CHICAGO BRIDGE & IRON COMPANY N.V. AND SUBSIDIARIES

PART III

ITEM 11. EXECUTIVE COMPENSATION

Information appearing under "Executive Compensation" in the Company's 2001 Proxy Statement is incorporated herein by reference.

The Summary Compensation Table on page 11 of the Company's 2001 Proxy Statement is amended with respect to Richard E. Goodrich to reflect that he was granted options to purchase 946 shares in 2001, 33,596 shares in 2000 and 3,200 shares in 1999.

In addition, footnote (3) to such table, on page 12 of the Company's 2001 Proxy Statement, is amended with respect to Robert B. Jordan to reflect that he held an aggregate of 11,787 restricted shares with a value of \$314,713 at the end of the last completed fiscal year, based on the NYSE composite closing price of \$26.70/share on December 31, 2001.

The Option/SAR Grants in Last Fiscal Year table on page 13 of the Company's 2001 Proxy Statement is amended by adding the following line and footnote:

OPTION/SAR GRANTS IN LAST FISCAL YEAR

Individual Grants				
(a)	(b)	(c)	(d)	(e)
	Number of Securities Underlying Options/SARs	% of Total Options/SARs Granted to	Exercise or	

Edgar Filing: CHICAGO BRIDGE & IRON CO N V - Form 10-K/A

Name	Granted (# Shares)	Employees in Fiscal Year	Base Price (\$/Share)	Expiration Date
Richard E. Goodrich (3)	600	0.5	34.10	6/01/11

(3) All options were granted at market value. Each option will terminate and cease to be exercisable if the Participant's employment with the Company terminates for any reason other than death, retirement, disability or dismissal for the convenience of the Company (other than involuntary termination of employment for willful misconduct or gross negligence). The options vest on June 1, 2008, but may vest on June 1, 2004 if the holder has held continuously until such date certain shares of stock awarded as restricted shares. The estimated grant date present value reflected in the previous table is determined using the Black-Scholes model. The material assumptions and adjustments incorporated in the Black-Scholes model in estimating the value of the options reflected in the previous table include the following:

Exercise price on the options of \$34.10 equal to the fair market value of the underlying stock on the date of grant.

3

An option term of ten years.

Interest rate of 5.28 percent that represents the interest rate on a U.S. Treasury security on the date of grant with a maturity date corresponding to that of the option term.

Volatility of 45.58 percent calculated using daily stock prices for the three-year period prior to the grant date.

Dividends at the rate of \$0.24 per share representing the annualized dividends paid with respect to a share at the dates of each option grant.

Reductions of approximately 11.53 percent for the grant to reflect the probability of forfeiture due to termination prior to vesting, and approximately 14.05 percent for the grant to reflect the probability of a shortened option term due to termination of employment prior to the option expiration date.

The following table is added to the Company's 2001 Proxy Statement on page 14 before the caption "Pension And Other Retirement Benefits":

LONG-TERM INCENTIVE PLANS - AWARDS IN LAST FISCAL YEAR

In 2001, under the Incentive Plans, restricted stock was awarded.
