CHICAGO, ILLINOIS - February 11, 2010 - Melvin J. Gordon, Chairman, Tootsie Roll Industries, Inc. reported fourth quarter and twelve months 2009 net sales and net earnings.

Fourth quarter 2009 net sales were \$110,318,000 compared to \$115,432,000 in fourth quarter 2008. Fourth quarter 2009 net earnings were \$7,571,000 compared to \$5,363,000 in fourth quarter 2008, and net earnings per share were \$.14 and \$.09 in fourth quarter 2009 and 2008, respectively, an increase of \$.05 per share or 56%. Fourth quarter 2009 results benefitted from foreign income tax benefits, however, fourth quarter 2009 results were adversely affected by

after-tax charges relating to the write-down to market of certain trademarks and the Company's 50% interest in a foreign business; the net effect of which decreased 2009 net earnings by approximately \$2,200,000. Prior year fourth quarter 2008 results benefitted from favorable income tax adjustments, but were adversely affected by after-tax adjustments relating to the write-down of an investment security, which was initially purchased with an insurance-backed AAA rating, that the Company concluded was impaired; the net effect of which decreased 2008 net earnings by approximately \$1,100,000.

Twelve months 2009 net sales were \$495,592,000 compared to \$492,051,000 in twelve months 2008, an increase of \$3,541,000 or 1%. Twelve months 2009 net earnings were \$53,475,000 compared to \$38,777,000 in twelve months 2008, and net earnings per share were \$.95 and \$.68 in twelve months 2009 and 2008, respectively, an increase of \$.27 per share or 40%.

As the Company's quarterly financial reporting is based on thirteen week periods, the fourth quarter 2009 had four fewer shipping days than the prior year comparative period, and the first nine months of 2009 benefitted from additional shipping days. The fourth quarter and twelve months 2009 sales were also adversely affected by the timing of certain customer sales which did not ship until first quarter 2010.

Mr. Gordon said, "Fourth quarter 2009 net sales were adversely affected by fewer shipping days and the timing of certain customer sales in the comparative quarterly periods. The 56% increase in fourth quarter 2009 net earnings per share reflects the benefits of selective price increases, lower energy and fuel costs primarily relating to freight and delivery, and certain foreign income tax benefits, however, these benefits were offset by the effects of the write-down of certain assets as discussed above. The increase in the Company's earnings per share for fourth quarter 2009 also reflects common stock purchases in the open market resulting in fewer shares outstanding.

Twelve months 2009 sales and earnings benefitted from higher sales as well as the same factors and reasons as fourth quarter 2009 which are discussed above. Twelve months consolidated 2009 sales benefitted from higher U.S. domestic sales but were adversely affected by declines in export sales and certain international sales translated into U.S. dollars from a devalued foreign currency."
