ITEM 8.01 OTHER EVENTS

Certain directors and officers of IPG Photonics Corporation (the "Company") adopted pre-arranged trading plans (each, a "Plan") designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, and the Company's policies regarding stock transactions. Under Rule 10b5-1, directors, officers and other persons who are not in possession of material non-public information may adopt a plan or contract for pre-arranged sales of Company securities under specified conditions and at specified times. Using these Plans, insiders can gradually diversify their investment portfolios, spread stock trades out over an extended period of time to reduce market impact and avoid concerns about transactions occurring at a time when they might possess inside information.

The directors and officers who have adopted Plans have informed the Company that these stock sales are part of their individual programs for asset diversification.

The Plan adopted by William Shiner, the Company's Vice President of Industrial Markets, provides for the sale of up to a total of 47,349 shares over a period of approximately seven months beginning October 5, 2007, unless terminated sooner in certain circumstances. All of these shares will be acquired through the exercise of stock options. Shares will be sold under the Plan on the open market at prevailing market prices, subject to minimum price thresholds.

Dennis P. Leonard, Jr., the Company's Vice President of Operations, amended his existing Plan to increase the total number of shares that may be sold under the Plan from 70,000 to 80,000.

The Company does not undertake to report Plans that may be adopted by any employees or directors of the Company in the future, or to report any modification or termination of any Plan, except to the extent required by law.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
