PART I

ITEM 4. - CONTROLS AND PROCEDURES

Following the merger of SmartForce PLC and SkillSoft Corporation on September 6, 2002, we integrated the business processes, human resources, disclosure controls and procedures, and internal controls of the two companies. During this process, significant deficiencies in disclosure controls and procedures and internal controls were identified predominantly with respect to financial reporting at non-U.S. subsidiaries of the former SmartForce PLC and our ability to process the consolidated financial closing cycle. The financial and regulatory compliance reporting at non - US subsidiaries was related primarily to delinquent statutory filings in Australia, France, The United Kingdom, the Republic of Ireland and Singapore for subsidiaries of the former SmartForce, PLC. Subsequent to the Merger, these filings were further delayed by the requirement to reflect the results of the restated financial statements of the historical SmartForce, PLC, which were filed with the SEC on September 22, 2003. These deficiencies resulted in a significant strain to the internal resources and on the infrastructure of the finance organization and adversely impacted both the year-end and quarter-end financial closing process for the fiscal year ended January 31, 2003. External resources were engaged to assist management in both the year-end and quarter-end financial closing process and in identifying areas for improvement for the fiscal year ended January 31, 2003. In addition, in fiscal years ended January 31, 2003 and 2004, permanent resources and accounting process improvements have been added and implemented to improve the non-U.S. finance operations, the financial closing process, and the overall internal control environment. Additionally, by January 31, 2004 all of the subsidiaries, with the exception of retail certification, were on one financial system. Our independent auditors have informed us that they believe we had no

Edgar Filing: SKILLSOFT PUBLIC LIMITED CO - Form 10-Q/A

material weaknesses in internal controls at January 31, 2004. However, they have informed us of certain reportable conditions at that date, including financial and regulatory compliance reporting at non-U.S. subsidiaries of the former SmartForce PLC and our ability to process the financial closing cycle at certain subsidiaries. The newly hired financial staff, focused corporate oversight and the successful migration to one financial system improved the financial closing process and allowed management to conclude that these significant deficiencies did not collectively constitute a material weakness.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer we evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of October 31, 2004. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that as a result of the implementation of mitigating controls and process improvements with respect to our disclosure controls and procedures, they were operating effectively as of October 31, 2004. However, we believe that continuous monitoring and improving of these disclosure controls and procedures will be required. Additionally, we have commenced a process of reviewing all of our material financial processes in an effort to assess our Sarbanes-Oxley 404 preparedness, which includes the establishment of an internal audit function.

No change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f)) under the Exchange Act occurred during the quarter ended October 31, 2004 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
