INDEPENDENT AUDITORS' REPORT

---

The Human Resources Committee  
First Union Corporation

We have audited the accompanying statements of net assets available for benefits of First Union Corporation Savings Plan (the Plan) as of December 31, 2000 and 1999, and the related statement of changes in net assets available for benefits for the year ended December 31, 2000. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2000 and 1999, and the changes in net assets available for benefits for the year ended December 31, 2000, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year, and schedule of nonexempt transactions as of December 31, 2000 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and

Edgar Filing: FIRST UNION CORP - Form 11-K

Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

## FIRST UNION CORPORATION SAVINGS PLAN

### NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2000 and 1999

---

#### NOTE 1: DESCRIPTION OF PLAN

The following brief description of the First Union Corporation Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

#### GENERAL

First Union Corporation and its subsidiaries (the "Companies") sponsor the Plan, which is designed to promote savings for retirement, and which is a defined contribution plan. Company and employee contributions are held in trust and earn income tax-free until distributed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective January 1, 1999, the portion of the Plan invested in the First Union Corporation Common Stock Fund was amended to be an employee stock ownership plan that invests primarily in employer securities. The first one percent of the Companies' matching contribution is made in First Union Corporation common stock. The Company has adopted the American Institute of Certified Public Accountants Statement of Position 99-3, "Accounting for and Reporting of Certain Defined Contribution Plan Investments and Other Disclosure Matters".

#### ELIGIBILITY, CONTRIBUTIONS AND BENEFITS

Under the Plan, an employee is eligible to participate after one year of service. Employee contributions, pre-tax and after-tax, are elected by the participant and cannot exceed 15 percent of the employee's gross compensation. The maximum percentage of the employer matched contribution is determined annually by the Board of Directors of First Union Corporation ("First Union"), and the contribution amounts are paid from net income or accumulated earnings in accordance with the provisions of the Internal Revenue Code of 1986 as amended together with all regulations, revenue rulings and revenue procedures issued thereunder (the "Code"). The employer's matching contribution cannot exceed 6 percent of a participant's base compensation. Beginning in 1999, the first one percent of the employer's contribution will be made with First Union Corporation common stock. Participants are fully vested in their entire account balances at all times.

Four types of withdrawals are allowed under the Plan: normal, specified cause, hardship and after age 59 1/2. Each type of withdrawal must be approved by the Human Resources Committee (the "Committee"). Participants may withdraw up to their entire account balance, depending on the type of withdrawal, net of applicable withholdings and/or loan balances, or a minimum of \$500. The amount of tax withholding depends on the type of withdrawal.

Participants may borrow up to 50 percent of the balance of their accounts with a minimum loan of \$1,000 and a maximum loan of \$50,000. Loan balances are charged interest at a fixed rate for the life of the loan. The interest rate is determined at origination as the quoted Wall Street Journal prime interest rate as of the 25th of the preceding month. Loans are made for a minimum of 12 months or a maximum of 60 months. Loan repayments are generally made semi-monthly as a payroll deduction. If a participant retires or is otherwise terminated, the loan

## Edgar Filing: FIRST UNION CORP - Form 11-K

balance must be paid in full or the outstanding balance will be considered as a taxable distribution.

Participants, at retirement, may elect to receive a distribution of their account balances. A participant is considered retired if it is the participant's 65th birthday, if it is the participant's 50th birthday with 10 or more years of service, or if it is determined that the participant is totally disabled. Distributions may be made in a lump sum, in installments or in a combination of both. Installment payments must be in multiples of \$50 over a period not to exceed the life expectancy of the participant. Distribution of a retired participant's account balance must begin at age 70 1/2.

Although the employer has not expressed any intent to terminate the Plan, it may do so at any time subject to the provisions of ERISA. If the Plan is terminated, the accounts of each participant shall be adjusted in accordance with Plan provisions.

(Continued)

2

### FIRST UNION CORPORATION SAVINGS PLAN

#### NOTES TO FINANCIAL STATEMENTS

---

##### PARTICIPANT DIRECTED

In accordance with the Plan provisions, Plan earnings are allocated to participants' accounts on a daily basis.

The investment options available to participants at December 31, 2000 and 1999, are presented below.

##### Evergreen U.S. Government Fund

This mutual fund invests primarily in debt instruments issued or guaranteed by the U.S. Government or its agencies. Its objective is to provide a high level of current income consistent with stability of principal.

##### Evergreen Balanced Fund

This mutual fund maintains a diversified investment portfolio of common and preferred stocks, U.S. Government and agency obligations, and corporate bonds. Its objective is to produce long-term total return through capital appreciation, dividends and interest income.

##### Stable Fund

This pooled investment fund invests primarily in money market instruments, investment contracts, U.S. Government and agency securities, and corporate notes. Its investment objective is to provide stable principal value combined with a yield that is one percentage point or more over the 91-day U.S. Treasury bill yield.

##### Evergreen Foundation Fund

## Edgar Filing: FIRST UNION CORP - Form 11-K

This mutual fund invests primarily in a combination of income producing common stocks, preferred stocks, convertible securities, corporate and U.S. Government debt obligations, and short-term debt instruments. Its investment objective is to provide income, conservation of capital and capital appreciation.

### Evergreen Fund

This mutual fund invests primarily in common stocks, including securities convertible into or exchangeable for common stocks of companies which are little-known or relatively small or special situations and which offer the potential for capital appreciation. The remainder of its portfolio consists of securities of relatively well-known and large companies in an attempt to provide liquidity as well as potential for capital appreciation.

### FUNB Enhanced Stock Market Fund

This collective investment fund invests primarily in a diversified portfolio of common stocks and S&P 500 futures contracts. Its investment objective is to provide a total rate of return equal to or exceeding that of the S&P 500 market index each calendar year.

### Evergreen International Growth Fund

This fund invests primarily in internationally diversified portfolios consisting of common and preferred stocks, convertible securities and warrants. The fund also uses stock index and currency futures. Its investment objective is to provide long-term capital appreciation.

### Evergreen Growth Fund

This fund invests principally in common stocks of small to mid-sized companies that have demonstrated earnings, asset values, or growth potential not yet reflected in their market price. Its investment objective is long-term capital appreciation.

### First Union Corporation Common Stock Fund

This fund invests in First Union Corporation common stock. Dividends are reinvested in additional shares of First Union Corporation common stock. Its primary investment objective is long-term capital appreciation.

(Continued)

## FIRST UNION CORPORATION SAVINGS PLAN

### NOTES TO FINANCIAL STATEMENTS

---

#### MERGERS WITH FINANCIAL INSTITUTIONS

Since 1985, First Union Corporation has acquired several financial institutions. The employees of these institutions have been allowed to participate in the Plan as of the consummation date of each respective merger.

Generally, the assets and obligations of acquired plans are recorded by the Plan pursuant to the merger agreement, on the date of the respective merger. However, there are assets related to acquired plans whose obligations are being administered by the Plan, but that have not yet been legally assumed by the

## Edgar Filing: FIRST UNION CORP - Form 11-K

Plan. Accordingly, these assets are not included as Plan assets at December 31, 2000. It is expected that final approval will be received from the Internal Revenue Service to merge the Plans and that these assets will then be merged into the Plan.

In April 1998, CoreStates Financial Corp was acquired by First Union Corporation. Assets of their plans, which were approximately \$955 million, were transferred to the Plan on January 14, 1999.

In June 1998, The Money Store Inc. was acquired by First Union Corporation. Assets of their plan, which were approximately \$89 million, were transferred to the Plan on July 15, 1999.

In 1999, assets of the savings plans of Questpoint; Bowles, Hollowell, Conner and Co.; Tattersall Advisory Group Inc.; and Congress Talcott were merged into the Plan. Their plan assets were approximately \$4 million, \$8 million, \$1 million and \$15 million, respectively.

In October 1999, Everen Capital Corporation was acquired by First Union Corporation. Assets of their plan, which were approximately \$705 million, were transferred to the Plan on November 1, 1999. The plan included a self-directed investment option, allowing participants to invest their account balances in any investment, within certain specified limitations. The self-directed investments had a market value of approximately \$3 million at December 31, 2000. After the merger of the Everen Capital Corporation Savings Plan into the Plan, the assets of the Everen self-directed investment option were frozen. The assets subject to the Everen self-directed investment option were liquidated by January 31, 2001.

In April 1998, Nationwide Remittance Centers, Inc. was acquired by First Union Corporation. Assets of their plan, which were approximately \$1 million, were transferred to the Plan on August 31, 2000.

### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### VALUATION OF INVESTMENTS

The specific identification method is used in determining the cost of securities. Security transactions are recognized on the trade date (the date the order to buy or sell is executed). Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Investments in cash management accounts and participants' loans receivable are stated at cost which approximates fair value. Investments in commercial paper, U.S. Government and agency securities, corporate bonds, mutual funds, collective investment funds and common stocks are stated at fair value, which is based on closing market quotations (or an estimate thereof).

In accordance with the American Institute of Certified Public Accountants Statement of Position 94-4, the Stable Fund's holdings of investment contracts are generally stated at contract value plus accrued interest because they are considered to be benefit responsive, thus providing reasonable access to the funds by participants. If Plan management is aware that an event has occurred that may affect the ability to recover the full value of a contract, the contract is reported at its estimated realizable value. Otherwise the fair value of investment contracts approximates the contract value, including any accrued interest.

Interest and dividends earned on assets in the Stable Fund are treated as gains in appreciation of the fair value of the fund, since all income received by the fund is reinvested in the fund and thus increases the participants' share value.

FIRST UNION CORPORATION  
SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

---

BASIS OF PRESENTATION

The accompanying financial statements are prepared on an accrual basis in accordance with accounting principles generally accepted in the United States of America.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect reported amounts of assets, liabilities and obligations and disclosure of contingent liabilities at the date of the financial statements, as well as additions to and deductions from these amounts during the reporting period. Actual results could differ from those estimates.

NOTE 3: INVESTMENTS

Under the terms of the Plan, First Union National Bank (the "Trustee"), a wholly-owned subsidiary of First Union Corporation and a related party-in-interest, holds the assets of the Plan in bank-administered trust funds. Investments that represent five percent or more of the Plan's net assets are separately identified below.

The investment contracts held by the Stable Fund have crediting interest rates ranging from 6.01 percent to 8.00 percent and 6.21 percent to 8.25 percent at December 31, 2000 and 1999, respectively, with remaining maturities not greater than 3 years. The average yields for the investment contracts ranged from 6.01 percent to 8.00 percent and 6.20 percent to 8.20 percent for the years ended December 31, 2000 and 1999, respectively.

NOTE 4: INCOME TAXES

The Internal Revenue Service has determined and informed the Companies by a letter dated December 20, 2000, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code. Therefore, no provision for income taxes has been made in the accompanying financial statements. The Human Resources Committee files an annual information return with the Internal Revenue Service.

Participant contributions made to the Plan must not discriminate in favor of highly compensated employees ("HCE's"). The Plan has failed the Actual Deferral Percentage test for the plan year 2000. In order to correct this

## Edgar Filing: FIRST UNION CORP - Form 11-K

failure, excess contributions plus earnings must be returned to HCE's. Subsequent to December 31, 2000, the Plan refunded excess contributions and earnings thereon of \$3,060,571 to HCE's. In addition, \$1,560,962 of employer matching contributions have been forfeited, and will be used to reduce future obligations of the Companies. These amounts have been reflected in the accompanying financial statements for the year ended December 31, 2000. The excess contributions were refunded to participants within two and one-half months after year-end.

### NOTE 5: RELATED PARTY TRANSACTIONS

The Evergreen U.S. Government Fund, the Evergreen Balanced Fund, the Evergreen Foundation Fund, the Evergreen Fund, the Evergreen International Growth Fund and the Evergreen Growth Fund are mutual funds managed by subsidiaries of First Union National Bank. The FUNB Enhanced Stock Market Fund is a collective investment trust managed by First Union National Bank. The Stable Fund investments are managed by First Union National Bank. The First Union Corporation Common Stock Fund is managed by First Union National Bank, and it is principally comprised of shares of First Union Corporation common stock.

First Union National Bank, a party in interest, serves as the trustee for the Plan. In 2000, the Plan paid administrative expenses to First Union National Bank amounting to \$2,611,371.

(Continued)

6

### FIRST UNION CORPORATION SAVINGS PLAN

#### NOTES TO FINANCIAL STATEMENTS

---

### NOTE 6: LOANS PAYABLE

Upon the merger of the CoreStates Employee Stock Ownership and Savings Plan into the Plan in 1999, First Union National Bank assumed all obligations of CoreStates Financial Corp under the loan agreement dated October 27, 1994, pursuant to which Meridian Trust Company issued to Meridian Bancorp, Inc. its promissory note dated October 27, 1994, in the amount of \$60,000,000, with a maturity date of October 1, 2014, and bearing an interest rate of 8.85%. The Company is obligated to make contributions to maintain debt service.

The loan was originally collateralized by 3,274,816 shares of First Union Corporation common stock. The loan repayment schedule is as follows:

2001	\$1,947,632
2002	2,125,803
2003	2,320,273
2004	2,532,533
2005	\$2,764,211

As the Plan makes each payment of principal, an appropriate percentage of common stock will be available to fund the Companies' 1 percent match in accordance with the provisions of the Plan document. If shares made available after payment of principal are in excess of those amounts required to fund the Companies' 1 percent matching contribution, those shares may be utilized to fund the Companies' matching contribution where participants have elected to invest

Edgar Filing: FIRST UNION CORP - Form 11-K

in the First Union Corporation Common Stock Fund or in participant contributions where participants have elected to invest in First Union Corporation common stock. Shares vest fully upon allocation. Dividends on allocated shares may be either distributed or reinvested in First Union Corporation common stock at the discretion of the Company. The Company has elected to reinvest the dividends.

The borrowing is collateralized by 2,865,472 unallocated shares of First Union Corporation common stock at December 31, 2000, and is guaranteed by the Company. In 2000, 204,672 shares were released based on principal paydowns on the loan. The lender has no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan for the year 2000 present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with vested rights in allocated stock, and (b) stock not yet allocated to employees (Unallocated).

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is required to vote all shares in the Plan, including unallocated shares, in proportion to the response received for participants and beneficiaries with respect to stock allocated to participant accounts.

NOTE 7: PROHIBITED TRANSACTION

Prior to January 2, 2000, certain participant loan repayments were not credited to participants' accounts on a timely basis. In 2000, the Companies identified the effected participants and properly applied the loan repayments to the participants' accounts, including principal and interest, in the amount of \$21,136.
