### **Report of Independent Auditors**

Lincoln National Corporation Plan Administrator  
Lincoln National Corporation

We have audited the accompanying statements of net assets available for plan benefits of The Lincoln National Life Insurance Company Agents Savings and Profit-Sharing Plan as of December 31, 2003 and 2002, and the related statements of changes in net assets available for plan benefits for each of the three years in the period ended December 31, 2003. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of The Lincoln National Life Insurance Company Agents Savings and Profit-Sharing Plan at December 31, 2003 and 2002, and the changes in its net assets available for plan benefits for each of the three years in the period ended December 31, 2003, in conformity with accounting principles generally accepted in the United States.

Our audits were made for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2003 is presented for purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to Financial Statements

December 31, 2003

## 1. Significant Accounting Policies

### Investments

The investment in Lincoln National Corporation ( LNC ) common stock is valued at the last reported sales price per the national securities exchange on the last business day of the year.

The Wells Fargo Bank Short-Term Investment Fund is valued at cost, which approximates fair value.

The fair value of participation units in pooled separate accounts is based on quoted redemption value on the last business day of the year.

The investment contracts are valued at contract value as estimated by The Lincoln National Life Insurance Company ( Lincoln Life or Employer ). Contract value represents net contributions plus interest at the contract rate. The contracts are fully benefit responsive.

Participant loans are valued at their outstanding balances, which approximate fair value.

The cost of investments sold or distributed is determined using the specific identification method.

### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

## 2. Description of the Plan

The Lincoln National Life Insurance Company Agents Savings and Profit-Sharing Plan ( Plan ) is a contributory, defined contribution plan which covers eligible agents of Lincoln Life and other participating agents who are employed by Lincoln Life. Any person who is a full-time agent of Lincoln Life is eligible to enroll in the Plan. A participant may make pre-tax contributions at a rate of at least 1%, but not more than 15% of eligible earnings, up to a maximum annual amount as determined and adjusted annually by the Internal Revenue Service ( IRS ).

During 2001, Plan assets relating to the former employees of Sagemark were transferred into another affiliated Plan of Lincoln Life, in the amount of \$9,410,752

Participants direct the Plan to invest their contributions and the guaranteed Employer contributions in any combination of the investment options as described in *Note 4*. Prior to April 1, 2002, discretionary Employer contributions were required to be invested in the LNC Common Stock Fund. Effective April 1, 2002, participants could immediately direct the investment of the discretionary Employer contributions to other funds.

The Lincoln National Life Insurance Company  
 Agents Savings and Profit-Sharing Plan

Notes to Financial Statements (continued)

**2. Description of the Plan (continued)**

Employer contributions to the Plan are based on an amount equal to a participant's contributions, not to exceed 6% of eligible earnings, multiplied by a percentage, ranging from 50% to 150%, which is based on LNC's increase in operating income

Participants' contributions are fully vested. Employer contributions vest based upon years of service as defined in the Plan agreement as follows:

<u>Years of Service</u>	<u>Percent Vested</u>
1	0%
2	50%
3 or more	100%

The Employer has the right to discontinue contributions at any time and terminate the Plan. In the event of termination of the Plan, all amounts allocated to participants' accounts shall become vested.

The Plan allows loans to participants in amounts up to 50% of the vested account value to a maximum of \$50,000 but not more than the total value of the participant's accounts excluding Employer contributions that haven't been in the Plan for two full years, less the highest outstanding loan balance in the previous twelve month period.

Upon termination of service due to disability or retirement, a participant or beneficiary, in case of the participant's death, may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a five-year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Vested account balances less than \$5,000 are immediately distributable under the terms of the Plan, without the Participant's consent, unless a timely election of rollover to an IRA or another qualified plan has been made.

Each participant's account is credited with the participant's contributions, matching contributions from the Employer and allocations of Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Forfeited non-vested amounts are used to reduce future Employer contributions.

The Plan invests in various investments that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The credited interest rates for new contributions, which approximate the current market rate, were 5.00% and 4.50% at December 31, 2003 and 2002, respectively. The rate on new contributions is guaranteed through the three succeeding calendar year quarters. The credited interest rates for the remaining contract value balance were 4.00% and 4.50% at December 31, 2003 and 2002, respectively, and are determined based upon the performance of the Lincoln Life's general account. The credited interest rates change at least quarterly. The minimum guaranteed rate is 4.50% for the first 5 contract years, 4.00% for years 6-10 and 3.50% following year 10. The guarantee is based on Lincoln Life's ability to meet its financial obligations from the general assets of Lincoln Life. The fair value of the investment contracts approximates contract value.

**5. Income Tax Status**

The Plan has received a determination letter from the Internal Revenue Service dated February 9, 1995, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. However, subsequent to the issuance of the favorable determination letter, the Plan was amended. Once qualified, the Plan, as amended, is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan, as amended, is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. The Plan Sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.
