THE FAIRCHILD CORPORATION AND CONSOLIDATED SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)
(In thousands, except share data)

1. FINANCIAL STATEMENTS

The condensed consolidated balance sheet as of September 30, 2003, and the condensed consolidated statements of operations and cash flows for the periods ended September 30, 2003 and September 29, 2002 have been prepared by us, without audit. In the opinion of management, all adjustments necessary (consisting only of normal accruals) to present fairly the financial position, results of operations and cash flows at September 30, 2003, and for all periods presented, have been made. The balance sheet at June 30, 2003 was condensed from the audited financial statements as of that date.

The condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial statements and the Securities and Exchange Commission's instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in complete financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. These condensed consolidated financial statements should be read in conjunction with the financial statements and notes thereto included in our 2003 Annual Report on Form 10-K. The results of operations for the period ended September 30, 2003 are not necessarily indicative of the operating results for the full year. Certain amounts in the prior year's quarterly financial statements have been reclassified to conform to the current presentation.

2. CASH EQUIVALENTS AND INVESTMENTS

Cash equivalents and investments at September 30, 2003 consist primarily of investments in United States government securities and investment grade corporate bonds, which are recorded at market value. Restricted cash equivalent investments are classified as short-term or long-term investments depending upon the length of the restriction period. Investments in common stock of public corporations are recorded at fair market value and classified as trading securities or available-for-sale securities. Other short-term investments and long-term investments do not have readily determinable fair values and consist primarily of investments in preferred and common shares of private companies and limited partnerships. A summary of the cash equivalents and investments held by us follows:

Total cash equivalents and investments	\$ 110,914	\$ 109,899		\$ 121,906	\$ 121,387

On September 30, 2003 and June 30, 2003, we had restricted investments of \$51,878 and \$55,107, respectively, all of which are maintained as collateral for certain debt facilities, our interest rate contract and escrow arrangements. The restricted funds are invested in money market funds, U.S. government securities, or high investment grade corporate bonds.

3. EQUITY SECURITIES

We had 22,562,614 shares of Class A common stock and 2,621,502 shares of Class B common stock outstanding at September 30, 2003. Class A common stock is traded on both the New York and Pacific Stock Exchanges. There is no

public market for the Class B common stock. The shares of Class A common stock are entitled to one vote per share and cannot be exchanged for shares of Class B common stock. The shares of Class B common stock are entitled to ten votes per share and can be exchanged, at any time, for shares of Class A common stock on a share-for-share basis.

4. LOSS PER SHARE RESULTS

The following table illustrates the computation of basic and diluted loss per share:

	Three Months Ended	
	9/30/03	9/29/02
Basic loss per share:		
Loss from continuing operations	\$ (2,534)	\$ (13,971)
Weighted average common shares outstanding	25,184	25,162
Basic loss from continuing operations per share	\$ (0.10)	\$ (0.56)
Diluted loss per share:		
Loss from continuing operations	\$ (2,534)	\$ (13,971)
Weighted average common shares outstanding	25,184	25,162
Options	antidilutive	antidilutive
Total shares outstanding	25,184	25,162
Diluted loss from continuing operations per share	\$ (0.10)	\$ (0.56)

Stock options entitled to purchase 1,465,419 and 2,032,400 shares of Class A common stock were antidilutive and not included in the earnings per share calculation for the three months ended September 30, 2003 and September 29, 2002, respectively. The stock options could be dilutive in future periods.

5. STOCK-BASED COMPENSATION

Stock-Based Compensation: As permitted by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation", we use the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion No. 25, for our stock-based employee compensation plans. Accordingly, no compensation cost has been recognized for the granting of stock options to our employees in the three months ended September 30, 2003 and September 29, 2002. If stock options granted were accounted for based on their fair value as determined under SFAS 123, our pro forma results would be as follows:

	2003	2002
Net loss, as reported	\$ (2,835)	\$ (7,308)
Total stock-based employee compensation expense	(75)	(137)
Determined under the fair value based method for		

all awards, net of tax		
Pro forma net loss	(2,910)	(7,445)
Basic and diluted loss per share:		
As reported	\$ (0.11)	\$ (0.30)
Pro forma	(0.12)	(0.30)

The pro forma effects of applying SFAS 123 are not representative of the effects on reported net results for future years. Additional grants are expected in future years.

The weighted average grant date fair value of options granted during the three months ended September 29, 2002 was \$3.09. No options were granted during the three months ended September 30, 2003. The fair value of each option granted is estimated on the grant date using the Black-Scholes option pricing model.

6. DISCONTINUED OPERATIONS

Fastener Business

On December 3, 2002, we completed the sale of our fastener business to Alcoa Inc. for approximately \$657 million in cash and the assumption of certain liabilities. The cash received from Alcoa is subject to a post-closing adjustment based upon the net working capital of the fastener business on December 3, 2002, compared with its net working capital as of March 31, 2002. During the four-year period from 2003 to 2006, we are entitled to receive additional cash proceeds of \$0.4 million for each commercial aircraft delivered by Boeing and Airbus in excess of threshold levels up to a maximum of \$12.5 million per year. The threshold aircraft delivery levels are 505 in 2003; 515 in 2004; 570 in 2005; and 650 in 2006.

In connection with the sale, we have deposited with an escrow agent \$25 million to secure indemnification obligations we may have to Alcoa. The escrow period is five years, but funds may be held longer if claims are asserted and unresolved. The escrow is classified in long-term investments on our balance sheet. In addition, for a period of five years after the closing, we are required to maintain our corporate existence, take no action to cause our own liquidation or dissolution, and take no action to declare or pay any dividends on our common stock. (Please See Note 7, for further discussion).

The sale of the fastener business has reduced our dependence upon the aerospace industry. Additionally, the sale has allowed us to eliminate substantially all of our debt. We used a portion of the proceeds from the sale to repay our bank debt and to acquire by tender all of our outstanding \$225 million 10.75% senior subordinated notes due in April 2009, leaving us with \$8.3 million of debt outstanding on September 30, 2003. We plan to use the remaining proceeds from the sale to fund acquisitions.

APS

In February 2003, our Board of Directors adopted a formal plan for the sale of APS, a small operation in our aerospace manufacturing segment, which has been unprofitable. Based on our formal plan, APS is available for sale immediately, and we believe that it is probable that we can consummate a sale of APS by December 2003. Accordingly, the results of APS are being reported as a discontinued operation.

The results of the fastener business and APS are recorded as earnings from discontinued operations, the components of which are as follows:

Edgar Filing: FAIRCHILD CORP - Form 10-Q

	Three Months Ended	
	09/30/03	09/29/02 (a)
Net sales	\$ 390	\$ 119,823

(a) - The results presented for the three months ended September 29, 2002, include the activity of the fastener business, which was sold on December 3, 2002.

The assets and liabilities of APS were reported as assets and liabilities of discontinued operations at September 30, 2003 and June 30, 2003, and were as follows:

	September 30,	June 30,

7. CONTINGENCIES

Environmental Matters

Our operations are subject to stringent government imposed environmental laws and regulations concerning, among other things, the discharge of materials into the environment and the generation, handling, storage, transportation and disposal of waste and hazardous materials. To date, such laws and regulations have not had a material effect on our financial condition, results of operations, or net cash flows, although we have expended, and can be expected to expend in the future, significant amounts for the investigation of environmental conditions and installation of environmental control facilities, remediation of environmental conditions and other similar matters.

In connection with our plans to dispose of certain real estate, we must investigate environmental conditions and we may be required to take certain corrective action prior or pursuant to any such disposition. In addition, we have identified several areas of potential contamination related to, or arising from other facilities owned, or previously owned, by us, that may require us either to take corrective action or to contribute to a clean-up. We are also a defendant in several lawsuits and proceedings seeking to require us to pay for investigation or remediation of environmental matters, and we have been alleged to be a potentially responsible party at various "superfund" sites. We believe that we have recorded adequate accruals in our financial statements to complete such investigation and take any necessary corrective actions or make any necessary contributions. No amounts have been recorded as due from third parties, including insurers, or set off against, any environmental liability, unless such parties are contractually obligated to contribute and are not disputing such liability.

As of September 30, 2003, the consolidated total of our recorded liabilities for environmental matters was approximately \$9.4 million, which represented the estimated probable exposure for these matters. On September 30, 2003, \$3.8 million of these liabilities were classified as other accrued liabilities and \$5.6 million were classified as other long-term liabilities. It is reasonably possible that our exposure for these matters could be approximately \$15.7 million.

The sales agreement with Alcoa includes an indemnification for environmental claims in excess of \$8.4 million, which were previously recorded by our fastener business. To date, Alcoa has contacted us concerning potential environmental claims which, while disputed, could consume up to \$6.0 million of the \$8.4 million accrual for the indemnification liability. Accordingly, there is no additional accrual for these environmental claims at September 30, 2003.

Other Matters

We have received a demand from Alcoa to pay it \$10.2 million as a post-closing adjustment based upon the net working capital of the fastener business on December 3, 2002, compared with its net working capital at March 31, 2002. Alcoa has also demanded that we pay it \$5.3 million for certain accounts receivable that were outstanding both at December 3, 2002, and June 3, 2003. In addition, Alcoa has asserted other claims which, if proven, would, according to Alcoa, aggregate in excess of \$5 million. If Alcoa is correct and these other claims exceed \$5 million, we may be required to reimburse Alcoa for their full amount, without benefit of a threshold set forth in the acquisition agreement under which we sold our fastener business to Alcoa. We have notified Alcoa of our dispute of these matters and claims, and expect that resolution will require litigation, arbitration, or alternative dispute resolution methods. At September 30, 2003, we had not recorded an accrual for these disputes with Alcoa ..

On January 21, 2003, we and one of our subsidiaries were served with a third-party complaint in an action brought in New York by a non-employee worker and his spouse alleging personal injury as a result of exposure to asbestos-containing products. The defendant, which is one of many defendants in the action, had purchased a pump business from us, and asserts the right to be indemnified by us under its purchase agreement. While the purchaser has notified us of, and claimed a right to indemnity from us against other asbestos-related claims against it, this is the only instance in which a suit has been instituted against us. We have not received enough information to assess the impact, if any, of the other claims.

We are involved in various other claims and lawsuits incidental to our business. We, either on our own or through our insurance carriers, are contesting these matters. In the opinion of management, the ultimate resolution of litigation against us, including that mentioned above, will not have a material adverse effect on our financial condition, future results of operations or net cash flows.

8. BUSINESS SEGMENT INFORMATION

We currently report in three principal business segments: aerospace distribution, aerospace manufacturing and real estate operations. The following table provides the historical results of our operations for the three and nine months ended September 30, 2003 and September 29, 2002, respectively.

9. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Financial Interpretation 46 "Consolidation of Variable Interest Entities" was issued in January 2003. FIN 46 requires that variable interest entities created before February 1, 2003 be consolidated during the first interim period ending after December 15, 2003. We are currently assessing whether or not we will be required to consolidate our limited partner interest in a landfill development partnership.

10. SUBSEQUENT EVENTS

On November 1, 2003, its Germany subsidiary closed on the acquisition of Hein Gericke, PoloExpress and IFW from the Administrator for Eurobike AG in Düsseldorf, Germany. The purchase price was EUR 59 million. The acquisition of all but 7.5% of the remaining interest in PoloExpress will close on January 2, 2004.

Hein Gericke, PoloExpress and IFW design, manufacture, and sell protective clothing, helmets, and technical accessories for motorcyclists. Hein Gericke operates 137 retail shops in Austria, Belgium, England, Germany, Luxembourg and the Netherlands. PoloExpress operates 84 retail shops in Germany. IFW, located in Tustin, California, is a designer for Harley-Davidson and First Gear clothing. IFW also distributes Hein Gericke and First Gear products in the United States

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF

RESULTS OF OPERATIONS AND FINANCIAL CONDITION

The Fairchild Corporation was incorporated in October 1969, under the laws of the State of Delaware. Banner Aerospace Holding Company I, Inc. is a 100% owned subsidiary. Fairchild Holding Corp. is our indirect 100% owned subsidiary. Fairchild Holding Corp. is the owner of Fairchild Aerostructures, Inc., and the indirect owner of 100% of Warthog Inc. Our principal operations are conducted through Banner Aerospace Holding Company I, Fairchild Aerostructures, and Warthog. Our consolidated financial statements present the results of our former fastener business, and APS, a small subsidiary being sold, as discontinued operations.

The following discussion and analysis provide information which management believes is relevant to the assessment and understanding of our consolidated results of operations and financial condition. The discussion should be read in conjunction with the consolidated financial statements and notes thereto.

GENERAL

Our business consists of three segments: aerospace distribution, aerospace manufacturing, and real estate operations. Our aerospace distribution segment stocks and distributes a wide variety of aircraft parts to commercial airlines and air cargo carriers, fixed-base operators, corporate aircraft operators and other aerospace companies worldwide. Our aerospace manufacturing segment primarily manufactures airframe components. Our real estate operations segment owns and leases a shopping center located in Farmingdale, New York, and owns and rents two improved parcels located in Southern California.

We are continuing to investigate how best to redeploy our cash in opportunities which will enable us to build for the long term. Accordingly, we are actively pursuing worldwide acquisition opportunities in diverse business segments.

CAUTIONARY STATEMENT

Certain statements in this financial discussion and analysis by management contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 with respect to our financial condition, results of operation and business. These statements relate to analyses and other information, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies. These forward-looking statements are identified by their use of terms and phrases such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "plan," "predict," "project," "will" and similar terms and phrases, including references to assumptions. These forward-looking statements involve risks and uncertainties, including current trend information, projections for deliveries, backlog and other trend estimates that may cause our actual future activities and results of operations to be materially different from those suggested or described in this financial discussion and analysis by management. These risks include: our ability to find, acquire and successfully operate one or more new businesses; product demand; our dependence on the aerospace industry; customer satisfaction and quality issues; labor disputes; competition; our ability to achieve and execute internal business plans; worldwide political instability and economic growth; military conflicts; reduced airline revenues as a result of the September 11, 2001 terrorist attacks on the United States, and their aftermath; reduced airline revenues due to SARS; and the impact of any economic downturns and inflation.

If one or more of these risks or uncertainties materializes, or if underlying assumptions prove incorrect, our actual results may vary materially from those expected, estimated or projected. Given these uncertainties, users of the information included in this financial discussion and analysis by management, including investors and prospective investors are cautioned not to place undue reliance on such forward-looking statements. We do not intend to update the forward-looking statements included in this Quarterly Report, even if new information, future events or other circumstances have made them incorrect or misleading.

RESULTS OF OPERATIONS

Business Transactions

On December 3, 2002, we completed the sale of our fastener business to Alcoa Inc. for approximately \$657 million in cash and the assumption of certain liabilities. The cash received from Alcoa is subject to a post-closing adjustment based upon the net working capital of the fastener business on December 3, 2002, compared with its net working capital as of March 31, 2002 (See Note 7, for further discussion). We may also receive additional cash proceeds up to \$12.5 million per year over the four-year period from 2003 to 2006, if the number of commercial aircraft delivered by Boeing and Airbus exceeds specified annual levels.

In connection with the sale, we have deposited with an escrow agent \$25 million to secure indemnification obligations we may have to Alcoa. The escrow period is five years, but funds may be held longer if claims are asserted and unresolved. In addition, for a period of five years after the closing, we are required to maintain our corporate existence, take no action to cause our own liquidation or dissolution, and take no action to declare or pay any dividends on our common stock.

The sale of the fastener business has reduced our dependence upon the aerospace industry. Additionally, the sale has allowed us to eliminate substantially all of our debt. We used a portion of the proceeds from the sale to repay our bank debt and to acquire by tender all of our outstanding \$225 million 10.75% senior subordinated notes due in April 2009, leaving us with \$8.3 million of debt outstanding on September 30, 2003. We plan to use the remaining proceeds from the sale to fund acquisitions.

Recent Developments

In February 2003, our Board of Directors adopted a formal plan for the sale of APS, a small operation in our aerospace manufacturing segment, which has been unprofitable. Based on our formal plan, APS is available for sale immediately, and we believe that it is probable that we can consummate a sale of APS by December 2003.

Accordingly, the results of APS are being reported as a discontinued operation.

The results of the fastener business and APS are recorded as earnings from discontinued operations, the components of which are as follows:

(In thousands)	Three Months Ended	
	09/30/03	09/29/02
Earnings (loss) from discontinued operations before taxes	\$ (301)	\$ 8,812
Income tax provision	-	(2,149)
Net earnings (loss) from discontinued operations	\$ (301)	\$ 6,663

On November 1, 2003, its Germany subsidiary closed on the acquisition of Hein Gericke, PoloExpress and IFW from the Administrator for Eurobike AG in Düsseldorf, Germany. The purchase price was EUR 59 million. The acquisition of all but 7.5% of the remaining interest in PoloExpress will close on January 2, 2004.

Consolidated Results

Because of the acquisition of Eurobike on November 1, 2003 and the sale of the fasteners business on December 3, 2002, the discussion below can not be relied upon as a trend of our future results.

We currently report in three principal business segments: aerospace distribution, aerospace manufacturing, and real estate operations. The following table provides the historical sales and operating income of our segments for the three months ended September 30, 2003 and September 29, 2002, respectively.

(In thousands)	Three Months Ended	
	9/30/03	9/29/02
Revenues

Aerospace Manufacturing Segment	2,091	2,429

Aerospace Manufacturing Segment	(506)	(268)
Real Estate Operations Segment	850	595
Corporate and Other	(6,404)	(4,713)
Total	\$ (5,682)	\$ (3,738)

Revenues of \$19.3 million in the first quarter of fiscal 2004 were equivalent to revenues of \$19.3 million in the first quarter of fiscal 2003. Revenues in the first three months of fiscal 2004 remained adversely affected by the overall conditions in the aerospace industry. The aerospace industry is still sluggish following the events of September 11, 2001 and weakness in the overall economy.

Gross margin as a percentage of sales was 20.2% and 22.9% in the first three months of fiscal 2004 and fiscal 2003, respectively. The recent, well publicized, financial difficulties of major commercial airlines and reduction in travel have affected the demand for products we sell at our aerospace businesses, which, in turn has adversely affected our gross margins.

Gross margin as a percentage of rental revenue at our real estate segment increased to 39.8 % from 34.7% in the first quarter of fiscal 2004, as compared to the first quarter of fiscal 2003, respectively. The improved margins reflected the 22.0% increase in rental revenue in the first quarter of fiscal 2004, as compared to the first quarter of fiscal 2003.

Selling, general and administrative expense increased \$1.6 million for the three months ended September 30, 2003, as compared to the first three months of fiscal 2003. The increase in selling, general and administrative expense is due to an increase in audit fees, insurance premiums, and increased travel expenses associated with acquisition opportunities.

The operating loss for the three months ended September 30, 2003, reflected the reduction in gross margin and the increase in selling, general and administrative expense. With the sale of the fasteners business, we have become a much smaller company and are currently seeking acquisition opportunities. Costs at all locations are being strictly monitored, and reduced wherever possible. By January 2004, we will have completed a move of our corporate headquarters to a leased facility less than half the size of our current location, creating a \$0.2 million annual expense savings.

Net interest expense was \$0.8 million and \$10.7 million for the three months ended September 30, 2003 and September 29, 2002, respectively. The results for the first three months of fiscal 2003 included interest expense, prior to the repayment of all of our outstanding senior subordinated notes, term loan and revolving credit facilities as a result of the sale of the fastener business.

We recognized investment income of \$1.0 million in the three months ended September 30, 2003 due to a dividend received. The results of the three months ended September 29, 2002, reflect \$0.1 million of losses realized on investments sold.

The fair market value adjustment of our position in a ten-year \$100 million interest rate contract increased by \$2.7 million in the first three months of fiscal 2004 and decreased by \$6.8 million in the first three months of fiscal 2003. The fair market value adjustment of this agreement will generally fluctuate, based on the implied forward interest rate curve for 3-month LIBOR. If the implied forward interest rate curve decreases, the fair market value of the interest rate contract will increase and we will record an additional charge. If the implied forward interest rate curve increases, the fair market value of the interest rate contract will decrease, and we will record income. Increasing interest rates have caused the change in fair market value of the contract in the current period.

We recorded a nominal income tax provision in the first three months of fiscal 2004 on pre-tax losses from continuing operations. A tax provision was recorded due primarily to state income taxes. We recorded an income tax benefit of \$7.3 million in the first three months of fiscal 2003, representing a 34.4% effective tax rate benefit on pre-tax losses from continuing operations. The tax benefit resulted primarily from the reversal of tax accruals, net of valuation allowances, no longer required.

Earnings (loss) from discontinued operations includes the results of the fasteners business prior to its sale, and APS. The current period reductions in earnings reflect us owning the fastener business in the first three months of fiscal 2003, prior to its sale on December 3, 2002.

Other comprehensive income includes foreign currency translation adjustments and unrealized periodic holding changes in the fair market value of available-for-sale investment securities. For the three months ended September 30, 2003, other comprehensive income included an increase of \$0.5 million in the fair market value of unrealized holding gains on investment securities. For the three months ended September 29, 2002, the foreign currency translation adjustment decreased by \$1.2 million and the fair market value of unrealized holding gains on investment securities decreased by \$0.2 million.

Segment Results

Aerospace Distribution Segment

Our aerospace distribution business is an international supplier to the airlines, corporate aviation, and the military. The business operates from five locations in the United States and specializes in the distribution of avionics, airframe accessories, and other components. Products include: navigation and radar systems, instruments, and communication systems, flat panel technologies and rotatables. The company also overhauls and repairs, landing gear, pressurization components, instruments, and avionics. Customers include commuter and regional airlines, corporate aircraft and fixed-base operators, air cargo carriers, general aviation suppliers and the military. Sales in our aerospace distribution segment decreased by \$0.1 million, or 0.8%, in the first quarter of fiscal 2004, as compared to the first quarter of fiscal 2003. Sales in the three months ended September 30, 2003 and September 29, 2002, were adversely affected by the overall conditions in the aerospace industry, resulting primarily from the events of September 11, 2001, and the general weakness in the overall economy.

Operating income decreased by \$0.3 million in the first quarter of fiscal 2004, as compared to the first quarter in fiscal 2003. The results for the three months ended September 30, 2003, reflect a decrease in gross margin as a percentage of sales due to the reduced demand for the products we sell.

Aerospace Manufacturing Segment

Sales and operating results in our aerospace manufacturing segment each decreased by \$0.3 million in the first quarter of fiscal 2004, as compared to the first quarter of fiscal 2003. The changes reflected a reduction in shipments in the current period due to an overall lower level of demand in the aerospace industry resulting from the September 11, 2001 terrorist attacks and the continued financial difficulties of major commercial airlines.

Real Estate Operations Segment

Our real estate operations segment owns and operates a 451,000 square foot shopping center located in Farmingdale, New York and also owns and leases a 102,000 square foot building in Chatsworth, California and a 208,000 square foot manufacturing facility located in Fullerton, California. We have two tenants that each occupy more than 10% of the rentable space of the shopping center. Rental revenue was \$2.3 million and \$1.9 million in the three months ended September 30, 2003 and September 29, 2002, respectively. Rental revenue increased by 22.0% in the first three months of fiscal 2004, as compared to the prior period, reflecting the lease of the Fullerton property and tenants occupying an additional 66,000 square feet of the shopping center. The weighted average occupancy rate of the shopping center was 91.2% and 78.1% in the first three months of 2004 and 2003, respectively. The average effective annual rental rate per square foot was \$20.05 and \$22.22 during the first three months of 2004 and 2003, respectively. As of September 30, 2003, approximately 91% of the shopping center was leased. We anticipate that rental income will increase during 2004, as a result of a new lease for approximately 28,000 square feet, entered into shortly after the end of fiscal 2003. During the first quarter of fiscal 2003, our real estate segment purchased, for \$5.3 million, a 208,000 square foot manufacturing facility located in Fullerton, California. The Chatsworth property is leased through July 2008, and is expected to generate revenues and operating income of approximately \$0.5 million per year. The

Fullerton property is leased to Alcoa through October 2007, and is expected to generate revenues and operating income in excess of \$0.5 million per year.

Operating income increased by \$0.3 million in the first quarter of fiscal 2004, as compared to the first quarter of fiscal 2003. The improvement in the first three months of fiscal 2004 reflects an increase in the weighted-average portion of the shopping center occupied during the first three months of fiscal 2004.

Corporate

The operating results at corporate decreased by \$1.7 million due to an increase in audit fees, insurance premiums, and increased travel expenses associated with acquisition opportunities. By January 2004, we will have completed a move of our Dulles, Virginia corporate headquarters to a newly leased facility that is less than half the size of our current location, creating a \$0.2 million annual savings of expense.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Total capitalization as of September 30, 2003 and June 30, 2003 amounted to \$143.8 million and \$144.5 million, respectively. The three-month change in capitalization included a \$1.6 million increase in debt and a decrease in equity of \$2.3 million which was due primarily to our reported net loss, offset partially by a \$0.5 million favorable increase in other comprehensive income. Our combined cash and investment balances totaled \$110.9 million on September 30, 2003, as compared to \$121.9 million on June 30, 2003.

Net cash used for operating activities for the three months ended September 30, 2003, was \$7.0 million. The working capital uses of cash in the first three months of fiscal 2004 included a \$7.6 million reduction of accounts payable and other accrued liabilities, offset partially by a \$0.7 million reduction in inventory. Net cash provided by operating activities was \$13.3 million for the three months ended September 29, 2002. The primary source of cash from operating activities in the first three months of fiscal 2003 included \$6.9 million of changes in operating assets and liabilities and \$5.4 million of non-cash charges and net working capital changes of discontinued operations.

Net cash provided by investing activities for the three months ended September 30, 2003, was nominal. In the first three months of fiscal 2004, \$3.7 million proceeds from investment securities was offset partially by \$1.2 million of capital expenditures and \$1.8 million to purchase our former partner's 50% interest in a Hawker 800 airplane. Net cash used for investing activities was \$3.4 million for the three months ended September 29, 2002. In the first three months of fiscal 2003, the primary use of cash was capital expenditures of \$1.6 million, including \$1.5 million at our real estate segment, and \$1.1 million of investing activities from discontinued operations.

Net cash provided by financing activities was \$1.5 million for the three months ended September 30, 2003, which reflected \$1.8 million borrowed to finance the purchase of our former partner's 50% interest in a Hawker 800 airplane, offset partially by \$0.3 of debt repayments. Net cash used for financing activities was \$9.4 million for the three months ended September 29, 2002, and included cash provided by operations that was used to reduce debt.

Our principal cash requirements include acquisitions, capital expenditures, and the payment of other liabilities including postretirement benefits, environmental investigation and remediation obligations, and litigation settlements and related costs. We expect that cash on hand, cash generated from operations, cash available from borrowings, and proceeds received from dispositions of assets will be adequate to satisfy our cash requirements during the next twelve months.

We have entered into discussions with a lender to receive a 10-year, non-recourse, fixed rate, term-loan financing on our shopping center at interest rates currently approximating 6.25%. We estimate that we will receive approximately

\$50.0 million of cash, which we plan to use to fund additional acquisition opportunities. There are no assurances that this financing will be obtained.

During the next six months, we may buy back up to 10%, or approximately 2,250,000 shares, of our current outstanding Class A common stock, subject to market conditions.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Financial Interpretation 46 "Consolidation of Variable Interest Entities" was issued in January 2003. FIN 46 requires that variable interest entities created before February 1, 2003 be consolidated during the first interim period ending after December 15, 2003. We are currently assessing whether or not we will be required to consolidate our limited partner interest in a landfill development partnership.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

In fiscal 1998, we entered into a ten-year interest rate swap agreement to reduce our cash flow exposure to increases in interest rates on variable rate debt. The ten-year interest rate swap agreement provides us with interest rate protection on \$100 million of variable rate debt, with interest being calculated based on a fixed LIBOR rate of 6.24% to February 17, 2003. On February 17, 2003, the bank, with which we entered into the interest rate swap agreement, did not exercise a one-time option to cancel the agreement, and accordingly the transaction will proceed, based on a fixed LIBOR rate of 6.745% from February 17, 2003 to February 19, 2008.

We have recognized a \$2.7 million non-cash increase in the fair market value of the interest rate contract in the first three months of fiscal 2004, and a \$6.8 million non-cash decrease in the fair market value of the interest rate contract in the first three month of fiscal 2003, as a result of the fair market value adjustment for our interest rate swap agreement.

The fair market value adjustment of these agreements will generally fluctuate based on the implied forward interest rate curve for 3-month LIBOR. If the implied forward interest rate curve decreases, the fair market value of the interest hedge contract will increase and we will record an additional charge. If the implied forward interest rate curve increases, the fair market value of the interest hedge contract will decrease, and we will record income.

The table below provides information about our financial instruments that are sensitive to changes in interest rates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on implied forward rates in the yield curve at the reporting date.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The term "disclosure controls and procedures" is defined in Rules 13a-14(c) and 15d-14(c) of the Securities Exchange Act of 1934. These rules refer to the controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required time periods. Our Chief Executive Officer and our Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures as of a date within 90 days before the filing of this quarterly report, which we refer to as the Evaluation Date. They have concluded that, as of the Evaluation Date, such controls and procedures were effective at ensuring that the required information was disclosed on a timely basis in our reports filed under the Exchange Act.

Changes in Internal Controls

We maintain a system of internal accounting controls that are designed to provide reasonable assurance that our books and records accurately reflect our transactions and that our established policies and procedures are followed. For the quarter ended September 30, 2003, there were no significant changes to our internal controls or in other factors that could significantly affect our internal controls.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The information required to be disclosed under this Item is set forth in Footnote 7 (Contingencies) of the Consolidated Financial Statements (Unaudited) included in this Report.

Item 2. Changes in Securities and Use of Proceeds.

Pursuant to the sale of our fastener business to Alcoa, we have agreed that the Company may not declare dividends on its common stock for a period of five years (ending December 3, 2007).

Item 5. Other Information

The Company has been informed by counsel to Mr. Jeffrey Steiner that on July 9, 2003, a trial concluded in France with respect to charges by French authorities against thirty-seven defendants, including Mr. Steiner, in the Elf Bidermann matter. Mr. Steiner's counsel has informed the Company that the charges against Mr. Steiner are that in 1989 and 1990 he allegedly facilitated and benefited from the misuse of funds at Elf Aquitaine, a French petroleum company, allegedly committed by a former official of Elf Aquitaine, and/or Maurice Bidermann, against whom the Company had prevailed in litigation. The French court is expected to render its determination as to the merits of the charges, in November, 2003. Mr. Steiner has informed the Company that these charges are without merit, and that in all events he will continue to vigorously defend himself against them. The Company had previously disclosed that an investigation was pending, that the Company had provided a surety for Mr. Steiner and, since June 1996, has paid his legal expenses totaling approximately \$5 million in connection with these charges, and will continue to do so, in accordance with Delaware law. Mr. Steiner has undertaken to repay us the surety and expenses paid by us on his behalf if it is ultimately determined that Mr. Steiner was not entitled to indemnification under Delaware law. Delaware

law provides that Mr. Steiner would be entitled to indemnification if it is determined that he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Company, and had no reasonable cause to believe his conduct was unlawful.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits:

*31 Certifications required by Section 302 of the Sarbanes-Oxley Act.

*32 Certifications required by Section 906 of the Sarbanes-Oxley Act.

* Filed herewith.

(b) Reports on Form 8-K:

We filed a report on Form 8-K on September 24, 2003, as a result of issuing a press release to announce the operating results for our 2003 fiscal year.

We filed a report on Form 8-K on September 24, 2003, as a result of issuing a press release to announce that during the next six months, we may buy back up to 10%, or approximately 2,250,000 shares, of our current outstanding Class A common stock, subject to market conditions.
