their shares; and
- stockholders who are cashed-out would likely have the option to repurchase shares of Mercury in the over-the-counter markets with the cash obtained in the Transaction.

Of particular importance to the belief of the Special Committee that the Transaction is procedurally fair, in the absence of dissenters rights, is the fact that stockholders can increase, divide or otherwise adjust their existing holdings, prior to the effective date of the Transaction, so as either to retain some or all of their shares or to cash-out some or all of their shares.

Based on the foregoing analyses, the Special Committee believes that the Transaction is procedurally and substantively fair to all stockholders, including the unaffiliated stockholders, regardless of whether a stockholder receives cash or continues to be a stockholder following the Transaction, and believes the \$4.00 cash amount to be fair consideration for those stockholders holding less than 501 shares. The Transaction was unanimously approved by the Special Committee, all members of the Special Committee being non-employees of Mercury.

RECOMMENDATION OF THE BOARD; FAIRNESS OF THE TRANSACTION

The Board and the Transaction Affiliates unanimously determined that the Transaction, taken as a whole, is fair to, and in the best interests of Mercury and its common and preferred stockholders, including unaffiliated stockholders, as discussed below, regardless of whether a stockholder receives cash in lieu of fractional shares, or remains a holder of Mercury's common stock. The Board and the Transaction Affiliates also believe that the process for approving the Transaction is procedurally fair. The Board recommends that stockholders vote FOR approval and adoption of the Transaction.

The Board has retained for itself the absolute authority to reject (and not implement) the Transaction (even after approval of the Transaction) if it determines subsequently that the Transaction is not then in the best interests of Mercury and its stockholders. If for any reason the Transaction is not approved, or, if approved, is not implemented, the common stock will not be deregistered until such time as Mercury otherwise is eligible and determines to do so.

As discussed above, the Board and the Transaction Affiliates considered alternatives to the Transaction, but ultimately approved the Transaction's structure. Please see "Alternatives Considered" beginning on page 24.

In considering whether the cash payment of \$4.00 per share payable to stockholders in lieu of fractional shares in connection with the Transaction is substantively fair from a financial point of view to our stockholders, the Board and the Transaction Affiliates considered, among other things, the financial analysis and opinion of Imperial Capital that was rendered to the Special Committee, the Board and the Transaction Affiliates adopted the analyses and conclusions of Imperial Capital. The Board and the Transaction Affiliates also considered the recommendation of the Special Committee.

The Board and the Transaction Affiliates also considered a number of factors in determining whether it was in the best interests of, and fair to, Mercury and its stockholders to undertake a Transaction to reduce the number of its common stockholders to fewer than 300 record holders in order to terminate the registration of its common stock under the Exchange Act. The discussion herein of the

Table of Contents

information and factors considered is not intended to be exhaustive, but is believed to include all material factors considered by the Board. The Board did not assign any specific weight to the factors below, and individual directors may have given differing weights to different factors. Factors considered included:

- **CURRENT AND HISTORICAL PRICES OF MERCURY'S COMMON STOCK.**

The Board and the Transaction Affiliates considered both the historical market prices and recent trading activity and current market prices of Mercury common stock.

The Board and the Transaction Affiliates reviewed the high and low sales prices for the common stock from January 1, 2003 to March 21, 2005 and from March 21, 2004 to March 21, 2005, the latter period of which ranged from \$3.08 to \$8.45 per share. You should read the discussion under "Market for Common Stock and Related Stockholder Matters" on page 19 for more information about Mercury's stock prices. On March 8, 2005, the day before the public announcement that the Special Committee was considering the Transaction, the closing price of the common stock was \$4.49 per share. The closing price of Mercury common stock on March 21, 2005, the last trading day before the public announcement of the approval of the proposed Transaction by the Special Committee and the Board, was \$3.36 per share.

The Board and the Transaction Affiliates noted that, as a positive factor, the cash payment of \$4.00 per share payable to stockholders in lieu of fractional shares represents a premium of approximately 19% over the closing sales price of Mercury's common stock of \$3.36 on March 21, 2005, which was the last trading day before the public announcement that the Special Committee and the Board had approved the Transaction. In addition to stockholders receiving a premium to the trading price of Mercury's common stock on any shares redeemed as a result of the reverse stock split, such stockholders will achieve liquidity without incurring brokerage commissions and other transaction costs.

The Board and the Transaction Affiliates also noted that although the cash consideration represented a 53% discount to Mercury share price of \$8.45 (the highest sales price since March 21, 2004) and a 34% discount to the last closing price of \$6.05 one year before the last trading day prior to the public announcement of the approval of the proposed Transaction by the Special Committee and the Board, such historical price data did not take account of the special dividend of \$5.70 per share paid as of November 5, 2004 and therefore was of lesser relevance than more recent trading data and in light of the premiums that the cash consideration represents over the average closing sales price of Mercury's common stock for the 10 trading days, 20 trading days, 30 trading days, and one-month trading periods immediately prior to the public announcement of the approval of the proposed Transaction by the Special Committee and the Board and over the last trading day immediately prior to such public announcement.

- **GOING CONCERN VALUE.** In determining the cash amount to be paid to cashed-out stockholders in the Transaction, the Board and the Transaction Affiliates considered the analyses presented in Imperial Capital's report, without giving effect to any anticipated effects of the Transaction. In considering going concern value, the Board and the Transaction Affiliates considered multiples of EBITDA and revenue of comparable SEC reporting air cargo and fuel services companies and discounted cash flow valuations.
- Also, the Board and the Transaction Affiliates did not consider the amount per share that might be realized in a sale of all or substantially all of the stock or assets of Mercury, believing that consideration of such amount was inappropriate in the context of a Transaction that would not result in a change in control of Mercury. In considering the going concern value of Mercury's shares, the Board and the Transaction Affiliates adopted the analyses of Imperial Capital, which indicated a share price range of \$2.95, \$3.73, or \$4.17 per share, as the mean per share implied equity values of Mercury's common stock. See "Special Factors" Opinion of Imperial

Capital, LLC beginning on page 33. Accordingly, the Board and the Transaction Affiliates believe that the going concern analysis supports its determination that the Transaction is fair to stockholders.

- **NET BOOK VALUE.** As of December 31, 2004, the net book value per common share was \$5.14, and the tangible net book value per common share (excluding intangibles) was \$3.65. The Board and the Transaction Affiliates noted that book value per common share is an historical accounting value which may be more or less than the net market value of Mercury's assets after payment of its liabilities, and a liquidation would not necessarily produce a higher than book value per common share.
- **LIQUIDATION VALUE.** Although no valuation of total assets was undertaken, the Board and the Transaction Affiliates believe that a liquidation or other Transaction designed to monetize Mercury's assets would likely result in recovery of a price for Mercury's tangible assets that is substantially less than tangible book value. The Board and the Transaction Affiliates

Table of Contents

considered that Mercury's non-cash assets consist primarily of accounts receivable and leasehold improvements. The Board and the Transaction Affiliates believe that the sale of accounts receivable would not sufficiently offset indebtedness, and that the sale of leasehold improvements would not be practicable, given the difficulty in transferring the underlying leaseholds, and in any event would not offset the expense of satisfying lease and other contractual obligations in a liquidation. In view of these factors, the Board and the Transaction Affiliates agreed that it is highly unlikely that liquidation would generate net proceeds in excess of \$4.00 per share, although the aggregate amount received over a period of time would be greater.

- **EARNINGS.** The Board and the Transaction Affiliates reviewed historic earnings of Mercury for the previous three years and the relevance of historic earnings to future prospects, and factored this review into the going concern analysis. For the three years ended June 30, 2004, 2003, and 2002, Mercury reported net income of \$615,000, \$(2,798,000) and \$4,517,000, respectively. The Board and the Transaction Affiliates believe the earnings analysis support its determination that the Transaction is fair to stockholders.
- **PRICES AT WHICH MERCURY HAS REPURCHASED SHARES.** The Board and the Transaction Affiliates took account of the fact that Mercury had purchased an aggregate of (i) 343,600 shares at \$10.44 per share in the fourth quarter of 2003 in a transaction with Hambro; (ii) 14,500 shares at \$6.17 per share in the second quarter of 2004; (iii) 150,000 shares at \$6.00 per share in the third quarter of 2004 in a transaction with Murdock; (iv) 3,000 other shares at \$6.55 per share in the third quarter of 2004 in other transactions; and (v) 8,750 shares at \$4.90 per share in the fourth quarter of 2004. The Board and the Transaction Affiliates believe these repurchases support its decision that the Transaction is fair to the stockholders, in that: (i) after adjusting for the \$5.70 per share special dividend, the repurchase from Hambro was at \$4.74 per share, which is close to the price of \$4.00 but also additional consideration was given by Hambro and the transaction with Hambro occurred almost eighteen months ago; (ii) after adjusting for the \$5.70 per share special dividend, the purchase of 14,500 shares in the second quarter of 2004 was equivalent to a price of \$0.47 per share; (iii) after adjusting for the \$5.70 per share special dividend, the purchase of 150,000 shares in the Transaction with Murdock in the third quarter of 2004 was equivalent to a price of \$0.30 per share; (iv) after adjusting for the \$5.70 per share special dividend, the purchase of 3,000 additional shares in the third quarter of 2004 was equivalent to a price of \$0.85 per share; and (v) the purchase of 8,750 shares in the fourth quarter of 2004, although occurring after the special dividend, was not significantly higher than the price of \$4.00 in the Transaction, and this represented a purchase by Mercury from a former executive officer upon his termination of employment, and therefore is not strictly comparable to the proposed Transaction. The Board and the Transaction Affiliates concluded that these stock purchases by Mercury support the price of \$4.00 per share to be paid in the Transaction.

The Board and the Transaction Affiliates also took account of the fact that certain affiliates of the Company had purchased an aggregate of 419,807 shares at an average price of \$3.15 per share in the fourth quarter of 2004.

- **OPINION OF THE FINANCIAL ADVISOR.** The Board and the Transaction Affiliates considered the opinion of Imperial Capital rendered to the Special Committee on March 21, 2005, to the effect that, as of the date of such opinion and based upon and subject to certain matters stated therein, the \$4.00 per share in cash to be paid to those stockholders of Mercury receiving such consideration, other than affiliates of Mercury, as to whom Imperial Capital expressed no view, is fair, from a financial point of view, to such stockholders. For more information about the opinion you should read the discussion below under "Opinion of Imperial Capital, LLC" beginning on page 33 and a copy of the opinion of Imperial Capital attached as Appendix B to this proxy statement.

-

PRESENTATION OF THE SPECIAL COMMITTEE'S FINANCIAL ADVISOR. The Board and the Transaction Affiliates also considered the various financial information, valuation analyses and other factors set forth in the written presentations delivered to the Special Committee at the meetings of the Special Committee on February 25, 2005, March 1, 2005, March 3, 2005, March 8, 2005, March 10, 2005, March 14, 2005 and March 21, 2005.

- LIMITED LIQUIDITY FOR MERCURY COMMON STOCK. The Board and the Transaction Affiliates recognized the lack of an active trading market and the very limited liquidity of Mercury's common stock. The Board and the Transaction Affiliates considered the effects of this factor on both the stockholders who own less than 501 shares of common stock and who will receive the cash consideration and those stockholders who will remain after the Transaction. With respect to the stockholders who will receive the cash consideration and cease to be stockholders, the Board and the Transaction Affiliates recognized that this Transaction presents such stockholders with an opportunity to liquidate their holdings at a price which represented a premium to the closing price of Mercury's common stock on March 21, 2005, the last trading day before the public announcement of the approval of the proposed Transaction by the Special Committee and the Board, without incurring brokerage commissions and other transaction costs. With respect to the stockholders who will remain after the Transaction, the

Table of Contents

Board and the Transaction Affiliates noted that the effect of this Transaction on their liquidity is mitigated by the limited liquidity they currently experience and that the shares will likely be quoted on the pink sheets.

- **FUTURE COST SAVINGS.** The Board and the Transaction Affiliates considered that both affiliated and unaffiliated stockholders remaining after the Transaction will benefit from the reduction of direct and indirect costs borne by Mercury to maintain its status as an SEC reporting company. Such a reduction will include, but not be limited to, the elimination of increased costs to comply with the additional requirements of SEC reporting companies imposed by Section 404 of the Sarbanes-Oxley Act. For a full discussion of the cost savings, see **Benefits of the Transaction Benefits and Cost Savings of Termination as an SEC Reporting Company** on page 21.
- **INTERESTS OF THE UNAFFILIATED STOCKHOLDERS WHO WILL REMAIN.** The Board and the Transaction Affiliates considered the fairness of the Transaction to the unaffiliated common and preferred stockholders who will remain stockholders of Mercury after the Transaction. The Board and the Transaction Affiliates reasoned that that such stockholders would benefit from the cost savings associated with the elimination of expenses attributable to remaining an SEC reporting company and the time and attention currently required of management to fulfill such requirements.
- **NO FIRM OFFERS.** The Board of Directors and the Transaction Affiliates considered that, other than with respect to the sale of Mercury's FBOs to Allied Capital on April 12, 2004, Mercury did not receive any firm offers, during the past two years, by any unaffiliated persons, for (i) the merger or consolidation of Mercury with or into another company, (ii) the sale or other transfer of all or any substantial part of the assets of Mercury; or (iii) a purchase of Mercury's securities that would enable the holder to exercise control of Mercury.

The Board and the Transaction Affiliates recognized that the sale of the FBOs to Allied Capital has no bearing on the present value of Mercury.

- **UNAFFILIATED REPRESENTATIVES; NON-EMPLOYEE SPECIAL COMMITTEE.** No unaffiliated representative was retained to act solely on behalf of the unaffiliated stockholders in the Transaction to negotiate the terms or prepare a report on behalf of the unaffiliated stockholders. The Board determined that an unaffiliated stockholder representative was not necessary to ensure the procedural and substantive fairness of the Transaction because it believed there was sufficient representation in the decision-making at the Special Committee and Board levels to protect the interests of unaffiliated stockholders. The Board also noted that the proposed Transaction would increase ownership in Mercury by the officers and directors as a group of less than three percent. In addition, the Board believed that the expense of separate representatives and advisors would have been cost prohibitive. With respect to unaffiliated stockholders' access to Mercury's corporate files, the Board determined that this proxy statement, together with Mercury's other filings with the SEC, provide adequate information for unaffiliated stockholders to make an informed decision with respect to the Transaction.
- **APPROVAL OF MAJORITY OF UNAFFILIATED HOLDERS IS NOT REQUIRED.** The Transaction is not structured so that approval of at least a majority of unaffiliated stockholders is required. The Board determined that any such requirement would prevent affiliated stockholders from participating in considering the proposed Transaction. As affiliated stockholders beneficially own approximately 42.8% of Mercury as of March 1, 2005, and the Transaction will not result in any change in control of Mercury, the Board did not believe the participation of affiliated stockholders in voting upon the Transaction was unfair to non-affiliated stockholders.

Despite the fact that no unaffiliated stockholder representative was retained to act solely on behalf of the unaffiliated stockholders in the Transaction to negotiate the terms or prepare a report on behalf of the unaffiliated

stockholders and the approval of a majority of the unaffiliated holders of Mercury common stock is not required, the Board and the Transaction Affiliates also believe that the Transaction is procedurally fair because, among other things:

- the Special Committee was established with sole power to make the decision to recommend the Transaction, and the Special Committee's membership consisted entirely of independent directors;
- the Special Committee retained its own independent legal counsel;
- the Transaction is being effected in accordance with the applicable requirements of Delaware law;

Table of Contents

- the Transaction is being submitted to a vote of Mercury stockholders and is subject to approval of a majority of the outstanding shares of common and preferred stock;
- stockholders can increase, divide or otherwise adjust their existing holdings, prior to the effective date of the Transaction, so as either to retain some or all of their shares or to be cashed-out with respect to some or all of their shares; and
- stockholders who are cashed-out would likely have the option to repurchase shares of Mercury in the over-the-counter markets with the cash obtained in the Transaction.

Of particular importance to the belief of the Board and the Transaction Affiliates that the Transaction is procedurally fair, in the absence of dissenters rights, is the fact that stockholders can increase, divide or otherwise adjust their existing holdings, prior to the effective date of the Transaction, so as either to retain some or all of their shares or to cash-out some or all of their shares.

At the Board's meeting on March 21, 2005, Mr. Janowiak, chairman of the Special Committee, reviewed Imperial Capital's fairness opinion with the Board and presented a summary of the principal financial analyses supporting its financial opinion. The Board and the Transaction Affiliates had an opportunity to ask questions and discuss each of the analyses individually. Although it is difficult to determine what the Board as a whole or any individual Board member concluded from any one particular analysis, certain issues were discussed at length. Additionally, in determining the \$4.00 per share price to be paid as cash consideration in the Transaction, the Board and the Transaction Affiliates determined that while Mercury common stock traded at both higher and lower levels in the recent year, such historical price data did not take account of the special dividend of \$5.70 per share paid as of November 5, 2004 and therefore was of lesser relevance than more recent trading data and in light of the premiums that the cash consideration represents over the average closing sales price of Mercury's common stock for the previous 10 trading days, previous 20 trading days, previous 30 trading days, and previous one month periods immediately prior to the date that a public announcement is proposed to be made of the approval of the proposed Transaction by the Special Committee and the Board and over the closing price of Mercury's common stock on the last day immediately prior to such public announcement. After careful consideration of these factors, the Board and the Transaction Affiliates concluded that \$4.00 per share was not only a fair price to stockholders being cashed-out, but also to stockholders remaining after the Transaction.

The Board and the Transaction Affiliates also considered the fact that, in addition to the deregistration of Mercury's common stock under the Exchange Act as a result of the Transaction, the common stock would cease to be quoted on the American Stock Exchange. The Board and the Transaction Affiliates determined, however, that the current limited market for Mercury's common stock provides little benefit to Mercury's stockholders.

Based on the foregoing analysis, the Board and the Transaction Affiliates believe that the Transaction is procedurally and substantively fair to all common and preferred stockholders, including the unaffiliated stockholders, regardless of whether a stockholder receives cash or continues to be a stockholder following the Transaction. Four of Mercury's five directors are not employees of the Company. The Transaction was approved by the Board, including all non-employee directors, with Messrs. Czyzyk and Kopko abstaining from the vote.

DETERMINATION OF FAIRNESS OF THE TRANSACTION BY THE TRANSACTION AFFILIATES.

The Transaction Affiliates agreed with the Board and separately determined that the Transaction is fair to unaffiliated stockholders who will be cashed out in the Transaction and who will remain after the Transaction, and that the cash price of \$4.00 per share to be paid to holders of less than 501 shares of Common Stock is fair. In reaching this determination, the Transaction Affiliates considered the same procedural and substantive factors as the

Special Committee and the Board. For a full description of the matters considered by the Special Committee, the Board and the Transaction Affiliates, see Recommendation of the Board; Fairness of the Transaction beginning on page 28.

INTERESTS OF MERCURY'S DIRECTORS AND EXECUTIVE OFFICERS IN THE TRANSACTION

In considering the recommendation of the Board of Directors with respect to the Transaction, stockholders should be aware that Mercury's executive officers and directors have interests in the Transaction that are in addition to, or different from, the stockholders generally. These interests may create potential conflicts of interest and include the following:

Table of Contents

- each executive officer and each member of the Board of Directors, except Kent Rosenthal, holds shares or vested options in excess of 501 shares and will, therefore, retain shares of common stock or options to purchase common stock after the Transaction; and
- as a result of the Transaction, the stockholders who own of record on the record date, more shares than 501 shares, including Mercury's executive officers and directors, will increase their percentage ownership interest in Mercury as a result of the Transaction. For example, assuming the Transaction is implemented and based on information and estimates of record ownership and shares outstanding and other ownership information and assumptions as of May 1, 2005 Mercury's officers and directors, including the Transaction Affiliates, who currently own 42.8% of Mercury's common and preferred stock (including options currently exercisable) will increase their percentage ownership in Mercury from 42.8% to 45.1%.

OPINION OF IMPERIAL CAPITAL, LLC

On February 24, 2005, the Special Committee and the Board of Directors formally retained Imperial to consider the fairness, from a financial point of view, of the cash consideration (as defined below) to be paid to those stockholders of Mercury receiving the cash consideration, other than affiliates of Mercury, as to whom Imperial Capital expresses no view. As a result of the Transaction, (a) each stockholder owning fewer than 501 shares immediately before the Transaction will receive from Mercury consideration of \$4.00 in cash for each of such stockholder's pre-split shares; and (b) each share of common stock held by a stockholder owning 501 or more shares will continue to represent one share of Mercury after completion of the Transaction. At a meeting of the Special Committee held on March 21, 2005, Imperial Capital delivered its oral opinion to the Special Committee, and immediately following the meeting, delivered its written opinion to all the members of the Special Committee that, as of March 21, 2005, the cash consideration to be paid to those stockholders receiving the cash consideration, other than the affiliates of Mercury, was fair, from a financial point of view, to such holders. Imperial Capital subsequently confirmed its opinion in writing.

The Special Committee and the Board retained Imperial Capital based upon the following factors: Imperial Capital is an independent and experienced provider of valuation and fairness opinions; it does not have an advisory or other potentially conflicting role in the Transaction; and it is thoroughly familiar with Mercury and its operations from having rendered prior fairness opinions in unrelated transactions and could therefore perform the analysis more expeditiously and cost effectively than other financial advisors. No limitations were imposed by the Special Committee or the Board on Imperial Capital with respect to the investigations made or procedures followed by Imperial Capital in rendering its opinion.

Imperial Capital's opinion was prepared at the request and for the information and use of the Special Committee and the Board in connection with its consideration of the Transaction. Imperial Capital's opinion does not address the business decision by Mercury to engage in the Transaction or address the relative merits of any alternatives discussed by the Special Committee and the Board. Imperial Capital's opinion does not constitute a recommendation as to how any stockholder should vote with respect to the Transaction. Imperial Capital did not make, and was not requested by Mercury or any other person to make, any recommendations as to the relative merits of any alternative discussed by the Board.

THE FULL TEXT OF IMPERIAL CAPITAL'S WRITTEN OPINION IS ATTACHED AS APPENDIX B TO THIS PROXY STATEMENT, AND DESCRIBES THE ASSUMPTIONS MADE, MATTERS CONSIDERED AND LIMITS ON THE REVIEW UNDERTAKEN. THE DESCRIPTION OF IMPERIAL CAPITAL'S OPINION CONTAINED IN THIS PROXY STATEMENT SHOULD BE REVIEWED TOGETHER WITH THE FULL TEXT OF THE WRITTEN OPINION, WHICH YOU ARE URGED TO READ CAREFULLY IN ITS ENTIRETY. THE SUMMARY OF THE OPINION OF IMPERIAL CAPITAL SET FORTH IN THIS PROXY STATEMENT IS QUALIFIED IN ITS ENTIRETY BY REFERENCE TO THE FULL TEXT OF IMPERIAL CAPITAL'S WRITTEN

OPINION, WHICH IS ATTACHED AS APPENDIX B HERETO.

THE PROJECTIONS UPON WHICH IMPERIAL CAPITAL S OPINION IS IN PART BASED ARE ATTACHED AS EXHIBIT (C)27 TO THE AMENDMENT NO. 2 TO SCHEDULE 13E-3 FILED AS OF THE DATE HEREOF BY MERCURY. PLEASE BE ADVISED THAT THE PROJECTIONS WERE PREPARED ONLY FOR THE USE OF IMPERIAL CAPITAL, AND ARE NOT TO BE USED BY ANY OTHER PERSON OR ENTITY. IN ADDITION, THE PROJECTIONS SPEAK AS OF THE DATE THEREOF, AND MERCURY DOES NOT INTEND TO UPDATE SUCH PROJECTIONS.

In connection with the rendering of its opinion, Imperial Capital has:

1. reviewed the draft proxy statement and related documents outlining the Transaction;

Table of Contents

2. analyzed certain publicly available information that Imperial Capital believes to be relevant to its analysis, including the Company's annual report on Form 10-K for the fiscal year ended (FYE) June 30, 2004 and the Company's quarterly reports on Form 10-Q for the quarters ended September 30, 2004 and December 31, 2004;
3. reviewed certain information including financial forecasts relating to the business, earnings and cash flow of the Company, furnished to Imperial Capital by senior management of Mercury;
4. reviewed the Company's projections for FYE June 30, 2004 through 2008 furnished to Imperial Capital by senior management of Mercury;
5. reviewed certain publicly available business and financial information relating to Mercury that Imperial Capital deemed to be relevant;
6. conducted discussions with members of senior management of Mercury concerning the matters described in clauses (1) through (5) above, as well as the prospects and strategic objectives of Mercury;
7. reviewed public information with respect to certain other companies with financial profiles which Imperial Capital deemed to be relevant.

In connection with this review, with Mercury's consent, Imperial Capital relied upon the accuracy and completeness of the foregoing financial and other information and has not assumed responsibility for independent verification of such information or conducted or has been furnished with any independent valuation or appraisal of any assets of Mercury or any appraisal or estimate of liabilities of Mercury. With respect to the financial forecasts, Imperial Capital assumed, with Mercury's consent, that they have been reasonably prepared on bases reflecting the best currently available estimates and judgments of senior management of Mercury as to the future financial performance of Mercury. Imperial Capital also relied upon the assurances of senior management of Mercury that they are unaware of any facts that would make the information or financial forecasts provided to Imperial Capital incomplete or misleading. Imperial Capital assumed no responsibility for, and expressed no view, as to such financial forecasts or the assumptions on which they are based.

Imperial Capital's opinion was based upon economic, monetary and market conditions existing on the date of the opinion and does not address the fairness of the Transaction Consideration as of any other date. Imperial Capital expressed no opinion, nor should one be implied, as to the current fair market value of Mercury's common stock or the prices at which Mercury's common stock will trade at any time.

In preparing its opinion, Imperial Capital performed certain financial and comparative analyses summarized in the following paragraphs. Imperial Capital believes that its analyses must be considered as a whole and that selecting portions of such analyses and the factors it considered, without considering all such analyses and factors, could create an incomplete view of the analyses and the process underlying the opinion. While the conclusions reached in connection with each analysis were considered carefully by Imperial Capital in arriving at its opinion, Imperial Capital made various subjective judgments in arriving at its opinion and did not consider it practicable to, nor did it attempt to, assign relative weights to the individual analyses and specific factors considered in reaching its opinion.

Historical Stock Trading Analysis. Imperial reviewed the historical performance of Mercury's common stock based on an historical analysis of closing prices and trading volumes for the one-year period prior to the date of the fairness opinion. Imperial noted that the closing price for Mercury's common stock over this period ranged from \$3.08 to \$8.45. The following chart summarizes the average closing prices and volume of trading of Mercury's common stock over the last year.

Mercury Common Stock Trading History

	Average Price	Average Volume
Previous 10 Trading Days	\$ 3.56	19,830
Previous 30 Trading Days	\$ 3.58	9,093

(a) Occurred on November 5, 2004, the day the special dividend was paid.

(b) Occurred on November 8, 2004, the first trading day after the special dividend was paid.

Table of Contents

Imperial Capital noted that Mercury paid a Special Dividend totaling approximately \$17,500,000 (\$5.70 per share) to holders of the Company's common stock on November 5, 2004, which had a significant impact on the trading price and volume of Mercury's common stock.

Imperial noted that the Transaction Consideration was above the average closing prices of Mercury's common stock for the 5-day, 10-day, 30-day and one month periods reviewed as part of the historical stock trading analysis.

Comparable Company Analysis. Imperial Capital's comparable company analysis was based on a comparison of Mercury's valuation multiples with those of a selected group of comparable public companies (the Company Comparables).

In selecting the Company Comparables, Imperial Capital searched comprehensive lists and directories of public companies. When selecting the Company Comparables, certain determinant factors included: (i) the company had to provide products or services for the fuel services and air cargo handling industries; (ii) the company had to make its financial information public; and (iii) the company was required to have an active trading market to measure public perception. The Company Comparables selected were:

Air T, Inc. (NasdaqSC: AIRT)

AirNet Systems, Inc. (NYSE: ANS)

AutoInfo (OTCBB: AUTO)

Streicher Mobile Fueling, Inc. (NASDAQ: FUEL)

World Fuel Services Corp. (NYSE: INT)

Due to the lack of public companies that provide the same range of services as Mercury, Imperial Capital chose to select Company Comparables with businesses focused on air cargo handling and fuel services. Imperial Capital's decision to select such companies was due in part to their exposure to similar macroeconomic and industry-specific risks as those faced by the Company including, but not limited to, exposure to commercial and general aviation industry trends; geo-political risks (e.g., post-September 11 downturn in commercial aviation, oil prices, etc.); and similar customer bases.

No company included in the selected Company Comparables is identical to Mercury. In selecting and evaluating the Company Comparables, Imperial Capital made subjective judgments and assumptions with regard to industry performance, general business, economic, market and financial conditions, and other matters. Because of the inherent differences between the business, operations, financial condition and prospects of Mercury and those of the selected Company Comparables, Imperial Capital believed it was inappropriate to, and therefore did not, rely solely on the quantitative results of the Company Comparables analysis.

Imperial Capital then compared market values of, among other things, current enterprise value (equity value, plus total debt, minority interest, preferred stock and convertible instruments, less instruments in unconsolidated affiliates, cash and cash equivalents) (EV) as multiples of the latest twelve months EBITDA. Based on a comparison of Mercury with the Company Comparables, Imperial Capital arrived at an aggregate range of values between \$0.00 per share and \$7.79 per share, with a mean value of \$4.17 per share. Imperial Capital noted that the cash consideration was in the range of these values and was slightly lower than the mean value.

Comparable Transaction Analysis. Imperial Capital's comparable transaction analysis was based on a comparison of Mercury's valuation multiples with those implied by certain announced control transactions deemed relevant based

on similarity of business operations (the Transaction Comparables).

In selecting the Transaction Comparables, Imperial Capital searched comprehensive lists and directories of public companies. When selecting the Transaction Comparables, certain determinant factors included: (i) the transaction had to involve controlling

Table of Contents

interests in companies in a similar industry or with operations similar to the principal business operations of Mercury; and (ii) the purchase price and the operating results of the acquired company had to be public.

No acquired company involved in the selected Transaction Comparables is identical to Mercury. In selecting and evaluating the Transaction Comparables, Imperial Capital made subjective judgments and assumptions with regard to industry performance, general business, economic, market and financial conditions, and other matters. Because of the inherent differences between the business, operations, financial condition and prospects of Mercury and those of the acquired companies included in the selected Transaction Comparables, Imperial Capital believed it was inappropriate to, and therefore did not, rely solely on the quantitative results of the Transaction Comparables analysis.

Imperial Capital then compared market values of, among other things, current EV as multiples of the latest twelve months EBITDA. Based on a comparison of Mercury with the Transaction Comparables, Imperial Capital arrived at an aggregate range of values between \$1.20 per share and \$7.73 per share, with a mean value of \$3.73 per share. Imperial Capital noted that the cash consideration was in the range of these values and was slightly higher than the mean value.

Discounted Cash Flow Analysis. Imperial Capital performed a discounted cash flow analysis (DCF) on Mercury. The fundamental premise of the DCF approach is to estimate the available cash flows a prudent investor would expect a company to generate over its remaining life. To determine this amount, Imperial Capital relied on cash flow projections for FYE June 30, 2005 through 2008, as provided by Mercury s management. Imperial Capital estimated Mercury s weighted average cost of capital by performing analyses consistent with the Capital Asset Pricing Model. In its analyses Imperial Capital applied the average unlevered beta of 0.80 for the comparable group (this group consists of those companies specified in the Company Comparables analysis). Imperial Capital then applied a 0.0% to 5.0% company specific risk premium which reflects risks which affect the valuation of Mercury. Using a range of 9% to 11% (rounded) as the estimate of cost of capital, Imperial Capital calculated the present value of free cash flows for the 2005 through 2008 years and the present value of the terminal value of Mercury (the calculated value of Mercury at the end of the projection period). Imperial Capital calculated a terminal value at the end of 2008 that incorporated a perpetual growth

Table of Contents

rate of 2.8%. Imperial Capital arrived at an aggregate range of values between \$1.82 per share and \$4.43 per share, with a mean value of \$2.95 per share. Imperial Capital noted that the cash consideration is within the range of these values.

In the ordinary course of its business and in accordance with applicable state and federal securities laws, Imperial Capital may trade Mercury's securities for its own account and for the accounts of customers and, accordingly, may at any time hold long or short positions in such securities.

Imperial Capital received a fee of \$75,000 for rendering the fairness opinion attached as Appendix B, which fee was due and payable at the time such opinion was delivered to the Special Committee and the Board, and an additional fee of \$20,000 for rendering a related liquidity analysis, which fee was due and payable upon delivery of a liquidity analysis to the Special Committee and the Board. Imperial Capital has acted as financial advisor to Mercury in connection with the purchase of the Whitney Note and the sale of the FBO business and received a total fee of \$300,000 for its services, as set forth in Corporate Developments in Last Four Years Sale of FBO's. Mercury also agreed, in connection with the issuance of its opinion letter in connection with the Transaction, to indemnify Imperial Capital, its affiliates and each of its directors, officers, agents and employees and each person, if any, controlling Imperial Capital or any of its affiliates against certain liabilities, including liabilities under federal securities laws. Imperial Capital did not recommend the amount of consideration to be paid in the Transaction. The cash consideration of \$4.00 per share was recommended by the Special Committee.

CERTAIN EFFECTS OF THE TRANSACTION

The Transaction will have various effects on Mercury, the affiliated stockholders, including CK Partners, and the unaffiliated stockholders, which are described in the applicable sections below:

Effects on Mercury

If approved at the Special Meeting, the Transaction, if implemented, will have various effects on Mercury, as described below:

- **REDUCTION IN THE NUMBER OF STOCKHOLDERS AND THE NUMBER OF OUTSTANDING SHARES.** Mercury believes that the Transaction will reduce the number of record common stockholders from approximately 331 to approximately 33. In calculating this number, Mercury assumes that, in addition to the approximately 30,202 common shares held by stockholders of record with fewer than 501 shares in their account, beneficial owners of approximately 162,411 additional shares also will receive cash for their shares in the Transaction. Accordingly the number of outstanding shares of common stock will decrease from 3,056,355 shares, as of March 1, 2005, to approximately 2,863,742 shares. In addition, Mercury believes that the number of beneficial owners of its common stock will decrease from approximately 2,039 to approximately 561 as a result of the Transaction.
- **DECREASE IN BOOK VALUE PER SHARE.** As a result of the approximately 192,613 pre-split shares of common stock expected to be cashed-out at \$4.00 per share for a total cost (including expenses on an after tax basis) of \$1,092,000:

aggregate stockholders' equity of Mercury as of March 31, 2005, will be reduced from approximately \$13,869,000 on a historical basis to approximately \$12,786,000 on a pro forma basis; and

the book value per share of common stock as of March 31, 2005, will be reduced from \$4.54 per share on a historical basis to approximately \$4.46 per share on a pro forma basis.

- **TERMINATION OF EXCHANGE ACT REGISTRATION.** Mercury's common stock is currently registered under the Exchange Act. Mercury plans to file a Form 15 with the SEC following the Transaction to terminate this registration if its common stock is no longer held by 300 or more stockholders of record. Termination of registration of Mercury's common stock under the Exchange Act would substantially reduce the information Mercury is required to furnish to its stockholders and to the SEC. It would also make certain provisions of the Exchange Act, such as the short-swing profit recovery provisions of Section 16(b) of the Exchange Act, Section 16(a) reporting for officers, directors, and 10% stockholders, proxy statement disclosure in connection with stockholder meetings, and the related requirement of an annual report to stockholders, no longer applicable. Mercury intends to apply for such termination as soon as practicable following the Transaction. However, Mercury currently intends to provide reports as to its financial condition and results of operation which Mercury expects may be accessed at www.pinksheets.com.

Table of Contents

- **EFFECT ON MARKET FOR COMMON STOCK.** Mercury's common stock is currently listed on the American Stock Exchange. Mercury expects that after the Transaction, its common stock will be delisted from the American Stock Exchange. This delisting could further reduce the liquidity of the common stock. Any trading in Mercury's common stock after the Transaction and deregistration of the common stock will only occur in the over-the-counter market or in privately negotiated sales, and Mercury's common stock will likely only be quoted in the pink sheets.
- **FINANCIAL EFFECTS OF THE TRANSACTION.** Mercury expects that it will use approximately \$1,271,000 of cash, or \$1,092,000 net of taxes, to complete the Transaction, including Transaction costs, and that this use of cash will not have any materially adverse effect on Mercury's liquidity, results of operation, or cash flow. Because Mercury does not know the exact amount of shares that will be cashed-out, it can only estimate the total amount to be paid to stockholders in the Transaction. Mercury has sufficient cash and short term cash equivalents, or credit availability, to fund the Transaction. See also Source of Funds and Financing of the Transaction.
- **EFFECTS ON THE BUSINESS OF MERCURY.** Mercury expects its business and operations to continue as they are currently being conducted and, except as disclosed in this proxy statement, the Transaction is not expected to have any effect upon the conduct of such business.

Effects on Affiliated Stockholders

The Transaction will have various effects on stockholders who are affiliates of Mercury, as described below. As used in this proxy statement, the term *affiliated stockholder* means any stockholder who is a director or executive officer of Mercury, or who owns 10% or more of Mercury's outstanding common and preferred stock, voting as a single class, and the term *unaffiliated stockholder* means any stockholder other than an affiliated stockholder. The effects of the Transaction to an affiliated stockholder will vary based on whether or not all or any portion of the affiliated stockholder's shares will be cashed-out in the Transaction. The determination of whether or not any particular shares of Mercury's common stock will be cashed-out in the Transaction will be based on whether the holder of those shares hold either fewer than 501 shares or 501 or more shares. Because an affiliated stockholder may beneficially own both shares held by more than one holder of shares, an affiliate may beneficially own both shares that will be cashed-out in the Transaction and shares that will remain outstanding in the Transaction. Except for 382 shares of common stock held by Mr. Czyzyk's wife, as custodian for their children, all affiliated stockholders will retain beneficial ownership of all Mercury common shares held by them prior to the Transaction.

- **CASHED-OUT AFFILIATED STOCKHOLDERS.** Affiliated stockholders owning fewer than 501 shares immediately prior to the effective time of the Transaction will, upon consummation of the Transaction:
 - receive \$4.00 in cash, without interest, per share;
 - no longer have any equity interest in Mercury and, therefore, will not participate in its future potential earnings or growth, if any; and
 - be required to pay federal and, if applicable, state and local income taxes on the cash amount received in the Transaction or recognize loss for tax purposes depending upon the adjusted tax basis of their stock.
- **REMAINING AFFILIATED STOCKHOLDERS.** Potential effects on affiliated stockholders who remain as stockholders after the Transaction include:
 - Reduced Reporting Requirements for Officers and Directors. The directors and executive officers will no longer be subject to the reporting and short-swing profit provisions under the Exchange Act with respect

to changes in their beneficial ownership of Mercury common stock.

Tender Offer Transactions No Longer Regulated. After a 90 day waiting period, tender offer transactions by issuers and affiliates will no longer be regulated.

Decreased Book Value Per Share. The book value per share of common stock as of March 31, 2005, will be decreased from \$4.54 per share on a historical basis to approximately \$4.46 per share on a pro forma basis.

Table of Contents

Decreased Liquidity. The liquidity of the shares of common stock held by stockholders may be further reduced by the Transaction due to the expected termination of the registration of the common stock under the Exchange Act and the delisting of the common stock from the American Stock Exchange. Any trading in Mercury's common stock after the Transaction will only occur in the over-the-counter markets and in privately negotiated sales, and Mercury's common stock will likely only be quoted in the pink sheets.

There can be no assurance of any market for Mercury stock after the Transaction.

Effect of the Transaction on Transaction Affiliates

Joseph Czyzyk, Chairman of the Board, President, Chief Executive Officer, Chairman and a principal stockholder of Mercury, Frederick H. Kopko, Jr., a director and principal stockholder of Mercury, and CK Partners, a partnership comprised of Messrs. Czyzyk and Kopko (previously defined as the Transaction Affiliates), may be deemed to be engaged in the proposed Transaction as a result of their affiliation with Mercury, and thus are filing persons with Mercury as set forth in the Schedule 13E-3 filed with the SEC in connection with the proposed Transaction. The effect of the Transaction on the Transaction Affiliates' interest in the book value and net earnings of Mercury is set forth in the following table:

		Book Value and	Net Income and	Net Income
			Net	and
			Income Per	Net Income
			Share	Per
			for the Nine	
			Months	Share for the
			Ended	Fiscal Year
			March 31, 2005	Ended
			(2)	June 30, 2004
			(2)	(2)
			(all dollar amounts are in thousands, except per share amounts)	
		\$ 12,786,000	\$ (2,073,000)	\$ (5,154,000)
Historical Totals for Mercury		\$ 4.46	\$ (0.77)	\$ (1.80)
Interest of the Transaction Affiliates		\$ 4,820,322	\$ (782,000)	\$ (1,943,058)
Prior to the Transaction:	37.7%	\$ 1.68	\$ (0.29)	\$ (0.67)
Interest of Transaction Affiliates		\$ 5,088,828	\$ (825,000)	\$ (2,051,292)
After the Transaction:	39.8%	\$ 1.76	\$ (0.31)	\$ (0.72)

(1) The percentage ownership of Mercury shown for the Transaction Affiliates represents their beneficial ownership of Total Voting Power as set forth in the table under Security Ownership of Certain Beneficial Owners beginning on page 58. No shares held by the Transaction Affiliates will be cashed out in the Transaction, except for 382 shares owned by Mr. Czyzyk's wife as custodian for their children.

(2) Book value is based on the pro forma balance sheet as of March 31, 2005, as if the Transaction had occurred on March 31, 2005, and net income information is based on the pro forma income statement for the fiscal period, as if the Transaction had occurred at the beginning of the respective fiscal periods presented. See Financial Information Pro Forma Consolidated Financial Statements (unaudited) beginning on page 54.

See Interests of Mercury's Directors and Executive Officers in the Transaction beginning on page 32.

Effects on Unaffiliated Stockholders

The Transaction will have various effects on stockholders who are not affiliates of Mercury, as described below. The effects of the Transaction to an unaffiliated stockholder will vary based on whether or not the unaffiliated stockholder's shares will be cashed-out in the Transaction.

- **CASHED-OUT UNAFFILIATED STOCKHOLDERS.** Unaffiliated Stockholders owning fewer than 501 common shares immediately prior to the effective time of the Transaction will:

receive \$4.00 in cash, without interest, per share;

no longer have any equity interest in Mercury and, therefore, will not participate in its future potential earnings or growth, if any; and

Table of Contents

be required to pay federal and, if applicable, state and local income taxes on the cash amount received in the Transaction or recognize loss for tax purposes depending upon the adjusted tax basis of their stock.

REMAINING UNAFFILIATED STOCKHOLDERS. Potential effects on unaffiliated Mercury stockholders who remain as stockholders after the Transaction include:

Decreased Access to Information. If the Transaction is effected, Mercury intends to terminate the registration of its common stock under the Exchange Act. As a result, Mercury will no longer be subject to the periodic reporting requirements and the proxy rules of the Exchange Act, although Mercury currently intends to continue to provide reports as to its financial condition and results of operation which Mercury expects may be accessed at www.pinksheets.com. Further, executive officers, directors and other affiliates, along with persons acquiring 5% of Mercury's common stock, would no longer be subject to many of the reporting requirements and restrictions of the Exchange Act, including, without limitation, the reporting and short-swing profit provisions of Section 16 of the Exchange Act.

No Regulation of Tender Offer Transactions. Tender offers for the beneficial ownership of more than 5% of Mercury's common stock, and tender offer transactions by issuers and affiliates, will no longer be regulated.

Decreased Liquidity. The liquidity of the shares of common stock held by stockholders may be further reduced by the Transaction due to the expected termination of the registration of the common stock under the Exchange Act and the delisting of the common stock from the American Stock Exchange. Any trading in Mercury's common stock after the Transaction will only occur in the over-the-counter markets and in privately negotiated sales, and Mercury common stock will likely only be quoted in the pink sheets. There can be no assurance of any market for Mercury stock after the Transaction.

Decreased Book Value Per Share. The book value per share of common stock as of March 31, 2005, will be decreased from \$4.54 per share on a historical basis to approximately \$4.46 per share on a pro forma basis.

CONDUCT OF MERCURY'S BUSINESS AFTER THE TRANSACTION

Mercury's executive officers and Board of Directors will remain the same immediately following the Transaction. Mercury expects to conduct its business and operations after the effective date of the Transaction in substantially the same manner as they are currently being conducted and, except as described in this proxy statement with respect to: (1) the use of funds to finance the Transaction and related costs and (2) Mercury's plans to deregister its Common Stock under the 1934 Act and delist it from the American Stock Exchange, the Transaction is not anticipated to have a material effect upon the conduct of Mercury's business.

Neither Mercury nor its management, including the Transaction Affiliates, has any current plans or proposals to effect any extraordinary corporate transaction, such as a merger, reorganization or liquidation; a sale or transfer of any material amount of its assets; a change in its Board or management; a material change in its indebtedness or capitalization (except as described in this proxy statement); or any other material change in its corporate structure or business. However, Mercury may engage in such a transaction in the future to the extent that management and the Board determines it to be in the interest of Mercury and its stockholders. In addition, the Transaction Affiliates may continue to explore opportunities concerning the securities of Mercury, including one or more of the transactions set forth above. More particularly, the Transaction Affiliates may review opportunities to engage in the acquisition or disposition of Mercury's securities.

CONDITIONS TO THE COMPLETION OF THE TRANSACTION

The Transaction will not be effected unless and until Mercury stockholders approve the Transaction and the Board of Directors determines that:

Mercury has available funds necessary to pay for the fractional shares and costs resulting from the Transaction;

Mercury has sufficient cash reserves to continue to operate its business;

no event has occurred or is likely to arise that might have a materially adverse effect on Mercury; and

the Transaction will reduce the number of common stockholders below 300.

Table of Contents

In addition, the Board may decide to abandon the Transaction (even after stockholder approval) at any time prior to its consummation if the Board believes that such action would be in the best interests of Mercury and its stockholders. Assuming that these conditions are satisfied, Mercury, as promptly as reasonably practicable, will file an Amended and Restated Certificate of Incorporation with the Delaware Secretary of State and thereby effect the Transaction. In that case, the approximate record date for effectuating the Transaction will be [July ___, 2005]. If Mercury does not effect the Transaction, Mercury will continue as a company with its common stock registered under the Exchange Act, and the common stock will continue to be traded on the American Stock Exchange.

SOURCE OF FUNDS AND FINANCING OF THE TRANSACTION

Based on estimates of ownership of shares of common stock, the number of shares outstanding and other information as of March 1, 2005, and assuming that, as a result of the Transaction, 192,613 fractional shares are cashed out, Mercury estimates that the total funds required to consummate the Transaction will be approximately \$1,092,000 after taxes, of which \$771,000 will be used to pay the consideration to stockholders entitled to receive cash for their shares, and \$500,000, or \$322,000 after taxes, will be used to pay the costs of the Transaction, as follows:

Legal fees and expenses	\$ 250,000
Postage and printing	\$ 50,000
Miscellaneous Costs (1)	\$ 25,000
Special Committee fees and expenses:	
Legal fees and expenses	\$ 50,000
Financial advisor and fairness opinion fees and expenses	\$ 90,000
Special Committee fees and expenses	\$ 20,000
Board fees and expenses	\$ 10,000
Filing fees	\$ 5,000
 Total (before taxes)	 \$ 500,000
 Total (after taxes)	 \$ 322,000

(1) Includes proxy solicitation fees not to exceed \$10,000, plus out-of-pocket expenses.

On July 29, 2004, Mercury and Bank of America entered into a three-year \$30,000,000 revolving credit line under a loan agreement with the Bank of America collateralized by all of the assets of Mercury, the terms of which were amended effective November 1, 2004. In accordance with the terms of the B of A Credit Facility, as amended, the revolving line of credit is used as collateral for any letters of credit issued by Mercury and for general working capital needs. Upon the effective date of the B of A Credit Facility, \$15,414,000 of cash deposited by Mercury as collateral for outstanding letters of credit and reported as restricted cash on Mercury's balance sheet at June 30, 2004 was released to Mercury for general corporate purposes. As of December 31, 2004, Mercury had \$2,931,000 of unused revolving credit line available under the B of A Credit Facility. The amount of credit available to Mercury on the B of A Credit Facility, as amended, is determined monthly and is equal to the lesser of 1) sum of: a) 80% of the balance due on Domestic Eligible Receivables less b) \$2,000,000; and 2) \$30,000,000. The B of A Credit Facility, as amended, contains certain financial covenants limiting the amount Mercury can expend annually for capital expenditures to \$2,000,000. The B of A Credit Facility, as amended, also prohibits the repurchase of stock and the payment of cash dividends, except for cash dividends in an amount not to exceed \$17,500,000 by June 30, 2005. Mercury is also required to comply with certain financial covenants for tangible net worth and fixed charges. The B of A Credit Facility bears interest at the prime rate, and expires on July 31, 2007, or earlier under certain circumstances.

Mercury is in compliance with all of the terms and conditions of the B of A Credit Facility. On March 17, 2005, the Bank of America informed Mercury, in writing, that it would allow Mercury to repurchase its common stock during fiscal year 2005, in an aggregate amount not to exceed \$1,000,000. Consequently, under the existing B of A Credit Facility, financing will be assured to effect the Transaction, provided the Transaction is completed by June 30, 2005. There are no alternative financing plans in the event the financing under the B of A Credit Facility falls through.

ANTICIPATED ACCOUNTING TREATMENT

Mercury anticipates that it will account for the purchase of outstanding Mercury common stock in the Transaction from stockholders as cancelled stock.

Table of Contents

U.S. FEDERAL INCOME TAX CONSEQUENCE

Summarized below are the material federal income tax consequences to Mercury and its stockholders resulting from the Transaction. This summary is based on existing federal income tax law, which may change, even retroactively. This summary does not discuss all aspects of federal income taxation that may be important to you in light of your individual circumstances. Many types of stockholders (such as financial institutions, insurance companies, broker-dealers, tax-exempt organizations, and foreign persons) may be subject to special tax rules. Other stockholders may also be subject to special tax rules including, but not limited to, stockholders who received Mercury common stock as compensation for services or pursuant to the exercise of an employee stock option, or stockholders who have held, or will hold, stock as part of a straddle, hedging, or conversion transaction for federal income tax purposes. In addition, this summary does not discuss any state, local, foreign or other tax considerations.

This summary assumes that you are one of the following:

a citizen or resident of the United States;

a corporation or an entity taxable as a corporation created or organized under U.S. law (federal or state);

an estate the income of which is subject to federal income taxation regardless of its sources;

a trust if a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have authority to control all substantial decisions of the trust; or

any other person whose worldwide income and gain is otherwise subject to federal income taxation on a net basis.

This summary also assumes that you have held and will continue to hold your shares as capital assets.

NO RULING FROM THE INTERNAL REVENUE SERVICE OR OPINION OF COUNSEL WILL BE OBTAINED REGARDING THE FEDERAL INCOME TAX CONSEQUENCES TO THE STOCKHOLDERS OF MERCURY IN CONNECTION WITH THE TRANSACTION. ACCORDINGLY, EACH STOCKHOLDER IS ENCOURAGED TO CONSULT THEIR OWN TAX ADVISOR AS TO THE PARTICULAR FEDERAL, STATE, LOCAL, FOREIGN, AND OTHER TAX CONSEQUENCES, IN LIGHT OF THEIR INDIVIDUAL CIRCUMSTANCES.

The Transaction

We believe that the Transaction will be treated as a tax-free recapitalization for federal income tax purposes. This will result in no material federal income tax consequences to Mercury.

Federal Income Tax Consequences to Stockholders, Including Affiliates, Who Are Not Cashed-out in the Transaction

If you continue to hold Mercury common stock immediately after the Transaction, and you receive no cash as a result of the Transaction, you will not recognize any gain or loss in the Transaction and will have the same adjusted tax basis and holding period in your Mercury common stock as you had in such stock immediately prior to the Transaction.

Federal Income Tax Consequences to Stockholders, Including Affiliates, Who Both Receive Cash and Own, or Are Considered to Own for Federal Income Tax Purposes, Mercury Common Stock After the Transaction

In some instances you may be entitled to receive cash in the Transaction for shares you hold in one capacity, but continue to hold shares in another capacity. For example, you may own less than 501 shares in your own name (for which you will receive cash) and own more than 501 shares that are held in your brokerage account in street name. Alternatively, for federal income tax purposes you may be deemed to own shares held by others. For instance, if you own less than 501 shares in your own name (for which you will receive cash) and your spouse owns more than 501 shares (which will continue to be held following the completion of the Transaction), the shares owned by your spouse will be attributable to you. As a result, in some instances the shares you own in another capacity, or which are attributed to you, may remain outstanding. In determining whether you are deemed to continue to hold stock immediately after the Transaction, you will be treated as owning shares actually or constructively owned by certain family members and entities in which you have an interest (such as trusts and estates of which you are a beneficiary and corporations and partnerships of which you are an owner, and shares you have an option to acquire).

Table of Contents

If you both receive cash as a result of the Transaction and continue to hold Mercury common stock either directly or through attribution, you will recognize gain, if any, in an amount not to exceed the amount of cash received. Generally no loss will be recognized. The receipt of cash will be characterized as either a dividend or as a payment received in exchange for the stock. The Transaction will be taxed as a dividend unless the payment:

is not essentially equivalent to a dividend with respect to you as determined under Section 302(b)(1) of the Internal Revenue Code of 1986, as amended (the Code);

is a substantially disproportionate redemption of stock with respect to you as determined under Section 302(b)(2) of the Code; or

results in the complete termination of your interest in Mercury under Section 302(b)(3) of the Code (which would be possible if you ceased to own any shares directly and if the only shares attributed to you were from a family member and you properly waive family attribution).

If you satisfy one of these tests, you will recognize income in an amount equal to the excess of the cash received for your shares over your adjusted basis in those shares, and this income will be characterized as capital gain.

If you fail to satisfy one of these tests, then the cash received will be treated as a dividend to you to the extent of your ratable share of Mercury undistributed earnings and profits, then as a tax-free return of capital to the extent of your aggregate adjusted tax basis in your shares, and any remaining amount will be treated as capital gain.

If you, or a person or entity whose ownership of Mercury shares would be attributed to you, will continue to hold Mercury common stock immediately after the Transaction, you are urged to consult with your tax advisor as to the particular federal, state, local, foreign, and other tax consequences of the Transaction, in light of your specific circumstances.

Federal Income Tax Consequences to Cashed-out Stockholders, including Affiliates, Who do not Own, and Are Not Deemed to Own, Mercury Common Stock After the Transaction

If you receive cash as a result of the Transaction and do not own, and are not deemed to own Mercury common stock immediately after the Transaction, you will recognize capital gain or loss. The amount of capital gain or loss you recognize will equal the difference between the cash you receive for your cashed-out stock and your adjusted tax basis in such stock.

Capital Gain and Loss

For individuals, capital gain recognized on the sale of capital assets that have been held for more than 12 months (to the extent they exceed capital losses) generally will be subject to tax at a federal income tax rate not to exceed 15%. Net capital gain recognized from the sale of capital assets that have been held for 12 months or less will be subject to tax at ordinary income tax rates. In addition, capital gain recognized by a corporate taxpayer will be subject to tax at the ordinary income tax rates applicable to corporations. In general, the capital losses of individuals may only be deducted to the extent of the individual's capital gains plus \$3,000 each year. Any capital loss of an individual which is not deductible by reason of the foregoing limitation may be carried forward to subsequent years. In the case of corporations, capital losses may only be deducted to the extent of capital gains.

Any capital loss of a corporation which is not deductible by reason of the foregoing limitation may be carried back three years and carried forward five years.

Dividend

For individuals, if any portion of the cash received is treated as a dividend under the rules described above, the dividend generally will be subject to tax at a federal income tax rate not to exceed 15%, provided that the individual satisfies the holding period requirement.

Backup Withholding

Stockholders will be required to provide their social security or other taxpayer identification numbers (or, in some instances, additional information) in connection with the Transaction to avoid backup withholding requirements that might otherwise apply. The

Table of Contents

letter of transmittal will require each stockholder to deliver such information when the common stock certificates are surrendered following the effective time of the Transaction. Failure to provide such information may result in backup withholding.

As explained above, the amounts paid to you as a result of the Transaction may result in dividend income, capital gain income, or some combination of dividend and capital gain income to you depending on your individual circumstance.

REGULATORY APPROVALS

Mercury is not aware of any material governmental or regulatory approval required for completion of the Transaction, other than compliance with the relevant federal and state securities laws and the corporate laws of the state of Delaware.

NO APPRAISAL OF DISSENTERS' RIGHTS; ESCHEAT LAWS

Stockholders do not have appraisal or dissenters' rights under Delaware state law or Mercury's Certificate of Incorporation or Bylaws in connection with the Transaction.

The unclaimed property and escheat laws of each state provide that under circumstances defined in that state's statutes, holders of unclaimed or abandoned property must surrender that property to the state. Persons whose shares are eliminated and whose addresses are unknown to Mercury, or who do not return their common stock certificate(s) and request payment therefor, generally will have a period of years (depending on applicable state law) from the effective date of the Transaction in which to claim the cash payment payable to them. Following the expiration of that period, the escheat laws of states of residence of stockholders, as shown by the records of Mercury, generally provide for such state to obtain either (i) custodial possession of property that has been unclaimed until the owner reclaims it or (ii) escheat of such property to the state. If Mercury does not have an address for the holder of record of the shares, then unclaimed cash-out payments, without interest, would be turned over to Mercury's state of incorporation, the state of Delaware, in accordance with its escheat laws.

ADJOURNMENT OF MEETING

Although it is not expected, the Special Meeting may be adjourned for the purpose of soliciting additional proxies. Any adjournment of the Special Meeting may be made without notice, other than by announcement made at the Special Meeting, by approval of the holders of a majority of the shares of Mercury's common and preferred stock represented in person or represented by proxy at the Special Meeting, whether or not a quorum exists.

RESERVATION OF RIGHTS

The Board has retained for itself the absolute authority to reject (and not implement) the Transaction (even after approval thereof) if it determines subsequently that the Transaction is not then in the best interests of Mercury and its stockholders.

EXAMPLES

In general, the Transaction can be illustrated by the following examples:

HYPOTHETICAL SCENARIO

Mr. Smith is a registered stockholder who holds 50 shares of Mercury's common stock of record in his name at the effective time of the Transaction. Mr. Smith holds no other shares.

RESULT

Instead of receiving fractional shares of common stock immediately after the reverse stock split, Mr. Smith will receive cash in the amount of \$4.00 for each of the 50 shares of Mercury's common stock held prior to the reverse stock split. (Note: If Mr. Smith wants to continue to invest in Mercury, he can buy at least 451 more shares of Mercury's common stock (with such shares held of record in his name so that it is readily apparent that he owns more than 500 shares). Mr. Smith would have to act far enough in advance of the effective time of the Transaction so that the purchase is completed and registered on the books of Mercury before the effective time.)

Table of Contents

HYPOTHETICAL SCENARIO

Ms. Jones holds 100 shares of Mercury's common stock in a brokerage account at the effective time of the Transaction. Ms. Jones holds no other shares.

RESULT

Mercury intends to treat stockholders holding common stock in street name through a nominee (such as a bank or broker) in the same manner as stockholders whose shares are registered in their own names. Nominees will be instructed to effect the Transaction for their beneficial holders. Nominees may have different procedures, however, and stockholders holding common stock in street name should contact their nominees. Ms. Jones will receive cash in the amount of \$4.00 for each of the 100 shares of Mercury's common stock held prior to the reverse stock split.

HYPOTHETICAL SCENARIO

Mr. Williams holds 475 shares of Mercury's common stock of record in his name and 75 shares in a brokerage account at the effective time of the Transaction. Mr. Williams holds no other shares.

RESULT

Mercury will presume that all of the shares are held by a holder of fewer than 501 shares and Mr. Williams will receive cash in the amount of \$4.00 for each of the 550 shares of Mercury's common stock held prior to the reverse stock split. (Note: If Mr. Williams wants to continue to hold Mercury's shares, he can transfer at least 26 shares out of his brokerage account so that they are also held of record in his name. Mr. Williams would have to act far enough in advance of the effective time of the Transaction so that the purchase is complete and registered on the books of Mercury before the effective time.)

HYPOTHETICAL SCENARIO

Ms. Washington holds 1,000 shares of Mercury's common stock either in her name or in a brokerage account at the effective time of the Transaction. Ms. Washington holds no other shares.

RESULT

Ms. Washington will hold 1,000 shares of Mercury's common stock after the Transaction.

Table of Contents**SELECTED PER SHARE FINANCIAL INFORMATION**

The following table sets forth selected historical per share financial information for Mercury and unaudited pro forma per share financial information for Mercury giving effect to the Transaction as if it had been consummated as of the end of each period presented, in the case of book value per share information, and as of the beginning of the respective periods, in the case of income per share and weighted common share outstanding information. The information presented below is derived from (i) the consolidated historical financial statements of Mercury, including the related notes thereto, and (ii) the unaudited Pro Forma Consolidated Financial Statements, including the related assumptions, beginning on page 75. This table should be read together with the Selected Historical Financial Information beginning on page 73, the unaudited Pro Forma Consolidated Financial Statements and the related assumptions and footnotes beginning on page 75 and the consolidated financial statements of Mercury and the notes thereto included in Mercury's Annual Report on Form 10-K for the fiscal year ended June 30, 2004 and Mercury's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2005, which information is attached to and incorporated by reference in this proxy statement. As described in the assumptions to the unaudited Pro Forma Consolidated Financial Statements, the pro forma per share information assumes that 192,613 shares of Common Stock will be cashed out in connection with the Transaction, and that the total cash required for the Transaction will be \$1,271,000, including the cash paid for these shares, and amounts required to pay the other costs of the Transaction, or \$1,092,000 net of taxes. The pro forma information set forth below is not necessarily indicative of what Mercury's financial position or results of operations actually would have been if the Transaction had been consummated as of the above referenced dates or of Mercury's financial position or results of operations in the future.

(Shares in thousands except per share amounts)	As of and for the Months Ended March 31, 2005 (unaudited)	As of and for the Year Ended June 30, 2004 (pro forma amounts are unaudited)
Mercury Historical		
Net income per common share from continuing operations:

Net tangible book value per share	\$ 3.05	\$ 9.25
Ratio of earnings to fixed charges	\$ 0.81	\$ 1.00
Dividends per common share	\$ 5.70	\$ 0.00
Weighted average common shares outstanding:		
Basic	2,900,631	3,059,200
Diluted	2,900,631	3,059,200
Mercury Pro Forma		
Net income per common share from continuing operations (2):		
Basic	\$ (0.77)	\$ (1.80)
Diluted	\$ (0.77)	\$ (1.80)
Book value per common share (3)	\$ 4.46	\$ 11.16
Net tangible book value per share	\$ 2.88	\$ 9.50
Dividends per common share	\$ 5.70	\$ 0.00
Weighted average common shares outstanding:		
Basic	2,708,018	2,866,587

Diluted	2,708,018	2,866,587
---------	-----------	-----------

- (1) Historical book value per share of common stock is computed by dividing stockholders' equity by the number of basic common shares outstanding at the end of the period.
- (2) Basic and diluted pro forma net income per share amounts are computed by dividing pro forma net income by the historical weighted average number of basic shares and diluted shares outstanding for the period, minus the shares of common stock assumed to be cashed out in the Transaction.
- (3) Pro forma book value per share of common stock is computed by dividing pro forma stockholders' equity by the number of basic common shares outstanding at the end of the respective periods, minus the number of shares of common stock assumed to be cashed out in the Transaction.

Table of Contents**MARKET FOR COMMON STOCK AND RELATED STOCKHOLDER MATTERS****MARKET PRICES OF THE COMMON STOCK**

Mercury's common stock is listed on the American Stock Exchange under the symbol MAX. The following table sets forth the range of high and low closing prices as reported on the American Stock Exchange for the calendar periods set forth below. On March 8, 2005, the day before the public announcement that the Special Committee was considering the Transaction, the closing price of the common stock on the American Stock Exchange was \$4.49 per share. On March 21, 2005, the day before Mercury's announcement that the Transaction had been approved by the Special Committee and the Board, the closing price of the common stock on the American Stock Exchange was \$3.36 per share. On ____, 2005 (the most recent practicable date prior to the printing of this proxy statement), the closing price of the common stock was \$ per share.

A special cash dividend of \$5.70 per share was paid to stockholders effective the close of business on November 5, 2004. The prices set forth below are not adjusted for this special cash dividend. The prices set forth below are adjusted for a 1-for-2 reverse stock split as of June 18, 2003.

	HIGH	LOW
Calendar 2005		
Second quarter (through June 19, 2005)	\$ 3.99	\$ 3.32
First quarter	4.80	3.25

Fourth quarter	\$ 6.85	\$ 4.49
Third quarter	7.30	6.20
Second quarter	7.16	3.20
First quarter	3.70	3.20

There were approximately 331 common stockholders of record as of March 1, 2005.

DIVIDENDS

On October 6, 2004, Mercury announced that its Board of Directors declared a one-time special cash dividend totaling \$17,500,000, that would be payable on a pro rata basis to holders of record of its common stock. The dividend was paid on November 5, 2004. Based on 3,056,355 shares of its common stock outstanding as of the close of business on the record date, the dividend payable per common shares was \$5.70. The amount payable per share of common stock was net of the mandatory dividend payments of approximately \$70,000 on the Company's outstanding preferred stock as of the dividend payment date of November 5, 2004. This one-time special cash dividend was funded, in part, by a cash advance on Mercury's credit facility with the Bank of America in the amount of \$10,000,000.

Except as set forth above, Mercury has not declared any dividends on the common stock during the past five years, and the Board of Directors does not currently intend to pay any cash dividends on the common stock in the foreseeable future. Payment of cash dividends by Mercury is at the discretion of its Board of Directors and is dependent on its earnings, financial condition, capital requirements and other relevant factors. Mercury's current credit facility also contains limitations on Mercury's ability to pay dividends.

Table of Contents**STOCK PURCHASES BY MERCURY AND TRANSACTION AFFILIATES**

STOCK PURCHASES BY MERCURY

Except as described below, Mercury has not purchased any shares of its common stock within the past two years.

During the period from January 1, 2003 through June 16, 2005, Mercury purchased an aggregate of 519,850 shares of its common stock. The following table sets forth information by quarter regarding such share repurchases, both on an actual basis and on a basis adjusted to account for the \$5.70 per share dividend paid to stockholders as of November 5, 2004:

CALENDAR PERIOD		NUMBER OF SHARES PURCHASED	AVERAGE PRICES PAID (ACTUAL)	AVERAGE PRICES PAID (ADJUSTED) (1)
2005	Second Quarter (2)	0	n.a.	n.a.
2005	First Quarter (2)	3,750(3)	4.90.	4.90(4)
2004	Fourth Quarter	8,750(3)	\$ 4.90	\$ 4.90(4)
2004	Third Quarter	153,000(5)	\$ 6.01	\$ 0.31
2004	Second Quarter	14,500	\$ 6.17	\$ 0.47
2004	First Quarter	0	n.a.	n.a.
2003	Fourth Quarter	343,600(6)	\$ 10.44(7)	\$ 4.74
2003	Third Quarter	0	n.a.	n.a.
2003	Second Quarter	0	n.a.	n.a.
2003	First Quarter	0	n.a.	n.a.

(1) Adjusted to account for a \$5.70 per share cash dividend paid to stockholders as of November 5, 2004.

(2) Through June 16 2005.

(3) Purchased by Mercury from former executive officers upon their termination of employment.

(4) Purchased subsequent to November 5, 2004, and therefore not adjusted.

(5) Mercury purchased 150,000 shares on July 16, 2004, pursuant to a settlement agreement with David H. Murdock and related parties (collectively "Murdock"). The shares were purchased at \$6.00 per share. In connection with the settlement agreement, Mercury and Murdock agreed to enter into a certain mutual release of claims, and Mercury agreed to pay to Murdock \$525,000 representing all costs, fees and expenses incurred by Murdock in connection with the settlement agreement and due diligence investigation of Mercury's business and in consideration for Murdock's execution of a mutual release of claims. Mercury also purchased 3,000 shares during the quarter at \$6.55 per share from a former executive officer upon his termination of employment.

(6)

Represents number of shares purchased by Mercury from J O Hambro and certain of its affiliates and private clients (Hambro) on December 15, 2003 pursuant to a settlement agreement with Hambro.

- (7) Represents principal amount of three promissory notes issued to Hambro pursuant to the settlement agreement for an aggregate principal amount of \$3,586,000, divided by the number of shares purchased by Mercury from Hambro. The \$3,586,000 includes consideration paid by Mercury for the shares purchased and also for the following: (i) Mercury s agreement not to institute certain litigation against Hambro, (ii) Mercury s agreement to dismiss the litigation against Hambro, (iii) the release of certain claims by Hambro, and (iv) reimbursement of Hambro for certain costs, fees and expenses. The per share amount in the table assumes the payment was exclusively in consideration for the Mercury shares.

Table of Contents**STOCK PURCHASES BY AFFILIATES (INCLUDING TRANSACTION AFFILIATES)**

Except as described below, and except for acquisitions and exercises of stock options, to the best of Mercury's knowledge, neither the Transaction Affiliates nor any executive officer or director of Mercury, or any other person in control of Mercury (Affiliates) have purchased any shares of Mercury's common stock within the past two years.

During the period from January 1, 2003 through June 16, 2005, the Affiliates purchased an aggregate of 419,807 shares of its common stock. The following table sets forth information by quarter regarding such share repurchases:

CALENDAR PERIOD	NUMBER OF SHARES PURCHASED	AVERAGE PRICE PAID (ACTUAL)
2005 Second Quarter (1)	0	n.a.
2005 First Quarter	0	n.a.
2004 Fourth Quarter	419,807(2)	\$ 3.15(3)
2004 Third Quarter	0	n.a.
2004 Second Quarter	0	n.a.
2004 First Quarter	0	n.a.
2003 Fourth Quarter	0	n.a.
2003 Third Quarter	0	n.a.
2003 Second Quarter	0	n.a.
2003 First Quarter	0	n.a.

(1) Through June 16, 2005.

(2) Consists of the following purchases by CK Partners: (i) 192,400 shares purchased on November 23, 2004, at \$3.20 per share; and (ii) 226,407 shares purchased on November 30, 2004 at \$3.10 per share, and a purchase of 1,000 shares on December 2, 2004 at \$5.87 per share, by Mr. Feracota.

(3) Shares acquired subsequent to the special dividend of \$5.70 per share which was paid to stockholders on November 5, 2004, and therefore not adjusted.

Table of Contents

THE SPECIAL MEETING

GENERAL

Mercury is providing this proxy statement to Mercury's stockholders of record as of [June ___, 2005], along with a form of proxy that the Mercury Board of Directors is soliciting for use at the Special Meeting to be held on [July ___, 2005] at 9:00 a.m., at 5456 McConnell Avenue, Los Angeles, California 90066. At the Special Meeting, the stockholders will vote upon (1) a proposal to adopt the Amended and Restated Certificate of Incorporation that will effect a 1-for-501 reverse stock split followed immediately by a 501-for-1 forward stock split of Mercury's common stock; and (2) a proposal to grant the Company's board of directors discretionary authority to adjourn the Special Meeting if necessary to satisfy the conditions to completing the transaction, including for the purpose of soliciting proxies to vote in favor of the transaction.

WHO CAN VOTE AT AND ATTEND THE SPECIAL MEETING

You may vote all of Mercury's common and preferred stock that you own as of the close of business on the record date, which was [June ___, 2005]. These shares include:

shares held directly in your name as the stockholder of record, and

shares held for you as the beneficial owner either through a broker, bank or other nominee.

Many of Mercury's stockholders hold their shares through a broker, bank or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholder of Record. If your shares are registered directly in your name with the Transfer Agent, you are considered, with respect to those shares, the stockholder of record, and these proxy materials are being sent to you by Mercury. As the stockholder of record, you have the right to vote by proxy or to vote in person at the Special Meeting. Mercury has enclosed a proxy card for you to use.

Beneficial Owner. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name with respect to those shares, and the proxy materials are being forwarded to you by your broker or other nominee. Your broker or other nominee is considered, with respect to those shares, the stockholder of record. As the beneficial owner, you have the right to direct your broker or other nominee how to vote and are also invited to attend the Special Meeting. As a beneficial owner, however, you are not the stockholder of record, and you may not vote these shares in person at the Special Meeting unless you obtain a signed proxy appointment form from the stockholder of record giving you the right to vote the shares. Your broker or nominee has enclosed or provided a voting instruction card for you to use in directing the broker or nominee how to vote your shares.

All holders of Mercury's common and preferred stock may attend the Special Meeting in person. If you are a beneficial owner of Mercury's common stock held by a broker, bank or other nominee (i.e., in street name), you will need proof of ownership to be admitted to the Special Meeting. A recent brokerage statement or letter from a bank or broker are examples of proof of ownership. Only holders of record of Mercury's common and preferred stock as of [June ___, 2005] may cast their votes in person at the Special Meeting.

Whether you hold your shares directly as stockholder of record or beneficially in street name, you may direct your vote without attending the Special Meeting. You may vote by signing your proxy card or, for shares held in street name, by signing the voting instruction card included by your broker or nominee and mailing it in the enclosed, pre-addressed envelope. If you provide specific voting instructions, your shares will be voted as you instruct. If you sign but do not provide instructions, your shares will be voted as described above in Questions and Answers About the Meeting and Voting Procedures How are my Votes Counted?

Table of Contents

VOTE REQUIRED

The required vote for each of the proposals presented at the Special Meeting are as follows:

1. The Transaction is subject to the approval of the affirmative vote of holders of a majority of the outstanding shares of our common stock and preferred stock, counted as a single class.
2. Approval of granting the board of directors with discretionary authority to adjourn the Annual Meeting requires the affirmative vote of a majority of the shares of common and preferred stock voting as a single class.

The proposals to approve the Transaction and grant the Board of Directors with discretionary authority to adjourn the Special Meeting are non-discretionary items, meaning that brokerage firms cannot vote shares in their discretion on behalf of a client if the client has not given voting instructions. Accordingly, shares held in street name that have been designated by brokers on proxy cards as not voted with respect to that proposal (broker non-vote shares) will not be counted as votes cast.

In accordance with Mercury's Bylaws relating to special meetings of stockholders, no other business may be presented at the Special Meeting other than matters incidental to the conduct of the Special Meeting.

As of the record date, the directors and executive officers of Mercury, including the Transaction Affiliates, held a total of approximately 38.5% of the outstanding shares of Mercury's common and preferred stock entitled to vote at the Special Meeting. The directors and executive officers of Mercury have indicated that they will vote FOR each of the proposals presented at the Special Meeting.

VOTING AND REVOCATION OF PROXIES

The shares of Mercury's common and preferred stock represented by properly completed proxies received at or before the time for the Special Meeting (or any adjournment) will be voted as directed by the respective stockholders unless the proxies are revoked as described below. If no instructions are given, executed proxies will be voted FOR approval of the Transaction, and FOR approval of the proposal granting the Board of Directors discretionary authority to adjourn the Special Meeting.

The proxies will be voted in the discretion of the proxy holders on other matters, if any, that are properly presented at the Special Meeting and voted upon.

You may revoke your proxy at any time before the vote is taken at the Special Meeting. To revoke your proxy, you must either: notify Wayne Lovett in writing at Mercury's principal executive office; submit a later dated proxy to Mr. Lovett; or attend the Special Meeting and vote your shares in person. Your attendance at the Special Meeting will not automatically revoke your proxy. If you hold your shares in street name, please see the voting form provided by your broker for additional information regarding the voting of your shares. Your broker may allow you to deliver your voting instructions via the telephone or the internet. If your shares are not registered in your name, you will need additional documentation from your record holder to vote the shares in person.

RECOMMENDATION OF THE BOARD OF DIRECTORS

The Board of Directors of Mercury has approved the Transaction and believes that it is fair to and in the best interests of, Mercury and its stockholders. With Messrs. Czyzyk and Kopko abstaining, the remainder of the Board of

Directors unanimously recommends that Mercury s stockholders vote FOR approval of the Transaction.

The Board of Directors of Mercury also recommends that you vote FOR the proposal to grant the Board of Directors discretionary authority to adjourn the Special Meeting.

Table of Contents

THE PROPOSED AMENDMENT

The following is a description of the material terms and effects of the Transaction. A copy of the proposed Amended and Restated Certificate of Incorporation effecting both the reverse split and the forward split following immediately thereafter is attached as Appendix A to this proxy statement. This discussion does not include all of the information that may be important to you. You should read the proposed Amended and Restated Certificate of Incorporation and this proxy statement and related appendices before deciding how to vote at the Special Meeting.

THE STRUCTURE OF THE TRANSACTION

The Transaction includes both a reverse stock split and a forward stock split of the common stock. If the Transaction is approved by stockholders and implemented by the Board of Directors, the reverse and forward splits are expected to occur at 11:59 p.m., Eastern Time, on or about [July ___, 2005] (the effective time).

Upon consummation of the reverse split, each registered stockholder at the effective time will receive 1 share of common stock for each 501 shares of common stock held in his or her account at that time. If a registered stockholder holds 501 or more shares of common stock in his or her account, any fractional shares in such account will not be cashed-out after the reverse stock split and the forward stock split, and the total number of shares held by such holder will not change as a result of the Transaction. Any registered stockholder who holds fewer than 501 shares of common stock in his or her account at the effective time will receive a cash payment instead of fractional shares. This cash payment will be determined and paid as described under - Conversion of Shares in the Transaction below.

We intend to treat stockholders holding common stock in street name through a nominee (such as a bank or broker) in the same manner as stockholders whose shares are registered in their names, and nominees will be instructed to effect the Transaction for their beneficial holders. Nominees may have different procedures, however, and stockholders holding shares in street name should contact their nominees.

CONVERSION OF SHARES IN THE TRANSACTION

At the effective time of the Transaction:

stockholders holding fewer than 501 shares of Mercury common stock immediately prior to the effective time, whether record shares (as defined below) or street shares (as defined below), will receive cash equal to \$4.00 per share, without interest, and such shares will be cancelled;

all outstanding shares of Mercury common stock other than those described above will remain outstanding with all rights, privileges, and powers existing immediately before the Transaction;

As used above:

the term record shares means shares of Mercury stock, other than street shares, and any record share shall be deemed to be held by the registered holder thereof as reflected on the books of Mercury; and

the term street shares means shares of Mercury stock held of record in street name, and any street share shall be deemed to be held by the beneficial owner thereof as reflected on the books of the nominee holder thereof.

Mercury (along with any other person or entity to which it may delegate or assign any responsibility or task with respect thereto) shall have full discretion and exclusive authority (subject to its right and power to so delegate or assign such authority) to:

make such inquiries, whether of any stockholder(s) or otherwise, as it may deem appropriate for purposes of effecting the Transaction; and

resolve and determine, in its sole discretion, all ambiguities, questions of fact and interpretive and other matters relating to such provisions, including, without limitation, any questions as to the number of shares held by any holder immediately prior to the effective time. All such determinations by Mercury shall be final and binding on all parties, and no person or entity shall have any recourse against Mercury or any other person or entity with respect thereto.

For purposes of effecting the Transaction, Mercury may, in its sole discretion, but without any obligation to do so,

presume that any shares of Mercury common stock held in a discrete account (whether record or beneficial) are held by a person distinct from any other person, notwithstanding that the registered or beneficial holder of a separate discrete account has the same or a similar name as the holder of a separate discrete account; and

aggregate the shares held (whether of record or beneficially) by any person or persons that Mercury determines to constitute a single holder for purposes of determining the number of shares held by such holder.

Table of Contents

Rule 12g5-1 under the Exchange Act provides that, for the purpose of determining whether an issuer is subject to the registration provisions of the Exchange Act, securities shall be deemed to be held of record by each person who is identified as the owner of such securities on the records of security holders maintained by or on behalf of the issuer, subject to the following:

- In any case where the records of security holders have not been maintained in accordance with accepted practice, any additional person who would be identified as such an owner on such records if they had been maintained in accordance with accepted practice shall be included as a holder of record.
- Securities identified as held of record by a corporation, a partnership, a trust (whether or not the trustees are named), or other organization shall be included as so held by one person.
- Securities identified as held of record by one or more persons as trustees, executors, guardians, custodians or in other fiduciary capacities with respect to a single trust, estate, or account shall be included as held of record by one person.
- Securities held by two or more persons as co-owners shall be included as held by one person.
- Securities registered in substantially similar names where the issuer has reason to believe because of the address or other indications that such names represent the same person, may be included as held of record by one person.

EXCHANGE OF CERTIFICATES

Promptly after the Transaction, Mercury will mail to each holder who appears to have owned fewer than 501 common shares immediately prior to the effective time of the Transaction, based on information available to Mercury, a letter of transmittal (which shall specify that delivery shall be effected, and risk of loss and title to the certificates shall pass, only upon delivery of the certificates to Mercury) and instructions to effect the surrender of the certificates in exchange for a cash payment, if any, payable with respect to such certificates. Upon surrender of a certificate for cancellation to Mercury, together with such letter of transmittal, duly completed and executed and containing the certification that the holder of the certificate holds fewer than 501 common shares, and such other customary documents as may be required pursuant to such instructions, the holder of such certificate will receive a cash payment payable with respect to the shares formerly represented by such certificate and the certificate so surrendered shall be canceled.

All amounts payable to stockholders will be subject to applicable state laws relating to abandoned property. No service charges or brokerage commissions will be payable by stockholders in connection with the Transaction. Mercury will not pay any interest on any cash amounts payable to its stockholders as a result of the Transaction.

YOU SHOULD NOT SEND YOUR STOCK CERTIFICATES NOW. YOU SHOULD SEND THEM ONLY AFTER YOU RECEIVE A LETTER OF TRANSMITTAL FROM MERCURY. LETTERS OF TRANSMITTAL WILL BE MAILED SOON AFTER THE TRANSACTION IS COMPLETED.

TIME OF CLOSING

If the Transaction is approved by the Mercury stockholders, the Transaction will take place on [July __, 2005] or as soon as practicable thereafter. As soon as practicable following the Special Meeting, the Amended and Restated Certificate of Incorporation will be filed with the Secretary of State of Delaware. Each of the reverse split and the forward split will become effective on the date and at the time specified in the Amended and Restated Certificate of

Incorporation.

PROPOSAL FOR DISCRETIONARY ADJOURNMENT OF THE SPECIAL MEETING

The board of directors is seeking discretionary authority to adjourn the Special Meeting if necessary to satisfy the conditions to completing the transaction, including for the purpose of soliciting proxies to vote in favor of the transaction.

Approval of the proposal to grant the board of directors discretionary authority to adjourn the Special Meeting requires the affirmative vote of the holders of a majority of the shares of common and preferred stock, voting as a single class on the matter. The board of directors recommends a vote FOR granting the board of directors discretionary authority to adjourn the meeting. Abstentions and broker non-votes have no effect in the matter. Unless a contrary choice is indicated, proxies solicited by the board of directors will be voted FOR granting the board of directors discretionary authority to adjourn the Special Meeting.

Table of Contents**FINANCIAL INFORMATION****Summary Historical Financial Information**

The following summary of historical consolidated financial data was derived from Mercury's audited consolidated financial statements as of and for each of the fiscal years ended June 30, 2004, 2003, and 2002, and from unaudited interim consolidated financial statements as of and for the nine months ended March 31, 2005 and 2004. The statement of operations data for the nine months ended March 31, 2005 is not necessarily indicative of results to be expected for the full fiscal year. This financial information is only a summary and should be read in conjunction with the consolidated financial statements of Mercury and other financial information, including the notes thereto, contained in Mercury's Annual Report on Form 10-K

for the fiscal year ended June 30, 2004 and Mercury's Quarterly Report on Form 10-Q for the quarter ended March 31, 2005, which information is attached hereto and incorporated by reference in this proxy statement. See "Where You Can Find More Information" and "Documents Incorporated by Reference" both on page ____.

Pro Forma Consolidated Financial Statements (Unaudited)

The following unaudited pro forma consolidated balance sheet as of March 31, 2005, and the unaudited pro forma consolidated statements of operations for the nine months ended March 31, 2005 and for the fiscal year ended June 30, 2004, show the pro forma effect of the Transaction and related events as required by Rule 11-02 of Regulation S-X. The historical figures for the fiscal year ended June 30, 2004, were derived from Mercury's audited consolidated financial statements that were included in Mercury's Annual Report on Form 10-K for the fiscal year ended June 30, 2004. The historical figures as of and for the period ended March 31, 2005 were derived from Mercury's unaudited consolidated financial statements that were included in Mercury's Quarterly Report on Form 10-Q for the nine months ended March 31, 2005.

The pro forma information below in this section giving effect to the Transaction is based on estimates of record ownership of shares of common stock, the number of shares outstanding and other information as of March 31, 2005 and assumes that, as a result of the foregoing, 192,613 fractional shares are cancelled or cashed out at a price of \$4.00 per pre-Transaction share. Pro forma adjustments to the pro forma balance sheets are computed as if the Transaction had occurred at March 31, 2005, while the pro forma income statements are computed as if the Transaction had occurred at the beginning of the period.

The pro forma information is not necessarily indicative of what Mercury's financial position or results of operations actually would have been if the Transaction had occurred on July 1, 2003 or July 1, 2004, or of Mercury's financial position or results of operations in the future.

The unaudited pro forma financial statements should be read in conjunction with the historical financial statements and accompanying footnotes included in Mercury's Annual Report on Form 10-K for the year ended June 30, 2004, and in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2005, which are attached hereto and incorporated by reference in this proxy statement.

Notes:

- (1) Represents funds borrowed under the Company's senior credit facility to effect the Transaction.
- (2) Represents payments in respect of fractional shares that are estimated to be approximately \$771. \$0.01 per share, or \$2, was allocated to Common Stock; \$3.99 per share, or \$769 was allocated to Additional Paid-in-Capital.
- (3) Retained earnings are reduced for the expenses related to the Transaction of \$313, net of tax.
- (4)

Increased interest costs at an assumed interest rate of 5.0% on the approximately \$1,075 of revolving line of credit funds used to effect the Transaction. A 1/8% change in the assumed rate would result in a change in interest expense of approximately \$1 per annum.

- (5) Taxes are based upon Mercury Air Group's estimated annual combined statutory federal and state income tax rate of 39%
- (6) Pro forma basic and diluted weighted outstanding shares are adjusted based on the assumed redemption of 192,613 pre-split shares.
- (7) Increased interest costs at an assumed interest rate of 5.0% on the approximately \$1,075 of revolving line of credit funds used to effect the Transaction. A 1/8% change in the assumed rate would result in a change in interest expense of approximately \$1 per annum.
- (8) Retained earnings are reduced for the expenses related to the Transaction of \$339, net of tax.

Table of Contents**MANAGEMENT OF MERCURY**

Set forth below is information about the directors and executive officers of Mercury.

Directors

Name	Age	Positions
Joseph A. Czyzyk	57	President, Chief Executive Officer and Chairman
Frederick H. Kopko, Jr.	49	Director
Gary J. Feracota	44	Director
Michael J. Janowiak	41	Director
Angelo Pusateri	64	Director

Executive Officers Who Are Not Directors

Name	Age	Positions
Kent Rosenthal	45	Chief Financial Officer
William L. Silva	54	Executive Vice President and President of Maytag Aircraft Corporation (Maytag)
Wayne J. Lovett	56	Executive Vice President, Secretary and General Counsel

Joseph A. Czyzyk has been President and a Director of Mercury Air Group since November 1994 and has served as Chief Executive Officer since December 1998. Mr. Czyzyk was appointed Chairman in July 2004. Mr. Czyzyk also served as President of Mercury Service, Inc., a discontinued division of Mercury Air Group which sold aviation fuel and provided refueling services for commercial aircrafts, from August 1985 until August 1988, and President of Mercury Air Cargo, Inc. from August 1988 until August 1997. Mr. Czyzyk served as an Executive Vice President of Mercury Air Group from November 1990 through November 1994. Mr. Czyzyk received a B.S. in Civil Engineering from California State University of Los Angeles and served in the U.S. Navy. Mr. Czyzyk has served the City of Los Angeles as a Taxi Commissioner since 1998 and was elected President of the Board of Taxicab Commissioners in July 2002.

Frederick H. Kopko, Jr. has been a director of Mercury Air Group since October 1992. Mr. Kopko has been a partner in the law firm of McBreen & Kopko since January 1990. Mr. Kopko presently serves on the Board of Directors of Sonic Foundry, Inc., a business which develops automated rich media applications software and systems. He was admitted to practice law in the State of Illinois. He attended the University of Connecticut, receiving a Bachelor of Arts degree in economics, magna cum laude. He, thereafter, received his Juris Doctorate degree from the University of Notre Dame where he was editor of the Notre Dame Law Review. Mr. Kopko also attended the University of Chicago and obtained his Master of Business Administration degree with High Honors.

Gary J. Feracota has been a director of Mercury Air Group since November 2001. Mr. Feracota is, and has since January 2002, been a Principal of the Pinnacle Group, a privately-held fractional yacht leasing company. He is also a management consultant serving growth companies. From June 2001 to January 2002, Mr. Feracota was President and Chief Executive Officer of Anlon Systems, a distance learning software company, consummating the sale of that company to a private investment group. From September 1997 to June 2001, he was a Partner at Deloitte Consulting. Mr. Feracota was an Associate Partner at Andersen Consulting, where he served as a management consultant from September 1988 to September 1997. He served as Director of Marketing for Seier Technologies from May 1985 to

September 1988 and as a Member of the Technical Staff for Texas Instruments from July 1982 to August 1985. Mr. Feracota received a Bachelor degree in Energy Technology and Physics from Northern Illinois University and a Master of Business Administration degree from the University of Chicago.

Michael Janowiak has been a director of Mercury Air Group since September 2002. Mr. Janowiak has been a Principal of a company known as Professional Education International (PEI), a professional training organization, since August 1985. Mr. Janowiak has 19 years experience in the information industry. He founded the publishing/research division of PEI. He has served on the Advisory Board of the Midtown Foundation since January 2001, as the Subsidiary Director of CIB Marine Bancshares, Inc., since November 2001, as Industry Advisor Illinois Institute of Technology since January 1999, as member of the Advisory Board of Liquio Corporation since August 2002 and as member of the Advisory Board of Idynta Systems since December 2001. Mr. Janowiak attended the University of Arizona and the Stanford University Executive Program.

Angelo Pusateri has been a director of Mercury Air Group since December 2002. In May 2002 he retired from Virgin Atlantic Airways Group, Ltd., after 18 years of service. He was President of Virgin Atlantic Cargo from October 1985 until his retirement and President of Virgin Security Services, Inc. from January 1993 to May 2002. Mr. Pusateri currently is an Adjunct Professor at Hofstra University and lectures on International Strategic Management . He earned a Master of Business Administration degree from City University of New York.

Kent Rosenthal has been Mercury's Chief Financial Officer since December 2004. Mr. Rosenthal is a senior financial executive with more than twenty years experience in accounting and finance positions. Prior to joining Mercury, from September 2003 to December 2004, Mr. Rosenthal was engaged in independent consulting work. From October 2000 to September 2003, Mr. Rosenthal was the Vice President of Finance of Anixter Pentacon, Inc. (subsidiary of Anixter, Inc.) (Anixter), a leading distributor of communications and specialty wire and cable products. While at Anixter, Mr. Rosenthal's responsibilities included finance, bank relations, strategic planning, and taxation. Prior to Anixter, from February 1988 to January 2000, Mr. Rosenthal held various financial positions at Allied Signal/Honeywell Aerospace. In his last position as director for sales and marketing, Mr. Rosenthal was responsible for, among other things, budgeting and coordination of revenue plan development. Mr. Rosenthal holds an MBA degree from the University of Nebraska at Lincoln.

Wayne J. Lovett has been Executive Vice President of Mercury Air Group since May 2001 and has served as Corporate Secretary since June 1999. Mr. Lovett has been General Counsel since October 1997. Prior to joining Mercury Air Group he was the presiding Judge of the Lakeway, Texas Municipal Court and was previously Corporate Counsel and Secretary of Communications Transmission, Inc. (now Broadwing). He received a Bachelor of Science in Management from Northeastern University in Boston, Massachusetts and his Juris Doctorate, from South Texas College of Law in Houston, Texas.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS**

The following table sets forth certain information as of March 1, 2005 with respect to the Mercury's common stock, preferred stock, total voting power before the Transaction and after the Transaction, by: (a) each director of Mercury; (b) each of Mercury's executive officers; (c) the directors and executive officers of Mercury, as a group; and (d) all persons known to Mercury to be the beneficial owners of more than five percent (5%) of its outstanding common stock or preferred stock. As of March 1, 2005, there were 3,056,355 shares of common stock and 462,627 shares of preferred stock issued and outstanding. All entries in this chart and elsewhere in this proxy statement have been adjusted for the one-for-two reverse stock split of the common stock of Mercury effective June 18, 2003.

* Less than one percent

- (1) The percentage of shares beneficially owned is based on 3,056,355 shares of common stock and 462,627 shares of preferred stock outstanding as of March 1, 2005. Beneficial ownership is determined in accordance with the rules and regulations of the SEC. The stock ownership information includes current shareholdings and shares with respect to which the named individual has the right to acquire beneficial ownership under options exercisable within 60 days, as of March 1, 2005, but does not assume conversion of any preferred shares. See footnote (3). Shares acquired pursuant to exercise of options are deemed outstanding for the purpose of computing the percentage of outstanding shares owned by that person. These shares are not deemed outstanding, however, for the purposes of computing the percentage ownership of any other person.
- (2) Preferred stock has one vote per share, and is convertible into shares of common stock at a rate of .13333 per share of preferred stock. The amounts in the table assume that no preferred shares are converted.
- (3) Assumes that no preferred shares are converted. As a consequence of the voting rights of the preferred stock, conversion would be dilutive as to voting power. See footnote (2).

Table of Contents

- (4) Unless otherwise indicated in the table, the address for each of the individuals named in the table is 5456 McConnell Avenue, Los Angeles, California 90066.
- (5) Consists of (i) 1,194,885 shares beneficially owned by CK Partners, (ii) 76,127 shares issuable upon exercise of options owned by Mr. Frederick H. Kopko, Jr., (iii) 5,172 shares held jointly with the wife of Mr. Czyzyk, 383 shares held by Mr. Czyzyk as custodian for his children, and 2,131 shares held by Mr. Czyzyk's wife as custodian for their children and (iv) 125,000 shares issuable upon exercise of options owned by Mr. Czyzyk. On July 27, 2000, Philip J. Fagan, M.D., Frederick H. Kopko, Jr. and Joseph A. Czyzyk formed CK Partners f/k/a CFK Partners f/k/a FK Partners, an Illinois general partnership (CK Partners). On July 30, 2004, Dr. Philip J. Fagan withdrew from the partnership and transferred and conveyed to CK Partners all of his right, title and interest in and to all of the shares held by CK Partners. CK Partners holds all shares beneficially owned by the Partners. Pursuant to Section 7 of the Partnership Agreement of CK Partners, the Partners have agreed that such shares shall be voted for Mr. Czyzyk and Mr. Kopko, or as designated by Mr. Czyzyk and Mr. Kopko, respectively. On August 20, 2004, CK Partners, Messrs. Kopko and Czyzyk filed Amendment No. 1 to Form 13D, with the Securities and Exchange Commission with respect to the common shares owned by them. Reference is made to that Form 13D for a complete description of the terms and conditions, including voting terms and conditions, on which such shares are being held.
- (6) Includes 5,000 shares issuable upon exercise of options exercisable within 60 days from the date hereof.
- (7) Includes 15,000 shares issuable upon exercise of options exercisable within 60 days from the date hereof and 200 shares held by Mr. Lovett and his wife. Does not include common shares that may be acquired upon conversion of preferred shares. See footnote (1).
- (8) Appointed as Chief Financial Officer on December 9, 2004.
- (9) Consists of (i) 1,194,885 shares beneficially owned by CK Partners, (ii) 76,127 shares issuable upon exercise of options owned by Mr. Frederick H. Kopko, Jr., (iii) 5,172 shares held jointly with the wife of Mr. Czyzyk, 383 shares held by Mr. Czyzyk as custodian for his children, and 2,131 shares held by Mr. Czyzyk's wife as custodian for their children and (iv) 125,000 shares issuable upon exercise of options owned by Mr. Czyzyk. On July 27, 2000, Philip J. Fagan, M.D., Frederick H. Kopko, Jr. and Joseph A. Czyzyk formed CK Partners f/k/a CFK Partners f/k/a FK Partners, an Illinois general partnership (CK Partners). On July 30, 2004, Dr. Philip J. Fagan withdrew from the partnership and transferred and conveyed to CK Partners all of his right, title and interest in and to all of the shares held by CK Partners. CK Partners holds all common shares beneficially owned by the Partners. Pursuant to Section 7 of the Partnership Agreement of CK Partners, the Partners have agreed that such shares shall be voted for Mr. Czyzyk and Mr. Kopko, or as designated by Mr. Czyzyk and Mr. Kopko, respectively. On August 20, 2004, CK Partners, Messrs. Kopko and Czyzyk filed Amendment No. 1 to Form 13D, with the Securities and Exchange Commission with respect to the common shares owned by them. Reference is made to that Form 13D for a complete description of the terms and conditions, including voting terms and conditions, on which such shares are being held.
- (10) Includes 7,501 shares issuable upon exercise of options exercisable within 60 days from the date hereof.
- (11) Did not stand for re-election in February 2005.
- (12) Includes 30,000 shares issuable upon exercise of options exercisable within 60 days from the date hereof.
- (13) Consists of 22,500 shares issuable upon exercise of options exercisable within 60 days from the date hereof.

- (14) Includes 15,000 shares issuable upon exercise of options exercisable within 60 days from the date hereof.
- (15) Consists of (i) 1,194,885 shares beneficially owned by CK Partners, (ii) 76,127 shares issuable upon exercise of options owned by Mr. Frederick H. Kopko, Jr., (iii) 5,172 shares held jointly with the wife of Mr. Czyzyk, 383 shares held by Mr. Czyzyk as custodian for his children, and 2,131 shares held by Mr. Czyzyk's wife as custodian for their children and (iv) 125,000 shares issuable upon exercise of options owned by Mr. Czyzyk. On July 27, 2000, Philip J. Fagan, M.D., Frederick H. Kopko, Jr. and Joseph A. Czyzyk formed CK Partners f/k/a CFK Partners f/k/a FK Partners, an Illinois general partnership (CK Partners). On July 30, 2004, Dr. Philip J. Fagan withdrew from the partnership and transferred and conveyed to CK Partners all of his right, title and interest in and to all of the shares held by CK Partners. CK Partners holds all shares beneficially owned by the Partners. Pursuant to Section 7 of the Partnership Agreement of CK Partners, the Partners have agreed that such shares shall be voted for Mr. Czyzyk and Mr. Kopko, or as designated by Mr. Czyzyk and Mr. Kopko, respectively. On August 20, 2004, CK Partners, Messrs. Kopko and Czyzyk filed Amendment No. 1 to Form 13D, with the Securities and Exchange Commission with respect to the common shares owned by them. Reference is made to that Form 13D for a complete description of the terms and conditions, including voting terms and conditions, on which such shares are being held.
- (16) Based on publicly available information reported on February 9, 2005, Dimensional Fund Advisors, Inc. (Dimensional) is a beneficial owner of 174,101 shares as a result of acting as an investment advisor to various investment companies (the Funds). In addition, Dimensional has sole power to dispose of 174,101 shares owned by the Funds.
- (17) Included 15,461 shares, held by Pacific Aviation Logistics, a company owned by Beti Ward, and 11,000 shares held in the name of a trust of which she is trustee. Does not include common shares that may be acquired upon conversion of preferred shares. See footnote (1).
- (18) Includes 50,000 shares of preferred stock held by Pacific Air Cargo, a company owned by Beti Ward.
- (19) Includes 6,250 shares issuable upon exercise of options exercisable within 60 days from the date hereof. Does not include common shares that may be acquired upon conversion of preferred shares. See footnote (1).
- (20) Includes 266,128 shares issuable upon exercise of options exercisable within 60 days from the date hereof. Assuming no options are exercised, the directors and executive officers as a group would beneficially own 38.5% of the outstanding common and preferred stock, voting as a single class.

Table of Contents

CERTAIN TRANSACTIONS

CK Partners is a partnership consisting of two of Mercury's directors, Joseph A. Czyzyk and Frederick H. Kopko, Jr., Mr. Czyzyk also serves as Mercury's Chief Executive Officer and Mr. Kopko also serves as outside counsel on various general corporate legal matters. In addition, CK Partners also owns approximately 37.7% of Mercury's issued and outstanding common and preferred stock.

CFK Realty Partners, LLC is a Limited Liability Company that, until July 2004, consisted of three of Mercury's directors Dr. Philip J. Fagan, Joseph A. Czyzyk and Frederick H. Kopko, Jr. In July 2004, Messrs. Czyzyk and Kopko transferred all of their interest in CFK Realty Partners, LLC to Dr. Fagan, at which time Dr. Fagan resigned as Director and Chairman of the Board of Mercury.

In January 2002, Mercury sold the land and the office building which houses its corporate headquarters to CFK Realty Partners, LLC for \$4,200,000, consisting of \$2,800,000 cash and a note receivable of \$1,400,000. The note accrues interest at 5% and was originally due December 31, 2004. Mercury has also entered into a 20 year lease for the property which provides for monthly rental payments in the amount of \$36,664. The lease was amended and restated on July 1, 2004, to provide for a ten-year term with the same monthly rent and the note receivable was reduced to \$779,123.29 and the term extended to December 31, 2009. These transactions were conducted on an arms-length basis. For the twelve month period ended June 30, 2003, Mercury expended \$275,000 for leasehold improvements on its corporate headquarters. This amount is being amortized over the office lease term. The financial statements of CFK Realty are fully consolidated with the consolidated financial statements of Mercury.

Until October 28, 2004, Mercury and its former Chairman, Dr. Fagan (collectively, the Members) each owned an equity interest in MercMed LLC (MercMed) of 68.47% and 31.53%, respectively. MercMed was formed for the purpose of owning and operating an aircraft for the Members. In June 2003, the Members amended the MercMed Operating Agreement to amend each Member's ownership interest from 50% for each Member to the ownership percentages previously noted. On March 27, 2003, MercMed obtained new financing for the aircraft which is a 15-year loan with the interest rate being fixed for the initial 36-month period. At the end of the initial 36-month period, the interest rate will be reviewed and fixed at the then Federal Home Loan Bank's regular three-year interest rate plus 275 basis points. Each of the Members are guarantors of this note. Since the inception of the new loan and through June 30, 2004, MercMed is current on the payments due. The outstanding principal amount of the loan as of June 30, 2004 was \$667,591. Effective October 28, 2004 Mercury transferred its interest in MercMed, LLC to Dr. Fagan, and Dr. Fagan agreed to indemnify Mercury with respect to the guaranty.

Mercury uses the services of the legal firm M&K for various general corporate legal matters. Mr. Frederick H. Kopko, Jr., a partner of M&K, is a member of Mercury's Board of Directors and is a partner of CK Partners. For the twelve month periods ended June 30, 2004, Mercury paid the Firm \$916,458 for legal services rendered.

Table of Contents

On May 22, 2002, Mr. Czyzyk entered into an amended and restated employment agreement with Mercury Air Group, and, on the same date, Messrs. Lovett, Enticknap, Schlax, Steven Antonoff, Vice President of Human Services (Antonoff) and Mark Coleman, formerly Chief Operating Officer of Mercury Air Cargo (Coleman) entered into employment agreements with Mercury Air Group. Under the terms of Mr. Czyzyk s amended and restated employment agreement and the employment agreements of Messrs. Lovett, Enticknap, Schlax, Antonoff and Coleman, each such officer participated in the 2002 Management Stock Purchase Plan wherein Messrs. Czyzyk, Lovett, Enticknap, Schlax, Antonoff and Coleman purchased

193,825, 15,948, 15,000, 12,501, 12,501 and 12,501 shares of common stock from CK Partners at a price of \$15.00 per share, with such purchases funded by Mercury. Each of the officers obligations to repay Mercury are forgiven rateably over a 10-year period, except for Mr. Enticknap whose forgiveness is over 8 years, provided each such officer remains employed by Mercury during such period. Each officer shall have no obligation to repay Mercury if he remains employed by Mercury after March 1, 2012 (March 1, 2010, as to Mr. Enticknap) or in the event of a takeover of Mercury by parties unrelated to the existing Board of Directors. Mr. Coleman s employment was terminated as of December 5, 2003 when he was replaced by Paul Martins. Mr. Enticknap s employment was terminated in April, 2004. Mr. Schlax was replaced as Chief Financial Officer on December 9, 2004.

Mercury has Indemnity Agreements with each of its directors and executive officers which require Mercury, among other things, to indemnify them against certain liabilities that may arise by reason of their status or service as directors, officers, employees or agents of Mercury, and, under certain circumstances, to advance their expenses incurred as a result of proceedings brought against them. In order to be entitled to indemnification, the executive officer or director must have acted in a manner reasonably believed to be in, or not opposed to, the best interests of Mercury and, with respect to a criminal matter, in a manner which he had no reason to believe was illegal.

COST OF SOLICITATION OF PROXIES

The cost of this solicitation will be paid by Mercury. In addition to the solicitation of proxies by mail, the directors, officers and employees of Mercury may solicit proxies personally or by telephone or telegraph. Mercury may request persons holding shares in their names for others to forward soliciting materials to their principals to obtain authorization for the execution of proxies, and Mercury may reimburse such persons for their expenses in doing so. Mercury may also retain a professional proxy solicitation firm to assist in the solicitation of proxies at a maximum total cost to be borne by Mercury of \$10,000 plus out-of-pocket expenses.

STOCKHOLDER PROPOSALS

If the Transaction is not consummated and Mercury remains a public company, stockholder proposals or candidates for Board membership to be considered for inclusion in Mercury s proxy statement and form of proxy for the next annual meeting of stockholders, must be received by Mercury between November 4, 2005 and December 4, 2005, except that if next year s annual meeting of stockholders is changed by more than 30 calendar days from February 2, 2006, a stockholder proposal must be received by Mercury not later than the tenth day following the day on which public announcement of such meeting is first made. In addition, the stockholder proposal must meet all other requirements for inclusion in the proxy statement. Further, Mercury will be authorized to exercise discretionary voting authority with respect to any stockholder proposal not disclosed in Mercury s proxy statement and form of proxy statement for the next annual meeting of stockholders if Mercury has not received written notice of such proposal by November 19, 2005, unless the date of the next annual meeting of stockholders has changed by more than 30 days from February 2, 2006, in which event Mercury must receive advance notice a reasonable time before it mails its proxy statement for the next annual meeting of stockholders.

Stockholder recommendations of candidates for Board membership will be considered when timely submitted with sufficient detail including candidate's name, principal occupation during the past five years, listing of directorships, a statement that such nominee has consented to the submission of the nomination, amount of common stock of Mercury held by the nominee and qualification (including information regarding compliance with the Mercury's Bylaws on qualifications) addressed to: the Secretary of Mercury, 5456 McConnell Avenue, Los Angeles, California 90066. Stockholder proposals should be submitted to 5456 McConnell Avenue, Los Angeles, California 90066.

Table of Contents

OTHER MATTERS

In accordance with Mercury's Bylaws relating to special meetings of stockholders, no other business may be presented at the Special Meeting other than matters set forth herein which will be presented for consideration at the Special Meeting or which are incidental to the conduct of the Special Meeting.

All proxies received duly executed will be voted. You are requested to sign and date the enclosed proxy and mail it promptly in the enclosed envelope. If you later desire to vote in person, you may revoke your proxy, either by written notice to Mercury or in person at the meeting, without affecting any vote previously taken.

WHERE YOU CAN FIND MORE INFORMATION

The Transaction will result in a going private Transaction subject to Rule 13e-3 of the 1934 Act. Mercury has filed a Rule 13e-3 Transaction Statement on Schedule 13E-3 under the 1934 Act with respect to the Transaction. The Schedule 13E-3 contains additional information about Mercury. Copies of the Schedule 13E-3 are available for inspection and copying at the principal executive offices of Mercury during regular business hours by any interested stockholder of Mercury, or a representative who has been so designated in writing, and may be inspected and copied, or obtained by mail, by written request directed to Wayne J. Lovett, Mercury's Executive Vice President, Secretary and General Counsel, at the following address: Mercury Air Group, Inc., 5456 McConnell Avenue, Los Angeles, California 90066.

Mercury is currently subject to the information requirements of the 1934 Act and files periodic reports, proxy statements and other information with the Securities and Exchange Commission relating to its business, financial and other matters.

Copies of such reports, proxy statements and other information, as well as the Schedule 13E-3, may be copied (at prescribed rates) at the public reference facilities maintained by the SEC at Room 1024, 450 Fifth Street, N.W., Judiciary Plaza, Washington, D.C. 20549. For further information concerning the SEC's public reference rooms, you may call the SEC at 1-800-SEC-0330. Some of this information may also be accessed on the World Wide Web through the SEC's Internet address at <http://www.sec.gov>. The Common Stock is listed on the American Stock Exchange under the symbol MAX.

DOCUMENTS INCORPORATED BY REFERENCE

Annexed hereto and incorporated by reference herein as Appendices C and D, respectively, are the documents listed below that Mercury has filed previously with the SEC. They contain important information about Mercury and its financial condition.

- Mercury's Annual Report on Form 10-K for the year ended June 30, 2004.
- Mercury's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2005.

The information incorporated by reference should be considered part of this proxy statement except for any information superseded by information contained directly in this proxy statement.

We have not authorized anyone to give any information or make any representation about the Transaction or us that differs from, or adds to, the information in this proxy statement or in our documents that are publicly filed with the SEC. If anyone does give you different or additional information, you should not rely on it.

BY ORDER OF THE BOARD OF DIRECTORS

JOSEPH A. CZYZYK
CHAIRMAN OF THE BOARD, CHIEF
EXECUTIVE OFFICER AND PRESIDENT

APPENDIX A

**AMENDED AND RESTATED CERTIFICATE OF INCORPORATION
OF**

MERCURY AIR GROUP, INC.

Mercury Air Group, Inc., a corporation organized and existing under and by virtue of the General Corporation Law of the State of Delaware, DOES HEREBY CERTIFY:

FIRST: That at a meeting of the Board of Directors of Mercury Air Group, Inc. resolutions were duly adopted setting forth proposed amendments to the Restated Certificate of Incorporation of said corporation, declaring said amendments to be advisable and calling a meeting of the stockholders of said corporation for consideration thereof. The resolution setting forth the proposed amendment is as follows:

RESOLVED, That the Restated Certificate of Incorporation of this corporation be amended and restated in its entirety so that, as amended and restated said Restated Certificate of Incorporation shall be and read as follows:

**ARTICLE I
NAME**

The name of the corporation is Mercury Air Group, Inc. (the CORPORATION).

**ARTICLE II
PURPOSE**

The purpose for which the Corporation is organized is to engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of Delaware.

**ARTICLE III
SHARES**

(a) The aggregate number of shares which the Corporation has authority to issue is eighteen million (18,000,000) shares of common stock, \$.01 par value per share, and three million (3,000,000) shares of preferred stock, \$.01 par value per share.

(b) The Board of Directors is expressly authorized to provide for the issuance of all or any shares of preferred stock in one or more classes or series, and to fix for each such class or series such voting powers, full or limited, or no voting powers, and such distinctive designations, preferences and relative, participating, optional or other special rights and such qualifications, limitations or restrictions thereof, as shall be stated and expressed in the resolution or resolutions adopted by the Board of Directors providing for the issuance of such class or series and as may be permitted by the General Corporation Law of Delaware. Such authorization shall include, without limitation, the authority to provide that any such class or series may be: (i) subject to redemption at such time or times and at such price or prices; (ii) entitled to receive dividends (which may be cumulative or non-cumulative) at such rates, on such conditions, and at such times, and payable in preference to, or in such relation to, the dividends payable on any other class or classes or any other series; (iii) entitled to such rights upon the dissolution of, or upon any distribution of the assets of, the Corporation; or (iv) convertible into, or exchangeable for, shares of any other class or classes of stock, or of any other series of the same or any other class or classes of stock, of the Corporation at such price or prices or at such rates of exchange and with such adjustments; all as may be stated in such resolution or resolutions.

(c) Without regard to any other provision of this Amended and Restated Certificate of Incorporation, each one (1) share of Common Stock, issued and outstanding, immediately prior to the time this Amended and Restated Certificate of Incorporation becomes effective (the Effective Date) shall be and is hereby automatically reclassified and changed (without any further act) into one-five hundredth and first (1/501) of a fully-paid and nonassessable share of Common Stock, without increasing or decreasing the amount of stated capital or paid-in surplus of the Corporation, provided that no fractional shares shall be issued to

A-1

Table of Contents

any holder of fewer than 501 shares of Common Stock immediately prior to the Effective Date, and that instead of issuing fractional shares, the Corporation shall pay cash as of the Effective Date.

(d) After giving effect to paragraph (c) of this Article Fourth of this Amended and Restated Certificate of Incorporation, each one (1) share of Common Stock, issued and outstanding (and including each fractional share in excess of one (1) share held by any stockholder) immediately following the Effective Date shall be and are hereby automatically reclassified and changed (without any further act) into five hundred (501) fully-paid and nonassessable shares of Common Stock (or, with respect to such fractional shares and interests, such lesser number of shares and fractional shares or interests as may be applicable based upon such 501-1 ratio), without increasing or decreasing the amount of stated capital or paid-in surplus of the Corporation, provided that no fractional shares shall be issued.

**ARTICLE IV
DENIAL OF PREEMPTIVE RIGHTS**

Except as may be set forth in a written agreement executed by an authorized representative of the Corporation, no stockholder of the Corporation or other person shall have any preemptive right to purchase or subscribe to any shares of any class or any notes, debentures, options, warrants or other securities, now or hereafter authorized.

**ARTICLE V
REGISTERED OFFICE AND AGENT**

The street address of the initial registered office of the Corporation is 1209 Orange Street, Wilmington, Delaware 19801 and the name of its initial registered agent at such address is The Corporation Trust Company.

**ARTICLE VI
LIMITATION OF PERSONAL LIABILITY OF DIRECTORS**

To the greatest extent permitted by applicable law, no director (including any advisory director) of the Corporation shall be liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director; provided, however, the foregoing shall not limit the liability of a director (including any advisory director) (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of Title 8 of the Delaware General Corporation Law, or (iv) for any Transaction from which the director derived an improper personal benefit.

**ARTICLE VII
INDEMNITY**

SECTION 7.1 The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of

Table of Contents

the Corporation) by reason of the fact that such person is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, or by reason of any action alleged to have been taken or omitted in such capacity, against costs, charges, expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person or on such person's behalf in connection with such action, suit or proceeding and any appeal therefrom, if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not meet the standards of conduct set forth in this Section 7.1.

SECTION 7.2 The Corporation shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Corporation to procure a judgment in its favor by reason of the fact that such person is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, or by reason of any action alleged to have been taken or omitted in such capacity, against costs, charges and expenses (including attorneys' fees) actually and reasonably incurred by such person or on such person's behalf in connection with the defense or settlement of such action or suit and any appeal therefrom, if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the Corporation, except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for gross negligence or misconduct in the performance of such person's duty to the Corporation unless and only to the extent that the Court of Chancery of Delaware or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of such liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such costs, charges and expenses which the Court of Chancery or such other court shall deem proper.

SECTION 7.3 Notwithstanding the other provisions of this Article VII, to the extent that a Director, officer, employee or agent of the Corporation has been successful on the merits or otherwise, including, without limitation, the dismissal of an action without prejudice, in defense of any action, suit or proceeding referred to in Sections 7.1 and 7.2, or in the defense of any claim, issue or matter therein, such person shall be indemnified against all costs, charges and expenses (including attorneys' fees) actually and reasonably incurred by such person or on such person's behalf in connection therewith.

SECTION 7.4 Any indemnification under Sections 7.1 and 7.2 (unless ordered by a court) shall be paid by the Corporation unless a determination is made (i) by the Board of Directors by a majority vote of a quorum consisting of Directors who were not parties to such action, suit or proceeding, or (ii) if such a quorum is not obtainable, or even if obtainable a quorum of disinterested Directors so directs, by independent legal counsel in a written opinion,

Table of Contents

or (iii) by the stockholders, that indemnification of the Director, officer, employee or agent is not proper in the circumstances because such person has not met the applicable standards of conduct set forth in Sections 7.1 and 7.2.

SECTION 7.5 Costs, charges and expenses (including attorneys, fees) incurred by a person referred to in Sections 7.1 and 7.2 in defending a civil or criminal action, suit or proceeding (including investigations by any government agency and all costs, charges and expenses incurred in preparing for any threatened action, suit or proceeding) shall be paid by the Corporation in advance of the final disposition of such action, suit or proceeding; provided, however, that the payment of such costs, charges and expenses incurred by a Director or officer in such person's capacity as a Director or officer (and not in any other capacity in which service was or is rendered by such person while a Director or officer) in advance of the final disposition of such action, suit or proceeding shall be made only upon receipt of an undertaking by or on behalf of the Director or officer to repay all amounts so advanced in the event that it shall ultimately be determined that such Director or officer is not entitled to be indemnified by the Corporation as authorized in this Article VII. No security shall be required for such undertaking and such undertaking shall be accepted without reference to the recipient's financial ability to make repayment. The repayment of such charges and expenses incurred by other employees and agents of the Corporation which are paid by the Corporation in advance of the final disposition of such action, suit or proceeding as permitted by this Section 7.5 may be required upon such terms and conditions, if any, as the Board of Directors deems appropriate. The Board of Directors may, in the manner set forth above, and subject to the approval of such Director, officer, employee or agent of the Corporation, authorize the Corporation's counsel to represent such person, in any action, suit or proceeding, whether or not the Corporation is a party to such action, suit or proceeding.

SECTION 7.6 Any indemnification under Sections 7.1, 7.2 or 7.3 or advance of costs, charges and expenses under Section 7.5 shall be made promptly, and in any event within 30 days, upon the written request of the Director, officer, employee or agent directed to the Secretary of the Corporation. The right to indemnification or advances as granted by this Article VII shall be enforceable by the Director, officer, employee or agent in any court of competent jurisdiction if the Corporation denies such request, in whole or in part, or if no disposition thereof is made within 30 days. Such person's costs and expenses incurred in connection with successfully establishing such person's right to indemnification or advances, in whole or in part, in any such action shall also be indemnified by the Corporation. It shall be a defense to any such action (other than an action brought to enforce a claim for the advance of costs, charges and expenses under Section 7.5 where the required undertaking, if any, has been received by the Corporation) that the claimant has not met the standard of conduct set forth in Sections 7.1 or 7.2, but the burden of proving that such standard of conduct has not been met shall be on the Corporation. Neither the failure of the Corporation (including its Board of Directors, its independent legal counsel, and its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because such person has met the applicable standard of conduct set forth in Sections 7.1 and 7.2, nor the fact that there has been an actual determination by the Corporation (including its Board of Directors, its independent legal counsel, and its stockholders) that the claimant has not met

Table of Contents

such applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

SECTION 7.7 The indemnification provided by this Article VII shall not be deemed exclusive of any other rights to which a person seeking indemnification may be entitled under any law (common or statutory), agreement, vote of stockholders or disinterested Directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding office or while employed by or acting as agent for the Corporation, and shall continue as to a person who has ceased to be a Director, officer, employee or agent and shall inure to the benefit of the estate, heirs, executors and administrators of such person. All rights to indemnification under this Article VII shall be deemed to be a contract between the Corporation and each Director, officer, employee or agent of the Corporation who serves or served in such capacity at any time while this Article VII is in effect. No amendment or repeal of this Article VII or of any relevant provisions of the Delaware General Corporation Law or any other applicable laws shall adversely affect or deny to any Director, officer, employee or agent any rights to indemnification which such person may have, or change or release any obligations of the Corporation, under this Article VII with respect to any costs, charges, expenses (including attorneys' fees), judgments, fines, and amounts paid in settlement which arise out of an action, suit or proceeding based in whole or substantial part on any act or failure to act, actual or alleged, which takes place before or while this Article VII is in effect. The provisions of this Section 7.7 shall apply to any such action, suit or proceeding whenever commenced, including any such action, suit or proceeding commenced after any amendment or repeal of this Article VII.

SECTION 7.8 For purposes of this Article VII:

- (i) **THE CORPORATION** shall include any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its Directors, officers, and employees or agents, so that any person who is or was a Director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a Director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under the provisions of this Article VII with respect to the resulting or surviving corporation as such person would have with respect to such constituent corporation if its separate existence had continued;
- (ii) **OTHER ENTERPRISES** shall include employee benefit plans, including, but not limited to, any employee benefit plan of the Corporation;
- (iii) **SERVING AT THE REQUEST OF THE CORPORATION** shall include any service which imposes duties on, or involves services by, a Director, officer, employee, or agent of the Corporation with respect to an employee benefit plan, its participants, or beneficiaries, including acting as a fiduciary thereof;

A-5

Table of Contents

- (iv) FINES shall include any penalties and any excise or similar taxes assessed on a person with respect to an employee benefit plan;
- (v) A person who acted in good faith and in a manner such person reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner not opposed to the best interests of the Corporation as referred to in Sections 7.1 and 7.2; and
- (vi) Service as a partner, trustee or member of management or similar committee of a partnership or joint venture, or as a Director, officer, employee or agent of a corporation which is a partner, trustee or joint venturer, shall be considered service as a Director, officer, employee or agent of the partnership, joint venture, trust or other enterprise.

SECTION 7.9 If this Article VII or any portion hereof shall be invalidated on any ground by a court of competent jurisdiction, then the Corporation shall nevertheless indemnify each Director, officer, employee and agent of the Corporation as to costs, charges and expenses (including attorneys' fees), judgments, fines and amounts paid in settlement with respect to any action, suit or proceeding, whether civil, criminal, administrative or investigative, including an action by or in the right of the Corporation, to the full extent permitted by any applicable portion of this Article VII that shall not have been invalidated and to the full extent permitted by applicable law.

SECTION 7.10 The Corporation shall purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the Corporation, or is or was serving at the request of the Corporation as a Director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against any liability asserted against such person and incurred by such person or on such person's behalf in any such capacity, or arising out of such person's status as such, whether or not the Corporation would have the power to indemnify such person against such liability under the provisions of this Article VII, provided that such insurance is available on acceptable terms as determined by a vote of a majority of the entire Board of Directors.

**ARTICLE VIII
BYLAWS**

The Bylaws of the Corporation may be amended or repealed, or new Bylaws may be adopted, (i) by the Board of Directors of the Corporation at any duly held meeting or pursuant to a written consent in lieu of such meeting, or (ii) by the holders of a majority of the shares represented at any duly held meeting of stockholders, provided that notice of such proposed action shall have been contained in the notice of any such meeting, or pursuant to a written consent signed by the holders of a majority of the outstanding shares entitled to vote thereon.

**ARTICLE IX
CERTIFICATE OF DESIGNATIONS**

Table of Contents

The Certificate of Designations of Mercury Air Group, Inc. attached hereto as Annex A, is hereby incorporated in this Amended and Restated Certificate of Incorporation.

SECOND: That thereafter, pursuant to resolution of its Board of Directors, a special meeting of the stockholders of said corporation was duly called and held, upon notice in accordance with Section 222 of the General Corporation Law of the State of Delaware at which meeting the necessary number of shares as required by statute were voted in favor of the amendment.

THIRD: That said amendments were duly adopted in accordance with the provisions of Section 242 of the General Corporation Law of the State of Delaware.

IN WITNESS WHEREOF, said Mercury Air Group, Inc. has caused this certificate to be signed by Wayne J. Lovett, Executive Vice President and Secretary, this ___ of ___, 2005.

By: Wayne J. Lovett
Executive Vice President and Secretary

A-7

**CERTIFICATE OF DESIGNATIONS
OF
MERCURY AIR GROUP, INC.**

The undersigned Joseph A. Czyzyk, President and Chief Executive Officer of Mercury Air Group, Inc., a corporation organized and existing under the General Corporation Law of the State of Delaware (the Corporation), hereby certifies as follows:

Pursuant to the authority conferred upon the Board of Directors by the Certificate of Incorporation, as amended, of the said Corporation, and pursuant to the provisions of Section 151 of the General Corporation Law of the State of Delaware, the Board of Directors, acting by unanimous consent on December 7, 2002, adopted the following resolutions creating a series of Preferred Stock designated as Series A 8% Cumulative Convertible Preferred Stock out of the class of 10,000,000 shares of preferred stock, par value \$.01 per share:

RESOLVED, that pursuant to the authority vested in the Board of Directors by the Certificate of Incorporation of the Corporation, the Board of Directors does hereby provide for the issue of a series of preferred stock of the corporation and does hereby fix and herein state and express the designations, powers, preferences, and relative and other special rights and the qualifications, limitations and restrictions thereof as follows:

1. DESIGNATION AND AMOUNT. The shares of such series shall be designated as Series A 8% Cumulative Convertible Preferred Stock (the Series A Preferred Stock) and the number of shares constituting Series A Preferred Stock shall be 1,000,000.

2. RANKING. As to the payment of dividends and distributions on liquidation, the Series A Preferred Stock ranks senior to all Junior Stock, junior to all Senior Stock, and on a parity with each other class or series of preferred stock which by its terms ranks on a parity with the Series A Preferred Stock. Subject to the terms of this Article First, the Corporation reserves the right to issue preferred stock which ranks senior to the Series A Preferred Stock as to the payment of dividends and the distribution of assets and on liquidation.

3. VOTING. In addition to any other voting rights provided by law, the Series A Preferred Stock shall have one vote per share on any actions to be taken by stockholders of the Corporation and shall vote with the Common Stock as a single class.

4. DIVIDENDS. The holders of the Series A Preferred Stock are entitled to the following dividends:

4A. PREFERENTIAL CASH DIVIDENDS. When and as declared by the Board of Directors and to the extent permitted by law, the Corporation shall pay preferential cumulative dividends to the holders of the shares of Series A Preferred Stock as provided in this

Table of Contents

SECTION 4A. Such dividends shall be paid in cash or in kind, at the election of the Corporation. Except as otherwise provided herein, dividends on each share of Series A Preferred Stock shall accrue on an annual basis at an annual rate of eight percent (8.0%) of the Stated Value, as defined in SECTION 11. Such dividends shall be fully cumulative and shall accrue whether or not they have been declared and whether or not there are profits, surplus or other funds of the Corporation legally available for the payment of dividends. All accrued and unpaid dividends shall be fully paid or declared with funds irrevocably set apart for payment before any dividend, distribution or payment (other than in capital stock or a right to acquire capital stock of the Corporation) can be made with respect to any Junior Stock, provided, however, that the Corporation may make payments (1) in kind, (2) in lieu of fractional shares, and (3) in satisfaction of dissenter's rights. No accumulation of dividends on the Series A Preferred Stock shall bear interest.

Except as otherwise provided for herein, if at any time the Corporation pays less than the total amount of dividends then accrued with respect to all outstanding shares of Series A Preferred Stock, such payment shall be distributed ratably among the holders of such shares based upon the number of shares of such series held by each such holder.

4B. RECORD DATE; PAYMENT DATE; PAYMENT DEFAULT. Dividends shall be payable to holders of record of the Series A Preferred Stock as of the close of business on June 30 and December 31 (or in each case the next succeeding business day) of each year, beginning June 30, 2003. Subject to the declaration thereof by the Board of Directors, payment of dividends shall be made within 45 days after the record date. A payment is made when a check is mailed. Dividends payable for less than a semi-annual period shall be computed on a pro rata basis for the number of days during such less than semi-annual period that the Series A Preferred Stock is outstanding.

5. LIQUIDATION. Upon any liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, each holder of shares of Series A Preferred Stock shall be entitled to be paid out of the assets of the Corporation legally available for distribution to its stockholders, before any distribution or payment is made upon any Junior Stock, an amount equal to the Series A Liquidation Preference Payment, as defined in SECTION 11, plus, in the case of each share of Series A Preferred Stock, any accrued but unpaid dividends thereon. If upon such liquidation, dissolution or winding up of the Corporation, whether voluntary or involuntary, the assets to be distributed among the holders of the Series A Preferred Stock shall be insufficient to permit payment to the holders of Series A Preferred Stock of the amount distributable as aforesaid, then, subject to the rights of any stock ranking senior to the Series A Preferred Stock, the entire assets of the Corporation to be so distributed shall be distributed ratably among the holders of Series A Preferred Stock in proportion to the respective amounts which would otherwise be payable in respect of the shares of Series A Preferred Stock held by them upon such distribution if all amounts payable on or with respect to such shares were paid in full. After the payment or the setting aside for such payment of the preferential amounts provided for in this SECTION 5, the holders of the Series A Preferred Stock as such shall have no right or claim to any of the remaining assets of the Corporation.

Written notice of such liquidation, dissolution, or winding up stating a payment date, the amount of the Series A Liquidation Preference Payment and the place where said Series A

Table of Contents

Liquidation Preference Payment shall be payable, shall be delivered not less than twenty (20) days prior to the payment date therein, to the holders of record of the Series A Preferred Stock, such notice to be addressed to each such holder at the address as shown by the record of the Corporation.

6. CONVERSIONS. The holders of shares of Series A Preferred Stock shall have the following conversion right:

6A. RIGHT TO CONVERT. Subject to the terms and conditions of this SECTION 6, at the option of the holder thereof, each share of Series A Preferred Stock (except that upon liquidation, dissolution, winding up of the Corporation, the right of conversion shall terminate at the close of business on the business day fixed for payment of the amount distributable on the Series A Preferred Stock) into such number of fully paid and nonassessable shares of Common Stock as is obtained by dividing the number of shares of Series A Preferred Stock to be converted by the conversion price of \$7.50 per share or, in case an adjustment of such price has taken place pursuant to further provision of this SECTION 6, then by the conversion price as last adjusted and in effect at the date the share or shares of Series A Preferred Stock are surrendered for conversion (such conversion price of \$7.50, or such conversion price as last adjusted, being referred to as the Conversion Price). Such rights of conversion shall be exercised by the holder of Series A Preferred Stock by giving written notice that the holder elects to convert the stated number of shares of Series A Preferred Stock into Common Stock and by the surrender of a certificate or certificates for the number of shares so to be converted to the Corporation at its principal office (or such other office or agency of the Corporation as the Corporation may designate by notice in writing to the holders of the Series A Preferred Stock) at any time during its normal business hours on the date set forth in such notice, together with a statement of the name or names (with address) in which the certificate or certificates for shares of Common Stock shall be issued.

In case the Corporation shall at any time subdivide (by a stock split or a stock dividend payable in Series A Preferred Stock but excluding dividends in kind as set forth in SECTION 4A) its outstanding shares of Series A Preferred Stock into a greater number of shares, the Conversion Price in effect immediately prior to such subdivision shall be proportionately increased, and, conversely, in case the outstanding shares of Series A Preferred Stock shall be combined into a smaller number of shares, the Conversion Price in effect immediately prior to such combination shall be proportionately decreased, it being the intent that any such adjustment shall result in the same number of shares of Common Stock being issuable upon conversion of all the Series A Preferred Stock after such split, dividend or combination as immediately before such split, dividend or combination.

Cash dividends for less than a semi-annual period on Series A Preferred Stock which are converted prior to the date set for determining holders of record shall be paid on a pro rata basis for the number of days during such less than semi-annual period prior to conversion, and payment of such pro rata amount shall be made in accordance with the provisions of this Section 6A for the payment of cash dividends.

6B. ISSUANCE OF CERTIFICATES; TIME CONVERSION EFFECTED.

Table of Contents

Promptly upon the receipt of written notice referred to in SECTION 6A and surrender of the certificate or certificates for the share of shares of Series A Preferred Stock to be converted, the Corporation shall issue and deliver, or cause to be issued and delivered, to the holder, registered in such name or names as such holder may direct, a certificate or certificates for the number of whole shares of Common Stock issuable upon the conversion of such share or shares of Series A Preferred Stock. To the extent permitted by law, such conversion shall be deemed to have been effected and the Conversion Price shall be determined as of the close of business on the date on which such written notice shall have been received by the Corporation and the certificate or certificates for such share or shares shall have been surrendered as aforesaid, and at such time the rights of the holder of such share or shares of Series A Preferred Stock shall terminate including without limitation, the right to receive the Series A Liquidation Preference Payment, and the person or person in whose name or names any certificate or certificates for shares of Common Stock shall be issuable upon such conversion shall be deemed to have become holder or holders of record of the shares of Common Stock represented thereby.

6C. DIVIDENDS; PARTIAL CONVERSION; FRACTIONAL SHARES. In case the number of shares of Series A Preferred Stock represented by the certificate or certificates surrendered pursuant to SECTION 6A exceeds the number of shares converted, the Corporation shall, upon such conversion, execute and deliver to the holder, at the expense of the Corporation, a new certificate or certificates for the number of shares of Series A Preferred Stock represented by the certificate or certificates surrendered which are not to be converted. If any fractional share of Common Stock would be delivered upon conversion, the Corporation, in lieu of delivering such fractional share, may pay to the holder surrendering the Series A Preferred Stock for conversion an amount in cash equal to the current market price of such fractional share of Common Stock as determined in good faith by the Board of Directors of the Corporation.

6D. ADJUSTMENT UPON SUBDIVISION OR COMBINATION OF COMMON STOCK. In case the Corporation shall at any time subdivide (by a stock split, stock dividend payable in Common Stock, or otherwise) its outstanding shares of Common Stock into a greater number of shares, the Conversion Price in effect immediately prior to such subdivision shall be proportionately reduced, and, conversely, in case the outstanding shares of Common Stock shall be combined into a smaller number of shares, the Conversion Price in effect immediately prior to such combination shall be proportionately increased.

6E. ADJUSTMENT UPON OTHER CORPORATE CHANGE. Upon the consummation of an Other Corporate Change, the terms of the Series A Preferred Stock shall be deemed modified, without payment of any additional consideration therefore, so as to provide that upon the conversion of the shares of Series A Preferred Stock following the consummation of such Other Corporate Change, the holder of such shares of Series A Preferred Stock shall have the right to acquire and receive (in lieu of or in addition to the shares of Common Stock acquirable and receivable prior to the Other Corporation Change) such shares of stock, securities or assets as such holder would have received if such holder had converted such shares of Series A Preferred Stock into Common Stock immediately prior to such Other Corporate Change, in each case giving effect to any adjustment of the Conversion Price made after the date of consummation of the Other Corporate Change. All other terms of the Series A Preferred Stock shall remain in full force and effect following an Other Corporate Change. The provisions of

Table of Contents

this SECTION 6E shall similarly apply to successive Other Corporate Changes. The Corporation shall require any third party involved in an Other Corporate Change, to agree to the application of this SECTION 6E.

6F. NOTICE OF ADJUSTMENT.

(a) Immediately upon any adjustment of the Conversion Price, the Corporation shall give written notice thereof to all holders of shares of Series A Preferred Stock specifying the Conversion Price in effect thereafter.

(b) The Corporation shall give written notice to all holders of Series A Preferred Stock at least twenty (20) days prior to the date on which the Corporation closes its books or takes a record for determining rights to vote with respect to an Other Corporate Change, dissolution or liquidation. The Corporation shall also give written notice to the holders of Series A Preferred Stock at least twenty (20) days prior to the date on which any Other Corporate Change shall occur.

6G. STOCK TO BE RESERVED. The Corporation will at all times reserve and keep available out of its authorized Common Stock, solely for the purpose of issuance upon conversion of Series A Preferred Stock as herein provided, such number of shares of Common Stock as shall then be issuable upon the conversion of all outstanding shares of Series A Preferred Stock. The Corporation covenants that all shares of Common Stock which shall be so issued shall be duly and validly issued and fully paid and nonassessable and free from all liens. The Corporation will not take any action which results in any adjustment of any Conversion Price if the total number of shares of Common Stock issued and issuable after such action upon conversion of the Series A Preferred Stock would exceed the total number of shares of Common Stock than authorized by the Certificate of Incorporation.

6H. NO REISSUANCE OF SERIES A PREFERRED STOCK. Shares of Series A Preferred Stock which are converted into shares of Common Stock as provided herein, shall be cancelled and shall not be reissued.

6I. ISSUE TAX. The issuance of certificates for shares of Common Stock upon conversion of Series A Preferred Stock shall be made without charge to the holders thereof for any issuance tax in respect thereof, provided that the Corporation shall not be required to pay any tax which may be payable in respect of any transfer involved in the issuance and delivery of any certificate in a name other than that of the holder of the Series A Preferred Stock being converted.

7. MANDATORY REDEMPTION.

7A. REDEMPTION AT THE COMPANY'S OPTION AFTER THREE YEARS. During the 30-day period immediately following the third anniversary of the closing of the sale of the Series A Preferred Stock (the Closing), and during the 30-day period immediately following the fourth, fifth and each subsequent anniversary of the Closing, the Corporation, at its sole discretion, may redeem all or any portion of the shares of Series A Preferred Stock outstanding at the Series A Redemption Price. If the Corporation redeems less

Table of Contents

than all the shares of Series A Preferred Stock outstanding, then the Board of Directors shall determine (i) the total number of shares to be redeemed and (ii) an equitable method, such as by lot or pro rata, by which shares are to be redeemed. Demand by the Corporation for redemption shall be made by the Corporation by giving written notice (the Redemption Notice) to each holder to Series A Preferred Stock to be redeemed, with such Redemption Notice to specify the Series A Redemption Price, the redemption date (which shall be no less than 30 days following the delivery of the Redemption Notice), the total number of shares of Series A Preferred Stock to be redeemed, and the place where the Series A Redemption Price shall be payable. If the Corporation redeems less than all the shares of Series A Preferred Stock held by any holder, the Redemption Notice shall also specify the number of shares the Corporation shall redeem from that holder. The Corporation shall thereafter be obligated to complete such redemption within sixty (60) days after the Corporation gives such notice. For purposes hereof the Series A Redemption Price of any Series A Preferred Stock means an amount equal to (a) \$1.00 (such amount to be adjusted proportionately in the event the Series A Preferred Stock shall be subdivided by any means into a greater number or combined by any means into a lesser number, excluding dividends-in-kind pursuant to SECTION 4A) plus (b) all accrued but unpaid dividends on such Series A Preferred Stock through the applicable redemption date. Until the close of business on the day before the redemption date (and thereafter if the Corporation shall not tender the redemption price) the Series A Preferred Stock shall be entitled to all its rights and privileges of the Series A Preferred Stock, including the right to convert such stock into Common Stock pursuant to Section 6 hereby.

7B. MANDATORY REDEMPTION AT HOLDER S OPTION AFTER THREE YEARS. During the 30-day period immediately following the third anniversary of the Closing, and during the 30-day period immediately following the fourth, fifth and each subsequent anniversary of the Closing, each holder of Series A Preferred Stock shall have the right to tender all or any portion of such holder s shares to the Corporation for redemption at the Series A Redemption Price, as defined in Section 7A. The Corporation shall be obligated to complete such redemption within 60 days following tender.

7C. PAYMENT OF REDEMPTION. In the event of a redemption pursuant to Section 7A or 7B, the Corporation may, at its option, pay all or part of the Series A Redemption Price in shares of its Common Stock which have been registered with the Securities and Exchange Commission. In such event, the Common Stock shall be valued at the average closing price of the Common Stock for the 20 business days immediately preceding the date of redemption.

8. MISCELLANEOUS.

8A. REGISTRATION OF TRANSFER; SURRENDER AND REISSUE. The Corporation shall keep at its principal office, or at such other agency as the Corporation shall advise upon written notice to holders of the Series A Preferred Stock, a register of the registration of shares of Series A Preferred Stock. Upon the surrender of any certificate representing shares of Series A Preferred Stock at such place, the Corporation will, at the request of the holder of record of such certificate, execute and deliver (at the Corporation s expense) a new certificate or certificates in exchange therefor representing in the aggregate the number of

Table of Contents

shares of Series A Preferred Stock represented by the surrendered certificate. Each such new certificate will be registered in such name and will represent such number of shares of Series A Preferred Stock as is requested by the holder of the surrendered certificate and will be substantially identical in form to the surrendered certificate, and dividends will accrue on the shares of Series A Preferred Stock represented by such new certificate from the date to which dividends have been fully paid on such shares of Series A Preferred Stock represented by the surrendered certificate.

8B. REPLACEMENT. Upon receipt of evidence reasonably satisfactory to the Corporation of the ownership and the loss, theft, destruction or mutilation of any certificate evidencing shares of Series A Preferred Stock, and in the case of any such loss, theft or destruction, upon receipt of indemnity and/or bond reasonably satisfactory to the Corporation, or, in the case of any such mutilation upon surrender of such certificate, the Corporation will (at its expense) execute and deliver in lieu of such certificate a new certificate of like kind representing the number of shares of Series A Preferred Stock represented by such lost, stolen, destroyed or mutilated certificate and dated the date of such lost, stolen, destroyed or mutilated certificate, and dividends will accrue on the shares of Series A Preferred Stock represented by such new certificate from the date to which dividends have been fully paid on such lost, stolen, destroyed or mutilated certificate.

9. AMENDMENT AND WAIVER. No amendment, modification or waiver will be binding or effective with respect to any provision of this Certificate of Designations without the prior written consent of the holder or holders of a majority of the Series A Preferred Stock outstanding at the time such action is taken, provided that no action shall discriminate against any holder of Series A Preferred Stock other than as a result of a difference in the amount of Series A Preferred Stock held by such holders.

10. NOTICES. Except as otherwise expressly provided, all notices referred to herein will be in writing and will be delivered by United States Mail, first class postage paid and will be deemed to have been given when so mailed (a) to the Corporation at its principal executive offices and (b) to any shareholder, at such holder's address as it appears in the stock records of the Corporation pertaining to the Series A Preferred Stock.

11. DEFINITIONS.

As used in this Certificate of Designation:

Board of Directors means the Corporation's Board of Directors.

Common Stock means the Common Stock, \$0.01 par value per share, of the Corporation, as described in the Certificate of Incorporation of the Corporation.

Junior Stock means capital stock of the Corporation ranking junior in priority to the Series A Preferred Stock as to the payment of dividends, the distribution of assets and on liquidation. Common Stock is Junior Stock.

Table of Contents

Other Corporate Change means a capital reorganization or reclassification of the Corporation which is effected in such a way that holders of Common Stock are entitled to receive (either directly or upon subsequent liquidation) stock, securities or assets with respect to or in exchange for shares of Common Stock.

Senior Stock means capital stock of the Corporation ranking senior in priority to the Series A Preferred Stock as to the payment of dividends, the distribution of assets and on liquidation. The Corporation currently has no outstanding Senior Stock.

Series A Liquidation Preference Payment means the amount of \$1.00, as adjusted proportionately in the event the Series A Preferred Stock shall be subdivided by any means into a greater number or combined by any means into a lesser number, or a stock dividend is paid in Series A Preferred Stock on the Series A Preferred Stock, but excluding dividends-in-kind pursuant to SECTION 4A.

Stated Value means the amount of \$1.00, as adjusted for stock splits of the Series A Preferred Stock, stock dividends on the Series A Preferred Stock paid in Series A Preferred Stock (excluding in-kind dividends pursuant to SECTION 4A), and stock combinations of the Series A Preferred Stock.

Mercury Air Group, Inc.
Board of Directors
Special Committee of the Board of Directors
5456 McConnell Avenue
Los Angeles, CA 90066

Members of the Board of Directors and the Special Committee:

We understand that Mercury Air Group, Inc. (Mercury or the Company) intends to effect a 1-for-501 reverse stock split followed by a 501-for-1 forward stock split of the Company's common stock (the Transaction). As a result of the Transaction, (a) each shareholder owning fewer than 501 shares immediately before the Transaction will receive from the Company \$4.00 in cash for each of such shareholder's pre-split shares (the Transaction Consideration); and (b) each share of common stock held by a shareholder owning 501 or more shares will continue to represent one share of the Company after completion of the Transaction. You have advised us that the purpose of the Transaction is to cash-out the equity interests in Mercury of shareholders who, as of the effective date, hold fewer than 501 shares of common stock in any discrete account at a price determined to be fair by the entire Board of Directors in order to enable Mercury to deregister its common stock under the Exchange Act and thus terminate its obligation to file special and periodic reports and make other filings with the SEC.

You have requested our opinion as to the fairness, from a financial point of view, of the Transaction Consideration to those shareholders receiving the Transaction Consideration, other than members of senior management, CK Partners, formerly known as CFK Partners, and their respective affiliates (collectively, the Management Holders), as to whom we express no view. We also express no view with respect to any aspect of the Transaction other than as described in the immediately preceding sentence.

In connection with this opinion, we have made such reviews, analyses and inquiries as we have deemed necessary and appropriate under the circumstances. We have, among other things:

- (i) Reviewed the draft proxy statement and related documents outlining the Transaction;
- (ii) Analyzed certain publicly available information that we believe to be relevant to our analysis, including the Company's annual report on Form 10-K for the fiscal year ended (FYE) June 30, 2004 and the Company's quarterly report on Form 10-Q for the quarters ended September 30, 2004 and December 31, 2004;
- (iii) Reviewed certain information including financial forecasts relating to the business, earnings and cash flow of the Company, furnished to us by senior management of Mercury;
- (iv) Reviewed the Company's projections for FYE June 30, 2004 through 2008 furnished to us by senior management of Mercury;

- (v) Reviewed certain publicly available business and financial information relating to Mercury that we deemed to be relevant;

B-1

Table of Contents

Mercury Air Group, Inc.
Board of Directors
Special Committee of the Board of Directors
March 21, 2005

- (vi) Conducted discussions with members of senior management of Mercury concerning the matters described in clauses (i) through (vi) above, as well as the prospects and strategic objectives of Mercury;
- (vii) Reviewed public information with respect to certain other companies with financial profiles which we deemed to be relevant; and
- (viii) Conducted such other financial studies, analyses and investigation and took into account such other matters as we deemed necessary, including our assessment of general economic, market and monetary conditions.

With your consent, we have relied upon the accuracy and completeness of the foregoing financial and other information and have not assumed responsibility for independent verification of such information or conducted or have been furnished with any independent valuation or appraisal of any assets of the Company or any appraisal or estimate of liabilities of the Company. With respect to the financial forecasts, we have assumed, with your consent, that they have been reasonably prepared on bases reflecting the best currently available estimates and judgments of senior management of Mercury as to the future financial performance of the Company. We have also relied upon the assurances of senior management of Mercury that they are unaware of any facts that would make the information or financial forecasts provided to us incomplete or misleading. We assume no responsibility for, and express no view as to, such financial forecasts or the assumptions on which they are based.

Our opinion is based upon economic, market and other conditions as they exist and can be evaluated on the date hereof and does not address the fairness of the Transaction Consideration as of any other date. The financial markets in general, and the markets for the securities of the Company in particular, are subject to volatility, and our opinion does not purport to address potential developments in the financial markets or in the markets for the securities of the Company after the date hereof.

Our opinion expressed herein has been prepared for the information of the Special Committee and the Board of Directors of the Company in connection with their consideration of the Transaction. Our opinion does not constitute a recommendation as to any action the Company or any shareholder of the Company should take in connection with the Transaction or any aspect thereof. Our opinion does not address the merits of the underlying decision by the Company to engage in the Transaction or the relative merits of any alternatives discussed by the Special Committee or the Board of Directors of the Company. No opinion is expressed herein, nor shall one be implied, as to the fair market value of Mercury's equity or the prices at which it may trade at any time. This opinion may not be reproduced, disseminated, quoted or referred to at any time without our prior written consent, except that a copy of the Opinion may be reproduced in full and otherwise referred to in the Company's proxy statement and related filings describing the Transaction.

In the ordinary course of its business and in accordance with applicable state and federal securities laws, Imperial Capital, LLC may actively trade the equity securities of Mercury for its own account and for the accounts of customers and, accordingly, may at any time hold a long or short position in such securities. In the past, Imperial Capital has previously acted as financial advisor to Mercury and has received a fee in connection with its various engagements.

Based on and subject to the foregoing, we are of the opinion that, as of the date hereof, the Transaction Consideration to be received by the shareholders of the Company receiving the Transaction Consideration, other than the

Management Holders (as to whom we express no view), is fair, from a financial point of view, to such shareholders.

Very truly yours,

/s/ IMPERIAL CAPITAL, LLC

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. Yes [X] No []

Indicate by check mark whether the registrant is an accelerated filer (as defined by Rule 12b-2 of the Act).
Yes [] No [X]

As of September 20, 2004, 2,804,855 shares of the Registrant's Common Stock were outstanding. Of these shares, 953,974 shares were held by persons who may be deemed to be affiliates. The 1,850,911 shares held by non-affiliates as of September 20, 2004 had an aggregate market value (based on the closing price of these shares on the American Stock Exchange of \$5.10 per share on September 20, 2004) of \$9,439,646. As of September 20, 2004 there were no non-voting shares of common stock outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Proxy Statement which is to be distributed in connection with the Annual Meeting of Stockholders scheduled to be held in November 2004 are incorporated by reference into Part III of this Form 10-K.

Item 1. Business

Mercury Air Group, Inc. (the "Company"), a Delaware corporation was organized in 1956 and provides a broad range of services to the aviation industry through three principal operating units which are all wholly owned subsidiaries of the Company: MercFuel, Inc. ("MercFuel"), a Delaware corporation, Mercury Air Cargo, Inc. ("Air Cargo"), a California corporation, and Maytag Aircraft Corporation ("Maytag"), a Colorado corporation. MercFuel's operations consist of the sale and delivery of fuel, primarily aviation fuel, to domestic and international commercial airlines, fractional jet ownership companies, corporate aviation fleets and air cargo companies. Air Cargo's operations consist of cargo handling, the sale of cargo capacity on other airlines ("Cargo Space Logistics"), and general cargo sales agent services. Maytag is a provider of governmental contract services performing aircraft refueling and fuel storage operations, base operations support ("BOS") services, air terminal and ground handling services and weather observation and forecasting services primarily for agencies of the government of the United States of America.

Through April 12, 2004, the Company operated a fourth operating unit, Mercury Air Centers, Inc. ("Air Centers"). Air Centers' operations consisted of aviation fuel sales, aircraft refueling operations ("into-plane"), aircraft ground support services, aircraft hangar services, aircraft parking ("aircraft tie-down services") and aircraft maintenance at certain Air Center locations, known as Fixed Based Operations ("FBOs"). On April 12, 2004 (the "FBO Sale Closing Date"), following stockholder approval, the Company sold all of Air Centers outstanding common stock to Allied Capital Corporation ("Allied") for \$76,349 thousand subject to adjustments for, among other things, Air Centers' net working capital as of the FBO Sale Closing Date and the distribution of funds from an escrow account established at closing associated with the Air Centers' Hartsfield International Airport FBO (the "Hartsfield FBO"). The assets sold through the sale of the stock of Air Centers consist of all of the assets of the Company's FBO business excluding the Company's FBO at the Long Beach Airport which the Company has retained and continues to operate. For more detailed information on this transaction (the "FBO Sale"), please refer to the section titled Mercury Air Centers, Inc. included in the Narrative Description of the Business below.

As used in this Annual Report, the term "Company" or "Mercury" refers to Mercury Air Group, Inc. and, unless the context otherwise requires, its subsidiaries. The Company's principal executive offices are located at 5456 McConnell Avenue, Los Angeles, California, 90066 and its telephone number is (310) 827-2737.

This Form 10-K and the information incorporated by reference in it includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We intend the forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in these sections. All statements regarding our expected financial position and operating results, our business strategy, our financing plans and forecasted demographic and economic trends relating to our industry are forward-looking statements. These statements can sometimes be identified by our use of forward-looking words such as "may", "will", "anticipate", "estimate", "expect" or "intend" and similar expressions. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially

different from the results, performance or achievements expressed or implied by the forward-looking statements. We cannot promise you that our expectations in such forward-looking statements will turn out correct. Factors that impact such forward-looking statements include, but are not limited to, quarterly fluctuations in results; the management of growth; fluctuations in world oil prices or foreign currency; changes in political, economic, regulatory or environmental conditions; the loss of key customers, suppliers or members of senior management; uninsured losses; competition; credit risk associated with accounts receivable; and other risks detailed in this Form 10-K and in our other Securities and Exchange Commission filings. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise.

Narrative Description of the Business

MercFuel, Inc.

The Company's fuel sales operations are handled through MercFuel, Inc. which was formed in October 2000 when the Company transferred all of its fuel sale related assets and business activities to MercFuel. MercFuel facilitates the management and distribution of aviation fuel serving as an aviation fuel supplier and logistics manager for its customers, providing a reliable fuel supply operation to its customer base while extending credit, mostly unsecured, to its customers which may not otherwise be available to them if they were to be supplied directly from the major oil companies. MercFuel also serves as a reseller of aviation fuel for major oil companies, affording the oil companies indirect access to certain customers without the credit risk or administrative costs associated with the management of these customer accounts. MercFuel competes based on the quality of its services by offering a combination of reliable and timely supply, fuel

Table of Contents

supply logistics management, competitive pricing and credit terms, and a real time analysis of the availability, quantity and pricing of fuel at airports and terminals throughout the world. MercFuel works through third party suppliers for fuel storage and into-plane delivery.

MercFuel is the largest revenue generator for the Company with sales revenue of \$322,631 thousand in fiscal 2004, representing 83.7% of the Company's total revenue from continuing operations, an increase of \$42,495 thousand from fiscal 2003. Sales volume in fiscal 2004 was 278,448 thousand gallons, a reduction of 8,425 thousand gallons, or 2.9% from fiscal 2003. The decline in MercFuel's sales volume is primarily due to National Airlines, Inc. (National) ceasing operations in November 2002.

	Year Ended June 30,		
	2004	2003	2002
	(in thousands)		
Revenue	\$322,631	\$280,136	\$232,573
Gallons Sold	278,448	286,873	287,651

The increase in revenue in fiscal 2004, as compared to fiscal 2003, is due to increased aviation fuel prices, driven by the increase in worldwide petroleum product prices, partially offset by the decline in sales volume. MercFuel's average realized sales price in fiscal 2004 was \$1.1587 per gallon as compared to \$0.9765 per gallon in fiscal 2003.

By leveraging its scale of operations, MercFuel is able to obtain credit terms and competitive pricing from its suppliers which may not be afforded MercFuel's customers on an individual basis. Many of MercFuel's suppliers, which include some of the major oil companies, have opted either not to directly supply nor extend credit to the customer base MercFuel serves, providing MercFuel with a niche market while providing a sale outlet for MercFuel's suppliers. This arrangement allows MercFuel to offer more competitive pricing and credit terms to its customers than they would commercially be able to obtain directly from the major oil companies.

With over 24 years of service in the aviation fuel reselling and distribution industry, MercFuel has established itself as a reliable and price competitive aviation fuel reseller which has resulted in the establishment of significant contracts with commercial air carriers, fractional jet ownership companies and corporate aviation fleet managers. MercFuel's resale service provides an established distribution network for oil companies worldwide and provides MercFuel's suppliers indirect access to certain markets and customers while reducing their credit exposure. In addition, MercFuel provides the administrative support required in serving this customer base which would otherwise be required by the major oil companies and assumes the credit risk of supplying this customer base. MercFuel's experience in the aviation fuel reselling industry allows it to assess those risks in a more effective and efficient manner. For more information on MercFuel's customers, please refer to the section titled "Major Customers and Foreign Customers" included in this Annual Report on Form 10-K.

In many cases the small to medium sized commercial air carriers, fractional jet ownership companies and corporate aviation fleet managers are subject to securing aviation fuel supply on the spot fuel market, which can vary significantly on a day-to-day basis. MercFuel provides a 24-hour, 365 days per year single source coordinated distribution system on a national and international basis through its network of over 400 third party supply locations nationally and 1,000 international locations through which customers can purchase fuel. As a result of this integrated network, MercFuel is able to provide its customers with reliable and competitive fuel pricing from airport to airport..

Through its automated on-line system, MercFuel provides its fractional jet ownership and corporate aviation fleet customers with online pricing, fuel location and ordering information. Accordingly, MercFuel is able to streamline its customers' fuel purchase process and reduce their administrative costs associated with fuel logistics by providing a single source through which fuel procurement can be arranged and automatically released to the business jet customer.

MercFuel's continued success in attracting and retaining its customer base is due, in part, to its willingness to extend credit on an unsecured basis to many of its customers. MercFuel recognizes that active oversight and management of credit risk is essential to the Company's success. The Company's executive staff and MercFuel management meet regularly to assess and evaluate MercFuel's credit exposure, in the aggregate and by individual customer. The Company's credit committee is responsible for approving credit lines above certain pre-established amounts, and for setting and maintaining credit standards to ensure overall credit quality and optimize its credit portfolio.

MercFuel purchases aviation and other petroleum-based fuel at prices that are generally tied to market based formulas from several major oil companies and certain independent and state owned oil companies to meet the requirements of its customers. From time-to-time, MercFuel will commit to purchase a fixed volume of fuel, at a fixed price, over an established period of time to meet selected customers' purchase requirements at set locations. MercFuel's payment terms generally range from 10 to 20 days, except for bulk purchases which are

Table of Contents

generally payable in shorter periods. MercFuel has agreements with certain suppliers under which MercFuel purchases a minimum amount of fuel each month at prices which approximate the market price. MercFuel also makes occasional spot purchases of fuel to take advantage of market differentials. To ensure supply availability, MercFuel maintains limited inventories at various locations. The amount of inventory held at any particular point in time varies depending on market conditions.

Outside of the United States of America, MercFuel does not maintain fuel inventory, but arranges to have fuel delivered directly to its customers' aircraft through into-plane arrangements. Domestically, fuel sales are made on either an into-plane basis where fuel is supplied directly into MercFuel's customers' aircraft with fuel provided by MercFuel's supplier or the fuel is delivered from MercFuel's inventory. While inventory is maintained at multiple locations, inventory levels are maintained at minimum levels.

If MercFuel's relationship with any of its key suppliers were to terminate or be temporarily suspended, MercFuel may not be able to obtain sufficient quantity of aviation fuel on competitive terms to meet its customers' demands. MercFuel may encounter difficulty and/or delays in securing aviation fuel from alternative sources. In addition, financial or supply disruptions encountered by MercFuel's suppliers could also limit the availability of fuel supplied to MercFuel.

For the fiscal year ended June 30, 2004, MercFuel's average cost of fuel was \$1.1195 per gallon, an increase of \$0.1809 cents per gallon, or 19.2% from fiscal 2003. While MercFuel management believes that currently there are adequate aviation fuel supplies to meet its customers' needs, events outside of MercFuel's control have in the past resulted in, and could in the future result in, spot shortages or rapid price changes. Although MercFuel has generally been able to pass through fuel price changes to its customers, extended periods of high fuel costs could adversely affect MercFuel's ability to purchase fuel in sufficient quantities because of credit limits placed on MercFuel by its fuel suppliers and availability under the Company's credit facility. In addition, continued high petroleum fuel prices could continue to have an adverse impact on MercFuel's customers increasing the Company's credit risk.

Mercury Air Cargo, Inc.

Air Cargo provides the following services: cargo handling, air cargo logistics services, and general air cargo sales agent services. Air Cargo's financial performance is highly influenced by changes in the worldwide economy and the amount of import/export business activity. As the general worldwide economy improved during the past fiscal year, Air Cargo experienced increased business activity in each of its primary businesses. Air Cargo's revenue for the fiscal year ended June 30, 2004 increased 21% from fiscal 2003 to \$39,549 thousand, representing 10.3% of the Company's total revenue from continuing operations. Air Cargo's gross margin in fiscal 2004 was \$1,800 thousand, a decrease of \$785 thousand from fiscal 2003. The increase in revenue is primarily due to the operation of Mercury World Cargo, while the decrease in margin is primarily due to the Skynet operations, which ceased operations in May 2004, which had been part of the general sales agent services. For a more detailed explanation of the primary factors contributing to Air Cargo's financial results, refer to the Management's Discussion and Analysis comparing the financial results for fiscal 2004 to fiscal 2003 starting on page 15.

Cargo Handling

Air Cargo provides domestic and international air cargo handling, airmail handling and bonded warehousing services (collectively "Cargo Handling"). Air Cargo performs cargo handling services at Los Angeles International Airport (LAX), William B. Hartsfield International Airport (ATL - Atlanta, GA), Dorval International Airport (YUL - Montreal, Canada), Mirabel International Airport (YMX - Montreal, Canada) and Lester B. Pearson International Airport (YYZ - Toronto, Canada). In February 2001, Air Cargo subleased the warehouse facility at ATL to Lufthansa Handling under the terms of a ten-year sublease of a 60,600 square foot warehouse and operations area. Air Cargo

continues to provide cargo handling at ATL utilizing Lufthansa Handling as a subcontract service provider for the operations. In fiscal 2004, Cargo Handling's revenue increased to \$25,833 thousand, comprising 65.3% of Air Cargo's revenue.

Air Cargo provides cargo handling services at three warehouse locations at LAX, making Air Cargo the largest independent cargo handling company at LAX and one of a small number of non-airline air cargo service providers of contractual cargo containerization and palletization for domestic and international airlines as well as cargo airlines at the airport. The largest of Air Cargo's warehouses at LAX is a 174,000 square foot warehouse (the Avion Warehouse), at which the Company completed an extensive renovation of a previously existing airport facility and commenced operations in April 1998. The lease for this warehouse facility is currently scheduled to expire in June 2006.

Air Cargo competes in the cargo handling business based on the quality and timeliness of the service it provides along with a competitive pricing structure. Long-term growth in the cargo handling business will be realized by continuing to add new customers to its existing cargo handling locations or by increased volume from its existing customer base. During fiscal 2004, Air Cargo executed a new five-year contract with its largest cargo-handling customer, EVA Airways.

Table of Contents

Cargo Logistics Services

Air Cargo's air cargo logistics services business (CLS) brokers cargo space on flights within the United States and on international flights to Europe, Asia, the Middle East, Australia, Mexico and Central and South America. CLS contracts for bulk cargo space on airlines and sells that space to customers with shipping needs. CLS has an established network of shipping agents who assist in securing cargo for shipment on cargo space purchased from various airlines, and who facilitate the delivery and collection of freight charges for cargo shipped by Air Cargo. In fiscal 2004, CLS's revenue increased to \$8,867 thousand, comprising 22.4% of Air Cargo's revenue.

Air Cargo's contract with South African Airways (SAA) to utilize all of SAA's cargo capacity on its passenger flights from the United States to South Africa was renewed for another year beginning in April 2004. Air Cargo's one-year commitment for these routes is approximately \$4,715 thousand. This contract allows Air Cargo to effectively arrange and schedule cargo shipments and optimize the return to SAA and to its freight forwarders while providing a reasonable margin to Air Cargo.

Unlike a cargo airline, which operates its own aircraft, Air Cargo's logistics business arranges for the purchase of cargo space on scheduled flights or supplemental flights at negotiated rates. Air Cargo is thereby able to profit from the sale of air cargo space worldwide without the overhead cost of owning and operating an aircraft. In some instances, Air Cargo has entered into fixed minimum commitments for cargo space resulting in exclusive or preferred rights to broker desirable cargo space profitably. Due to the large volume of cargo space contracted, Air Cargo is able to secure air cargo space at rates lower than an individual freight forwarder could arrange. Air Cargo is then able to pass on these lower rates to its customers and still realize a profit.

Another service brand under the umbrella of CLS is Mercury World Cargo (MWC). Using its Part 135 cargo airline certificate, which qualifies MWC as an airline certified to transport cargo in accordance with Federal Aviation Administration (the FAA) and Department of Transportation regulations, MWC is able to enter into interline agreements (contracts between carriers for transportation of cargo) with other airlines worldwide. MWC operates a small plane under this certificate. Using the MWC airway bill (an airway bill is a bill of lading for the airline industry) as the cargo transportation document and the other airlines' air cargo capacity, MWC is able to provide a service for both freight forwarders and airlines. Effectively, MWC provides a secondary brand to airlines that prefer not to utilize their own brand for discounted freight.

General Sales Agent Services

Air Cargo also serves as a general sales agent (GSA) directly through its subsidiaries, Hermes Aviation, Inc., Hermes Aviation de Mexico, S.A. de C.V., and Hermes Aviation Canada for airlines in the Far East, Canada, Mexico, Central, and South America and in the United States. In this capacity, Air Cargo sells the transportation of cargo on its clients' airline flights, using its clients' own airway bills. Air Cargo earns a commission from the airlines for selling their cargo space. In fiscal 2004, GSA's revenue increased to \$4,849 thousand, comprising 12.3% of Air Cargo's total revenue. As with its space logistics business, the growth for Air Cargo's GSA business is not constricted by requirements for physical facilities or by large capital commitments.

Maytag Aircraft Corporation

Maytag is headquartered in Colorado Springs, Colorado and provides aircraft refueling, air terminal services, base operating support, and weather forecasting and observation services for the government of the United States of America in eighteen countries on four continents. During fiscal 2004, Maytag had revenue of \$23,281 thousand, representing 6.0% of the Company's total consolidated revenue from continuing operations, from twenty-three contracts. As of June 30, 2004, Maytag has twenty-one contracts in effect. For a more detailed explanation of some of

the more significant events impacting this business, please refer to the Management's Discussion and Analysis starting on page 15.

Aircraft Refueling

Maytag provides aircraft refueling and related services at eleven military bases in the United States of America, one in Greece, and one in Japan. Maytag's refueling contracts generally have a term of four years with extension options, with expiration dates ranging from August 2004 to January 2008. One of the contracts, which generated \$2,177 thousand in revenue in fiscal 2004, expired on August 31, 2004 without extension or renewal. Under the terms of its refueling contracts, Maytag supplies all necessary personnel and equipment to operate government-owned fuel storage facilities and provides 24-hour per day 365 days-per-year refueling services for a variety of United States of America military and United States of America government contractor aircraft. All fuel handled under these contracts are government owned. In connection with its government contract refueling business, Maytag owns, leases, and operates a fleet of refueling

Table of Contents

trucks and other support vehicles. For fiscal 2004, the aircraft refueling contracts generated revenue of \$8,439 thousand, a decrease of 3.0% from last year's refueling revenue of \$8,703 thousand.

Air Terminal Services

Maytag provides air terminal and ground handling services to the government of the United States of America at eighteen locations under five contracts. The contracts cover two U.S. military bases (one each in Japan and Korea) and sixteen international airports in Latin America, Japan, Korea and Kuwait. Air terminal services contracts are generally for a base period of one year, with government options for multiple one-year extension periods. The air terminal contracts are scheduled to expire during September 2004, although management believes the government will exercise its option to extend the contracts for an additional year. Maytag's multi-site Latin America air terminal contract and Pacific Rim contracts have options to extend through September 2005 and the Kuwait contract has options to extend through September 2008. Air terminal and ground handling services include the loading and unloading of passengers and cargo, transient alert, and flight planning services. For fiscal 2004, the air terminal services contracts generated revenue of \$7,675 thousand, a decrease of 6.4% from fiscal 2003 revenue of \$8,199 thousand.

Base Operating Support Services

Maytag provides base operating support (BOS) services, as a subcontractor, at four locations in the United States of America. Under the terms of the subcontracts, Maytag provides multi-function services, including fuel management, traffic management, airfield management, air terminal operations, vehicle operations and maintenance services, and meteorological services. Contract expirations range from September 2004, for which management believes the government will exercise its option to extend the contracts for an additional year, to February 2005, with one to three pre-priced one-year options, except for Westover, which expires in February 2005 and is up for competitive bidding. For fiscal 2004, the BOS contracts generated revenue of \$5,963 thousand, an increase of 1.9% from fiscal 2003 revenue of \$5,854 thousand.

Other Business Weather Data Services

Maytag provides weather observation and/or forecasting services at five locations within the United States of America pursuant to five contracts (the Weather Data Contracts) with the government of the United States of America. The Weather Data contracts are comprised of two weather observation and forecasting contracts and three weather observation contracts. The Weather Data Contracts provide firm fixed prices for specified services and are generally for a base period of one year, with multiple one-year options at the election of the governmental agencies of the United States of America. The Weather Data Contracts for weather observation have an expiration date of September 30, 2004, for which management believes the government will exercise its option to extend the contracts for an additional year in accordance with three pre-priced option years. The Weather Data Contract for weather observation and forecasting within the United States Air Force Academy expires in January 2005 and is scheduled for competitive bid. For fiscal 2004, the Weather Data Contracts generated revenue of \$1,165 thousand, a decrease of 27.9% from fiscal 2003 revenue of \$1,615 thousand.

Other Information Regarding Maytag

All of Maytag's contracts are subject to competitive bidding. Refueling, air terminal, and weather forecasting contracts are generally awarded to the offeror with the proposal that represents the best value to the government. In a best value competition, the proposals are evaluated on the basis of price, past performance history of the offeror, and the merit of the technical proposal, creating a more subjective process. Weather Data Contracts are generally awarded to the offeror with the lowest priced technically acceptable proposal.

Maytag's contracts are all subject to termination at the discretion of the government of the United States of America in whole or in part. Termination of a contract may occur if the government of the United States of America determines that it is in its best interest to discontinue the contract, in which case closure costs will be paid to the Company. Termination may also occur if Maytag defaults under a contract. The Company has never experienced any such default termination.

As Maytag's business activities are associated with government contracts that have set termination dates to enable the government to renew the contracts through a competitive bid process, one of the Company's business activities is the participation in the preparation and submission of contract bids for contracts currently awarded to the Company and for new contracts that fit the type of activities (refueling, base operating support, air terminal services and weather observation and forecasting) in which the Company is involved. In addition, the governmental agencies have the option to extend the expiration dates of existing contracts at their discretion. Although there can be no assurance, the Company believes the government of the United States of America will exercise all options to extend the contracts. Maytag therefore will have a continuing opportunity to renew the terms of existing contracts as they expire and/or engage in new contract activities

Table of Contents

through a successful bidding process. However, as the awarding of contracts is based upon the decision of the government agency's representative for the contract bids submitted, the Company may not be able to retain existing contracts upon expiration and may be unsuccessful in bidding on new contracts.

Mercury Air Centers, Inc.

On April 12, 2004, upon approval from the Company's stockholders at the Annual Stockholders' meeting, the Company sold all of the outstanding common stock of Air Centers, which represented 100% of the then outstanding common stock in Air Centers, to Allied with the Company receiving total consideration for the sale in cash at closing of \$76,349 thousand. The final amount of the total consideration to be received by the Company from the FBO Sale is dependent upon the determination of the amount of Air Centers' net working capital at the time of closing and the distribution of funds from the escrow account established at closing for the Hartsfield FBO (the "Hartsfield Escrow"). In accordance with the terms of the Stock Purchase Agreement (the "Air Centers SPA") entered into by the Company and Allied on October 28, 2003, as amended from time to time, the Company and Allied agreed to the extent Air Centers' actual net working capital at closing exceeded \$3,586 thousand, Allied is obligated to pay the Company the excess amount or to the extent Air Centers' net working capital is less than \$3,586 thousand, the Company is obligated to pay Allied the deficiency. The parties also agreed to deposit \$8,270 thousand at closing to establish the Hartsfield Escrow to be distributed to the parties over a period not to exceed five years from the FBO Sale Closing Date dependent upon the award of a new lease at the Hartsfield International Airport in Atlanta for a new FBO. Dependent upon the effective date of the new lease and the terms and conditions of the new lease, the Company may be entitled to all, some or none of the amount deposited into the Hartsfield Escrow at closing.

The proceeds from the FBO Sale were used to: 1) prepay the outstanding principal on the senior secured loan agreement due Wells Fargo Foothill Company (the "WFF Credit Facility") comprised of both a term loan and a revolving credit facility, in the amount of \$13,255 thousand; 2) pay accrued interest and fees associated with the WFF Credit Facility of \$203 thousand; 3) establish a cash collateral account with Wells Fargo Foothill Company (WFF) in the amount of \$16,031 thousand in support of issued and outstanding letters of credit issued under the terms of the WFF Credit Facility; 4) prepay the outstanding principal, including the amount of accrued interest payable-in-kind ("PIK Interest"), on the \$24 million senior subordinated 12% note (the "Note") of \$24,120 thousand to Allied; 5) pay accrued interest and fees associated with the Note of \$141 thousand; 6) prepay the outstanding principal, including the amount of accumulated PIK Interest, on three promissory notes issued by the Company in accordance with a settlement agreement with J O Hambro Capital Management and certain of its affiliates and clients (the "Hambro Notes") in the amount of \$3,695 thousand; 7) pay accrued interest on the Hambro Notes in the amount of \$15 thousand; 8) establish the Hartsfield Escrow in the amount of \$8,270 thousand; and 9) pay for transaction related fees and expenses of \$1,324 thousand. After satisfying the obligations noted above, the Company received cash of \$9,295 thousand.

Major Customers and Foreign Customers

Sales by MercFuel to AirTran Airways and NetJets represented approximately 27.5% and 10.0% of MercFuel's total revenue, respectively, and 23.0% and 8.4% of the Company's total consolidated revenue from continuing operations, respectively, for fiscal 2004. During fiscal 2004, EVA Airways Corporation accounted for approximately 12.2% of Air Cargo's total revenue or 1.3% of the Company's fiscal 2004 total consolidated revenue from continuing operations. During fiscal 2004, Maytag's revenue consisted entirely of revenues from governmental agencies of the United States of America, which represented approximately 6.0% of the Company's total consolidated revenue from continuing operations. No other customer accounted for over 10% of the Company's total consolidated revenue from continuing operations or 10% of revenues for any of the three business units.

The Company does business with a number of foreign airlines, principally in the sale of aviation fuels. For the most part, such sales are made within the United States of America and utilize the same assets and generally the same personnel as are utilized in the Company's domestic business. Revenues related to these foreign airlines amounted to approximately 35%, 31% and 23% of the Company's total consolidated revenue from continuing operations for the fiscal years ended June 30, 2004, 2003 and 2002, respectively.

National, a customer of MercFuel, ceased operations on November 6, 2002. The Company had been providing fuel to National since May 1999. In December 2000, National filed for Chapter 11 bankruptcy protection and the Company continued to sell fuel to National on a secured basis under the auspices of the bankruptcy court. Sales to National represented approximately 7.3% and 17% of the Company's consolidated revenue from continuing operations for fiscal 2003 and 2002, respectively. Due to the secured nature of MercFuel's sales to National, MercFuel incurred virtually no loss due to National's cessation of operations.

Table of Contents

Seasonal Nature of Business

The Company's commercial fuel sales operation is seasonal in nature, being relatively stronger during the months of April through December due in part to additional commercial and charter flights during the vacation period and prior to the holiday season. Air Cargo's business is lower during the months of January and February and increases from March through June and September through December. The cargo business is affected by the fluctuations in international trade. Operations at military facilities are not seasonal but may vary with the needs of the military.

Potential Liability and Insurance

The Company's business activities subject it to risk of significant potential liability under federal and state statutes, common law and contractual indemnification agreements. The Company reviews the adequacy of its insurance on an on-going basis. The Company believes it follows generally accepted standards for its lines of business with respect to the purchase of business insurance and risk management practices. The Company purchases airport liability and general and auto liability in amounts which the Company believes are adequate for the risks of its business.

The Company has also agreed to indemnify, reimburse and hold harmless Allied and its affiliates from and against certain liabilities in connection with Air Centers' previous operations and activities. For a description of certain of such indemnification, see Environmental Matters on page 9 and Item 3 Legal Proceedings on page 11. See also page 33 of Exhibit 2.3.

Competition

MercFuel competes with approximately five independent fuel suppliers, of which the largest is World Fuel Services Corporation. Additionally, MercFuel competes with other aircraft support companies which maintain their own sources of aviation fuel. Many of MercFuel's competitors have greater financial, technical and marketing resources than the Company. In addition, certain airlines provide cargo services comparable to those furnished by Air Cargo. At LAX, Air Cargo competes with, in addition to the airlines, three non-airline entities with respect to the air cargo handling business. Maytag has many principal competitors with respect to government contracting services, including certain small disadvantaged businesses which receive a ten percent cost advantage with respect to certain bids and set asides of certain contracts. Substantially all of the Company's services are subject to competitive bidding. The Company competes on the basis of price, quality of service, historical relationships with customers, and credit terms.

Environmental Matters

The Company must continuously comply with federal, state and local environmental statutes and regulations associated with its fuel storage tanks and fueling operations. These requirements include, among other things, tank and pipe testing for integrity and soil sampling for evidence of leaking and remediation of detected leaks and spills. As a result of the FBO Sale, the number of locations in which this type of environmental compliance applies has been reduced to one.

In early 2001, the Company agreed to provide certain environmental remediation on property formerly leased by the Company in Anaheim, California. The Company terminated operations on this leased property in fiscal 1987 at which time a closure letter was in effect. The Company installed an approved remediation system including but not limited to soil vapor extraction and monitoring wells, and incurred costs of approximately \$530,000 through June 30, 2004. On July 30, 2004 the Company received notice that no further remediation action was required from the California Regional Water Quality Board.

On May 1, 2002, the Company received a Notice of Violation (NOV) from the United States Environmental Protection Agency, Region 5 (the EPA) for Air Centers Fort Wayne, Indiana FBO facility alleging that the Company's Spill Prevention, Control and Countermeasure Plan (SPCC Plan) did not meet certain federal regulations. On March 14, 2003, the Company received an NOV from the EPA alleging certain deficiencies in the SPCC Plan for Air Centers Fort Wayne, Indiana FBO facility, submitted to the EPA in November 2002. The Company believes that it has resolved all deficiencies except for alleged deficiencies related to: 1) secondary containment for refueling trucks, and 2) secondary containment for discrete fuel loading areas. Pursuant to an agreement detailed in a letter submitted to the EPA on April 16, 2003, the Company has been permitted to suspend modifications to its SPCC Plan regarding the installation of secondary containment for its refueling trucks, pending resolution of federal regulatory issues associated with secondary containment for such trucks. The EPA has also extended national compliance with regulations related to discrete loading areas until August 17, 2004. Further, the EPA announced in a Federal Register notice dated June 28, 2004, 69 Fed. Reg. 38297 that the EPA is considering a proposal to amend 40 CFR 112 to address, among other things, the applicability of the rule to mobile/portable containers.

Table of Contents

The Air Centers SPA provides that the Company is responsible for compliance, for a period of eighteen months subsequent to the FBO Closing Date, for any required secondary containment (as the term is defined in the Air Centers SPA) required by any applicable governmental authority requiring secondary containment pursuant to Environmental Law for extended or overnight fuel truck parking at any FBO comprising the FBO business on the FBO Closing Date. In the opinion of management, the ultimate resolution of this matter is not expected to have a material effect on the Company's results of operations, cash flows or financial position.

There has been no material negative impact on the Company's earnings or competitive position in performing such compliance and related remediation work. The Company knows of no other basis for any notice of violation or cease and abatement proceeding by any governmental agency as a result of failure to comply with applicable environmental laws and regulations.

Employees

As of July 31, 2004, the Company employed 810 full-time and 239 part-time persons in the following operating units: MercFuel, forty one full-time and four part-time persons; Corporate, thirty-four full-time and one part-time person; Air Cargo operations, 465 full-time and ninety-one part-time persons; and Maytag, 270 full-time and 143 part-time persons. Maytag has collective bargaining agreements which affect approximately 258 employees in its weather and base support operations. Air Cargo has collective bargaining agreements which affect approximately ninety-two employees in its ground handling operations. Management believes that, in general, wages, hours, fringe benefits and other conditions of employment offered throughout the Company's operations are at least equivalent to those found elsewhere in its industry and that its general relationships with its employees is satisfactory.

Table of Contents**Item 2. Properties.**

Listed below are the significant properties leased or owned by the Company as of June 30, 2004:

LOCATION	LEASE OR OWNED	ANNUAL RENTAL	EXPIRATION OF LEASE	ACTIVITIES AT FACILITY	FACILITY DESCRIPTION
CORPORATE HEADQUARTERS 5456 McConnell Avenue Los Angeles, CA(1)	Leased	\$ 440,000	December 2021	Executive and support personnel offices	22,500 sq. ft. building and parking space
MAYTAG OPERATIONS 6145 Lehman Drive Suite 300 Colorado Springs, CO(2)	Owned	N/A	N/A	Landlord, executive and support personnel offices	8,000 sq. ft. of offices
LOS ANGELES INT L AIRPORT 6851 W. Imperial Highway, Los Angeles, CA	Leased	\$ 823,000	December 2004	Cargo hangar, with offices and executive offices rented to customers	70,245 sq. ft. of offices and cargo warehouse facility on 5.4 acres

-
- (1) This property was sold to CFK Realty Partners, LLC (CFK Realty), a related party of the Company at the time of the sale, in January 2002, however, the related assets are still reported on the Company s books since CFK Realty is deemed to be a special purpose entity (SPE) requiring the financial statements of CFK Realty to be consolidated with those of the Company. In July 2004, CFK Realty underwent a restructuring resulting in CFK Realty no longer being considered a related party of the Company. This restructuring did not impact the Company s consolidated financial statements.
 - (2) This property was purchased in May 1995 for \$515 thousand and is subject to a first mortgage to U.S. Bank in the sum of \$252 thousand at June 30, 2004, repayable with interest at 6.68% in equal monthly installments of approximately \$3,024, the last payment due May 2010.

Item 3. Legal Proceedings.

On May 1, 2002, the Company received a notice of violation (NOV) from the Environmental Protection Agency (EPA) for Air Centers Fort Wayne, Indiana facility alleging that the Company s spill prevention, control and countermeasure plan (SPCC Plan) did not meet certain federal regulations. On March 14, 2003, the Company received an NOV from the EPA alleging certain deficiencies in the Company s SPCC Plan for Air Centers Fort Wayne, Indiana FBO facility submitted to the EPA in November 2002. The Company believes that it has resolved all deficiencies except for alleged deficiencies related to: 1) secondary containment for refueling trucks, and 2)

Table of Contents

secondary containment for discrete fuel loading areas. Pursuant to an agreement detailed in a letter submitted to the EPA on April 16, 2003, the Company has been permitted to suspend modifications to its SPCC Plan regarding the installation of secondary containment for its refueling trucks, pending resolution of federal regulatory issues associated with secondary containment for such trucks. The EPA has also extended national compliance with regulations related to discrete loading areas until August 17, 2004. Further, the EPA announced in a Federal Register notice dated June 28, 2004, 69 Fed. Reg. 38297 that the EPA is considering a proposal to amend 40 CFR 112 to address, among other things, the applicability of the rule to mobile/portable containers.

The Air Centers SPA provides that the Company shall be responsible for compliance, for a period of eighteen months subsequent to the FBO Sale Closing Date, for any required secondary containment (as the term is defined in the Air Centers SPA) required by any applicable governmental authority requiring secondary containment pursuant to environmental law for extended or overnight fuel truck parking at any FBO comprising the Air Centers business on the FBO Sale Closing Date. In the opinion of management, the ultimate resolution of this matter is not expected to have a material effect on the Company's results of operations, cash flows or financial position.

On February 26, 2003 Robert Bosch filed an action in the United States District Court, Eastern District of New York against Excel Cargo, Inc., a wholly owned subsidiary of the Company, and others seeking \$1.5 million in damages for damaged cargo. On June 4, 2003 plaintiff's counsel agreed to voluntarily dismiss Excel Cargo, Inc., without prejudice, from the lawsuit conditioned on the production of information by Excel Cargo, Inc. To date, plaintiff has not yet followed through. This matter is insured and is being handled by insurance counsel. In the opinion of management, the ultimate resolution of this matter is not expected to have a material effect on the Company's operating results, cash flows or financial position.

On April 16, 2003 the Plan Committee of Shuttle America Corp. filed an Adversary Proceeding in the United States Bankruptcy Court, District of Connecticut alleging preferential transfers in the amount of \$995,000. The parties reached a settlement agreement, which provided the Company to pay Shuttle America \$40,000. The settlement agreement was approved by the bankruptcy court with the Company satisfying, subsequent to the bankruptcy court approval, all outstanding obligations on this matter.

On July 9, 2003 Central Insurance Company, LTD. filed an action in the United States District Court Central District of California-Western Division, against Air Cargo for damages paid to their assured United Microelectronics Corp in the amount of \$335,337. In May, 2004 this matter was dismissed without cost to the Company.

On November 26, 2003, Signature Flight Support Corporation (Signature) filed a complaint against Air Centers and Allied alleging: 1) breach of contract and tortious interference with contract against Allied; 2) interference with prospective economic advantage against Allied; and 3) unfair business practices against the Company and Allied. Signature filed a similar action in state court in September 2004. The Company believes that the allegations are without merit and is in the process of preparing a response. The Company has agreed to indemnify Allied and its affiliates (including, without limitation Air Centers after the FBO Sale Closing Date), directors, officers, agents, employees and controlling persons from certain liabilities, obligations, losses or expenses to which Allied may become subject as a result of the complaint. On August 4, 2004 the parties participated in a court ordered mediation session and were not able to resolve their differences. In the opinion of management, the ultimate resolution of this complaint will not have a material effect on the Company's operating results, cash flows or financial position.

The Company is also a defendant in certain litigation arising in the normal course of business. In the opinion of management, the ultimate resolution of such litigation will not have a material effect on the Company's operating results, cash flows or financial position.

Item 4. *Submission of Matters to a Vote of Security Holders.*

The Company held its annual meeting of stockholders on April 12, 2004. Reference is made to Item 4. Submission of Matters to a Vote of Security Holders included in the Company's Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2004 for voting results and certain other information regarding the annual meeting.

Table of Contents**PART II****Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer of Purchases of Equity Securities.**

The Company's common stock is listed and traded on the American Stock Exchange (AMEX) under the Symbol MAX . The table below sets forth, for the quarterly periods indicated, the high and low sales prices per share of common stock during each full quarterly period.

	<u>High</u>	<u>Low</u>
FISCAL 2004:		
Quarter ended June 30, 2004	\$7.19	\$4.58
Quarter ended March 31, 2004	7.19	5.00
Quarter ended December 31, 2003	6.85	4.49
Quarter ended September 30, 2003	7.30	6.20
FISCAL 2003:		
Quarter ended June 30, 2003	\$8.18	\$5.70
Quarter ended March 31, 2003	7.40	6.40
Quarter ended December 31, 2002	8.00	5.00
Quarter ended September 30, 2002	9.10	7.00

As of September 20, 2004 there were approximately 326 holders of record. The Company has not paid any cash dividends since the fiscal year ended June 30, 1998. On July 29, 2004, the Company entered into a new senior loan agreement with Bank of America, N.A. which contains certain financial covenants that, among other things, limit the amount of annual dividends and stock repurchases to an amount not to exceed \$4,600 thousand.

Securities authorized for issuance under Equity Compensation Plans

Plan Category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excl. securities reflected in (a) or (b))
Equity compensation plans approved by security holders	551,473	\$ 10.62	554,097
Equity compensation plans not approved by security holders	3,438	\$ 14.36	0
Total	554,911	\$ 10.63	554,097

Stock prices have been adjusted retroactively to reflect the effect of the one-for-two reverse stock split that was effective June 18, 2003.

Table of Contents**Issuer Purchases of Equity Securities**

The following are the repurchases of the Company's common stock during the fourth quarter of fiscal 2004:

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Unit)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
Month #1 April 1, 2004 to April 30, 2004	14,500	\$ 6.17	N/A	N/A
Month #2 May 1, 2004 to May 31, 2004	0	N/A	N/A	N/A
Month #3 June 1, 2004 to June 30, 2004	0	N/A	N/A	N/A
Total	<u>14,500</u>	<u>\$ 6.17</u>		

Table of Contents**Item 6. Selected Financial Data.**

The following selected consolidated financial data for each of the five years in the period ended June 30, 2004 have been derived from the Company's audited consolidated financial statements. Certain reclassifications have been made to reflect the revenues and costs relating to the Air Centers and RPA operations as discontinued operations.

The information set forth below should be read in conjunction with the consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations included elsewhere in this Annual Report on Form 10-K.

(1) Gross margin as used here and throughout Management's Discussion and Analysis includes certain selling, general and administrative costs which are charged directly to the operating units, but excludes depreciation and amortization expenses and selling, general and administrative expenses.

Fiscal year ended June 30, 2004 compared to fiscal year ended June 30, 2003

As a result of the Company's sale of all of the outstanding stock in Air Centers in April 2004, the Company's fiscal 2004 financial results are segregated between the results from continuing operations, comprised of the Company's remaining three business segments, results from discontinued operations and the gain from sale of discontinued operations. The following discussion and analysis will include information on both the results from continuing and discontinued operations.

Table of Contents

The Company reported net income for fiscal 2004 of \$615 thousand or \$0.19 per basic and diluted share. This compares to a net loss of \$2,798 thousand or \$0.86 per basic and diluted share for fiscal 2003. The following table reports the segregation between results from continuing operations and discontinued operations for each of the years presented:

	Fiscal 2004	Fiscal 2003
	(in thousands of dollars)	
Income (loss) from:		
Continuing operations, net of taxes	\$(5,083)	\$(2,983)
Discontinued operations, net of taxes	(1,803)	185
Sale of discontinued operations, net of taxes	7,501	—
	<u>615</u>	<u>(2,798)</u>
Net income (loss) per share	<u>\$ 0.19</u>	<u>\$(0.86)</u>
Income (loss) per common share basic and diluted:		
Continuing operations, net of taxes	\$ (1.67)	\$ (0.92)
Discontinued operations, net of taxes	(0.59)	0.06
Sale of discontinued operations, net of taxes	2.45	—
	<u>0.19</u>	<u>(0.86)</u>
Net income (loss) per share	<u>\$ 0.19</u>	<u>\$ (0.86)</u>

The loss from continuing operations for fiscal 2004 includes the following significant items, for which additional information will be provided further in this discussion, which adversely affected the income (loss) from continuing operations:

- 1) \$1,799 thousand net expense associated with the settlement agreement relating to litigation with J O Hambro (the Hambro Settlement);
- 2) \$615 thousand net expense associated with the settlement agreement with David H. Murdock and related parties (collectively Murdock);
- 3) \$1,680 thousand expense for contractual termination benefits paid to the chairman of the board of directors upon his retirement as chairman and director.

MercFuel, the Company's aviation fuel sales operation, generated revenue in fiscal 2004 of \$322,631 thousand on sales volume of 278,448 thousand gallons, as compared to revenue of \$280,136 thousand on sales volume of 286,873 thousand gallons last year. Following is a comparison of MercFuel's sales information for fiscal 2004 and 2003:

	Fiscal 2004	Fiscal 2003
--	--------------------	--------------------

Commercial Sales		
Revenue (\$000)	\$ 252,824	\$ 233,425
Volume (thousand gallons)	239,244	258,455
Corporate Aviation/Fractional Jet		
Revenue (\$000)	\$ 69,808	\$ 46,712
Volume (thousand gallons)	39,204	28,418
MercFuel Total		
Revenue (\$000)	\$ 322,631	\$ 280,136
Volume (thousand gallons)	278,448	286,873
Gross margin (\$000)	\$ 6,080	\$ 5,926

Revenue for MercFuel's commercial segment increased \$19,399 thousand in fiscal 2004 to \$252,824 thousand on sales volume of 239,244 thousand gallons. The increased revenue for the commercial segment is due to higher average petroleum product prices resulting from concerns of oil supply disruptions due to the Iraq war and from increased worldwide demand for petroleum products due to an improving worldwide economy. MercFuel's commercial segment's average sales price in fiscal 2004 increased 17.0% over fiscal 2003's average sales price. The increased average sales price in fiscal 2004, as compared to fiscal 2003, represents increased revenue of approximately \$36,700 thousand. MercFuel's commercial sales volume decreased in fiscal 2004 to 239,244 thousand gallons, a reduction of 19,211 thousand gallons, or 7.4%, from MercFuel's fiscal 2003 commercial sales volume of 258,455 thousand. The reduced sales volume in fiscal 2004 is due to the cessation of business in fiscal 2003 by National. MercFuel was supplying aviation fuel to National on a secured basis under the auspices of the bankruptcy court through November 6, 2002, the day National announced it was ceasing operations. MercFuel's sales to National in fiscal 2003 through November 6, 2002 were \$24,737 thousand on 28,966 thousand gallons.

Table of Contents

Revenue for MercFuel's corporate/fractional jet ownership segment was \$69,808 thousand on sales volume of 39,204 thousand gallons, an increase of \$23,096 thousand, or 49.4%, and 10,786 thousand gallons, or 38.0%, from fiscal 2003 revenue of \$46,712 thousand on sales volume of 28,418 thousand gallons. The increase in sales revenue is due to the increase in worldwide petroleum product prices, increased use of private aircraft for both business and personal travel and MercFuel's strategic focus on this business segment. The average sales price for aviation jet fuel in the corporate/fractional jet ownership segment in fiscal 2004 increased 8.3% as compared to fiscal 2003 equating to increased revenue of approximately \$5,400 thousand. The increased sales volume equates to an increase in revenue of approximately \$17,700 thousand.

MercFuel's cost of aviation fuel was \$311,709 thousand in fiscal 2004 which represents an increase of 15.8% from MercFuel's cost of aviation fuel in fiscal 2003 of \$269,239 thousand. The average cost of aviation fuel per gallon increased 19.3% in fiscal 2004 to \$1.120 per gallon. MercFuel's operating expenses, excluding the cost of aviation fuel, was \$4,842 thousand in fiscal 2004, a reduction of \$130 thousand from fiscal 2003 operating expense excluding aviation fuel cost of \$4,972 thousand.

Air Cargo's revenue was \$39,549 thousand in fiscal 2004, an increase of \$6,858 thousand, or 21.0%, from fiscal 2003 revenue of \$32,691 thousand resulting in gross margin of \$1,800 thousand in fiscal 2004, a reduction of \$785 thousand from last year's gross margin of \$2,585 thousand.

	Fiscal 2004	Fiscal 2003
Revenue (\$000)		
Cargo handling	\$25,833	\$25,243
Cargo logistics services	8,867	3,658
Cargo general sales agent services	4,849	3,790
	<u> </u>	<u> </u>
Air Cargo total	\$39,549	\$32,691
Gross margin (\$000)		
Cargo handling	\$ 2,243	\$ 2,748
Cargo logistics services	1,734	618
Cargo general sales agent services	(704)	756
Cargo administrative	(1,473)	(1,537)
	<u> </u>	<u> </u>
Air Cargo total	\$ 1,800	\$ 2,585

The cargo handling segment reported revenue of \$25,833 thousand in fiscal 2004, an increase of \$590 thousand, or 2.3%, from fiscal 2003 revenue of \$25,243 thousand. Cargo handling's gross margin in fiscal 2004 was \$2,243 thousand, a decrease of \$505 thousand from last year's gross margin of \$2,748 thousand. The primary cause of the decline in gross margin is due to increased labor costs at Air Cargo's Avion warehouse at the Los Angeles International Airport.

The cargo logistics services segment reported revenue of \$8,867 thousand in fiscal 2004, an increase of \$5,209 thousand from fiscal 2003 revenue of \$3,658 thousand. The increased revenue in fiscal 2004 is due to the increased business activity associated with Air Cargo's Mercury World Cargo (MWC) operation. Cargo logistics services segment's gross margin in fiscal 2004 increased \$1,116 thousand from fiscal 2003 to \$1,734 thousand. The increased

gross margin is due to the increased business activity associated with MWC and lower payroll related expenses.

The cargo general sales agent (GSA) services segment reported revenue of \$4,849 thousand in fiscal 2004, an increase of \$1,059 thousand from fiscal 2003 revenue of \$3,790 thousand. The GSA services gross margin in fiscal 2004 was a loss of \$704 thousand as compared to a profit of \$756 thousand in fiscal 2003. The decrease in GSA's gross margin was associated with GSA's parcel delivery services, which ceased operations in May 2004.

Air Cargo's administrative expenses for fiscal 2004 were \$1,473 thousand, a reduction of \$64 thousand from last year. The fiscal 2004 expense includes severance expense of \$300 thousand associated with the termination of the chief operating officer of Mercury Air Cargo in December 2003.

Table of Contents

Maytag reported revenue of \$23,281 thousand in fiscal 2004, a reduction of \$1,140 thousand from last year's revenue of \$24,421 thousand. Maytag's fiscal 2004 gross margin was \$5,146 thousand, an increase of \$548 thousand from fiscal 2003 gross margin of \$4,598.

	Fiscal 2004	Fiscal 2003
Revenue (\$000)		
Refueling	\$ 8,439	\$ 8,703
Air Terminal	7,675	8,199
BOS	5,963	5,854
Weather Data	1,165	1,615
Other	39	50
	<hr/>	<hr/>
Total Maytag	\$23,281	\$24,421

The decrease in Maytag's revenue was due to the non-renewal of one refueling contract in fiscal 2004, one refueling contract during fiscal 2003 and the non-renewal of one air terminal contract in fiscal 2004.

Maytag's fiscal 2004 gross margin was \$5,146 thousand, an increase of \$548 thousand or 11.9% from fiscal 2003 gross margin of \$4,598 thousand. The increased gross margin in fiscal 2004 was primarily due to the recovery of wage increases on two contracts in fiscal 2004 of \$259 thousand and the settlement of a labor dispute on a BOS contract in fiscal 2003 of \$250 thousand.

Bad debt expense for continuing operations in fiscal 2004 totaled \$506 thousand or 0.13% of total revenue from continuing operations as compared to \$1,192 thousand or 0.35% of total revenue from continuing operations in fiscal 2003. The Company experienced no significant individual write-offs during either fiscal 2004 or 2003.

Selling, general and administrative (G&A) expenses in fiscal 2004 amounted to \$12,885 thousand, an increase of \$2,067 thousand or 19% from the fiscal 2003 expense of \$10,818 thousand. The G&A expenses for fiscal 2004 includes \$1,680 thousand for the severance payment to the retiring chairman of the board of directors and increased audit fees of approximately \$311 thousand due to the re-audit of the Company's financial statements for fiscal 2002 and 2001. The Company expects certain G&A expenses to increase as the Company maintains compliance with the requirements of the Sarbanes-Oxley Act of 2002.

Depreciation and amortization expense from continuing operations was \$2,828 thousand in the current period as compared to \$2,782 thousand last year.

Interest and other expense from continuing operations in the current period was \$654 thousand, a decrease of \$440 thousand from last year's interest and other expense from continuing operations of \$1,094 thousand.

The Company incurred settlement expenses of \$2,414 thousand in fiscal 2004 associated with two settlements. Of this amount, \$1,799 thousand was associated with the Hambro Settlement agreement whereby the parties agreed to the following: 1) Hambro's agreement to release certain claims against the Company; 2) the Company's agreement to dismiss certain litigation against Hambro; 3) the Company's agreement not to initiate certain litigation against Hambro; 4) the reimbursement of certain costs incurred by Hambro associated with pending litigation and the defense preparation; and 5) the purchase of 343,600 shares of the Company's common stock owned by Hambro. The settlement expense represents the difference between the total amount paid by the Company to Hambro and the trading value of

the Company's common stock purchased on the day the settlement was made. Settlement expense of \$615 thousand was associated with the Murdock Settlement whereby the parties agreed: 1) to enter into a mutual release of claims 2) to the payment of \$525 thousand to Murdock for reimbursement of all cost, fees and expenses incurred by Murdock in connection with the settlement agreement and the due diligence investigation of the Company's businesses; and 3) that the Company purchase 150,000 shares of the Company's common stock owned by Murdock at \$6.00 per share. The settlement expense represents the difference between the total amount paid by the Company to Murdock and the trading value of the Company's common stock purchased on the day the settlement was made.

In fiscal 2003, as a result of the restructuring of the Company's long-term debt, the Company incurred debt extinguishment costs of \$1,773 thousand. This is comprised of the unamortized portion of the deferred debt issuance costs associated with the previous senior collateralized credit facility and the subordinated note at the time of early extinguishment of this debt and note amendment and expenses incurred associated with other refinancing options that were not completed.

Total income tax expense for fiscal 2004 was \$2,481 thousand, segregated by income taxes on the gain on the sale of Air Centers of \$4,816 thousand, or 39.1% of the pre-tax gain, partially offset by an income tax benefit of \$1,157 thousand, or 39.1%, on the loss from discontinued operations and by an income tax benefit of \$1,178 thousand, or 18.8%, on the loss from continuing operations. This compares

Table of Contents

to an income tax benefit of \$1,470 thousand in fiscal 2003 representing an income benefit of \$1,567 thousand, or 34.4%, on the loss from continuing operations partially offset by an income tax expense of \$97 thousand, or 34.4%, on the income from discontinued operations. The fiscal 2004 income tax benefit was adversely affected by the non-deductibility for income tax purposes of certain settlement costs incurred by the Company associated with the Hambro Settlement and the Murdock Settlement. The total non-deductible settlement costs in fiscal 2004 were \$2,414 thousand.

On April 12, 2004, upon approval from the Company's stockholders at the Annual Stockholders' meeting, the Company sold all of the outstanding common stock of Air Centers, which represented 100% of the then outstanding common stock in Air Centers, to Allied with the Company receiving total consideration for the sale in cash at closing of \$76,349 thousand. Accordingly the Company classified all of the business activities associated with the Air Centers and the debt service costs associated with the debt repaid with the proceeds from the sale, as discontinued operations in the financial statements. For fiscal 2004, the Company reported a net loss from discontinued operations of \$1,803 thousand, which includes pre-tax operating income from the Air Centers of \$3,107 thousand and other expenses, primarily interest expense associated with the debt required to be repaid with the proceeds from the sale, of \$6,067 thousand. The net loss from discontinued operations for fiscal 2004 of \$1,803 thousand compares to net income of \$185 thousand in fiscal 2003. The Air Centers had revenue and gross margin of \$72,775 thousand and \$7,375 thousand in fiscal 2004, respectively, through the FBO Sale Closing Date as compared to revenue and gross margin of \$96,249 thousand and \$12,854 thousand, respectively, for the full twelve months of fiscal 2003. Depreciation and amortization expense was \$4,169 thousand in fiscal 2004 through the FBO Sale Closing Date as compared to \$5,179 thousand for fiscal 2003. Interest expense for the senior secured credit facility and the senior subordinated note for fiscal 2004 was \$6,067 thousand as compared to \$6,959 thousand in fiscal 2003.

The Company reported a net gain on the sale of Air Centers of \$ 7,501 thousand.

The Company may experience decreases in future sales volume and margins as a result of deterioration in the world economy, or in the aviation industry, and continued conflicts and instability in the Middle East, Asia and Latin America, as well as a result of potential future terrorist activities and possible military retaliation. In addition, world oil prices have been very volatile over the last several years. The Company expects continued volatility in world oil prices as a result of the instability in the Middle East. Since fuel costs represent a significant part of an airline company's operating expenses, volatility of fuel prices can adversely affect our customers' business and consequently our results of operations.

Fiscal year ended June 30, 2003 compared to fiscal year ended June 30, 2002

Revenue from continuing operations for the Company was \$337,248 thousand in fiscal 2003, representing an increase of \$48,323 or 16.7% from fiscal 2002 revenue from continuing operations of \$288,925 thousand. The increase in revenue was primarily attributable to higher MercFuel revenue due to higher petroleum product commodity prices, resulting in an increase in revenue of \$48,195 thousand from fiscal 2002. In addition, Air Cargo had increased revenues of \$4,567 thousand. These gains were offset by reduced revenue of \$3,807 thousand for Maytag. Gross margin from continuing operations in fiscal 2003 was \$13,109 thousand, representing a decline of \$1,159 thousand, or 8.1% from the gross margin realized in fiscal 2002 of \$14,268 thousand. The lower gross margin is primarily due to lower government contract business activity during fiscal 2003 resulting in reduced gross margin of \$2,191 thousand as compared to fiscal 2002.

MercFuel, the Company's fuel sales business, generated revenue in fiscal 2003 of \$280,136 thousand, an increase of \$47,563 thousand or 20.5% from fiscal 2002 revenue of \$232,573 thousand. The increase in revenue was due to higher average sales prices offset by a slightly reduced sales volume. The average sales price in fiscal 2003 was \$0.977 per gallon, an increase of 20.8% from the fiscal 2002 average sales price of \$0.809 per gallon, equating to

higher revenue of \$48,195 thousand. Fuel sales volume in fiscal 2003 was 286,873 thousand gallons, a decrease of 778 thousand gallons from fiscal 2002 resulting in lower revenue of \$629 thousand. The higher average sales price is due to higher average worldwide petroleum product prices.

National, a customer of MercFuel, ceased operations on November 6, 2002. MercFuel had been providing fuel to National since May 1999. In December 2000, National filed for Chapter 11 bankruptcy protection and the Company continued to sell fuel to National on a secured basis under the auspices of the bankruptcy court. Sales to National for fiscal 2003 through November 5, 2002 were \$24,737 thousand on a volume of 28,966 thousand gallons, as compared to \$49,085 thousand on a volume of 68,704 thousand gallons for the full twelve months of fiscal 2002. As a result of the secured nature of the transactions, the amount of loss on the cessation of business was negligible.

MercFuel's gross margin in fiscal 2003 was \$5,926 thousand representing a decline of \$655 thousand or 10% from fiscal 2002. The average gross margin per gallon sold in fiscal 2003 was \$0.038 per gallon, essentially unchanged from fiscal 2002. The decline in gross margin was primarily due to the lower sales volume.

Table of Contents

The Company's Air Cargo operations had revenue of \$32,691 thousand in fiscal 2003, an increase of \$4,567 thousand or 16.2% from the fiscal 2002 revenue of \$28,124 thousand. The increase in revenue is attributed to higher revenue in the cargo handling operations, which had increased handling volume due to the west coast dockworkers strike and due to improved import/export activity.

The Air Cargo segment generated gross margin of \$2,585 thousand in fiscal year 2003, an increase of \$1,687 thousand or 188.9% from last year's gross margin of \$898 thousand, primarily due to the subleasing of the Air Cargo's Atlanta warehouse facility to Lufthansa Handling starting in March 2002 which improved margins by \$1,243 thousand and higher margin of \$617 thousand in Cargo Space Logistics.

Revenue from Maytag, the Company's government contract services business segment, was \$24,421 thousand in fiscal 2003, a decrease of \$3,807 thousand or 13.5% from the fiscal 2002 revenue of \$28,228 thousand. The decrease in Maytag's revenue was due to the loss of revenue of \$1,396 thousand from the Yokota, Japan contract, which expired in December 2001 at which time Maytag was not awarded the contract renewal as a result of a competitive bid process. In addition, Maytag lost refueling contracts in the prior year which provided \$2,061 thousand in revenue for fiscal 2002. In addition, revenue from Weather Data Services contracts decreased during fiscal 2003 by \$816 thousand. Air terminal contract revenue of \$8,199 thousand in fiscal 2003 revenues increased slightly from \$8,112 thousand in fiscal 2002.

Maytag had gross margin of \$4,598 thousand in fiscal 2003, a decrease of \$2,191 thousand or 32.3% from the gross margin of \$6,789 realized in fiscal 2002. The decrease in gross margin is primarily attributed to the loss of the Yokota, Japan contract, lower margin on the Kuwait Air Terminal contract and a reserve for a legal settlement of \$250 thousand in fiscal 2003.

Bad debt expense in 2003 totaled \$1,192 thousand or 0.35% of total revenue from continuing operations. This represents a \$22 thousand increase from fiscal year 2002 bad debt expense of \$1,170 thousand which represented 0.40% of fiscal 2002 revenue from continuing operations. The Company experienced no significant individual write-offs during fiscal 2003.

Selling, general and administrative (G&A) expenses decreased in fiscal 2003 to \$10,818 thousand, a decrease of \$953 thousand or 8.1% from the fiscal 2002 expense of \$11,771 thousand due to executive severance costs incurred in fiscal 2002.

Continuing depreciation and amortization expense was \$2,782 thousand in fiscal 2003 as compared to \$3,478 thousand in fiscal 2002.

The Company ceased the amortization of goodwill due to the adoption of Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets effective as of July 1, 2002 which resulted in a decrease in annual amortization expense of \$0.4 million from the prior year.

Interest and other expense from continuing operations in fiscal 2003 was \$1,094 thousand, a decrease of \$990 thousand from fiscal 2002 interest and other expense from continuing operations of \$2,084 thousand. In fiscal 2002, the Company wrote-off the deferred stock offering costs of \$985 thousand associated with the planned public and private offering of MercFuel common stock. The Company decided not to undertake the offering due to market uncertainties and general economic conditions at the time.

As a result of the restructuring of the Company's long-term debt in fiscal 2003, the Company incurred debt extinguishment costs of \$1,773 thousand. This is comprised of the unamortized portion of the deferred debt issuance costs associated with the previous senior collateralized credit facility and the subordinated note at the time of early

extinguishment of this debt, and note amendment and expenses incurred associated with other refinancing options that were not completed.

The effective income tax benefit rate on the loss from continuing operation for fiscal 2003 was 34.4% resulting in an income tax benefit on the loss from continuing operations of \$1,567 thousand. This compares to an effective income tax benefit rate on the loss from continuing operations for fiscal 2002 of 42.9% resulting in an income tax benefit of \$1,815 thousand. The lower effective income tax benefit rate in fiscal 2003, resulting in a lower income tax benefit, is due to non-deductible expenses for tax purposes and a lower effective state income tax benefit rate.

The Company reported income from discontinued operations, net of taxes, in fiscal 2003 of \$185 thousand as compared to \$6,937 thousand in fiscal 2002, which included \$5,447 thousand from the gain on the sale of the Bedford FBO. Revenue and gross margin from discontinued operations, which is comprised primarily of Air Centers, was \$96,249 thousand and \$12,854 thousand in fiscal 2003,

Table of Contents

respectively, as compared to \$94,417 thousand and \$13,545 thousand, respectively, in fiscal 2002. Depreciation and amortization expense was \$5,179 thousand and \$5,780 thousand in fiscal 2003 and fiscal 2002, respectively. Interest expense associated with the senior credit facility and the senior subordinated note was \$6,959 thousand in fiscal 2003 as compared to \$4,733 thousand in fiscal 2002.

Liquidity and Capital Resources

On April 12, 2004, after receiving approval from the Company's stockholders at the Annual Stockholders' meeting, the Company sold all of the outstanding common stock of Air Centers, which represented 100% of the then outstanding common stock in Air Centers, to Allied with the Company receiving total consideration for the sale in cash at closing of \$76,349 thousand (the FBO Sale). The final amount of the total consideration to be received by the Company from the FBO Sale is dependent upon, among other things, the determination of the amount of Air Centers net working capital at the FBO Sales Closing Date and the distribution of funds from the Hartsfield Escrow. In accordance with the terms of the Air Centers' SPA, the Company and Allied agreed to the extent Air Centers' actual net working capital at closing exceeded \$3,586 thousand, Allied is obligated to pay the Company the excess amount or to the extent Air Centers' net working capital is less than \$3,586 thousand, the Company is obligated to pay Allied the deficiency. The parties also agreed to deposit \$8,270 thousand at closing to establish the Hartsfield Escrow to be distributed to the parties over a period not to exceed five years from the FBO Sale Closing Date dependent upon the award of a new lease at the Hartsfield International Airport in Atlanta for a new FBO. If Air Centers is awarded the new lease, dependent upon the effective date and the terms and conditions of the new lease, the Company may be entitled to all, some or none of the amount deposited into the Hartsfield Escrow at closing.

The proceeds from the FBO Sale were used to: 1) prepay the outstanding principal on the WFF Credit Facility comprised of both a term loan and a revolving credit facility, in the amount of \$13,255 thousand; 2) pay accrued interest and fees associated with the WFF Credit Facility of \$203 thousand; 3) establish a cash collateral account with WFF in the amount of \$16,031 thousand in support of issued and outstanding letters of credit issued under the terms of the WFF Credit Facility; 4) prepay the outstanding principal, including the amount of accrued interest payable-in-kind (PIK), on the Note of \$24,120 thousand to Allied; 5) pay accrued interest and fees associated with the Note of \$141 thousand; 6) prepay the outstanding principal, including the amount of accumulated PIK interest, on the Hambro Notes in the amount of \$3,695 thousand; 7) pay accrued interest on the Hambro Notes in the amount of \$15 thousand; 8) establish the Hartsfield Escrow in the amount of \$8,270 thousand; and 9) pay for transaction related fees and expenses of \$1,324 thousand. After satisfying the obligations noted above, the Company received cash of \$9,295 thousand.

As a result of this transaction, the Company significantly reduced its long-term debt and enhanced its financial position. Prior to the FBO Sale, the Company's outstanding obligations associated with long term debt and the Hambro Notes were \$58,714 thousand. Immediately after the FBO Sale transaction, the Company's long-term debt obligations were reduced to \$19,018 thousand. As of June 30, 2004 the outstanding principal amount of long-term debt, including the current portion of long-term debt, was \$17,929 thousand.

As of June 30, 2004, the Company's unrestricted cash balance was \$4,690 thousand, an increase of \$1,888 thousand from June 30, 2003.

Net cash used in operations in fiscal 2004 was \$6,039 thousand, which includes the net cash contributed from operations for Air Centers through the FBO Sale Closing Date, as compared to cash provided by operating activities of \$4,807 thousand in fiscal 2003. The net cash used in operations for 2004 was primarily due to the net loss from both continuing and discontinuing operations and an increase in the Company's income tax obligations due to the FBO Sale. In addition, primarily the result of higher petroleum product prices and the resultant increase in trade receivables, the change in operating assets and liabilities in fiscal 2004 required \$3,738 thousand of cash.

Primarily as a result of the FBO Sale, the Company generated \$45,463 thousand of cash from investing activities as compared to net cash used in investing activities of \$940 thousand in fiscal 2003. Proceeds from the sale of properties and facilities in fiscal 2004 were \$73,753 thousand, of which \$73,673 thousand were from the FBO Sale. From the FBO sale proceeds, \$24,403 thousand was required to be deposited into restricted accounts as collateral for outstanding letters of credit or for the Hartsfield Escrow. The Company also expended \$5,020 thousand for capital projects during fiscal 2004, of which \$3,836 thousand was invested in Air Centers assets.

The Company used \$37,576 thousand in financing activities in fiscal 2004, due to the repayment of outstanding debt with proceeds from the FBO Sale, as compared to the use of \$6,784 thousand in financing activities in fiscal 2003. With the proceeds from the FBO Sale, the Company prepaid the outstanding principal amount of debt on the WFF Credit Facility of \$13,255 thousand and prepaid the outstanding principal on the Allied Note of \$24,120 thousand, including \$120 thousand of capitalized interest. The Company also purchased a total of 346,100 shares of outstanding common stock during fiscal 2004 for \$1,824 thousand. On December 12, 2003, as part of the settlement agreement entered into between the Company and J O Hambro Capital Management and certain of its affiliates and private

Table of Contents

clients (J.O. Hambro), the Company purchased 343,600 shares of common stock, which were then retired, from J O Hambro valued at \$1,787 thousand.

On December 12, 2003, the Company entered into a settlement agreement (the Hambro Settlement) relating to litigation with J O Hambro whereby the Company issued three promissory notes for an aggregate principle amount of \$3,586,000 (the Hambro Notes) in exchange for the following, among other things: 1) the repurchase of 343,600 shares of the Company s common stock owned by J O Hambro; 2) reimbursement of certain costs associated with the mutual release of claims; and 3) a standstill agreement associated with the pending lawsuits and anticipated proxy solicitations. The Hambro Notes were: 1) subordinated to the Senior Secured Credit Facility and to the Senior Subordinated Note; 2) due on the earlier of (a) March 31, 2006, provided that if the Senior Secured Credit Facility Matures on December 31, 2007 then such date shall be March 31, 2008 or (b) the ninetieth day following payment in full of the Senior Secured Credit Facility and the termination of commitments for the Senior Secured Lender to provide financing under the Senior Secured Credit Facility; and 3) bear and accrue interest at the rate of 12% per annum commencing on December 31, 2003. On the FBO Sale Closing Date, the Company paid JO Hambro \$3,710 thousand as payment for all outstanding obligations associated with the Hambro Notes.

On July 29, 2004, the Company and Bank of America, N.A. entered into a three-year \$30,000,000 revolving line of credit (the B of A Credit Facility) collateralized by all of the assets of the Company. The revolving line of credit will be used as collateral for any letters of credit issued by the Company and for general working capital needs. Upon the effective date of the B of A Credit Facility, \$15,414 thousand of cash deposited by the Company as collateral for outstanding letters of credit and reported as restricted cash on the Company s balance sheet at June 30, 2004 was released to the Company for general corporate purposes. As of the closing date of the B of A Credit Facility, the Company had \$29,238 thousand of revolving credit line available to it of which \$15,414 thousand was reserved for issued and outstanding letters of credit and \$13,824 thousand was available and undrawn. The amount of credit available to the Company on the B of A Credit Facility is determined monthly based on the amount of eligible customer receivables, as defined in the B of A Credit Facility agreement, up to an amount not to exceed \$30,000 thousand. The B of A Credit Facility contains certain financial covenants limiting the amount the Company can expend annually for cash dividends and/or stock repurchases and for capital expenditures. The Company is also required to maintain certain financial targets for tangible net worth, fixed charge and debt to worth ratios.

The Company has historically competed in a niche market where it generally purchases fuel from major oil companies and refiners using credit terms, which on average are shorter than the credit terms the Company offers its fuel customers. Because of its bulk buying and credit worthiness the Company is able to purchase fuel at a lower price than its customers. Typically, the Company buys on terms that range from 3 days to 15 days and sells on terms that can exceed 30 days. As a result, the Company requires adequate working capital and access to sufficient credit facilities to meet the day-to-day working capital requirements and to expand its existing operations. The amount of working capital required by the Company has depended, and is expected to depend, primarily on the price and quantity of aviation fuel bought and sold, the Company s extension of credit to its customers, customers compliance with the Company s credit terms and the credit terms extended to the Company by its suppliers. Increases in the quantity and/or price of fuel sold or in the credit terms extended to its customers and/or any reduction in credit terms extended to the Company by its suppliers and/or any substantial customer noncompliance with the Company s credit terms can result in an increase in the Company s working capital requirements. Under these circumstances, the Company s liquidity could be adversely affected unless the Company is able to increase vendor credit or increase lending limits under the Company s revolving credit facility. The Company believes, however, that its current financing arrangements and vendor credit terms should provide the Company with sufficient liquidity in the event of a temporary surge in fuel oil prices. However, to the extent that the revolving credit facility or any other credit facility is used to fund increased working capital requirements, the Company will incur additional debt service costs.

The Company's accounts receivable balance as of June 30, 2004 was \$50,974 thousand. The Company's accounts receivable are primarily comprised of customer trade receivables net of an allowance for doubtful accounts of \$1,492 thousand. The Company's credit risk is based in part on the following factors: 1) a substantial portion of the customer trade receivables are related to a single industry (aviation) and 2) at any given point in time, one or several customers may owe a significant balance to the Company. At June 30, 2004, MercFuel's accounts receivable comprised approximately 68% of the Company's total receivables.

The Company's MercFuel operations accounted for approximately 83.7% of the Company's total revenue from continuing operations in fiscal 2004. As of June 30, 2004, MercFuel trade receivables comprise approximately 68% of the Company's total trade accounts receivable and are owed from what the Company defines as smaller airlines, including certain foreign, cargo, regional, commuter and start-up airlines. These customers are affected by volatility in fuel prices and by fluctuations in the economy in general and in the aviation industry specifically. To the extent that MercFuel's airline customers are not able to immediately adjust their business operations to reflect increased operating costs, they could take relatively longer to pay the Company's accounts receivable. Such payment delays would further increase the Company's working capital demands. In some cases, the impact of existing, and potentially future, high aviation fuel prices along with and other economic fluctuations could materially impair the financial stability of an airline customer.

Table of Contents

such that it would be unable to pay amounts owed to the Company and could result in the airline customer filing for bankruptcy protection. In that event, Mercury could incur significant losses related to the uncollectability of the receivables. The Company has incurred in the past and is likely to continue to incur losses as the result of the business failure of a customer. The Company assesses its credit portfolio on an ongoing basis and establishes allowances which the Company believes are adequate to absorb potential credit problems that can be reasonably anticipated. This assessment includes an analysis of past due accounts as well as a review of accounts with significant balances. Allowances are established for all or some portion of past due balances based upon various factors, including the extent of delinquency, financial conditions of delinquent customers and amounts of insurance and collateral, if any.

Accounts receivable sales days outstanding for the three remaining business units was 41.4 days and 43.8 days as of June 30, 2004 and 2003, respectively, based on the average daily revenue for the fourth quarter of each fiscal year. Accounts receivable days sales outstanding have historically been impacted by a high volume of fuel sales to customers with extended payment terms. However, during fiscal 2001, the Company added a large customer, AirTran Airways, whose terms are prepaid. The terms of the prepayment provide for weekly payments equal to the following week's estimated sales. This prepaid customer accounted for approximately 23.0% and 24.3% of the Company's consolidated revenue from continuing operations for the fiscal years ended June 30, 2004 and 2003, respectively.

The Company's capital expenditures in fiscal 2004 were \$5,020 thousand, which includes \$3,836 thousand invested in Air Centers' facilities prior to the FBO Sale. In accordance with the terms of the Air Centers' SPA, the Company received additional cash consideration at closing of \$3,349 thousand for reimbursement of certain capital expenditures made by the Company associated with two Air Center related projects. This compares with capital expenditures in fiscal 2003 of \$4,065 thousand, of which \$3,675 thousand was associated with the Air Centers' operations, and \$4,500 thousand in fiscal 2002, which includes \$3,954 thousand for the Air Centers. Capital expenditures excluding Air Centers' were \$1,184 thousand, \$390 thousand and \$546 thousand in fiscal 2004, 2003 and 2002, respectively.

The Company is currently assessing different options regarding the utilization of the Company's excess cash to enhance stockholder value including strategic acquisitions, reinvestment of the cash into current operations and distributions to stockholders. The B of A Credit Facility limits the amount the Company can expend on an annual basis for capital expenditures to \$3,500 thousand for fiscal 2005 and for dividend and/or stock repurchases to \$4,600 thousand.

Absent a capital intensive acquisition, the Company believes that the combination of its operating cash flows, availability under the B of A Credit Facility, vendor credit and existing cash resources will provide it with sufficient liquidity during the next twelve months. The Company believes the availability under its B of A Credit and vendor credit should provide it with sufficient liquidity in the event of a continued surge in oil prices.

Contractual Obligations, Commercial Commitments and Off-Balance Sheet Arrangements

The Company's significant contractual obligations and financial commitments are summarized below. Additional information regarding the Company's financial commitments can be found in Notes 9, 10 and 17 to the Consolidated Financial Statements included in Item 15 of this Annual Report on Form 10-K.

Letters of Credit

As of June 30, 2004, the Company had outstanding letters of credit in the amount of \$15,414 thousand. As of June 30, 2004, these letters of credits were collateralized with cash deposited with the issuer of the letters of credit. Upon the execution of the B of A Credit Facility, these letters of credit are included as part of this credit facility, thereby eliminating the requirement for the Company to post the LOC Collateral but reducing the cash availability on the revolving line of credit. A letter of credit in support of the tax-exempt bonds issued by the California Economic

Development Financing Authority (CEDFA) comprised \$14,207 thousand of the outstanding letters of credit as of June 30, 2004.

Table of Contents***Lease Commitments***

As of June 30, 2004, the Company's future minimum lease payments under non-cancelable operating leases for rental properties with terms in excess of one year were as follows:

For the Fiscal Year Ending June 30,	Thousands of dollars
2005	\$ 7,187
2006	6,581
2007	3,286
2008	2,668
2009	2,402
Thereafter	5,376
Total minimum payments	\$27,500

As part of the Company's normal business practices, the Company enters into site leases with the respective airport agencies for its Air Cargo Operations. In addition, the Company enters into leases for fueling equipment used in its MercFuel business.

Long Term Debt

As of June 30, 2004, the Company had long-term debt and notes payable, including the current portion of principal due, in the amount of \$17,929 thousand. Please refer to Notes 9 and 10 of the Company's Consolidated Financial Statements for a description of the type of long term debt and notes payable outstanding. The following is the principal payment schedule associated with these obligations:

For the Fiscal Year Ending June 30,	Thousands of dollars
2005	\$ 139
2006	149
2007	160
2008	171
2009	183
Thereafter	17,127
Total minimum payments	\$17,929

The Company has no off- balance sheet financing arrangements.

Employment Contracts

The Company currently has employment agreements with its: 1) President and Chief Executive Officer (CEO); 2) Executive Vice President, General Counsel and Secretary (General Counsel); and 3) Vice President of Finance, Treasurer and Chief Financial Officer (CFO), and other business unit officers. Following is a brief description of the terms and conditions of the key employment contracts.

The amended and restated employment agreement with the CEO dated as of May 22, 2002 is for a term ending on November 15, 2004, subject to automatic one-year extensions starting on November 15, 2004 and on each successive anniversary date unless either party gives 30 days notice of non-renewal. The annual salary under this agreement is \$520,000. The CEO is also eligible for an annual bonus equal to: (i) 25% of the CEO s base compensation subject to the Company s consolidated operating income before sales and general and administrative expenses and depreciation (Adjusted EBIT) for the most recent completed fiscal year exceeding the average of the Adjusted EBIT for the immediately prior three fiscal years; and (ii) 4.166% of the amount by which the Adjusted EBIT for the most recently completed fiscal year exceeds the average Adjusted EBIT for the immediately prior three fiscal years. The CEO was eligible to participate in the 2002 Management Stock Purchase Plan (the 2002 Plan), wherein the CEO was eligible to purchase up to 193,825 shares of the Company s common stock from CFK Partners at a price of \$15.00 per share, both number of shares and price per share were adjusted for the one-for-two reverse stock split effective June 18, 2003, such purchase being funded by a loan from the Company. The CEO elected to participate in the 2002 Plan and purchased 193,825 shares of the Company s common stock, as adjusted for the stock split. The CEO s obligation to repay the Company is forgiven ratably over a ten-year period provided the CEO remains employed by the Company during such period.

Table of Contents

In the event the CEO's employment with the Company is terminated for cause, the CEO will not be entitled to receive or be paid a bonus for the year in which employment terminated. In the event the CEO's employment with the Company is terminated without cause, the Company will be obligated to pay the CEO the lesser of three years base compensation or the base compensation that would have been paid to him over the remaining term of the CEO's employment agreement, and a bonus for the fiscal year of employment termination in an amount which would otherwise be paid to the CEO prorated over the days the CEO was gainfully employed by the Company during the fiscal year in which the employment termination occurred.

The employment agreements for the General Counsel and the CFO dated as of May 22, 2002 are each for a period ending on May 22, 2005 subject to automatic one-year extensions starting on May 22, 2005 and each subsequent anniversary date, unless either party gives a minimum 30 days notice of non-renewal. Under the employment agreements the annual base salary for the General Counsel and the CFO is \$179,000 and \$170,000, respectively. Both the General Counsel and the CFO were eligible to participate in the 2002 Plan, wherein the General Counsel was eligible to purchase up to 15,948 shares and the CFO was eligible to purchase up to 12,500 shares of the Company's common stock from CFK Partners for a price of \$15.00 per share, all amounts as adjusted for the reverse stock split, with such purchases being funded through a loan from the Company. Both the General Counsel and the CFO elected to participate in the 2002 Plan and purchased the maximum number of shares allotted. The obligations to repay the Company are forgiven over a ten-year period, provided they each remained employed by the Company during such period.

In the event that either the General Counsel's or the CFO's employment with the Company is terminated for cause, or in the event of their death or disability, all rights under the respective employment agreements will cease. In the event that either the General Counsel's or the CFO's employment with the Company is terminated without cause, the Company will be obligated to pay the respective individual the lesser of one-year's base compensation or the base compensation that would otherwise be paid to them over the remaining term of the employment agreement, not to be less than the equivalent of six months base compensation.

In July 2004 the consulting agreement between the Company and the Chairman of the Company's board of directors was terminated as a result of the Chairman's retirement as Chairman and as a board of director. In accordance with the terms of the consulting agreement with the Chairman, the Chairman received a severance payment of \$1,680 thousand upon his retirement.

As of June 30, 2004, the following is the Company's future minimum payments for these and other executive employment contracts, excluding discretionary and performance-based bonuses:

For the Fiscal Year Ending June 30,	Thousands of dollars
2005	\$ 639
Total minimum payments	\$ 639

Purchase Commitments

Effective April 1, 2004, the Company's Air Cargo operations entered into a one-year renewal of its contract to purchase all of South African Airlines cargo capacity on its passenger flights from the United States and Canada to South Africa. The commitment for this one-year contract is approximately \$ 4,715 thousand, which is essentially unchanged from the previous year.

The Company currently has no fixed volume or fixed price purchase commitments for aviation fuel, although the Company may, from time-to-time, commit to such arrangements.

Guarantees

The Company is a guarantor on certain airport site and facility leases associated with 11 of Air Centers' FBO locations that were in effect as of the FBO Sale Closing Date. As a condition of the sale, Allied agreed to fully indemnify the Company from any and all costs associated with the pre-existing guarantees while Air Centers and Allied use their best efforts to have the Company removed as guarantor on these leases. As a result of the indemnification provided by Allied, the Company does not believe any claim being made on the Company as a result of these guarantees will have a material affect on the Company's results of operations, cash flows or financial position.

Table of Contents**Critical Accounting Policies and Estimates**

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported therein, including the financial information reported in Management's Discussion and Analysis of Financial Condition and Results of Operations. Estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results reported in future periods may be based upon amounts which differ from those estimates. The following represent what the Company believes are the critical accounting policies most affected by significant management estimates and judgments:

Allowance for Doubtful Accounts

The Company continuously monitors collections and payments from its customers and maintains a provision for estimated credit losses based upon its historical experience and any specific customer collection issues that have been identified. Accounts receivable are reported net of the allowance for amounts that may become uncollectable in the future. Such allowances can be either specific to a particular customer or general to all customers. The Company believes the level of the allowance for bad debts is reasonable based on past experience and an analysis of the net realizable value of the Company's trade receivables at June 30, 2004. However, the credit loss rate can be impacted by adverse changes in the aviation industry, or changes in the liquidity or financial position of its customers which could affect the collectability of its accounts receivable and its future operating results. If credit losses exceed established allowances, the Company's results of operations and financial condition may be adversely affected.

Contingencies

The Company accounts for contingencies in accordance with Statement of Financial Accounting Standards (SFAS) No. 5, Accounting for Contingencies. SFAS No. 5 requires that the Company record an estimated loss from a loss contingency when information available prior to issuance of the Company's financial statements indicates that it is probable that an asset has been impaired or a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Accounting for contingencies such as legal matters requires significant judgment. Many of these legal matters can take years to resolve. Generally, as the time period increases over which the uncertainties are resolved, the likelihood of changes to the estimate of the ultimate outcome increases. Management believes that the accruals for loss contingencies are adequate.

Revenue Recognition

Revenues are recognized upon delivery of product or the completion of service. For the sale of aviation fuel, revenue is recognized on the date the aviation fuel is delivered into the aircraft. For fuel delivered on an into-plane basis, revenue is recognized on the date the fuel is delivered into the aircraft. Aircraft maintenance contracts are recognized as the labor and maintenance is completed. Cargo handling revenue is recognized in the period the cargo is shipped out of the Company's cargo warehouses. Space logistics and general cargo sales agent services are recognized as revenue in the period that the related flights occur or the commissions are earned. Revenue associated with fixed rate fees of long-term service contracts is recognized on a straight-line basis over the term of the contract. Revenue associated with the variable rate fees of long-term contracts is recognized in the period in which services are performed and completed. The Company's contracts with the government of the United States of America are subject to profit renegotiation. To date, the Company has not been required to adjust profits arising from such contracts.

Income Taxes

Deferred income taxes are determined using the liability method. A deferred tax asset or liability is determined based on the difference between the financial statement and tax basis of assets and liabilities as measured by the enacted tax rates that will be in effect when these differences reverse. Deferred tax expense is the result of changes in the deferred tax asset or liability. If necessary, valuation allowances are established to reduce deferred tax assets to their expected realizable values.

Impairment of Long-Lived Assets and Goodwill

Long-lived assets and goodwill are reviewed for impairment, based on undiscounted cash flows, whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable but in any event, no less than once per year. If this review indicates that the carrying amount is not recoverable, the Company will recognize an impairment loss, measured by the future

Table of Contents

discounted cash flow method. In July 2001, the Financial Accounting Standards Board issued SFAS No. 142, Goodwill and Other Intangible Assets. This statement was adopted by the Company on July 1, 2002. Under this standard, goodwill is no longer amortized, but is tested for impairment annually. In accordance with this Statement, the Company's most recent assessment of impairment of goodwill and other intangibles was completed in February 2004 with no adjustments to the amount of goodwill and intangible assets required.

New Accounting Pronouncements

On April 30, 2003, the Financial Accounting Standards Board (FASB) issued SFAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. This standard amends and clarifies the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. The provisions of this statement are generally effective for contracts entered into or modified after June 30, 2003. The Company adopted SFAS No.149 on July 1, 2003 with no material impact on the Company's financial statements.

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46). This interpretation of Accounting Research Bulletin No. 51, Consolidated Financial Statements, addresses consolidation by business enterprises of variable interest entities. Under current practice, two enterprises generally have been included in consolidated financial statements because one enterprise controls the other through voting interests. FIN 46 defines the concept of variable interests and requires existing unconsolidated variable interest entities to be consolidated by their primary beneficiaries if the entities do not effectively disperse risks among the parties involved. This interpretation applies immediately to variable interest entities created after January 31, 2003. It applies in the first fiscal year or interim period beginning after December 15, 2003, to variable interest entities considered to be a special purpose entity (SPE) in which an enterprise holds a variable interest that it acquired before February 1, 2003. For non-SPE variable interest entities acquired before February 1, 2003, the interpretation must be adopted no later than the first interim or annual period ending after March 15, 2004. The interpretation may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. The Company adopted FIN 46 during the quarter ended March 31, 2004 with no material impact on the Company's financial statements.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, which establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 requires classification of financial instruments within its scope as a liability, including financial instruments issued in the form of shares that are mandatorily redeemable, because those financial instruments are deemed to be, in essence, obligations of the issuer. The Company adopted SFAS No. 150 during the quarter ended March 31, 2004 with no material impact on the Company's financial statements.

Inflation

The Company believes that inflation has not had a significant effect on its results of operations during the past three fiscal years.

Forward-Looking Statements

This Form 10-K and the information incorporated by reference in it includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We intend the forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in

these sections. All statements regarding our expected financial position and operating results, our business strategy, our financing plans and forecasted demographic and economic trends relating to our industry are forward-looking statements. These statements can sometimes be identified by our use of forward-looking words such as may, will, anticipate, estimate, expect or intend and similar expressions. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from the results, performance or achievements expressed or implied by the forward-looking statements. We cannot promise you that our expectations in such forward-looking statements will turn out correct. Factors that impact such forward-looking statements include, but are not limited to, quarterly fluctuations in results; the management of growth; fluctuations in world oil prices or foreign currency; changes in political, economic, regulatory or environmental conditions; the loss of key customers, suppliers or members of senior management; uninsured losses; competition; credit risk associated with accounts receivable; and other risks detailed in this Form 10-K and in our other

Table of Contents

Securities and Exchange Commission filings. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

The Company does not currently utilize material derivative financial instruments which expose the Company to significant market risk. However, the Company's cash flows, results of operations, and the fair value of its debt, may be adversely affected due to changes in interest rates with respect to its long-term debt. The table below presents principal cash flows and related weighted average interest rates of the Company's long-term debt at June 30, 2004 by expected maturity dates. Weighted average variable rates are based on rates in effect at June 30, 2004. These rates should not be considered a predictor of actual future interest rates.

Expected Maturity Date

	June-05	June-06	June-07	June-08	June-09	Thereafter	Total	Fair Value
Fixed Rate								
Other Debt	\$ 139,000	\$ 149,000	\$ 160,000	\$ 171,000	\$ 183,000	\$ 3,127,000	\$ 3,929,000	\$ 3,929,000
Average Interest Rate	6.93%	6.93%	6.94%	6.95%	6.95%	7.17%	7.12%	
Variable Rate								
Tax Exempt Bonds	\$ 0	\$ 0	\$ 0	\$ 0	\$ 0	\$ 14,000,000	\$ 14,000,000	\$ 14,000,000
Average Interest Rate	n/a	n/a	n/a	n/a	n/a	n/a	0.972%	

(1) The interest rate on the variable rate tax exempt bonds is based upon a weekly remarketing of the bonds.

In making its determination as to the balance of fixed and variable rate debt, the Company considers the interest rate environment (including interest rate trends), borrowing alternatives and relative pricing. The Company periodically monitors the balance of fixed and variable rate debt, and can make appropriate corrections either pursuant to the terms of debt agreements or through the use of swaps and other financial instruments.

Item 8. Financial Statements and Supplementary Data.

See Part IV, Item 15, pages F1 through F23 immediately following.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None

Item 9A. Controls and Procedures.

Evaluation of disclosure controls and procedures. Based on the evaluation of our disclosure controls and procedures (as defined in the Securities and Exchange Act of 1934 Rules 13a-15 (e) and 15d-15 (3) required by Securities Exchange Act Rules 13a-15 (b) or 15-d-15 (b)) the Company's Chief Executive Officer and Chief Financial Officer have concluded that as of the end of the period covered by this report the Company's disclosure controls and procedures were effective.

Changes in internal controls. There were no changes in the Company's internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information.

None

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders of Mercury Air Group, Inc.

In our opinion, the accompanying consolidated financial statements listed in the index appearing under Item 15(a)(1) present fairly, in all material respects, the financial position of Mercury Air Group, Inc. and its subsidiaries (the Company) at June 30, 2004 and 2003, and the results of their operations and their cash flows for each of the three years in the period ended June 30, 2004 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the index appearing under Item 15(a)(2) presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 4 to the consolidated financial statements, effective July 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 142, Goodwill and Other Intangible Assets. Accordingly, the Company ceased amortizing goodwill as of July 1, 2002.

MERCURY AIR GROUP, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 Nature of Business and Summary of Significant Accounting Policies:

Business

Mercury Air Group, Inc. (the Company), a Delaware Corporation, was organized in 1956 and provides a broad range of services to the aviation industry through three principal operating units which are all wholly owned subsidiaries of the Company: MercFuel, Inc. (MercFuel), Mercury Air Cargo, Inc. (Air Cargo), and Maytag Aircraft Corporation (Maytag). MercFuel's operations consist of the sale and delivery of fuel, primarily aviation fuel, to domestic and international commercial airlines, fractional jet ownership companies, corporate aviation fleets and air cargo companies. Air Cargo's operations consist of cargo handling, the sale of cargo capacity on other airlines, and general cargo sales agent services. Maytag is a provider of governmental contract services performing aircraft refueling and fuel storage operations, base operations support (BOS) services, air terminal and ground handling services and weather observation and forecasting services primarily for agencies of the government of the United States of America.

Through April 12, 2004, the Company operated a fourth operating unit, Mercury Air Centers, Inc. (Air Centers). Air Centers' operations consisted of aviation fuel sales, aircraft refueling operations (into-plane), aircraft ground support services, aircraft hangar services, aircraft parking (aircraft tie-down services) and aircraft maintenance at certain Air Center locations, known as Fixed Based Operations (FBOs). On April 12, 2004 (the FBO Sale Closing Date), following stockholder approval, the Company sold all of Air Centers outstanding common stock to Allied Capital Corporation (Allied). The assets sold through the sale of the stock of Air Centers consist of all of the assets of the Company's FBO business excluding the Company's FBO at the Long Beach Airport, which the Company has retained and continues to operate. For more detailed information on this transaction (the FBO Sale), please refer to Note 2 Discontinued Operations.

Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of Mercury Air Group, Inc. and its wholly owned and majority owned subsidiaries. All material intercompany transactions and balances have been eliminated.

Cash and Cash Equivalents

Cash equivalents consist of short-term, highly liquid investments that are readily convertible into cash and were purchased with maturities of three months or less.

Inventories

Inventories primarily consist of aviation fuel and are stated at the lower of moving-average cost or market.

Property, Equipment and Leaseholds

Property, equipment and leaseholds are recorded at cost. Depreciation and amortization is computed using the straight-line method over the estimated useful life of the related asset or over the lesser of the lease term and useful life for leasehold improvements. Expenditures incurred to maintain and repair property, equipment and leaseholds are

expensed as incurred. Expenditures which extend the estimated useful life or improve productivity are charged to their respective property accounts.

Goodwill and Other Intangible Assets

Acquisition cost in excess of the fair value of net assets acquired under the purchase method is classified as goodwill. Effective July 1, 2002 the Company adopted Statement of Financial Accounting Standards (SFAS) No. 142,

Goodwill and Other Intangible Assets. In accordance with SFAS No. 142, goodwill and intangible assets with indefinite lives are no longer amortized, but written down, as needed, based upon an impairment analysis that must occur at least annually or sooner if an event occurs or circumstances change that would more likely than not result in an impairment loss. All other intangible assets are amortized over their estimated useful lives.

Table of Contents***Impairment of Long-Lived Assets***

The Company reviews for impairment of long-lived assets and certain identifiable intangibles whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. The carrying value of a long-lived asset is considered impaired when the anticipated undiscounted cash flows from such asset is separately identifiable and is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair value of the long-lived asset. Fair value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets to be disposed of are determined in a similar manner, except that fair values are reduced for the cost of disposal. The cash flows used in such analyses are typically derived from the expected cash flows associated with the asset under review, which is determined from management estimates and judgments of expected future results. Should the actual cash flows vary from the estimated amount, a write-down of the asset may be warranted in a future period.

Stock Option Plans

The Company has four stock option plans, which are more fully described in Note 12. As permitted under SFAS No. 123, Accounting for Stock- Based Compensation (SFAS No. 123), and as amended by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure (SFAS No. 148) the Company measures compensation expense related to employee stock options granted utilizing the intrinsic value method as prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. The following table illustrates the pro forma effect on net income (loss) if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation.

	Year Ended June 30,		
	2004	2003	2002
Net income (loss), as reported	\$615,000	\$(2,798,000)	\$ 4,517,000
Add stock-based employee compensation expense included in net income (loss), net of tax	237,000	473,000	561,000
Less total stock-based employee compensation expense determined under the fair value based method for all awards, net of tax	(85,000)	(354,000)	(1,193,000)
Pro forma net income (loss)	<u>\$767,000</u>	<u>\$(2,679,000)</u>	<u>\$ 3,885,000</u>
Basic net income (loss) per share as reported	\$ 0.19	\$ (0.86)	\$ 1.38
Basic net income (loss) per share pro forma	0.24	(0.82)	1.18
Diluted net income (loss) per share as reported	0.19	(0.86)	1.35
Diluted net income (loss) per share pro	0.24	(0.82)	1.16

forma

The weighted average per share fair value of options granted in 2004, 2003 and 2002 is estimated as \$2.65, \$2.55 and \$4.53, respectively, on the date of grant using the Black-Scholes option pricing model using the following weighted average assumptions.

	<u>2004</u>	<u>2003</u>	<u>2002</u>
Expected life	5 years	5 years	5 years
Expected volatility	42%	43%	45%
Risk free interest rate	3.93%	0.97%	1.90%
Dividend yield	0%	0%	0%

The effect of applying SFAS No. 123 may not be representative of the pro forma effect in future years since additional options may be granted during those future years and the assumptions may change.

Operating Leases

The Company leases substantially all of its facilities under long-term operating leases. The majority of lease terms range from 2 to 20 years, and typically the leases contain renewable options.

Deferred Rent

Deferred rent represents the cumulative effect of reduced rental payments during the initial years for one of the Company's facility leases. The total rental cost is being recognized on a straight-line basis over the life of the lease.

Table of Contents

Environmental Related Liabilities

Liabilities related to environmental conditions that will result in future expenditures are recorded when it is determined that such liabilities are probable and the amount of the expenditures can be reasonably estimated. The Company considers that an environmental liability has been incurred when an environmental assessment or investigation has identified a condition that will require remedial action for which the Company is responsible. The timing of the recognition of the remediation costs is dependent upon the completion of the assessment or evaluation and the commitment to an appropriate remedial action plan. Liabilities associated with environmental remediation activities are not discounted nor reduced by possible recoveries from third parties.

Environmental related expenditures resulting from the Company's operations are expensed when determined. Environmental related expenditures resulting from operations prior to the time that the Company owned and/or operated the site or that are deemed to create future benefits to the Company are capitalized.

Foreign Currency Translation

Assets and liabilities of the Company's foreign subsidiaries are translated into U.S. dollars at the exchange rate prevailing at the balance sheet date and, where appropriate, at historical rates of exchange. Income and expense accounts are translated at the average exchange rate in effect during the year. The aggregate effect of translating the financial statements of the foreign subsidiaries is included in Accumulated other comprehensive income (loss) in the statement of stockholders' equity. Foreign exchange transaction gains (losses) were not significant during the years presented.

Revenue Recognition

Revenues are recognized upon delivery of product or the completion of service. For fuel delivered on an into-plane basis, revenue is recognized on the date the fuel is delivered into the aircraft. Aircraft maintenance contracts are recognized as the labor and maintenance is completed. Cargo handling and storage revenue is recognized in the period the cargo is shipped out of the Company's cargo warehouses. Space logistics and general cargo sales agent services are recognized as revenue in the period that the related flights occur or the commissions are earned. Revenue associated with fixed rate fees of long-term service contracts is recognized on a straight-line basis over the term of the contract. The Company reviews its fixed priced contracts on an annual basis to determine whether it expects to incur losses over the remaining term of the contract. If the Company expects to incur losses on a fixed price contract, the loss is recognized in the period in which the determination is made. Revenue associated with the variable rate fees of long-term contracts is recognized in the period in which services are performed and completed. The Company's contracts with the government of the United States of America are subject to profit renegotiation. To date, the Company has not been required to adjust profits arising from contracts with governmental agencies of the United States of America.

In certain cases, the Company sells aviation fuel to customers on a prepaid basis. Revenue associated with these sales is recognized upon delivery of the aviation fuel to the customer. Amounts received in excess of the amounts recognized as revenue are reported as a current liability to the customer and are reflected on the Company's balance sheet as Accrued expenses and other current liabilities.

Shipping and Handling

Revenue reported by the Company includes all amounts billed to a customer including applicable shipping and handling costs. In-bound freight and handling costs, or costs incurred to transport product from the Company's supplier to the Company's distribution point, are included as a component of product cost and, if the product is held as

inventory, included as a component of inventory and expensed as cost of sales when delivered to the customer. Outbound freight and handling costs, or costs incurred to transport product from the Company's distribution point to the customer, is included as cost of sales in the period in which the product is delivered to the customer.

F-8

Table of Contents

Income Taxes

Deferred income taxes are determined using the liability method. A deferred tax asset or liability is determined based on the difference between the financial statement and tax basis of assets and liabilities as measured by the enacted tax rates that will be in effect when these differences reverse. Deferred tax expense is the result of changes in the deferred tax asset or liability. If necessary, valuation allowances are established to reduce deferred tax assets to their expected realizable values.

Fair Value of Financial Instruments

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivables and payables, and debt instruments. The book values of all financial instruments, other than debt instruments, are representative of their fair values due to their short-term maturity.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

On April 30, 2003, the Financial Accounting Standards Board (FASB) issued SFAS No. 149, Amendment of Statement No. 133 on Derivative Instruments and Hedging Activities. This standard amends and clarifies the accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. The provisions of this statement are generally effective for contracts entered into or modified after June 30, 2003. The Company adopted SFAS No.149 on July 1, 2003 with no material impact on the Company's financial statements.

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities (FIN 46), which was subsequently revised in December 2003. This interpretation of Accounting Research Bulletin No. 51, Consolidated Financial Statements, addresses consolidation by business enterprises of variable interest entities. Under current practice, two enterprises generally have been included in consolidated financial statements because one enterprise controls the other through voting interests. FIN 46 defines the concept of variable interests and requires existing unconsolidated variable interest entities to be consolidated by their primary beneficiaries if the entities do not effectively disperse risks among the parties involved. This interpretation applies immediately to variable interest entities created after January 31, 2003. It applies in the first fiscal year or interim period beginning after December 15, 2003, to variable interest entities considered to be a special purpose entity (SPE) in which an enterprise holds a variable interest that it acquired before February 1, 2003. For non-SPE variable interest entities acquired before February 1, 2003, the interpretation must be adopted no later than the first interim or annual period ending after March 15, 2004. The interpretation may be applied prospectively with a cumulative-effect adjustment as of the date on which it is first applied or by restating previously issued financial statements for one or more years with a cumulative-effect adjustment as of the beginning of the first year restated. The Company adopted FIN 46 during the quarter ended March 31, 2004 with no material impact on the Company's financial statements.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity, which establishes standards for the classification and measurement of certain financial instruments with characteristics of both liabilities and equity. SFAS No. 150 requires classification of financial

instruments within its scope as a liability, including financial instruments issued in the form of shares that are mandatorily redeemable, because those financial instruments are deemed to be, in essence, obligations of the issuer. The Company adopted SFAS No. 150 during the quarter ended March 31, 2004 with no material impact on the Company's financial statements.

Reclassifications

Certain reclassifications were made to the prior years' financial statements to conform to the June 30, 2004 presentation.

Table of Contents

Risks and Uncertainties

Accounts receivable is comprised primarily of trade receivables from customers and is net of an allowance for doubtful accounts. The Company's credit risk is based in part on the following: 1) substantially all receivables are related to the aviation industry, 2) there is a concentration of credit risk as there are several customers who at any time have significant balances owed to the Company, and 3) significant balances are owed by certain customers that are not adequately capitalized. In addition, significantly higher fuel prices for extended periods of time may have a negative impact on the aviation industry as it substantially increases airlines' operating expenses. Smaller airlines with lower levels of capital may be more seriously impacted. The Company assesses its credit portfolio on an ongoing basis and establishes allowances which it believes are adequate to absorb potential credit problems that can be reasonably anticipated.

The Company purchases aviation fuel from a limited number of suppliers. If the Company's relationship with any of these key suppliers terminates, the Company may not be able to obtain a sufficient quantity of aviation fuel on favorable terms or may experience difficulty in obtaining aviation fuel from alternative suppliers. Furthermore, difficulties faced by these suppliers or aviation fuel shortages or the inability to obtain aviation fuel from alternate sources at acceptable prices and terms could impair the Company's ability to sell aviation fuel to its customers at competitive prices and terms.

Seasonality

The Company's commercial aviation fuel sales are seasonal in nature, being relatively stronger during the months of April through December than during the winter months due in part to weather conditions, and stronger during the summer months due in part to additional commercial and charter flights. Air Cargo's business is lower during the months of January and February and increases from March through June and September through December. The cargo business is affected by the fluctuations in international trade. Operations at military facilities are not seasonal but may vary with the needs of the military.

Note 2 Discontinued Operations:

On April 12, 2004, after receiving approval from the Company's stockholders at the Annual Stockholders' meeting, the Company sold all of the outstanding common stock of Air Centers, which represented 100% of the then outstanding common stock in Air Centers, to Allied with the Company receiving total consideration for the sale in cash at closing of \$76,349 thousand. The assets sold through the sale of the stock of Air Centers consist of all of the assets of the Company's FBO business excluding the Company's FBO at the Long Beach Airport which the Company will retain and continue to operate. In December 2002, when the terms and conditions of the \$24 million Senior Subordinated 12% Note (the Note) were amended, the terms of the amended Note contained punitive provisions if the Company did not prepay the entire amount outstanding on the Note by December 31, 2003. Since that time, the Company assessed several options to raise the capital required to prepay the Note to avoid being subject to those punitive provisions. The Company proposed and the board of directors approved the FBO Sale based on several factors including, but not limited to: 1) the terms of the Note, as amended in December 2002 contained punitive provisions if the Company did not prepay the entire amount due on the Note by December 31, 2003; 2) the Company was unable to raise capital in the financial market to prepay the Note; and 3) the Company was not able to sell other assets to adequately prepay the Note to avoid or eliminate those punitive provisions.

The final amount of the total consideration to be received by the Company from the FBO Sale is dependent upon, among other things, the determination of the amount of Air Centers' net working capital at the time of closing and the distribution of funds from the escrow account established at closing for the Hartsfield FBO (the Hartsfield Escrow). In accordance with the terms of the Stock Purchase Agreement entered into by the Company and Allied on October 28,

2003, as amended from time to time, the Company and Allied agreed to the extent Air Centers' actual net working capital at closing exceeded \$3,586 thousand, Allied is obligated to pay the Company the excess amount or to the extent Air Centers' net working capital is less than \$3,586 thousand, the Company is obligated to pay Allied the deficiency. The parties also agreed to deposit \$8,270 thousand at closing to establish the Hartsfield Escrow to be distributed to the parties over a period not to exceed five (5) years from the FBO Sale Closing Date dependent upon the award of a new lease at the Hartsfield International Airport in Atlanta for a new FBO. If Air Centers' is awarded the new lease, dependent upon the effective date and the terms and conditions of the new lease, the Company may be entitled to all, some or none of the amount deposited into the Hartsfield Escrow at closing.

The proceeds from the FBO Sale were used to: 1) prepay the outstanding principal on the Facility (See Note 9-Long Term Debt) due Wells Fargo Foothill Company (Foothill) comprised of both a term loan and a revolving credit facility, in the amount of \$13,255 thousand; 2) pay accrued interest and fees associated with the Facility of \$203 thousand; 3) establish a cash collateral with Foothill in the amount of \$16,031 thousand in support of issued and outstanding letters of credit issued under the terms of the Facility; 4) prepay the outstanding principal, including the amount of accrued interest payable-in-kind (PIK), on the Note of \$24,120 thousand to Allied; 5) pay

Table of Contents

accrued interest and fees associated with the Note of \$141 thousand; 6) prepay the outstanding principal, including the amount of accumulated PIK interest, on the Hambro Notes (See Note 16- Settlement Costs) in the amount of \$3,695 thousand; 7) pay accrued interest on the Hambro Notes in the amount of \$15 thousand; 8) establish the Hartsfield Escrow in the amount of \$8,270 thousand; and 9) pay for transaction related fees and expenses of \$1,324 thousand. After satisfying the obligations noted above, the Company received \$9,295 thousand.

The Company reported a net gain on the FBO Sale of \$7,501 thousand in fiscal 2004.

On July 3, 2001, the Company completed the sale of its subsidiary, RPA Airline Automation Services, Inc. (RPA), which provided airline revenue accounting and management information software consisting of proprietary software programs which are marketed to foreign and domestic airlines.

The following are the results of operations of discontinued business:

	Year Ended June 30,		
	2004	2003	2002
Total sales and revenue	\$72,775,000	\$96,249,000	\$94,417,000
Gross margin	7,375,000	12,854,000	13,545,000
Income (loss) before income taxes	\$ (2,960,000)	\$ 282,000	\$11,573,000
Income tax provision (benefit)	\$ (1,157,000)	\$ 97,000	\$ 4,636,000
Net income (loss)	<u>\$ (1,803,000)</u>	<u>\$ 185,000</u>	<u>\$ 6,937,000</u>

Note 3 Property, Equipment and Leaseholds:

Property, equipment and leaseholds consist of the following components:

	June 30,	
	2004	2003
Land, buildings and leasehold improvements	\$ 17,842,000	\$ 88,706,000
Equipment, furniture and fixtures	17,343,000	30,201,000
Construction in progress		998,000
	<u>35,185,000</u>	<u>119,905,000</u>
	(24,836,000)	(61,061,000)

Less accumulated depreciation and
amortization

_____	_____
\$ 10,349,000	\$ 58,844,000
_____	_____

Property, equipment and leaseholds are depreciated or amortized primarily on a straight-line basis over the lesser of their estimated useful lives or the lease term. Useful lives for buildings and leasehold improvements range from the lease term to 30 years and from 3 to 10 years for equipment, furniture and fixtures. Depreciation and amortization expense for the continuing property, equipment and leasehold improvements was \$2,828 thousand, \$2,782 thousand and \$3,478 thousand in fiscal 2004, 2003 and 2002, respectively.

Note 4 Goodwill and Other Intangible Assets:

The following table presents the transitional disclosures for the years ended June 30, 2004, 2003 and 2002 to reflect the adoption of SFAS No. 142 as of July 1, 2002. Such disclosures add back goodwill amortization to the 2002 results to be comparable with the 2004 and 2003 results, which do not include goodwill amortization.

	Year Ended June 30,		
	2004	2003	2002
Net income (loss), as reported	\$615,000	\$(2,798,000)	\$4,517,000
Goodwill amortization net of tax			248,000
Net income (loss), as adjusted	\$615,000	\$(2,798,000)	\$4,765,000
Diluted net income (loss) per share, as reported	\$ 0.19	\$ (0.86)	\$ 1.35
Diluted net income (loss) per share, as adjusted	\$ 0.19	\$ (0.86)	\$ 1.42

The Company had \$700 thousand and \$1,033 thousand of net intangible assets at June 30, 2004 and 2003, respectively. Accumulated amortization for intangible assets was \$300 thousand and \$967 thousand at June 30, 2004 and 2003, respectively. Intangible assets at June

Table of Contents

30, 2004 consist of value allocated to the purchase of aviation fuel sales contracts and are being amortized over five years. Amortization expense for intangible assets was \$200 thousand and \$100 thousand for the years ended June 30, 2004 and 2003, respectively. Estimated amortization expense in each of the next five years is as follows: \$200 thousand in 2005; \$200 thousand in 2006; \$200 thousand in 2007; \$100 thousand in 2008; and \$0 in 2009.

Note 5 Restricted Cash

Restricted cash consists of cash held for specific purposes and not available for general use by the Company. Restricted cash as of June 30, 2004 is comprised of: 1) \$16,133 thousand on deposit as collateral for outstanding letters of credit (LOC Reserve); and 2) \$8,270 thousand for the Hartsfield Escrow.

On July 29, 2004, the effective date of the senior secured credit facility with Bank of America, N.A. (Bank of America), \$15,414 thousand of the LOC Reserve became unrestricted as the outstanding letters of credit issued on behalf of the Company by Bank of America were secured by the collateral base of the Bank of America Credit Facility.

The Hartsfield Escrow is an escrow account established in accordance with the terms of the FBO Sale agreement and will be distributed in part or in whole, under certain conditions, over a period not to exceed five years from the FBO Sale Closing Date dependent upon the award of a new lease at the Hartsfield International Airport in Atlanta for a new FBO. If Air Centers is awarded the new lease, dependent upon the effective date and the terms and conditions of the new lease, the Company may be entitled to all, some or none of the Hartsfield Escrow.

Note 6 Other Assets:

Other assets consist of the following components:

	June 30,	
	2004	2003
Deferred loan fees, net	\$ 247,000	\$3,339,000
Capitalized acquisition costs		321,000
Internally developed software	453,000	603,000
Other	308,000	208,000
	<u> </u>	<u> </u>
	\$1,008,000	\$4,471,000
	<u> </u>	<u> </u>

Deferred loan fees represent costs incurred in connection with outstanding debt and are being amortized over the term of the debt. During fiscal 2004, the Company wrote off \$2,549 thousand in deferred loan fees related to debt retired with the proceeds from the FBO sale.

Note 7 Accrued Expenses and Other Current Liabilities:

Accrued expenses and other current liabilities consist of the following components:

	June 30,	
	2004	2003
Salaries, wages, and benefits	\$ 3,819,000	\$3,610,000
Sales and fuel taxes	1,988,000	2,086,000
Severance payment	1,890,000	
Legal accrual	1,519,000	80,000
Insurance premiums	789,000	361,000
Note premium		1,724,000
Other	1,820,000	1,383,000
	<u>\$11,825,000</u>	<u>\$9,244,000</u>

Table of Contents**Note 9 Long-Term Debt:**

Long-term debt consists of the following components:

	June 30,	
	2004	2003
Tax exempt bond pursuant to a loan agreement between the Company and the California Economic Development Financing Authority (CEDFA), with a redemption of \$14.0 million at the end of the fifteenth year (2013). The loan carries a variable rate which is based on a weekly remarketing of the bonds. The rate at June 30, 2004 was 1.1% per annum. In addition, a letter of credit has been issued on behalf of the Company to guarantee the credit at an annual cost of approximately 3.1% of the principal.	\$ 14,000,000	\$ 14,000,000
Notes payable to banks		11,588,000
Note payable by CFK Realty to a bank in monthly installments of \$25,779 per month including interest at 7.5% per annum collateralized by the Company's corporate office, maturing in December 2011 (See Note 18).	3,010,000	3,090,000
Note payable by MercMed to a bank in monthly installments of \$5,778 per month including interest at 5.59% per annum, collateralized by an aircraft. The rate is fixed for 36 months through March 2006, at which time the rate is adjusted at three-year intervals, to the federal home loan bank rate plus 275 basis point (See Note 18).	667,000	696,000
Mortgage payable to a financial institution in monthly principal installments of \$3,024 at an interest rate of 6.68% per annum, collateralized by land and buildings, maturing in May 2010.	252,000	267,000
Convertible subordinated debentures payable to seller of Excel Cargo in monthly installments of \$13,810 including interest at 8.5% per annum, collateralized by property acquired, which matured in September 2003.		54,000
	17,929,000	29,695,000
Less current portion of long term debt	139,000	4,194,000
	\$ 17,790,000	\$ 25,501,000

Notes payable to banks at June 30, 2003 consisted of a loan and security agreement (the Facility), entered into on

December 30, 2002 with Wells Fargo Foothill (WFF), a division of Wells Fargo Bank and Cerberus Partners for a five year term expiring December 30, 2007 that replaced the Company s former collateralized credit facilities. Outstanding borrowings under the Facility as of June 30, 2003 consisted of a term loan and a revolving line of credit, in the amount of \$11,588 thousand. All outstanding obligations associated with the Facility were fully satisfied with proceeds from the FBO Sale on April 12, 2004.

The note payable by CFK Realty is collateralized by the building that is the Company s corporate headquarters that has a net book value of \$3,967 thousand at June 30, 2004. The note payable by MercMed is collateralized by an aircraft that has a net book value as of June 30, 2004 of \$1,167 thousand. The mortgage payable is collateralized by land and a building that is the corporate headquarters for Maytag and has a net book value of \$415 thousand at June 30, 2004.

The following are the annual maturities of long term debt for each of the next five fiscal years and in total thereafter:

2005	\$ 139,000
2006	149,000
2007	160,000
2008	171,000
2009	183,000
Thereafter	17,127,000
	<u>17,929,000</u>
	<u>\$17,929,000</u>

Table of Contents**Note 10 Senior Subordinated Note:**

On September 10, 1999 the Company issued, in a private placement, a \$24.0 million Senior Subordinated 12% Note (the Note) due in 2006 with detachable warrants to acquire 251,563 shares of the Company's common stock originally exercisable at \$13.00 per share, as adjusted for the reverse stock split effective June 18, 2003. The Note agreement was first amended on November 16, 2001, whereby the exercise price of the warrants was reduced to \$11.00 per share. The Note Agreement was then subsequently amended on December 30, 2002 whereby, among other things, the exercise price on the original stock warrants was reduced to \$7.484 per share. On October 28, 2003, the Company reduced the exercise price on these original warrants to \$6.10 per share in connection with the acquisition of the Note by Allied on that date. The Note was retired on April 12, 2004 utilizing proceeds from the FBO Sale.

The following were the components of the Note at June 30, 2003:

	2003
Senior Subordinated Note, before discount	\$24,000,000
Valuation of warrants credited to additional paid-in-capital	(1,427,000)
Accumulated amortization of warrants	872,000
	<hr/>
Senior Subordinated Note	\$23,445,000
	<hr/>

Note 11 Mandatorily Redeemable Preferred Stock:

The Company issued 462,627 shares of Series A 8% Cumulative Convertible Preferred Stock (the Preferred Stock) at a stated value of \$1.00 per share with a par value of \$0.01 per share in December 2002 to investors having a pre-existing relationship with the Company, comprised of customers and employees. The issuance of the Preferred Stock occurred after the Company was unable to drawdown on its then senior revolving credit facility.

The shares of the Preferred Stock are convertible to common stock, at the option of the stockholder, at a conversion price of \$7.50 per share. Dividends on the Preferred Stock accrue on an annual basis at an annual rate of 8.0% and shall be fully cumulative and shall accrue whether or not they have been declared and whether or not there are profits, surplus or other funds of the Company legally available for the payment of dividends. Such dividends shall be paid, either in cash or in-kind, at the election of the Company. Accrued dividends at June 30, 2004 were \$56,000. During a 30-day period immediately following the third, fourth, fifth and each subsequent anniversary date of the issuance of the Preferred Stock, both the Company and the stockholder have the option to redeem the then outstanding shares of Preferred Stock for an amount equal to \$1.00 plus all accrued but unpaid dividends for each share of Preferred Stock redeemed. The Company has the option, whether the Company or the Stockholder exercised their redemption option, to pay all or part of the redemption in shares of the Company's common stock. In the event of any liquidation of the Company, the holders of Preferred Stock have a liquidation preference over common stock, plus all declared but unpaid dividends. In the event the assets are insufficient to cover the aforesaid amounts, the preferred stockholders would share in the assets ratably in proportion to the full preferential amount.

Note 12 Employee Stock Option Plans:

The Company has the following stock option plans: the 1990 Long-Term Incentive Plan (1990 Incentive Plan); the 1990 Directors Stock Option Plan (1990 Directors Plan); the 1998 Long-Term Incentive Plan (1998 Incentive Plan); the 1998 Directors Stock Option Plan (1998 Directors Plan); and the 2001 Stock Incentive Plan (2001 Incentive Plan). The Company has reserved 864,816 shares related to the Incentive Plans and 240,754 shares related to the Directors Plans. The Company has also reserved 3,438 shares for special option grants made outside the Plans. Options granted pursuant to the Plans and special grants are generally made at the fair market value of such shares on the date of grant and generally vest over twelve months. The contractual lives of the options are generally ten years.

14.364 - 16.875	102,530	5.36	15.30	61,582	15.51
	<u>595,859</u>	<u>6.38</u>	<u>\$10.93</u>	<u>554,911</u>	<u>\$10.63</u>

The Company had shares exercisable under the various options plans of 476,106 and 381,828 at June 30, 2004 and 2003, respectively, at a weighted average exercise price of \$11.37 and \$10.68, respectively.

During fiscal 2003, the Company extended the termination dates of certain stock options for an additional five years for 55,730 shares held by a director, an officer, and several employees of the Company, resulting in compensation expense of \$318,000. No other terms were modified including the vesting period or exercise price.

During fiscal 2002, the Company extended the termination dates of certain stock options for an additional five years for 16,625 shares held by an officer and a director, resulting in compensation expense of \$87,000. No other terms were modified including the vesting period or exercise price.

During fiscal 1996, the Company sold 68,750 shares of its common stock to two officers for \$812,500. The officers each paid \$40,000 in cash and issued promissory notes of \$732,500 for the balance of the purchase price. The notes are payable over ten years and due in fiscal 2006. As of June 30, 2004, \$533 thousand remained outstanding.

During fiscal 2002 in connection with the 2002 Management Stock Purchase Plan, the Company loaned certain officers a total of \$3,934 thousand to purchase shares in the Company's stock from CFK Partners (see Note 18) at a price of \$15.00 per share, as adjusted for the one-for-two reverse stock split effective June 18, 2003. The split adjusted trading price of the shares at that time was \$9.80 per share. Included in this amount was a full recourse loan of approximately \$2,907 thousand made to the Company's CEO (Full Recourse Note). The remaining \$1,027 thousand in loans (Non-Recourse Loans) to the other executives of the Company are collateralized by the related common stock. During fiscal 2002, the Company recorded a compensation charge of \$792 thousand in connection with these loans to reflect the benefit received by CFK Partners represented by the purchase price paid for the shares in excess of the market value of such shares at that time. The loans to the executives (including the Full Recourse Note) were made pursuant to employment agreements and contain provisions to be forgiven over either an eight-year or a ten-year period under certain conditions. The Non-Recourse Loans are being accounted for as a variable stock plan pursuant to APB Opinion No. 25, and the Full Recourse Note is being accounted for as a fixed stock plan. Compensation expense will be charged annually as the loans are forgiven. The amount of compensation expense recorded in fiscal 2004, 2003 and 2002 associated with the forgiveness of the loans was \$388 thousand, \$404 thousand and \$34 thousand, respectively.

Table of Contents

During fiscal 2004, two officers who participated in the 2002 Management Stock Purchase Plan terminated employment with the Company. On the date of their employment termination, their respective executive loans had not been fully forgiven. In exchange for the forgiveness of the outstanding executive loan amounts, the Company acquired 22,000 shares of the Company's common stock from those officers. The Company is holding these shares of stock as treasury stock at a cost of \$120 thousand. The cost of the treasury shares was based on the closing market price of the Company's common stock on the American Stock Exchange on the date of their respective terminations of employment. The difference between the value associated with the treasury stock and the outstanding balance on these executive loans of \$213 thousand was expensed.

Note 13 Common stock purchase warrants

The Note that the Company issued in 1999, which was repaid in full with the proceeds from the FBO Sale, included detachable warrants to acquire 251,563 shares of the Company's common stock originally exercisable at \$13.00 per share. The Note agreement was amended on November 16, 2001, whereby the exercise price was reduced to \$11.00 per share, and again on December 30, 2002, whereby the exercise price of the warrants was reduced to \$7.484 per share. On October 28, 2003, J H Whitney Mezzanine Fund, the originally holder of the warrants, assigned warrants to acquire 226,407 shares of the Company's common stock to Allied (the Allied Warrants) while retaining warrants to acquire 25,156 shares of the Company's common stock (the Whitney Warrants). At that time, the Company reduced the exercise price for the Allied Warrants to \$6.10 per common share. All of the outstanding warrants expire on September 9, 2006.

Note 14 Acquisitions and Divestitures:

On April 12, 2004, after receiving approval from the Company's stockholders at the Annual Stockholders Meeting, the Company sold all of the outstanding common stock of Air Centers, which represented 100% of the then outstanding common stock in Air Centers, to Allied with the Company receiving total consideration for the sale in cash at closing of \$76,349 thousand. The assets sold through the sale of the stock of Air Centers consist of all of the assets of the Company's FBO business excluding the Company's FBO at the Long Beach Airport which the Company will retain and continue to operate. The final amount of the total consideration to be received by the Company from the FBO Sale is dependent upon, among other things, the determination of the amount of Air Centers' net working capital at the time of closing and the distribution of funds from the Hartsfield Escrow. In accordance with the terms of the Stock Purchase Agreement entered into by the Company and Allied on October 28, 2003, as amended from time to time, the Company and Allied agreed to the extent Air Centers' actual net working capital at closing exceeded \$3,586 thousand, Allied is obligated to pay the Company the excess amount or to the extent Air Centers' net working capital is less than \$3,586 thousand, the Company is obligated to pay Allied the deficiency. The parties also agreed to deposit \$8,270 thousand at closing to establish the Hartsfield Escrow to be distributed to the parties over a period not to exceed five (5) years from the FBO Sale Closing Date dependent upon the award of a new lease at the Hartsfield International Airport for a new FBO. If Air Centers is awarded the new lease, dependent upon the effective date, terms and conditions of the new lease, the Company may be entitled to none, some or all of the Hartsfield Escrow.

The proceeds from the FBO Sale were used to: 1) prepay the outstanding principal on the Facility due Foothill comprised of both a term loan and a revolving credit facility, in the amount of \$13,255 thousand; 2) pay accrued interest and fees associated with the Foothill credit facility of \$203 thousand; 3) establish a cash collateral with Foothill in the amount of \$16,031 thousand in support of issued and outstanding letters of credit issued under the terms of the Foothill credit facility; 4) prepay the outstanding principal, including the amount of accrued interest PIK on the Note of \$24,120 thousand to Allied; 5) pay accrued interest and fees associated with the Note of \$141 thousand; 6) prepay the outstanding principal, including the amount of accumulated PIK interest, on the Hambro Notes in the amount of \$3,695 thousand; 7) pay accrued interest on the Hambro Notes in the amount of \$15 thousand; 8) establish the Hartsfield Escrow in the amount of \$8,270 thousand; and 9) pay for transaction related fees and

expenses of \$1,324 thousand. After satisfying the obligations noted above, the Company received \$9,295 thousand.

In June 2002, the Company sold its FBO operations at Bedford, Massachusetts for \$15,500 thousand in cash, resulting in a pre-tax gain of \$8,929 thousand. Estimated taxes of \$3,530 thousand for this sale were transferred to a bank escrow account pending payment of the related federal and state taxes or payment of bank debt. The remaining cash proceeds of \$11,520 thousand were utilized to repay bank debt.

Note 15 MercFuel Private Placement:

On March 7, 2001, the Company announced its plan to create an independent publicly traded company, MercFuel, Inc. MercFuel was organized in Delaware on October 27, 2000 as a wholly owned subsidiary of the Company. On January 1, 2001, the

Table of Contents

Company transferred to MercFuel the assets and liabilities of its Fuel Sales division. On May 16, 2001, and amended twice thereafter, MercFuel filed a registration statement related to the proposed offering. Due to market conditions, the Company was not able to complete the offering. The Company incurred \$985 thousand of expenses associated with the offering and private placement which were expensed during the second quarter of fiscal 2002.

Note 16 Settlement Costs

During fiscal 2004, the Company incurred settlement costs of \$2,414 thousand associated with two items.

In December 2003, the Company entered into a settlement agreement relating to litigation with J O Hambro Capital Management and certain of its affiliates and private clients (collectively J O Hambro) whereby the Company agreed to pay J O Hambro \$3,586,000 (the Hambro Settlement Amount) in exchange for the following, among other things: (1) the release of certain claims by J O Hambro; (2) the Company s agreement to dismiss litigation against J O Hambro; (3) the Company s agreement not to institute certain litigation against J O Hambro and certain other parties; (4) reimbursement of certain costs associated with the pending litigation and defense preparation for anticipated litigation between the parties; and (5) the purchase of 343,600 shares of the Company s common stock (collectively referred to as the Hambro Settlement). The Hambro Settlement resulted in settlement costs of \$1,799 thousand, which is non-deductible for income tax purposes, which represented the difference between the Hambro Settlement Amount and the trading value of the shares of common stock acquired by the Company on the day of the Hambro Settlement.

In July 2004, the Company entered into a settlement agreement with David H. Murdock and related parties (collectively Murdock). The Company and Murdock entered into a mutual release of claims whereby Murdock was paid \$525 thousand representing all costs, fees and expenses incurred by Murdock in connection with this settlement agreement and due diligence investigation of the Company s business and in consideration for Murdock s execution of the mutual release of claims. In addition, Murdock agreed to sell and the Company agreed to purchase 150,000 shares of the Company s common stock, representing all of the Company s common stock owned by Murdock, for \$6.00 per share (collectively the Murdock Settlement). The Murdock Settlement resulted in settlement costs of \$615 thousand, which is not deductible for income tax purposes, and represents the difference between the total amount paid by the Company for the Murdock Settlement and the trading value of the shares of common stock acquired by the Company on the day of the Murdock Settlement.

Note 17 Commitments and Contingencies:**Leases**

The Company is obligated under noncancellable operating leases. Certain leases include renewal clauses and require payment of real estate taxes, insurance and other operating costs. Total rental expense for continuing operations on all such leases for fiscal 2004, 2003 and 2002 was \$6,806 thousand, \$6,505 thousand and \$4,699 thousand, respectively, which is net of sublease rental income of approximately \$63,000, \$63,000 and \$183,000 for fiscal 2004, 2003 and 2002, respectively. The following are the minimum annual rentals on all noncancellable-operating leases having a term of more than one year at June 30, 2004:

2005	\$ 7,187,000
2006	6,581,000
2007	3,286,000
2008	2,668,000
2009	2,402,000
Thereafter	5,376,000

Total minimum payments required	\$27,500,000
---------------------------------	--------------

Purchase Commitments

On April 1, 2004, Air Cargo entered into a one-year renewal of its contract to purchase all of South African Airlines cargo capacity on its passenger flights from the United States and Canada to South Africa. Air Cargo's one-year commitment for these routes is approximately \$4,715 thousand, which is essentially unchanged from the previous year.

F-18

Table of Contents

Guarantees

The Company is a guarantor on certain airport site and facility leases associated with eleven of Air Centers FBO locations that were in effect as of the FBO Sale Closing Date. As a condition of the sale, Allied agreed to fully indemnify the Company from any and all costs associated with the pre-existing guarantees while Air Centers and Allied use their best efforts to have the Company removed as guarantor on these leases. As a result of the indemnification provided by Allied, the Company does not believe any claim being made on the Company as a result of these guarantees will have a material effect on the Company's results of operations, cash flows or financial position.

Litigation

On May 1, 2002, the Company received a notice of violation (NOV) from the Environmental Protection Agency (EPA) for the Air Centers Fort Wayne, Indiana facility alleging that the Company's spill prevention, control and countermeasure plan (SPCC Plan) did not meet certain federal regulations. On March 14, 2003, the Company received a NOV from the EPA alleging certain deficiencies in the Company's SPCC Plan for the Air Centers Fort Wayne, Indiana facility, submitted to the EPA in November 2002. The Company believes that it has resolved all deficiencies except for alleged deficiencies related to: 1) secondary containment for refueling trucks, and 2) secondary containment for discrete fuel loading areas. Pursuant to an agreement detailed in a letter submitted to the EPA on April 16, 2003, the Company has been permitted to suspend modifications to its SPCC Plan regarding the installation of secondary containment for its refueling trucks, pending resolution of federal regulatory issues associated with secondary containment for such trucks. The EPA has also extended national compliance with regulations related to discrete loading areas until August 17, 2004. Further, the EPA announced in a Federal Register notice dated June 28, 2004, 69 Fed. Reg. 38297 that the EPA is considering a proposal to amend 40 CFR 112 to address, among other things, the applicability of the rule to mobile/portable containers.

The FBO Sale's Stock Purchase Agreement between the Company and Allied provides that the Company shall be responsible for compliance, for a period of eighteen months subsequent to the FBO Sale Closing Date for any required secondary containment (as the term is defined in the Stock Purchase Agreement) required by any applicable governmental authority requiring secondary containment pursuant to environmental law for extended or overnight fuel truck parking at any FBO comprising the FBO business on the FBO Sale Closing Date. In the opinion of management, the ultimate resolution of this matter is not expected to have a material effect on the Company's results of operations, cash flows or financial position.

On February 26, 2003, Robert Bosch filed an action in the United States District Court, Eastern District of New York against Excel Cargo, Inc. (Excel), a wholly owned subsidiary of the Company, and others seeking \$1.5 million in damages for damaged cargo. On June 4, 2003 plaintiff's counsel agreed to voluntarily dismiss Excel, without prejudice, from the lawsuit conditioned on the production of information by Excel. To date, plaintiff has not yet followed through. This matter is insured and is being handled by insurance counsel. In the opinion of management, the ultimate resolution of this matter is not expected to have a material effect on the Company's results of operations, cash flows or financial position.

On April 16, 2003, the Plan Committee of Shuttle America Corp. filed an Adversary Proceeding in the United States Bankruptcy Court, District of Connecticut alleging preferential transfers in the amount of \$995 thousand. The parties reached a settlement agreement, which provided the Company to pay Shuttle America \$40 thousand. The settlement agreement was approved by the bankruptcy court with the Company satisfying, subsequent to the bankruptcy court approval, all outstanding obligations on this matter.

On July 9, 2003 Central Insurance Company, LTD filed an action in the United States District Court Central District of California-Western Division, against Air Cargo for damages paid to their assured United Microelectronics

Corp in the amount of \$335,337. In May 2004, this matter was dismissed without cost to the Company.

On November 26, 2003, Signature Flight Support Corporation filed a complaint against Air Centers and Allied alleging: 1) breach of contract and tortious interference with contract against Allied; 2) interference with prospective economic advantage against Allied; and 3) unfair business practices against the Company and Allied. The Company believes that the allegations are without merit and is in the process of preparing a response. The Company has agreed to indemnify Allied and its affiliates (including, without limitation, Air Centers after the closing of the FBO Sale), directors, officers, agents, employees and controlling persons from certain liabilities, obligations, losses or expenses to which Allied may become subject as a result of the complaint. On August 4, 2004 the parties participated in a court ordered mediation session and were not able to resolve their differences. In the opinion of management, the ultimate resolution of this complaint is not expected to have a material effect on the Company's results of operations, cash flows or financial position.

Table of Contents

The Company is also a defendant in certain litigation arising in the normal course of business. In the opinion of management, the ultimate resolution of such litigation will not have a material effect on the Company's results of operations, cash flows or financial position.

Note 18 Related Party Transactions:

CFK Partners was a partnership consisting of three of the Company's directors, one of whom also serves as the Company's Chief Executive Officer and another who serves as Chairman of the Board of Directors. In addition, CFK Partners also owns approximately 30% of the Company's outstanding common stock. In July 2004, after the retirement of Dr. Fagan as the Company's Chairman of the Board of Directors, Dr. Fagan withdrew as a member of CFK Partners. The remaining members of CFK Partners, now known as CK Partners, are the Company's Chief Executive Officer and one of the members of the Company's board of directors, who is also the Company's primary outside legal counsel.

Pursuant to the terms of Dr. Fagan's contract with the Company, upon Dr. Fagan's retirement as Chairman of the Board of Directors in July 2004, the Company paid Dr. Fagan a bonus and severance payment of \$1,890 thousand.

In January 2002, the Company sold the land and the office building which houses its corporate headquarters to CFK Realty Partners, LLC (CFK Realty) for \$4,200 thousand, consisting of \$2,800 thousand in cash and a note receivable of \$1,400 thousand. The note accrued interest at 5% and contained provisions whereby CFK Realty could elect to extend the maturity date in one-year increments through December 31, 2004. The note had an original maturity date of December 31, 2002. In early December 2002, and again in 2003 the Company received notification from CFK Realty that it was exercising its right to extend the maturity date of the note for an additional one year period. Concurrently with the sale, the Company also entered into a twenty-year lease of the property for a monthly rental amount of approximately \$37 thousand. During fiscal 2003, the Company expended \$275 thousand for leasehold improvements on its corporate headquarters. This amount will be amortized over the office lease term. CFK Realty financed the purchase of the headquarters through a \$3,200 thousand loan. In July 2004, CFK Realty was restructured whereby Dr. Fagan, the retired Chairman of the Company's Board of Directors, became the sole member of CFK Realty.

The Company uses the services of the legal firm McBreen and Kopko (the Firm) for various general corporate legal matters. Mr. Frederick H. Kopko, Jr., a partner of the Firm, is a member of the Company's Board of Directors and is a member of CK Partners. During fiscal 2004, 2003 and 2002, the Company paid the Firm \$916 thousand, \$699 thousand, and \$785 thousand, respectively, for legal services rendered by the Firm.

Note 19 Major Customers and Foreign Customers:

AirTran Airways represented approximately 23%, 24% and 20% of the Company's consolidated revenues from continuing operations for fiscal 2004, 2003 and 2002, respectively, with sales to NetJets comprising approximately 8%, 7% and 2% of the Company's consolidated revenues from continuing operations for fiscal 2004, 2003 and 2002, respectively. Government contract services consist of revenues from agencies of the government of the United States of America. Revenue from this segment represented approximately 6%, 7% and 10% of the Company's consolidated revenues from continuing operations for fiscal 2004, 2003 and 2002, respectively. National, a customer of MercFuel, ceased operations on November 6, 2002. The Company had been providing fuel to National since May 1999. In December 2000, National filed for Chapter 11 bankruptcy protection and the Company continued to sell fuel to National on a secured basis under the auspices of the bankruptcy court. Sales to National represented approximately 7% and 17% of consolidated revenues from continuing operations for fiscal 2003 and 2002, respectively. No other customers accounted for over 10% of the Company's consolidated revenues from continuing operations. The Company does business with a number of foreign airlines, principally in the sale of aviation fuels. For the most part, such sales

are made within the United States of America and utilize the same assets and generally the same personnel as are utilized in the Company's domestic business. Revenues related to these foreign airlines amounted to approximately 35%, 31% and 23% of consolidated revenues from continuing operations for fiscal 2004, 2003 and 2002, respectively.

Note 20 Net Income (Loss) Per Share:

Basic net income (loss) per common share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding during the period.

Diluted net income (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares and dilutive common stock equivalents. Common stock equivalents include stock options and shares resulting from the assumed conversion of subordinated debentures, when dilutive.

Table of Contents

The weighted average number of common shares outstanding and equivalent common shares outstanding have been adjusted retroactively to reflect the effect of the one-for-two reverse stock split that was effective June 18, 2003.

	Year Ended June 30, 2004		Year Ended June 30, 2003		Year Ended June 30, 2002

Note 21 Segment Reporting:

The Company operates and reports its activities through three principal units: MercFuel, Air Cargo and Maytag. Air Centers was sold on April 12, 2004 and RPA, was sold on July 3, 2001. As a result, Air Centers and RPA's historical operating results have been reclassified as discontinued operations. The segment data included below has been restated to exclude amounts related to the Air Centers.

	Corporate		Total

F-21

Table of Contents

The information provided above for Discontinued Business represents the depreciation and amortization and capital expenditures for Air Centers through the FBO Sale Closing Date for fiscal 2004. For fiscal 2003, the information provided for Discontinued Business represents depreciation and amortization and capital expenditures for the full year and the segment assets as of June 30, 2003.

Gross margin is used as the measure of profit and loss for segment reporting purposes as it is viewed by key decision makers as the principal operating indicator in measuring segment profitability. The key decision makers also view bad debt expense as an important measure of profit and loss. The predominant component of bad debt expense relates to MercFuel. Bad debt expense for MercFuel was approximately \$263 thousand, \$1,060 thousand in fiscal 2004 and 2003, respectively; total bad debt expense for continuing operations, was \$506 thousand and \$1,192 and in fiscal 2004 and 2003 respectively.

MERCURY AIR GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2005
(Unaudited)

Note 1 General***Business***

Mercury Air Group, Inc. (the Company), a Delaware corporation, was organized in 1956 and provides a broad range of services to the aviation industry through three principal operating units which are all wholly owned subsidiaries of the Company: MercFuel, Inc. (MercFuel), a Delaware corporation, Mercury Air Cargo, Inc. (Air Cargo), a California corporation, and Maytag Aircraft Corporation (Maytag), a Colorado corporation. MercFuel's operations consist of the sale and delivery of fuel, primarily aviation fuel, to domestic and international commercial airlines, fractional jet ownership companies, corporate aviation fleets and air cargo companies. Air Cargo's operations consist of cargo handling, the sale of cargo capacity on other airlines (Cargo Space Logistics), and general cargo sales agent services. Maytag is a provider of governmental contract services performing aircraft refueling and fuel storage operations, base operations support (BOS) services, air terminal and ground handling services and weather observation and forecasting services primarily for agencies of the government of the United States of America.

Through April 12, 2004, the Company operated a fourth operating unit, Mercury Air Centers, Inc. (Air Centers). Air Centers' operations consisted of aviation fuel sales, aircraft refueling operations (into-plane), aircraft ground support services, aircraft hangar services, aircraft parking (aircraft tie-down services) and aircraft maintenance at certain Air Center locations, known as Fixed Based Operations (FBOs). On April 12, 2004 (the FBO Sale Closing Date), following stockholder approval, the Company sold all of Air Centers outstanding common stock to Allied Capital Corporation (Allied) for \$76,349 thousand subject to adjustments for, among other things, Air Centers' net working capital as of the FBO Sale Closing Date and the distribution of funds from an escrow account established at closing associated with the Air Centers' Hartsfield International Airport FBO (the Hartsfield FBO). The net working capital adjustment was finalized during the second quarter of fiscal 2005. See Note 12 for details. The assets sold through the sale of the stock of Air Centers (the FBO Sale) consisted of all of the assets of the Company's FBO business excluding the Company's FBO at the Long Beach Airport which the Company has retained and continues to operate.

As used in this Quarterly Report on Form 10-Q, the term Company or Mercury refers to Mercury Air Group, Inc. and, unless the context otherwise requires, its subsidiaries. The Company's principal executive offices are located at 5456 McConnell Avenue, Los Angeles, California, 90066 and its telephone number is (310) 827-2737.

Forward-Looking Statements

This Quarterly Report on Form 10-Q and the information incorporated by reference in it includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We intend the forward-looking statements to be covered by the safe harbor provisions for forward-looking statements in these sections. All statements regarding our expected financial position and operating results, our business strategy, our financing plans and forecasted demographic and economic trends relating to our industry are forward-looking statements. These statements can sometimes be identified by our use of forward-looking words such as may, will, anticipate, estimate, expect or intend and similar expressions. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from the results, performance or achievements expressed or implied by the forward-looking statements. We cannot promise you that our expectations in such forward-looking statements will turn out correct. Factors that impact such forward-looking statements include, but are not limited to, quarterly fluctuations in results; the management of growth; fluctuations in world oil prices, interest rates or foreign

Table of Contents

MERCURY AIR GROUP, INC. AND SUBSIDIARIES

currency; changes in political, economic, regulatory or environmental conditions; the loss of key customers, suppliers or members of senior management; uninsured losses; competition; credit risk associated with accounts receivable; Sarbanes-Oxley Act Section 404 compliance costs, and other risks detailed in this Quarterly Report on Form 10-Q and in our other Securities and Exchange Commission filings. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events, or otherwise.

Risks and Uncertainties

Accounts receivable is comprised primarily of trade receivables from customers and is net of an allowance for doubtful accounts. The Company's credit risk is based in part on the following: 1) substantially all receivables are related to the aviation industry, 2) there is a concentration of credit risk as there are several customers who at any time have significant balances owed to the Company, and 3) significant balances are owed by certain customers that are not adequately capitalized. In addition, significantly higher fuel prices for extended periods of time may have a negative impact on the aviation industry as it substantially increases airlines' operating expenses. Smaller airlines with lower levels of capital may be more seriously impacted. The Company assesses its credit portfolio on an ongoing basis and establishes allowances which it believes are adequate to absorb potential credit problems that can be reasonably anticipated.

The Company purchases aviation fuel from a limited number of suppliers. If the Company's relationship with any of these key suppliers terminates, the Company may not be able to obtain a sufficient quantity of aviation fuel on favorable terms or may experience difficulty in obtaining aviation fuel from alternative suppliers. Furthermore, difficulties faced by these suppliers or aviation fuel shortages or the inability to obtain aviation fuel from alternate sources at acceptable prices and terms could impair the Company's ability to sell aviation fuel to its customers at competitive prices and terms.

The Company may experience decreases in future sales volume and margins as a result of deterioration in the world economy, or in the aviation industry, and continued conflicts and instability in the Middle East, Asia and Latin America, as well as a result of potential future terrorist activities and possible military retaliation. Through the Company's first nine months of fiscal 2005, petroleum product prices, including aviation fuel, have either achieved or been close to historical high levels. This sustained price level places additional financial burden on many of the Company's customers. If the Company's customers are not able to pass on the higher petroleum product prices to its customers, they may experience financial hardship which may result in the Company experiencing longer collection terms, which will place additional financial burden on the Company, or higher level of uncollectible accounts.

Basis of Presentation

The accompanying unaudited financial statements of the Company have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments consisting of normal recurring adjustments and accruals necessary for a fair presentation have been reflected in these financial statements. Operating results for the quarter are not necessarily indicative of the results that may be expected for the fiscal year ending June 30, 2005 due to seasonal and other factors. In order to maintain consistency and comparability between periods presented, certain prior period amounts have been reclassified to conform to the current period presentation. The accompanying financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2004.

MERCURY AIR GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

New Accounting Pronouncements

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 123R, Share-Based Payment (SFAS No. 123R). This standard requires companies to expense the value of employee stock options and similar awards. Under SFAS No. 123R, share-based payments (SBP) awards result in a cost that will be measured at fair value on the awards grant date, based on the estimated number of awards that are expected to vest. Compensation cost for awards that vest would not be reversed if the awards expire without being exercised. When measuring fair value, companies can choose an option-pricing model (e.g., Black-Scholes or binomial models) that appropriately reflects their specific circumstances and the economics of their transactions. Companies will recognize compensation cost for SBP awards as they vest including the related tax effects. Upon settlement of SBP awards, the tax effects will be recognized in the income statement or additional paid-in capital. Public companies are allowed to select from three alternative transition methods. The effective date for public companies is interim and annual periods beginning after June 15, 2005, and applies to all outstanding and unvested SBP awards at a company s adoption date. The Company is currently evaluating the potential impact of the adoption of SFAS 123R.

Note 2 Stock-Based Employee Compensation

The Company has four stock option plans. As permitted under SFAS No. 123, Accounting for Stock-Based Compensation (SFAS No. 123), and as amended by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure (SFAS No. 148), the Company measures compensation expense related to employee stock options granted utilizing the intrinsic value method as prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. The following table illustrates the pro forma effect on net income (loss) if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation.

	Nine Months Ended March 31,		Three Months Ended March 31,	
	2005	2004	2005	2004
	(In thousands, except per share data)

Diluted net loss per share as reported	\$ (0.70)	\$ (1.18)	\$ (0.62)	\$ (0.63)
Diluted net loss per share pro forma	\$ (0.72)	\$ (1.14)	\$ (0.67)	\$ (0.62)

Note 3 Income Taxes

Income tax expense has been computed based on the estimated annual effective income tax rate for the respective periods adjusted for significant events that have occurred during the respective periods that are not expected to recur

in future periods. The effective income tax rate from continuing operations was 27.0% and 14.3% for the three month periods ended March 31, 2005 and 2004, respectively. The effective income tax rate from continuing operations was 26.2% and 8.0% for the nine month periods ended March 31, 2005 and 2004, respectively.

Table of Contents

MERCURY AIR GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The effective income tax rate from continuing operations for the three month and nine month periods ended March 31, 2004 included the results of operations for the Air Centers. The consolidated statements of operations for the three month and nine month periods ended March 31, 2005 was restated to reflect the Air Center results as

Discontinued Operations . With this restatement, the effective tax rate from continuing operations for the three month and nine month periods ended March 31, 2004 would have been 14.4% benefit and 1.7% expense, respectively, and 14.2% and 25.6% benefit, respectively, for discontinued operations.

The settlement costs related to J.O. Hambro of \$1,799 thousand recognized by the Company in the second quarter of fiscal 2004 is not deductible in the determination of taxable income resulting in a permanent book to tax difference. The difference resulted in an increase in the income tax provision for the three and nine month periods ended March 31, 2004.

Note 4 Litigation

On March 14, 2003 the Company received a Notice of Violation from the United States Environmental Protection Agency (EPA) alleging certain deficiencies in the Company s spill prevention, control and countermeasure plan (SPCC Plan) for the Air Centers Fort Wayne, Indiana facility (Ft. Wayne Facility). The Company believes that it has resolved all deficiencies except for alleged deficiencies related to: 1) secondary containment for refueling trucks, and 2) secondary containment for discrete fuel loading areas. Pursuant to an agreement detailed in a letter submitted to EPA on April 16, 2003, the Company was permitted to suspend modifications to its SPCC Plan regarding the installation of secondary containment for its parked refueling trucks and loading areas, pending resolution of federal regulatory issues associated with SPCC requirements.

The Stock Purchase Agreement between the Company and Allied dated as of October 28, 2003 regarding the sale of all of the outstanding stock owned by the Company in Air Centers (the Air Centers SPA), provides that the Company shall be responsible for compliance, for a period of eighteen months subsequent to the FBO Sale Closing Date, for any secondary containment (as the term is defined in the Air Centers SPA) required by any applicable governmental authority pursuant to environmental law for extended or overnight fuel truck parking at any FBO comprising the FBO business on the FBO Sale Closing Date.

Pursuant to a letter dated October 18, 2004 from EPA to the Ft. Wayne facility, EPA demanded the installation of secondary containment at the Ft. Wayne Facility for parked refueling trucks (but not loading areas). While the company does not believe SPCC requirements regarding containment are applicable to mobile refueling trucks, it agreed to indemnify Air Centers for the reasonable cost of installation of such containment at the Ft. Wayne Facility in order to avoid further transaction costs. It did not admit that such indemnification was required under the Air Centers SPA or environmental law. The containment was installed in March 2005. The Ft. Wayne Facility s SPCC plan is currently being revised and certified to reflect the installation. It will then be submitted to EPA.

In the opinion of management, the resolution of this matter, including the installation of any secondary containment at other Air Centers facilities, is not expected to have a material effect on the Company s results of operations, cash flow or financial position.

On November 26, 2003, Signature Flight Support Corporation filed a complaint against Air Centers and Allied alleging: 1) breach of contract against Mercury Air Centers; 2) tortious interference with contract against Allied; 3) Tortious interference with prospective economic advantage against Allied; and 4) unfair business practices against Mercury and Allied. The Company has agreed to indemnify Allied and its affiliates (including, without limitation, Air Centers after the closing of the FBO sale), directors, officers, agents, employees and controlling persons from any liability, obligation, losses or expenses to which Allied may become subject as a result of the complaint. On January 25, 2005 the United States District Court for the Central District of California entered an order granting in part and denying in part Mercury Air Group s

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

motion for Summary Judgment or alternatively partial summary judgment and an order granting Allied Capital Corporation's motion for Summary Judgment. Under this order Allied Capital was completely removed from the case and was granted all relief requested. In regards to Mercury Air Group, Inc. the court found that there was a genuine issue of material fact as to whether or not Signature was entitled to its due diligence expenses. Subsequently the parties stipulated that Signature's recoverable damages in the event Signature subsequently proves the existence of a binding contract and a material breach by Mercury are to be \$160,000. Signature has given notice of appeal in this case. On April 18, 2005 in the companion case between the parties and others filed in the Superior Court of the State of California for the County of Los Angeles the parties entered into a Joint Stipulation Continuing Case Management Conference which continued all matters in the cause of action until after the next Case Management Conference which was reset until May 26, 2005 with Case Management Statements to be filed on May 19, 2005 to allow the parties to discuss a global settlement. The Company believes these allegations have no merit and will also be vigorously disputed and defended.

On July 14, 2004, Leon Shabott filed suit in the United States District Court, District of Massachusetts against Mercury Air Group, Inc. for damages arising out of the repair of Beechcraft twin Bonanza aircraft engines in June of 1998 claiming damages of up to \$150 thousand. The Company believes that the claim is barred by the statute of limitations and that it has other good and viable defenses as well. In the opinion of management, the ultimate resolution of this matter is not expected to have a material effect on the Company's results of operations, cash flows or financial position.

On April 28, 2005 notice of a complaint being filed in the United States District Court of the Southern District of Illinois by Mr. Lambert against BP Products, et al and Maytag Aircraft Corporation was received. The original complaint had been amended to include Maytag Aircraft Corporation as a named defendant which includes a number of jet fuel retailers. Plaintiff alleges that the defendants caused him personal injury and other damage as a result of his exposure to jet fuel products while in the Marines. This matter is currently under investigation, however, Mercury does not believe this matter will have a significant impact on its financial position or operating results.

On May 2, 2005 notice of action against Mercury Air Cargo, Inc. filed in the Superior Court of Los Angeles County for an accident which occurred on May 6, 2003 was received. Plaintiff claims that her heel was run over by a fork lift while she was working as a government inspector. The company is investigating the matter. The matter has been turned over to Mercury's insurance company and insurance counsel for handling. However, the company does not believe that this matter will have a significant impact on its financial position or operating results.

The Company is also a defendant in certain litigation arising in the normal course of business. In the opinion of management, the ultimate resolution of such litigation will not have a material effect on the Company's results of operations, cash flows or financial position. Reference is made to the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2004 for additional legal matters with respect to which no material developments have occurred in the current quarter.

Note 5 Restricted Cash

Restricted cash consists of cash held for specific purposes and not available for general use by the Company. Restricted cash as of March 31, 2005 is comprised of: 1) \$95 thousand on deposit with Wells Fargo Foothill as reserve for outstanding letters of credit fees; and 2) \$8,355 thousand for an escrow account established on the FBO Sale Closing Date associated with the Hartsfield FBO (the Hartsfield Escrow Account). The funds held in the Hartsfield Escrow Account are to be distributed to either one or both of the Company and Allied over a period not to exceed five years from the FBO Sale Closing Date dependent upon the award of a new lease at the Hartsfield International Airport in Atlanta for a new FBO. Dependent upon

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

the effective date of the new lease and the terms and conditions of the new lease, the Company may be entitled to all, some or none of the amount deposited into the Hartsfield Escrow Account at closing.

On October 11, 2004, the city of Atlanta notified Air Centers that it planned on entering into lease negotiations with a different company for the FBO at the Hartsfield International Airport under the then existing RFP process. On November 22, 2004, Air Centers was notified by the airport authority that the matter would be re-bid. The re-bid process is currently underway. If a new FBO lease at the Hartsfield International Airport is not awarded to Air Centers, the amount remaining undistributed in the Hartsfield Escrow Account on the date that Air Centers ceases operating the Hartsfield FBO will be distributed to Allied. The first installment of \$1,654 thousand was received on April 12, 2005.

Note 6 Debt

On July 29, 2004, the Company and Bank of America, N.A. (Bank of America) entered into a three-year \$30,000 thousand revolving line of credit (the B of A Credit Facility) collateralized by all of the assets of the Company, the terms of which were amended by the First Amendment to the Loan Agreement effective November 1, 2004 (the First Amendment), by the Second Amendment to the Loan Agreement effective January 31, 2005 (the Second Amendment) and by the Third Amendment to the Loan Agreement effective April 6, 2005 (the Third Amendment). The loan agreement, as amended, will expire on July 31, 2007, or earlier under certain conditions. Upon the effective date of the B of A Credit Facility, \$15,414 thousand of cash deposited by the Company as collateral for outstanding letters of credit and reported as restricted cash on the Company's balance sheet at June 30, 2004 was released to the Company for general corporate purposes. In accordance with the terms of the loan agreement, as amended, the revolving line of credit is used as collateral for any letter of credit issued by the Company and for general working capital needs. The amount of credit available to the Company on the B of A Credit Facility, as amended, is determined monthly and is equal to the lesser of 80% of the balance due on Domestic Eligible Receivables, and 2) \$30,000 thousand. The B of A Credit Facility, as amended, contains certain financial covenants limiting the amount the Company can expend annually for capital expenditures to \$2,000 thousand. The B of A Credit Facility, as amended, also prohibits the repurchase of stock and the payment of cash dividends, except for cash dividends in an amount not to exceed \$17,500 thousand by June 30, 2005, and stock purchases in an amount not to exceed \$1,000 thousand by June 30, 2005. The Company paid a cash dividend of \$17,500 thousand on November 5, 2004. The Company is also required to maintain certain financial targets for tangible net worth and fixed charges. As of March 31, 2005, the Company was not in compliance with the tangible net worth and fixed charges financial targets. A waiver was received from Bank of America.

On November 2, 2004, the Company requested and received a cash advance on the B of A Credit Facility in the amount of \$10,000 thousand. The funds received as a cash advance were used to fund the one-time special cash dividend and to meet on-going working capital requirements. As of March 31, 2005, the Company's borrowing under the revolving credit line was \$7,500 thousand.

As of March 31, 2005, the Company had \$30,000 thousand of revolving credit line available under the B of A Credit Facility, of which \$15,456 thousand was reserved for issued and outstanding letters of credit and \$7,044 thousand was available and undrawn.

On November 1, 2004, the Company and Bank of America entered into a Letter of Credit and Reimbursement Agreement (the LOC and Reimbursement Agreement) relating to the outstanding tax exempt bonds issued in 1998 pursuant to a loan agreement between the Company and the California Economic Development Financing Authority (CEDFA). As of November 1, 2004, the outstanding principal amount of the bonds outstanding was \$14,000 thousand. In accordance with the terms of the LOC and Reimbursement Agreement, Bank of America has issued an irrevocable direct pay letter of credit to the trustee for the bondholders in an amount of \$14,161 thousand (the CEDFA LOC) that replaced the previously existing irrevocable direct pay letter of credit of the same amount issued by Wells Fargo Bank,

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

N.A. on behalf of the Company, which was cancelled simultaneously with the issuance of the CEDFA LOC. In addition to the issuance of the CEDFA LOC, the LOC and Reimbursement Agreement require the Company to call for redemption bonds in the principal amount of \$500 thousand on each of April 1 and October 1 commencing on April 1, 2005. The CEDFA LOC was issued by Bank of America as part of the B of A Credit facility.

Note 7 Impairment of Long-Lived Assets

The Company owned a 69.6% equity interest in MercMed LLC (MercMed), which was formed in 1998 for the purpose of owning and operating an aircraft for the MercMed members. As a result of the age of the MercMed aircraft, changes in Federal Aviation Administration requirements restricting the altitude at which the MercMed aircraft can fly, the popularity of fractional jet ownership versus outright aircraft ownership and the technological advancements in aircraft design and construction, it was determined that the current market value of the MercMed aircraft was below the carrying value of the aircraft. During the first quarter of fiscal 2005, the book value of the MercMed aircraft was adjusted to reflect the current market value as determined by the MercMed members, which was determined to be \$532 thousand. This adjustment to market value resulted in an asset impairment loss of \$626 thousand.

On November 10, 2004, the Company, upon authorization from the Company's Board of Directors, entered into an agreement to sell all of its rights, title and interest in MercMed to Dr. Fagan. In accordance with the agreement between the Company and Dr. Fagan, the Company has agreed to pay for certain costs incurred by MercMed prior to October 1, 2004 and to provide Dr. Fagan with jet fuel in an amount not to exceed \$75 thousand over a five year period. Dr. Fagan has agreed to pay the debt service costs, including the outstanding principal associated with MercMed's loan and to hold the Company harmless in regard to this loan. As of December 31, 2004, the financial statements of MercMed are no longer included in the Company's consolidated financial statements.

Note 8 Net Income (Loss) Per Share

Basic net income (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares and dilutive common stock equivalents. Common stock equivalents include stock options and shares resulting from the assumed conversion of subordinated debentures, when dilutive.
